

# Vendor Fair

We have invited local companies, businesses, and organizations which can provide you with useful services and products. In the past, our students have found these services and products to be helpful as they begin their lives in the USA and at VIU. There will be booths set up where you can talk with representatives about their products or services and receive information.

...did we mention there will be free pizza? 😊

Below is a list of the vendors you will meet. (Subject to change!)
