Administrative Notice
The purpose of this Academic Catalog is to present academic programs and services, and those policies, procedures, and regulations of VIU that are likely to apply to our student body. The VIU Academic Catalog is usually reviewed monthly, semi-annually and published annually. The university may publish other manuals such as our Student Handbook, Faculty & Staff Handbook, and the Library Handbook. In the event of any discrepancies between these various handbooks relating to issues of student and academic services, the policies and procedures stipulated in the most recent edition of the Academic Catalog shall supersede the statements mentioned in others.

VIU encourages its faculty, staff, and student body to read, understand, and familiarize themselves with the policies, and procedures contained in this catalog. If you find any error, mistake, or clear discrepancy with state and federal laws, please feel free to report it to us as we certainly welcome any suggestions regarding how to improve institutional policies and procedures to conform to recognized educational standards. Please email your comments and recommendations to qa@viu.edu.

2nd Edition effective January 15, 2018

© Virginia International University 2017-2018
President’s Welcome Message

Welcome to Virginia International University. It is my pleasure to welcome our new and returning students to the 2017-2018 academic year. On behalf of VIU’s staff and faculty, I would like to extend our appreciation to you for choosing to further your studies here.

It is important to mention that VIU’s mission has always been to educate students from all over the world through a highly qualified faculty body. The programs we offer are designed to stimulate intellectual curiosity, critical thinking, and creativity certainly needed in the local and international community. Our goal is to motivate our graduates to learn beyond the limits of the classroom and the Washington metropolitan area offers abundant opportunities for an extensive learning environment. Thus, we definitely encourage students to explore the historical, professional, and cultural aspects of this region.

For this academic year, VIU is planning to improve student, faculty, and community engagement. As the most important stakeholders, students will have the chance to engage in activities inside and outside the campus and take part in volunteering projects promoted by the university. Our faculty members are always willing to provide support and opportunities for those who want to learn more about the job market and community.

According to Martin Luther King, Jr., “The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education”. Now, you have become part of our innovative VIU family, and I hope you experience the best of the 2017-2018 academic year and other years to come.

Best wishes for a great academic year.

Isa Sarac, PhD
President, VIU

1. GENERAL INFORMATION

1.0 Introduction & History
Virginia International University (VIU) was founded in 1998 by Dr. Isa Sarac. Providing quality, affordable education that prepares students for relevant and meaningful careers is the primary focus of this non-profit university located in Fairfax, Virginia. VIU offers degree programs at the undergraduate and graduate levels in business administration, computer science, public and international affairs, and education, as well as certificates in a variety of professional and technical fields. These include non-degree programs such as English as a Second Language (ESL) and Test preparation. VIU also offers most of its programs through online education, providing another avenue for students to access affordable learning. The location of the university, outside of Washington, DC makes it a prime location for students interested in studying in these fields, providing many opportunities for experiences outside of the classroom to enrich their learning experience.

Since its founding, Virginia International University has made significant progress in operating an institution of higher education. Following the demand of a rapidly growing student population, VIU expanded its programs, campus, staff, and faculty in less than 19 years. Today students from more than 100 countries choose to pursue their education at VIU. Eight different schools at VIU offer a variety of degree and non-degree programs at the undergraduate and graduate levels, both on campus and online: the School of Business, School of Computer Information Systems, School of Education, School of Public and International Affairs, School of Language Studies, School of Online Education, School of Test Preparation and the School of Professional Development.

VIU Timeline
Several solid achievements have enabled VIU to meet its goal of providing a high quality of education. Here are several of the milestones met by Virginia International University:

- 1998 – VIU was authorized to use the name “Virginia International University” and granted authority to start a Master of Business Administration (MBA) Program by the State Council of Higher Education of Virginia (SCHEV).
- 1999 – VIU was incorporated as a non-profit corporation and obtained tax exemption as a 501(c)3 non-profit organization by the US Internal Revenue Service (IRS). VIU received authorization to offer diploma and certificate programs in business and computer science by SCHEV.
- 2000 – VIU was granted permission to issue I-20s for F-1 and M Visa applicants from the Immigration and Naturalization Service. SCHEV awarded VIU degree-granting authority for the MBA program. VIU opened two undergraduate degree programs: Bachelor of Science in Business Administration (BBA) and Bachelor of Science in Computer Science (BCS).
- 2003 – VIU was authorized by SCHEV to offer its second master’s program: Master of Science in Information Systems (MIS).
- 2006 – VIU held its first commencement on May 4th with 20 graduates in attendance at the Fairfax County Country Club.
- 2008 – VIU was granted accreditation from the Accrediting Council for Independent Colleges & Schools (ACICS), which is recognized by the US Department of Education and Council on Higher Education Administration (CHEA). VIU opened a third master’s degree program: Master of Science in Computer Science (MCS). On April 23rd, the Virginia General Assembly House Joint Resolution Committee presented the university with a letter “Commending Virginia International University on the occasion of its accreditation and 10th anniversary.”
- 2009 – VIU launched new programs: Master of Arts in TESOL and Graduate Certificate in TESOL.
- 2010 – VIU was granted approval to offer degree programs online. The School of Online Education was established.
- 2011 – VIU successfully received ACICS re-certification in December. New TOEFL Testing Center was started at VIU after receiving ETS approval had been received.
- 2012 – In February VIU was visited by ACICS and approved to offer all its programs online. VIU was approved to open new programs in International Relations, Public Administration, and Education, founding the School of Public & International Affairs, and the School of Education
- 2013 – VIU expanded on the School of Public & International Affairs by founding the Center for Democracy.
- 2014 – VIU opened three new degree programs: MS in Accounting, MS in Project Management, & MS in Applied Linguistics; VIU launched one new graduate certificate in Project Management.
- 2015 – VIU opened new Campus at 4401 Village Drive Fairfax, VA and relocated headquarters and entire university operations; VIU was recognized as an authorized provider by the Project Management Institute. VIU was approved to offer short-term non-degree programs in the field of test preparation, and opened the School of Test Prep
2016 – VIU successfully received renewal of ACICS accreditation in May; VIU launched several MBA concentrations including: Leadership Management, Management Consulting, Contract Management and Executive MBA. At the end of 2016 VIU launched a new Health Institute and plans for a STEM Institute and a Leadership & Management Institute.

1.1. VIU Mission Statement and Philosophy

Mission Statement
Virginia International University’s mission is to educate students from all over the world through a highly qualified, equally diverse faculty and staff while striving to provide programs at the graduate, undergraduate, and certificate level that engender the intellectual curiosity, critical thinking, and creativity urgently needed in the global community with a commitment to providing students with the knowledge to achieve excellence in research, scholarship, and creative endeavors.

Philosophy
As a community of students, staff, and faculty drawn from diverse national, cultural, and social backgrounds, VIU aims to improve the environment in which freedom of thought and diverse interpretations of human experiences are cherished. It is our hope and expectation that each member of the university will develop a greater awareness of, and responsiveness to fellow members as well as to those beyond our campus who are less privileged. In the fulfillment of this mission, the university shall seek an efficient use of all available resources to ensure the highest quality of service to its students, faculty, and staff. The ultimate goal of VIU is no less than to graduate scholars of moral, intellectual, and professional excellence who will not only make a better life for themselves and their families but who, more importantly, will lead the way to a better world for everyone.

In order to further the mission and philosophy of the university, VIU is committed to the following objectives:

- To recruit and retain outstanding and diverse faculty and staff and to support teaching, research, and the service mission of the university.
- To elevate the university’s learning environment to attract and retain excellent students from all over the world as well as from the USA.
- To offer learning experiences beyond the classroom that enhance traditional instruction and prepare students for the global workforce.
- To offer an up to date curriculum that is relevant which ensures each student has the following competencies: to think critically; to reason analytically; to solve problems realistically; and to communicate clearly.
- To endeavor to provide successful employment placement options for students.

VIU Learning Outcomes
Upon graduation from Virginia International University, students will be able to:

I. Think critically and creatively
II. Communicate effectively in speech & in writing
III. Demonstrate leadership and expertise in a scholarly discipline, and understand that discipline in relation to the larger world
IV. Work productively as individuals and in groups
V. Use reason to make decisions based on an understanding of ethics and a respect for diversity to make a positive contribution to society.

1.2. Accreditation and Membership

1. VIU is accredited by the Accrediting Council for Independent Colleges and Schools (ACICS) to award certificates, bachelor's degrees, and master's degrees.

   ACICS
   750 First St. NE,
   Suite 980
   Washington, DC 20002
   www.acics.org
2. VIU’s accreditation through ACICS has automatically entitled VIU to be recognized by the US Department of Education.

Department of Education
400 Maryland Ave. SW,
Washington, DC 20202
www.ed.gov

3. VIU’s accreditation through ACICS has automatically entitled VIU to be recognized the Council for Higher Education Accreditation (CHEA).

One Dupont Cir. NW,
Suite 510
Washington DC 20036
www.chea.org

4. VIU is certified to operate in Virginia by the State Council of Higher Education for Virginia (SCHEV).

101 North Fourteenth St.,
James Monroe Building,
Richmond, VA 23219
www.schev.edu

5. VIU is authorized by the United States Immigration and Customs Enforcement (ICE) to enroll non-immigrant students.

500 12th St. SW,
Washington, D.C. 20536
www.ice.gov

6. VIU has been authorized to offer Federal Student Aid to those who qualify by the US Department of Education

Department of Education
830 First Street, NE
Washington, DC 20202
www.fsa.ed.gov

7. VIU has been approved for the training and education of veterans by the Virginia Department of Veterans Services.

Office of the Commissioner
900 East Main St.,
Richmond VA 23219

1.3. VIU Schools and Programs Offered

All of the programs listed within this catalog have been notified to the State Council of Higher Education for Virginia (SCHEV) and approved by the Accrediting Council for Independent Colleges and Schools (ACICS).

School of Business (SB)

Master of Business Administration (MBA); with concentrations in:
- Accounting
- Contract Management
- Entrepreneurship
- Executive MBA
- Global Logistics
- Health Care Management
- Hospitality and Tourism Management
- Human Resource Management
- International Business Management
- International Finance
- Leadership Management
- Management Consulting
- Marketing Management
- Mass Media and Public Relations
- Project Management

MS in Accounting
MS in Project Management
Graduate Certificate in Project Management
BS in Business Administration (BSBA); with concentrations in:
- Finance
- International Business
- Marketing
Certificate in International Business
Certificate in Small Business Management

School of Computer Information Systems (SCIS)

MS in Computer Science (MCS); with concentrations in:
- Computer Animation and Gaming
- Cybersecurity
- Data Management
- Networking
- Intelligent Systems
- Software Engineering
- Software Applications Development

Master of Science in Information Systems (MIS); offered with concentrations in:
- Business Intelligence and Data Analytics
- Cybersecurity
- Data Management
- Enterprise Project Management
- Health Informatics
- Information Assurance
- Knowledge Management

MS in Information Systems Management (MISM)
MS in Information Technology (MIT)
MS in Software Engineering (MSE)
Graduate Certificate in Business Intelligence
Graduate Certificate in Information Systems
Graduate Certificate in Information Systems Management
Graduate Certificate in Information Technology Audit & Compliance
BS in Computer Science (BCS)

School of Education (SED)
Master of Arts in TESOL (MATESOL)
Master of Education (M.Ed.); with concentrations in:
  - ESOL Education
  - Math Education
  - Science Education
MS in Applied Linguistics (MSAPLX.); with concentrations in:
  - Multilingual Education
  - Program Management
  - Educational Technology
Graduate Certificate in TESOL

School of Public and International Affairs (SPIA)
Masters of Public Administration (MPA); with concentrations in:
  - Public Management
  - Information Systems
  - Health Care Administration and Public Health
MS in International Relations (MIR); with concentrations in:
  - International Economic Development
  - International Business

School of Language Studies (SLS)
  - Intensive 7-week ESL program
  - Non-Intensive program
  - Online ESL program

School of Professional Development (SPD)
In addition to the schools listed above, the School of Professional Development provides “just-in-time” training for career professionals within the real world. The School of Professional Development builds and provides tailored continuing education programs upon request that meet the needs of the prospective participants. Examples of programs offered within the School of Professional Development include:
  - Project Management Bootcamp
  - STEM Institute Courses
  - Leadership Institute Courses

School of Test Preparation (STP)
Standardized Tests:
  - Test of English as a Foreign Language (TOEFL)
  - International English language Testing System (IELTS)
  - Graduate Record Examination (GRE)
  - Graduate Management Admission Test (GMAT)
  - Law School Admission Test (LSAT)
  - SAT/ACT for college admissions
Continuing Education Units (CEUs):
  - TOEFL for CEUs
School of Online Education (SOE)
All VIU programs, with the exception of Undergraduate Certificate Programs, are also offered online.

1.4. Governance
VIU is a private non-profit university governed by its Board of Trustees. The main function of the Board of Trustees, as mandated in the by-laws, is two-fold: to develop policies for the advancement of VIU and to support the president of the university in the implementation of those policies. In addition, the VIU’s Board of Trustees provides guidance, monitoring, and assistance to the President of the university in fundraising, public affairs, and building key alliances to assist in and support the growth of the university.

VIU’s current Board of Trustees includes:
- Dr. Thomas Cellucci..............................Chair
- Mr. Yusuf Cetinkaya..............................Member
- Ms. Brigit Akpinar...............................Member
- Ms. Namuuntuya Munkh-Erdene..........Member
- Mr. Harry Le Grande............................Member
- Dr. Isa Sarac......................................VIU President

Article II, Section 1, of the bylaws provides general powers to the Board of Trustees. It states, “All Corporate Powers shall be exercised by or under the authority of, and the business and affairs of the corporation shall be managed under the direction of, its Board of Trustees, in accordance with the purposes and subject to any limitations set forth in the articles of incorporation.”

1.5. Administrative Directors

1.7. Academic Calendar Fall 2017 – Summer 2018
VIU operates on a traditional semester calendar in which the academic year is divided into two main semesters, Fall and Spring. The Fall and Spring semesters span over 15 weeks each. Additionally, courses are also offered during the summer in two optional concentrated 8-week terms. The ESL program is offered in 7-week terms year-round.
The tables below outline the major time periods and events in the 2017 – 2018 academic year. Academic calendar for the online programs is available in the School of Online Education section for the academic calendar for online programs.

**NOTE:** The Academic Calendar is subject to change without prior notice. The latest version of the calendar is available on the VIU website.

### 1.8. Holidays

For the 2017 – 2018 Academic Year, Virginia International University will observe the following holidays, on which there will be no classes and our administrative offices will be closed:

**GENERAL INFORMATION**
Religious Holiday Policy
VIU seeks to extend hospitality to all persons regardless of race, ethnicity, sexual orientation, and economic or social background. Diversity is valued at VIU, and the university is committed to assuring that all persons who enter this community are welcomed and respected. VIU, a secular institution of higher education, stands at the same distance to all world religions and does not observe religious holidays of any type other than what the state and federal governments observe officially in the United States. Therefore, all scheduled educational activities and university-sponsored events will take place as scheduled and publicized by our Academic Calendar.

1.8. Inclement Weather Policy
Day and Evening Classes: If inclement weather forces the cancellation of daytime classes or requires a delay in the opening of the university, announcements will be made on all major local television networks and on the university’s website. An email will also be sent to all students, staff, and faculty via campus email. VIU will also issue an SMS Alert in the event of a cancellation. A make-up class will be scheduled by the instructor.

Midday Closing: A decision to close the university during the day will be made when conditions include a forecast which could make travel to and from campus unreasonably dangerous. Classes underway at the time a closing announcement is made will be dismissed. If students are engaged in important test-taking or other time-sensitive activities, a class may continue until its scheduled end, per the judgment of the instructor. A make-up class will be scheduled by the instructor.

SMS Alert System: VIU makes use of an SMS Alert System which will enable students to receive school alerts and weather-related closings or delays via an SMS Text Message to mobile devices. To enroll in the SMS Alert System text JOIN VIU to 30890.

1.10. VIU’s Location & Transportation
Virginia International University is located in Fairfax, Virginia, in the heart of Fairfax County in Northern Virginia, only 18 miles away from the United States capital, Washington, DC.

VIU’s Campus
VIU’s campus Village Drive Building (4401 Village Drive, Fairfax, VA 22030) houses all administrative, academic, student support departments within the university as well as classrooms, conference centers, university library, cafeteria and student recreational center.
Classroom Facilities
All of VIU’s classrooms are equipped with computers, projection and sound systems. The computers have high-speed internet connections and can accommodate CDs and DVDs. The university also provides a large, theater style room, and four computer labs for student use. These labs are equipped with up-to-date hardware and software. Combined, the university has a total of 20 classrooms that will seat a total of 580 students at any given time. The student to faculty ratio is 19:1, and the average class size at VIU is 13 students. The classrooms and corresponding seat number capacities are listed below.

Transportation
VIU is conveniently located near two international airports: Dulles International Airport (IAD) in Virginia and Baltimore-Washington International Airport (BWI) in Maryland. Domestic air travel, which includes connecting flights from other international airports in the United States, is also available through the Reagan National Airport (DCA). All three airports have major road and rail links with Fairfax, Virginia.

From IAD (Dulles International) Airport: By car, Take exit 9A toward VA-28 south/Sully Rd. Next, merge onto US-29 north toward Fairfax. Drive for about 4.6 miles, then turn right onto Village Drive.

By metro/bus: Refer to the Vienna/Fairfax-GMU Metro Station instructions and visit www.wmata.com.

From BWI (Baltimore-Washington International) Airport: By car, Take ramp onto I-195 west. Next, take exit 4B for I-95 south toward Washington. Take exit 27 to merge onto I-495 west toward Silver Spring. After 22.1 miles, take exit 49 for I-66 west toward Manassas/Front Royal. Take exit 57A to merge onto US-50 east toward Fairfax. Turn right onto VA-665. In 0.5mi, turn right onto US-29 south. Finally, turn left onto Village Drive.

By metro/bus: Refer to the Vienna/Fairfax-GMU Metro Station instructions and visit www.wmata.com.

By metro/bus: Refer to the Vienna/Fairfax-GMU Metro Station instructions and visit www.wmata.com.

From Vienna/Fairfax-GMU Metro Station: VIU is located less than 10 miles away from the Vienna/Fairfax-GMU Metro Rail Station at the end of the Orange line. Walk to Vienna Station & Bus Bay T; Take 1A metro bus towards Ballston; Get off at the intersection of ARLINGTON BV & COVINGTON ST. Take 1C towards West Ox Road & Alliance Drive; Get off at the intersection of GOVERNMENT PKWY & LOWER PARK. Walk to Monument Drive & Cross VA29-Lee Hwy. Monument Drive becomes Village Drive. VIU’s building is on the corner.

Parking
VIU currently has ample parking for students, faculty and staff at all university locations. Presently, there is no fee to park on campus, though this is subject to change.
2.1. Airport Pick-up Assistance

VIU offers transportation from Dulles International Airport (IAD) but the requesting individual must fill out the form a minimum of 2 weeks in advance. Pick up times are at 10:00 AM and 3:00 PM from IAD (Dulles International) Airport. If you need transportation please fill out this form: http://viu.edu/future-students/service/transportation.html

VIU also recommends that students arriving in the United States use the Super Shuttle services that are available at local airports in the Washington, DC metropolitan area. The Office of Student Affairs provides students with a detailed explanation of how to arrange pick-up from the following airports: Dulles International Airport (IAD), Baltimore-Washington International Airport (BWI), and Reagan National Airport (DCA). Students may contact studentaffairs@viu.edu or call (703) 591-7042 x367 at least two (2) weeks prior to arrival for information and assistance. Students may also refer to following document for detail:
http://www.viu.edu/docs/orientation/Getting_to_VIU_from_the_Airport.pdf

Students are responsible for all fees charged by the service providers.
2.2. Housing Accommodation Assistance
VIU's Office of Student Affairs provides students with resources and useful information to make the process of finding accommodation easier. We do offer an off-campus housing option that is near the university. We also work closely with a third party to assist with housing needs. Off-campus housing fills up quickly. The Office of Student Affairs also happily assists students with locating reasonable and affordable home stays, apartments, shared housing, and hotels in the surrounding communities. Students requiring assistance in finding housing should e-mail studentaffairs@viu.edu.

2.3. New Student Orientation
VIU seeks to integrate students into the university community and to support and complement student learning inside and outside of the classroom. To support the needs of our new students, a mandatory New Student Orientation program is held prior to the beginning of classes each semester at VIU. During this program, students are introduced to university policies and procedures, including academic advising, course loads, and standards of academic progress. Because the majority of the VIU student body is composed of international students, it is essential that the students are supported during their transition into American culture. The program and staff encourage students' self-growth, learning, and understanding of their own relationship to the intellectual, social, and cultural climate of VIU. During this orientation, new students have an opportunity to meet fellow VIU students, tour the campus, and meet with admissions officers and their academic departments. They also participate in an information fair which includes tips about driving, banking, shopping, and housing in the area surrounding the school. Students will have their photos taken for their VIU Student ID cards, which are distributed during the first few weeks of each semester. For more information, students may contact studentaffairs@viu.edu or call (703) 591-2760 ext. 367.

2.4 Student ID Cards
New Students are eligible to receive their student ID card once the add/drop period has ended for the semester, free of charge. In order to obtain a student ID, international students need to come to the Student Affairs office with the following documents:

- Recent I-20,
- Passport
- Accounting Receipt.

Students are required to have a VIU ID card in order to: ride the VIU Shuttle, make photo copies, and to receive any available student discount for which they may qualify. Temporary ID cards can be provided to the student at the Student Affairs office until new student ID cards are provided. If a student’s ID card is lost or stolen, students must pay a $10.00 replacement fee to the accounting office before a new VIU Student ID can be provided to the student.

2.5. Student Activities
Student activities at VIU are designed to give students a chance to broaden their interests, share new experiences, and meet new people. Students are encouraged to participate in these social, recreational, educational, and cultural activities as a means to gain a well-rounded education at VIU. Activities for students include those offered both on and off campus. On campus activities include seminars that feature local and national business leaders, embassy officials and local community businesses. Seminars also include discussions about: safety (personal and internet), communication, finances and many more relevant topics. In addition, student-centered events such as culture shows, the Diversity Luncheon Series, and the Annual Thanksgiving Luncheon may be offered throughout each semester. Off-campus student activities may include day trips to popular site-seeing or educational destinations in Washington, DC and other surrounding areas. In addition to all of these events, VIU students are encouraged to join and participate in a variety of student clubs hosted at the university. Student Affairs seeks to supplement the classroom learning experience and encourage a well-rounded educational experience at the university. The list of current activities and events available for students are posted on VIU’s website. For information regarding our student activities, students are encouraged to contact studentaffairs@viu.edu or call (703) 591-7042 x367.

2.6. Student Health Insurance
Health insurance is not mandatory for VIU students. However, it is strongly encouraged for students to obtain health insurance. Visiting a doctor and/or emergency room in the United States can be very expensive. It is even more expensive when you do not have insurance. VIU encourages all students to ensure they obtain coverage for themselves and their family members.

VIU has created a list of insurance companies that are offering affordable health care to students. One company is Stay Insured. International Student Insurance is another company, when covered through this company, students have the option of: Student Secure, Atlas Travel Health or Global Medical. A second company is Seven Corners, when covered through Seven Corners, students have to option of: Student Express, Liaison Student and Liaison Majestic. A third insurance company option International Medical Group, under this company, students have the option of the Student Health Advantage
Standard or the Platinum Plan, Other medical insurance providers include but are not limited to: ISO Student Health Insurance, Anthem Blue Cross Blue Shield (BCBS), and Kaiser Permanente.

The first several insurance options are geared toward F1 students. Please visit http://viu.edu/students/services/health-insurance.html to learn more about the different insurance options, benefits and prices. Students are not limited to these insurance companies. Students are also able to find their own insurance. Students with questions may contact studentaffairs@viu.edu or call (703) 591-2760 x367.

2.7. Counseling Services
Counseling Services are open to all students. If you are struggling with feeling homesick, depressed, anxious, stressed, need advice, or just someone to listen please come by during the open counseling hours or make an appointment. All information shared during the session is kept confidential. If you would like to make an appointment e-mail: counseling@viu.edu

2.8. Student Success Initiative
The Student Success Initiative is designed to provide extra assistance to students who either (a) request assistance for themselves or (b) who have been referred by staff or instructors. Our goal is to enhance learning and development for the purpose of improving academic performance.

Available programs include: goal setting (academic and professional), organizational skills, learning theories and learning styles, time management and scheduling, note-taking strategies, reading strategies, memory strategies, memory strategies, exam preparation, test-taking strategies, dealing with test anxiety, motivation and concentration, dealing with and overcoming procrastination, stress management skills, managing finances, multicultural awareness, etc. To learn more about the Student Success Initiative please visit: http://www.viu.edu/students/student-affairs/student-success-initiative.html

2.9. Leadership and Mentorship Program
The Leadership and Mentorship Program is designed to get students more involved in activities offered by VIU.

Students are able to obtain points by attending or being involved in the following: volunteering, going on field trips, participating in VIU events, performing in VIU events, initiating a new club, participating in club events, participating in sports, mentoring new students, etc.

Points are allocated based on the activity the student attended or was involved in. At the end of the semester, the points are totaled and students who achieve the gold and silver status are eligible to apply for the Student Activity scholarship. To learn more about the Leadership and Mentorship Program, please visit: http://www.viu.edu/students/student-affairs/leadership-mentorship.html

2.10. Student Clubs
VIU offers a variety of student clubs. The student clubs are open to all students irrespective of their program of study, nationality, or beliefs. Getting involved in student clubs helps students build their leadership, personal, and professional skills. Being involved in student clubs also gives students an opportunity to meet new people, share ideas, and to learn from a group of individuals. To learn more about the Student clubs, please visit: http://www.viu.edu/students/student-affairs/student-clubs.html

2.11. Student Union
The Student Union (SU) at Virginia International University (VIU) is comprised of responsible and motivated members of the VIU student body who are dedicated to ensuring student rights and student involvement in university activities. The SU serves to uphold the voice and opinions of VIU’s students and to initiate and implement policies governing their activities. In addition, the SU seeks to foster and support the ideas and wishes of the student body; provide a communication network within the student body; engender cooperation among all student groups, clubs, and organizations; act as a liaison between the student body and administration, faculty, and staff; and nurture an atmosphere of community within the university. To learn more about the Student Union, Please visit: http://www.viu.edu/students/student-affairs/student-union.html

2.12. Library and Information Services
The purpose of the VIU Library is to provide students with access to the wide range of information, reference, and research materials they will need to supplement classroom instruction and assigned textbooks, to complete homework, and to undertake research projects. The Library maintains a sizable in-house collection of books, periodicals, and audio-visual
materials. Additionally, VIU Library staff can assist students in accessing a variety of electronic, full-text journals and books, including eight databases, five online journals, and eBooks.

**Hours of Operation:** The VIU Library is open and staffed by the Librarian and/or trained library assistants, typically from 8:30 AM to 9:00 PM, Monday through Friday; 8:30am-6:30pm Friday; 8:30am-6pm Saturday. Extended hours maybe available during exam periods. Check the library website updates http://library.viu.edu/Home.

**Website and Catalog:** The library maintains a website which includes a catalog of library materials, as well as to a variety of other online resources that can be used by students for study, reference, and research. Students can access the library both on and off campus. Using the library's electronic Catalog, students can search for books and other materials as well as place a hold and renew online. Visit The VIU Library website to learn more: http://library.viu.edu

**Collection:** The VIU Library currently has approximately 5,523 volumes, the majority of which are relevant to the University's areas of concentration: business, computer and information science, TESOL, linguistics, public administration, international relations, education, and English as a second language. The Library maintains a reference collection with a variety of standard and specialized reference works and a reserve collection consisting of textbooks and supplementary material for current courses. The Library subscribes to approximately 18 periodicals. Students at VIU can request resources through Interlibrary Loan of a number of nearby academic and public libraries to support their studies.

**Online Resources:** VIU subscribes to twelve online research databases, journals, and eBooks: Academic Search Elite, Access World News, Applied Science & Technology Source, Business Source Elite, Credo, Comparative Politics, EBSCOhost eBooks, IBISWorld, Journal of Democracy, JSTOR, The Economist, MIT Sloan Management Review, Regional Business News, and US Major Dailies. All of these can be accessed from the Library’s website. The online libraries give students and faculty access to a wide range of information, reference, and research resources. Please see the library webpage for descriptions. EBSCOhost focuses on providing access to the full-text of current academic books. EBSCOhost currently provides access to over 177,000 books. The VIU Library webpage has links to over 200 other websites in the areas of business, computer and information science, ESL, general reference, biology, comparative religion, English language and literature, history, mathematics, philosophy, psychology, and sociology. The links provide valuable resources for student study and research.

**Circulation Policy:** Reference materials and periodicals must be used inside the library. Books in the course reserve collection must also remain in the library so that they are available to all students during the reserve period. All other materials in the collection may be checked out for four (4) weeks at a time. The VIU Student ID card that is issued during the New Student Orientation serves as your VIU Library card. When checking out materials or requesting reference assistance or other library services, students will be asked to show their VIU Student ID card. Borrowed material may be renewed in-person, online, or by phone, if there is no request for the material from other students or faculty. Library materials should be returned to the VIU Library circulation desk.

**Reference Services:** Members of the VIU Library staff are available to assist students with research needs. Additionally, they are available to help students on how to use VIU's online resources. Library staff can be contacted for assistance at the Library reference desk, by e-mail or by live chat at any time during library hours.

- Library email: library@viu.edu.
- Chat link: http://library.viu.edu/Contact_Us

**Computer and Internet Access:** The library has wireless Internet access, so students and faculty can access the Internet from the Library using their own wireless-enabled laptop. Desktop computers with Internet connection and a printer are also available for use in the Library.

### 2.13. Campus E-mail Account

Admitted students will receive a VIU campus e-mail account. Students are expected to use this account for all communications within the university, including correspondence with their instructors. Students who would prefer only to have to check their primary email account may set their VIU campus e-mail account to forward to their other address. For more information and assistance refer to the IT webpage at http://it.viu.edu.

### 2.14. International Students Services

The International Students Services Office (ISSO) is responsible for all immigration matters that affect international degree-seeking students, as well as English language study students on non-immigrant visas (F-1). The ISS Office is a centralized immigration advising office for all international students, and is responsible for maintaining the Student and Exchange Visitor Information System (SEVIS) compliance for Virginia International University.
In addition, the ISSO also assists other university departments with efforts in providing welfare to all international students, and acts as a resource and support to these individuals in transition to the new culture and environmental surroundings. International student advisement includes, but is not limited to; assistance with procedures, expectations, and requirements of U.S. academic standards. It is a priority of the ISSO to assist with cultivating opportunities to promote and encourage cross-cultural understanding. The International Student Service office is located in the first floor of the campus at 4401 Village Drive and can be reached at (703) 591-7042 or by email at dso@viu.edu.

2.15. Regulations for International Students (F-1 visa/status)
It is the student's responsibility to comply with all immigration regulations that apply to F-1 visa students. If a student fails to follow these procedures, then he or she will be considered "Out of Status" and until the student is able to obtain a new F-1 status, according to immigration guidelines, he/she may not:

1. Continue to stay and study in the USA;
2. Extend their period of study (if needed);
3. Be approved to travel outside of the USA, by a Designated School Official
4. Pursue practical training;
5. Participate in other F-1 visa related activities (if applicable).

International Students (F-1 visa) are required to:

1. Possess un-expired passport that is valid for at least six (6) months at all times during their stay in the U.S.
2. Attend the school that they are authorized to attend.
3. Make normal progress toward completing their program of study.
4. Report any change of local address, phone number, or email address to the ISS Office within 10 days of the change. Students should also update the aforementioned information via their Student Portals. If applicable, comply with Special Registration Procedures for certain foreign nationals. (For more details please contact VIU’s International Student Services Office).
5. Maintain full-time enrollment at all times:
   a. *If in an Academic Program:* The full-time course load for graduate degree and certificate programs is 9 credits per semester, and the full-time course load for undergraduate and certificate programs is 12 credits per semester. However, during the Summer sessions the full time course load is lower for graduate and undergraduate studies. The Summer session full course load for graduate degree programs is 3 credits and for undergraduate programs it is 6 credits. Any student starting during a Summer session is required to maintain a full course load in that specific summer session. Keep in mind that if a student is required to take pre-requisites the course load may vary.
   b. *If in the ESL Program:* The full-time course load for the ESL program is 20 hours per week.
6. Obtain a new I-20 for a change of program/concentration or a program level of study. Abide by VIU’s attendance policy, which requires that all full-time students attend at least 75% of all classes.
7. Accept no employment of any kind, either on-campus or off-campus, without written permission from VIU’s ISS Office and, if necessary, by USCIS.
8. Request and be approved of a Reduced Course Load (if applicable)
9. Obtain an F-1 visa extension of stay as needed (this must be done at least 1 month before the original program end date, according to the most current I-20): If a student requires more time to complete their program than that of which is authorized on the VIU I-20, he or she must request a program extension through VIU’s ISS Office.
10. Complete a timely reinstatement application if the student has lost their status. The ISS office will make a decision on recommending the student for reinstatement based on the student’s demonstration of intention to continue studying.

Vacation and Annual Break:

a. *If in an Academic Program:* All degree-seeking F-1 visa students are allowed to take a break after studying at least one full semester, and only during the official school recesses, semester breaks, and summer sessions. However, if one of the summer sessions is their first semester at VIU, or in the U.S.A., they must study during that specific summer session in accordance to the USCIS regulations.

b. *If in the Intensive ESL Program:* Students are allowed to take their Annual Break only after completing four (4) consecutive 7-week terms. The annual break is for a maximum of two (2) consecutive terms. Students must take at least four (4) consecutive terms of courses between annual breaks. Students are not eligible to take an annual break after their final session of courses. Students will be eligible for a 60-day grace period (under USCIS regulations) after completing their program. The grace period begins on the Program End Date listed on the I-20 and ends 60 calendar days later.

- Students who wish to take their annual break must complete an Annual Break Form and submit it to the International Student Services Office at least one week prior to the beginning of the first session of the requested annual break. When the form is turned in, the ISS Office will determine if the student is eligible for the annual break and will inform the student of the decision as well as the student’s return to class.
date. The student will be informed via campus email within 2 business days of submission of the Annual Break Form.

School Transfers:
- If a current student needs to make a school transfer, they are advised to do so in a timely fashion. It is required that students inform the ISSO of their intention to transfer via email, at dso@viu.edu, or in person by the start date of the new semester at VIU. Failure to do so will result in the student’s record being transferred in Terminated status. However, initial students are required to inform VIU’s International Student Services Office of their intention to transfer, via email, phone or in person before the program start date listed on their I-20. Failure to do so will result in the student’s record being transferred in Terminated status. Initial students will also need to begin courses at the new Institution no later than 30 days of their entry date into the U.S. We ask that any student who informs the department via phone, also follow up with an email to DSO@viu.edu.

Transfer-Out students must submit the following information:
- Acceptance Letter from New Institution
- F-1 Transfer Verification Form (if applicable)
- VIU Institutional Withdrawal Form (with the required signatures, if applicable)
- Copy of their F-1 Visa
- Copy of their I-94 record

F-1 visa grace periods:
- Upon completion of the program requirements, and/or completion of optional practical training, F-1 visa students must leave the US within the 60-day grace period, change to another immigration status within the time allowed, or return to school, usually within the first 45 days of the grace period. A student who obtains permission from an International Student Advisor prior to withdrawing from VIU will have 15 days to depart from the U.S. However, a student who withdraws without prior approval or terminates their course of study must depart from the U.S. immediately.

Financial Support:
- If there are any changes in a student’s financial status and sponsorship information such as a change in sponsor or receipt of scholarship and/or other financial aid, the student must report this change to the International Student Services Office within 10 days.

Travel Authorization for F-1 Visa Students
It is the policy of Virginia International University’s International Student Service Office (ISSO) that all F-1 students wishing to travel outside of the United States at any time during their program of study or while on OPT will need to request permission to do so at least 2 weeks in advance of their travel plans. All F-1 students must be aware of the university’s travel policy and adhere to it accordingly.

1. F-1 students should only travel outside of the U.S. during official school breaks (such as Annual Break (ESL students Only), or Summer Break) with the exception of extreme emergency cases. The ISS Office will review documents on a case by case basis, and a Leave of Absence will be required.
2. All F-1 students should obtain a DSO signature on their I-20 before they depart from the U.S.
3. All F-1 students must fulfill his/her financial obligation to VIU before travel authorization
4. All F-1 students must enroll for their next mandatory semester, if applicable
5. The ISS Office encourages F-1 students to travel with all of their I-20s, valid passport and visa, financial documents, and academic records (current transcript or status letter)

Anytime a student wishes to travel outside of the U.S. they should be able to submit the following for proof of travel:

1. A completed Travel Authorization Form
2. Travel Itinerary (flight ticket information). NOTE: submission of an itemized travel itinerary is highly encouraged by the ISS Office. Students who are unable to submit travel itineraries will have their dates of travel recorded directly on their I-20 when issued.
3. Your most current I-20
4. Other documentation (if applicable)
   *F-2 dependents also require valid Travel Authorization signatures for re-entry to the U.S
Disclaimer: All F-1 students and their dependents should understand that they assume any and all risks associated with traveling outside of the U.S. The ISS Office will guide and advise students to the best of their ability, with the understanding that CBP has the right to question and detain any student they choose for any reason.

2.16. Opportunities for Practical Training
The US government allows F-1 visa students two possible opportunities to gain practical experience related to their field of study, as follows.

Curricular Practical Training (CPT): An F-1 student may be authorized by the DSO to participate in a CPT program that is an integral part of an established curriculum. Students need to have studied full time consecutively for at least one (1) academic year here in the United States (based on their academic program), to become eligible for CPT. CPT is defined as alternative work/study, internship, cooperative education, or any other type of internship or practicum that is offered by sponsoring employers through cooperative agreements with the school. The student has to be enrolled into an academic course while on CPT and the CPT component of any course is equal to only one (1) or three (3) credit hours. CPT is an optional component of specific degree programs at VIU. Students who wish to pursue the CPT program should consult with the school dean/director, and the Career Center for the required paperwork and permission. Any student applying for a 3 credit CPT will need to make sure that their CPT application has been approved by the first day of classes for that current semester. At the discretion of the Dean, as well as the International Student Advisor, students applying for a 1 credit CPT may be approved at any time during the current semester.

Optional Practical Training (OPT): The U.S. government permits graduated students in F-1 status to work for a limited amount of time in the United States so that they may reinforce what they have learned in university and/or college degree programs. This benefit is called Optional Practical Training (OPT). OPT allows F-1 students to obtain employment in areas related to their academic program of study. OPT is available for periods up to twelve (12) months at each higher academic level, and may be extended under some circumstances in STEM program-related fields. A job offer is not necessary to apply for OPT, and if approved a student may work for one or more employers, change jobs, or look for work during the training period. Students who wish to pursue the OPT program should consult with the ISS Office for information on obtaining the required paperwork and permissions. It is the student’s responsibility to apply for OPT in a timely manner.

* PLEASE NOTE: These are only some of the rules and regulations associated with your F-1 visa, and/or status. Please contact the International Student Services Office for any questions or concerns regarding your visa, and/or status.

2.17. Career Center
The VIU Career Center provides individual counseling and professional development resources to help students and alumni learn the skills needed to obtain volunteer, internship and employment opportunities. All VIU students are encouraged to visit the Career Center in their very first semester, before they apply for an academic internship (CPT) and before graduation when they are looking for employment (OPT).

Cover Letter and Résumé Reviews. All students will need a North American-style cover letter and résumé to apply for on- and off-campus jobs and internships. Students should schedule an appointment in their first semester with the Career Center.

On-campus Employment Counseling. The Career Center assists students with on-campus employment searches and applications through the Career Services Manager (CSM), VIU’s on- and off-campus job search tool. To access CSM: https://viu-csm.symplicity.com/students/index.php.

Off-campus Employment Counseling (CPT and OPT). The Career Center offers a number of resources to help students in their job or academic internship search process. Several resources include: employer database, the CSM, employer binders that contain information about companies hiring, and job boards. Positions are also posted in weekly e-mails that are sent out from the Career Center and posted on Facebook. To access Facebook: www.facebook.com/viuucareers.

Internship Counseling (CPT). After one year in a full-time degree program, most students are eligible to complete an academic internship (CPT). The Career Center assists students with the academic internship search and application processes. Students have access to past internship employers and other job search resources through the Career Center.

Professional Development Opportunities. Throughout the year, VIU provides a number of workshops and information sessions on those skills required to find employment. Past sessions have included cover letter and résumé writing, introductions, networking, job fair preparation, interviewing, LinkedIn, American business culture, business communication, employment benefits, and work visas. On the Career Center homepage, students may also access Interview Stream, a practice interview software where students can read common interview and industry-related questions, view sample
interviews, practice interviewing and record their own interviews for feedback. VIU's Linked-In alumni community is also available for students looking to network or to obtain a mentor.

Career Center Contact Information:
Website: http://career.viu.edu
Email: career@viu.edu
Phone: (703) 591-7042, ext. 366
Facebook: VIU Career Center
LinkedIn: Career Center VIU
Office Hours: Monday - Friday, 8:00 AM-5:00 PM

3. APPLICATION FOR ADMISSION

3.1. Application for Admission
For the 2017 – 2018 academic year, all VIU applicants must provide the necessary documentation, as described in detail below:

An application will not be considered complete, and thus, will not be reviewed, until all application documents and fees have been received. Once the completed application and fees are received, the application is carefully reviewed for admission. Applicants meeting our admission criteria are evaluated with respect to other qualified applicants, and are selected accordingly.

3.1.1. International Admissions Requirements
According to the Department of Education, "an international student is defined as an individual who is enrolled for credit at an accredited higher education institution in the U.S. on a temporary visa, and who is not an immigrant (permanent resident with an I-51 or Green Card), or an undocumented immigrant, or a refugee."

All international applicants are required to submit a completed application package, as outlined below, with a non-refundable $100.00 application fee.

¹ For non-native English speakers only. See Explanation of Admission Materials below for more details.
² For F-1 Visa applicants only. An official bank statement of the sponsor and a Statement of Financial Support must be submitted.
³ In continuance with the above mentioned Admissions Requirements, students who are applying to programs in the School of Education or School of Public and International Affairs will need to submit the following:
  - OFFICIAL RECOMMENDATION
    Minimum of 2 official recommendations from a professional who can speak to the candidate’s academic abilities (preferably from a current/former instructor or a current/former employer, at least one must be dated within the last 3 years). All recommendations should be written in English or provide an official translation. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.
  - ACADEMIC STATEMENT OF PURPOSE
    A 500-word statement of purpose defining the reasoning behind joining the program. This statement should address the applicant’s academic interests, professional objectives, and areas of interest to be explored in the program.
  - RESUME/CURRICULUM VITAE
    Detailing current and/or previous work history and education. Previous work history is not a requirement for admission.
3-1-411. Admissions. The admissions policy shall conform to the institution’s mission, shall be publicly stated, and shall be administered as written. The following minimums apply:

(a) The requirements for students admitted to programs leading to a certificate, diploma, or undergraduate degree shall include graduation from high school or its equivalent, or demonstration of the student’s ability to complete the program under the ability-to-benefit classification as specified under standard 3-1-303(b) and (c), as provided for by governing laws. (VIU does not accept Ability-to-Benefit)

(b) The requirements for students admitted to programs leading to a graduate degree shall include graduation from an accredited bachelor’s degree program. An official bachelor’s degree transcript(s) demonstrating a CGPA of 2.5 or higher on a 4.0 grading scale or equivalent is required. A High School Transcript may be requested if the degree diploma does not indicate the CGPA information. If the CGPA is below the graduate Admissions requirements, a CGPA Waiver may be requested (See CGPA Waiver Policy). The School of Education and the School of Public and International Affairs list additional requirements for graduate admissions. They include the following:

- **OFFICIAL RECOMMENDATION** Minimum of two official recommendations from a professional who can speak to the candidate’s academic abilities (preferably from a current/former instructor or a current/former employer, at least one must be dated within the last three years). All recommendations should be written in English or provide an official translation.

- **ACADEMIC STATEMENT OF PURPOSE** of 500 words defining the applicant’s academic interests, professional objectives, areas of interest to be explored in the program, and reasoning behind joining the program. The statement of purpose should demonstrate an understanding of the specific program to which the candidate is applying and make connections to the applicant’s eventual career aspirations. Statements must be written in English in the candidate’s own words.

- **RÉSUMÉ/CURRICULUM VITAE** detailing current and/or previous work history and education. Previous work history is not a requirement for admission.

(c) Foreign transcripts of international students seeking admission must be evaluated by a member of Association of International Credential Evaluators (AICE), American Association of Collegiate Registrars and Admissions Officers (AACRAO), or National Association of Credential Evaluation Services (NACES) to validate equivalency with graduation from high school and eligibility to enter college or university in the United States.

(d) It is the responsibility of the institution to maintain student records, which reflect the requirements for admission of all students.

(e) Institutions are not precluded from admitting, under different requirements, students who are beyond the age of compulsory school attendance or who may be otherwise specially circumstanced, such as: (i) having financial sponsorship through contractual arrangements with public or private organizations;

(ii) having identifiable needs requiring remedial instruction as a supplement to the regular curricula;

(iii) participating in innovative postsecondary programs specially described to ACICS; or

(iv) being enrolled in individual courses not leading to an academic credential.

3.1.2. Explanation of Admission Materials for International Admissions
All application materials not in English must be accompanied by a certified English translation of the original document. Copies of original documents must be notarized or attested by an embassy, consulate, or notary. Please note that not all consulates provide this service. If you are submitting an original document, please let us know.

Original documents or attested copies may be sent in the following ways:
1. Scanned as a PDF file and uploaded into the application portal: https://portal.viu.edu/application/login.asp
2. Sent by Mail to:
   Virginia International University
   Attn: Admissions Office
   4401 Village Drive
   Fairfax, VA 22030 USA
VIU has the right to request original documentation. The submission of fabricated or falsified documents will result in a) the denial of the student's application and banning of the student from future admission to the university, b) the immediate expulsion of the student if the falsification is found after admission, or c) the nullification of a degree if the falsification is found after program completion.

**Application Form:** All international applicants must submit a fully completed online application form. Incomplete applications will not be considered for admission until all necessary information has been received by the Admissions Office.

**Application Fee:** Each international applicant is required to pay a non-refundable $100.00 application fee. No application will be considered without payment of this fee. For information regarding methods of payment, please visit our website at [http://www.viu.edu/future-students/finance/payment-information.html](http://www.viu.edu/future-students/finance/payment-information.html).

**Passport Copy:** Each international applicant is required to submit a copy of legible Passport ID page.

**Previous Degrees:** Applicants already holding a degree from a foreign or domestic college or university must submit an original, notarized or attested copy of their college or university diploma and transcript, accompanied by a certified translation, if the original is not in English.

1. For graduate degree programs and graduate-level certificate programs, a bachelor’s degree diploma and transcripts, or equivalency, is required.
2. For undergraduate degree programs and undergraduate-level certificate programs, a minimum of a high school diploma, or equivalency, is required.

**For International Students applying for a Graduate Program:** Bachelor’s degrees from foreign universities should be accredited by the host country’s government or proper higher education authority and should be equivalent to the completion of a four-year program of study at a US college or university with a minimum of 120 semester credits. Those who have obtained a bachelor’s degree from abroad with less than 120 semester credits will be considered for conditional acceptance into a graduate program and will be required to make up the credit difference.

**Official Transcripts:** All applicants must submit original official transcripts, or notarized or attested copies of transcripts, from all colleges or universities previously attended (whether or not a degree was earned from the institution). If transcripts from the institution are issued in the student’s native language as well as in English, students will only be required to submit the English version. A minimum of a 2.5 GPA (on a 4.0 scale) is required for graduate admission, and a minimum of a 2.0 GPA (on a 4.0 scale) is required for undergraduate admission.

**Evidence of Sufficient English Language Proficiency:** English is the language of instruction at Virginia International University, and therefore international applicants must provide evidence of English language proficiency to ensure that their communication skills are sufficient for effective class participation and completion of course assignments. Virginia International University English language proficiency requirements may be demonstrated through any of the following options:

1. Submit a valid score from one of the standardized tests listed below. Official language proficiency scores more than two years old will not be accepted as proof of language proficiency.

**School of Education English Proficiency Requirement:**

2. Provide an official transcript indicating completion of a minimum of 9 credit hours (graduate level) or 12 credit hours (undergraduate level) from an accredited United States post-secondary institution at which the language of instruction was English, including at least one course in English composition, academic writing, or a similar subject. The GPA for those credits, as well as the writing course, must not be lower than C-level.
3. Providing evidence of having completed high school in the United States (excluding special diplomas, special education diplomas, modified diplomas, applied study diplomas, adjusted diplomas, alternative diplomas, certificates of completion/attendance/participation, etc.). A CGPA of 2.0 or higher on a 4.0 grading scale or equivalent is required. High school transcript may be requested if the diploma does not indicate the CGPA information. If your GPA is below the requirements, please review our CGPA Waiver Policy.

4. In addition to the general admission requirements, students who apply for federal financial aid must submit a high school diploma and/or transcript, GED or equivalent. For foreign high school documents, an official evaluation from an accredited evaluation agency is also required.

Please note:
- International students may gain full admission to a degree program at VIU if the official language proficiency score meets the minimum requirement mentioned above.
- International students may gain admission to the Intensive English as a Second Language program (ESL) if their test scores fall below the scores mentioned above. International students admitted into this category must take a VIU English Placement Test prior to enrollment and complete the ESL program through level 800 before they will be allowed to begin academic coursework.

Conditional admission may be granted to international students if they do not have, or are unable to provide official language proficiency score listed above. The placement test is available online through a remote-proctoring service, as well as on-site at the university campus in Fairfax, Virginia. To learn more about VIU’s English Placement Test, please see our English Placement Test FAQs.

“If you earned your bachelor’s, master’s, or doctorate degree in its entirety in the United States, United Kingdom, Ireland, Australia, New Zealand, Angophone Canada, Nigeria, Singapore, The Philippines, Bahamas, Barbados, Belize, Cook Islands, Dominica, Grenada, Guyana, Jamaica, Trinidad and Tobago, Saint Kitts and Nevis, Saint Vincent and the Grenadines, and Antigua and Barbuda and can provide an official transcript, you are exempt from the English proficiency test requirement. VIU reserves the right to require a student to take its English Placement Test when there are reasonable doubts as to the authenticity of either submitted standardized test scores or the degree of the English proficiency evidenced by other documentation.

3.2.1 U.S. Domestic Admissions Requirements

According to the Department of Education, “to be considered a U.S. Residential and/or Domestic Student, you must: Be a citizen of the United States of America, be a Permanent Resident of the United States of America at the time you apply for admission, or hold Refugee, Asylum, or Jay Treaty status. Individuals on H Visas, A Visas, O1 Visas, and K Visas will be considered under the domestic admissions category.”

All domestic applicants are required to submit a completed application package, as outlined below, with a non-refundable $20.00 application fee. Virginia International University has a Rolling Admissions Policy that is applicable to residents and citizens of the United States. An application for admission is valid for one calendar year from the date of the original submission. An application can be moved to another semester within the calendar year without submitting a new Application Fee. Moving an application is subject to a review of admission standards for the new semester. In the event that these admission standards or the format of the application has changed, a new application may be required. Each request will be individually reviewed for this information prior to moving the application. The applicant/student will be contacted if a new application is required for admissions consideration.

3.2.2. Explanation of Admission Materials Domestic Admissions

All application materials must be submitted in English or be accompanied by a certified English translation of the original document for applicants. Copies of original documents must be notarized or attested by an embassy, consulate, or notary. Please note that not all consulates provide this service. If you are submitting an original document, please let us know.

Original documents or attested copies may be sent in the following ways:
1. Scanned as a PDF file and uploaded into the application portal: https://portal.viu.edu/application/login.asp
2. Sent by Mail to:
   Virginia International University
   Attn: Admissions Office
   4401 Village Drive
   Fairfax, VA 22030 USA

VIU has the right to request original documentation. The submission of fabricated or falsified documents will result in a) the denial of the student’s application and banning of the student from future admission to the university, b) the immediate expulsion of the student if the falsification is found after admission, or c) the nullification of a degree if the falsification is found after program completion.
In continuance with the above mentioned Admissions Requirements, students who are applying to programs in the School of Education or School of Public and International Affairs will need to submit the following:

- **OFFICIAL RECOMMENDATION**
  Minimum of 2 official recommendations from a professional who can speak to the candidate’s academic abilities (preferably from a current/former instructor or a current/former employer, at least one must be dated within the last 3 years). All recommendations should be written in English or provide an official translation. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.

- **ACADEMIC STATEMENT OF PURPOSE**
  A 500-word statement of purpose defining the reasoning behind joining the program. This statement should address the applicant’s academic interests, professional objectives, and areas of interest to be explored in the program.

- **RESUME/CURRICULUM VITAE**
  Detailing current and/or previous work history and education. Previous work history is not a requirement for admission.

A student may be admitted into an undergraduate program of study offered by the university upon satisfying all of the requirements applicable to that program of study, as follows:

- The student is at least 16 years of age.
- The student has: (1) a high school diploma (excluding special diplomas, special education diplomas, modified diplomas, applied studies diplomas, adjusted diplomas, alternative diplomas, certificates of completion/attendance/participation, etc.); or (2) a recognized equivalent of a high school diploma (e.g., a certification that the student has demonstrated high-school level academic skills or an official document from a state authority (to the satisfaction of the school) recognizing that the student has successfully completed secondary school through home schooling (as defined by state law). VIU follows the Commonwealth of Virginia specifications for certifying using an Attestation Form that students have achieved a High School Diploma, a copy of the certification evidencing the student’s receipt of a recognized equivalent of a high school diploma (GED), and/or an official document from a state authority (to the satisfaction of the university) recognizing that the student successfully completed secondary school through home schooling (as defined by state law). Students are expected to request official copies of their High School Diploma, the official high school transcript; a copy of the certification evidencing the student’s receipt of a recognized equivalent of a high school diploma (GED), or Home School documentation to be sent directly to the Office of the Registrar at VIU for evaluation for admittance. VIU must receive official documents prior to the end of the first month of a semester or the student will be terminated from his or her program of student in the undergraduate programs.
- U.S. Service Members or Veterans that apply to become students at VIU must meet the same Admissions criteria that applies to all applicants. If a U.S. Service Member or Veteran desires his or her prior educational credits to be considered for transfer credit, the student must provide the University with an official transcript from each educational institution awarding the degree or any course credits that the student desires to transfer to satisfy the requirements. Upon the student’s ability to satisfy all of the above requirements with respect to his or her selected program of study, VIU will promptly notify the student that he or she is admitted into that program of study at the school and correspond with the Department of Veterans Affairs for education benefits to be used.

3-1-411. Admissions. The admissions policy shall conform to the institution’s mission, shall be publicly stated, and shall be administered as written. The following minimums apply:

(d) The requirements for students admitted to programs leading to a certificate, diploma, or undergraduate degree shall include graduation from high school or its equivalent, or demonstration of the student’s ability to complete the program under the
ability-to-benefit classification as specified under standard 3-1-303(b) and (c), as provided for by governing laws. (VIU does not accept Ability-to-Benefit)

(e) The requirements for students admitted to programs leading to a graduate degree shall include graduation from an accredited bachelor's degree program. An official bachelor's degree transcript(s) demonstrating a CGPA of 2.5 or higher on a 4.0 grading scale or equivalent is required. A High School Transcript may be requested if the degree diploma does not indicate the CGPA information. If the CGPA is below the graduate Admissions requirements, a CGPA Waiver may be requested (See CGPA Waiver Policy). The School of Education and the School of Public and International Affairs list additional requirements for graduate admissions. They include the following:

- **OFFICIAL RECOMMENDATION** Minimum of two official recommendations from a professional who can speak to the candidate's academic abilities (preferably from a current/former instructor or a current/former employer, at least one must be dated within the last three years). All recommendations should be written in English or provide an official translation.

- **ACADEMIC STATEMENT OF PURPOSE** of 500 words defining the applicant's academic interests, professional objectives, areas of interest to be explored in the program, and reasoning behind joining the program. The statement of purpose should demonstrate an understanding of the specific program to which the candidate is applying and make connections to the applicant's eventual career aspirations. Statements must be written in English in the candidate's own words.

- **RÉSUMÉ/CURRICULUM VITAE** detailing current and/or previous work history and education. Previous work history is not a requirement for admission.

(f) Foreign transcripts of international students seeking admission must be evaluated by a member of Association of International Credential Evaluators (AICE), American Association of Collegiate Registrars and Admissions Officers (AACRAO), or National Association of Credential Evaluation Services (NACES) to validate equivalency with graduation from high school and eligibility to enter college or university in the United States.

(d) It is the responsibility of the institution to maintain student records, which reflect the requirements for admission of all students.

(e) Institutions are not precluded from admitting, under different requirements, students who are beyond the age of compulsory school attendance or who may be otherwise specially circumstanced, such as: (i) having financial sponsorship through contractual arrangements with public or private organizations;

(ii) having identifiable needs requiring remedial instruction as a supplement to the regular curricula;

(iii) participating in innovative postsecondary programs specially described to ACICS; or

(iv) being enrolled in individual courses not leading to an academic credential.

3.3. Graduate Admission Requirements

All domestic applicants are required to submit a completed application package, as outlined below, with a non-refundable application fee. Virginia International University has a Rolling Admissions Policy that is applicable to residents and citizens of the United States. An application for admission is valid for one calendar year from the date of the original submission. An application can be moved to another semester within the calendar year without submitting a new Application Fee. Moving an application is subject to a review of admission standards for the new semester. In the event that these admission standards or the format of the application has changed, a new application may be required. Each request will be individually reviewed for this information prior to moving the application. The applicant/student will be contacted if a new application is required for admissions consideration.

To be eligible for admission into a graduate-level program, the following conditions must be met:

1.) The student has a baccalaureate degree awarded by an educational institution located in the U.S. that is accredited by an accrediting agency recognized by the U.S. Department of Education, or an educational institution located outside the U.S. that is accredited or similarly acknowledged by an agency deemed acceptable at the discretion of the university; and
2.) The student must provide an official transcript from the educational institution awarding the degree. If a student’s admission into a graduate program of study at the school of study is rejected by the school, the Admissions department will promptly notify the student.

3.) Graduate program students must consult the admissions criteria for their program of study that may require additional steps for admittance.

**Application Form:**
All domestic applicants must submit a fully completed online application form that can be completed during the on-site Admissions Interview or can be submitted through the online Application Portal. Incomplete applications will not be considered for admission until all necessary information has been received by the Admissions Office.

**Application Fee:**
Each domestic applicant is required to pay a non-refundable $20.00 application fee. International applicants are required to pay a non-refundable $100.00 application fee. No application will be considered without payment of this fee. For information regarding methods of payment, please visit our website at http://www.viu.edu/future-students/finance/payment-information.html.

**Identification:** Each applicant is required to provide a copy of their passport or government-issued photo ID upon time of semester check in.

**High School Documentation:** High school diploma/certificate (excluding special diplomas, special education diplomas, modified diplomas, applied study diplomas, adjusted diplomas, alternative diplomas, certificates of completion/attendance/participation, etc.). (CGPA of 2.0 or higher on a 4.0 grading scale or equivalent is required. High School transcript may be requested if the diploma does not indicate the CGPA information. If your GPA is below the requirements, please review our CGPA Waiver Policy.)

In addition to the general admission requirements, students who apply for federal financial aid must submit a high school diploma and/or transcript, GED or equivalent. For foreign high school documents, an official evaluation from an accredited evaluation agency is also required.

**Previous Degrees:** Applicants already holding a degree from a foreign or domestic college or university must submit an original, notarized or attested copy of their college or university diploma and transcript, accompanied by a certified translation, if the original is not in English.

1. For graduate degree programs and graduate-level certificate programs, a bachelor’s degree diploma and transcripts, or equivalency, is required.
2. For undergraduate degree programs and undergraduate-level certificate programs, a minimum of a high school diploma, or equivalency, is required.

**Official Transcripts:** All applicants must submit original official transcripts, or notarized or attested copies of transcripts, from all colleges or universities previously attended (whether or not a degree was earned from the institution). If transcripts from the institution are issued in the student’s native language as well as in English, students will only be required to submit the English version. A minimum of a 2.5 GPA (on a 4.0 scale) is required for graduate admission, and a minimum of a 2.0 GPA (on a 4.0 scale) is required for undergraduate admission.

**Special Circumstances Policy**
For students who may not be able to present required official transcript(s) and/or diploma(s) for credential evaluation due to political refugee or asylum status, fear of persecution in requesting documentation, or political (or otherwise) situations that result in closure of previous institution(s). As such, it may be necessary to employ an alternative method of educational verification. Please contact the Office of Admissions for additional information.

**Disclaimer Statement**
Virginia International University does not discriminate on the basis of race, color, creed or religion, national or ethnic origin, sex, sexual orientation, marital status, gender identity, age, genetics information, physical or mental disability, status as a protected veteran, or any other non-merit factor in the admission to, participation in, or employment in the programs and activities which the University operates.
4. TUITION AND FEES

4.1. General Guidelines
Students are responsible for maintaining a current mailing address in their student record on Student Portal, and for activating and checking their University e-mail accounts to receive official university communications.

By registering for classes, students accept responsibility for the semester charges. Students are responsible for withdrawing from all classes that they do not intend to complete by the deadlines listed in the Academic Calendar. Students must confirm withdrawals and class drops, and full or partial liability may apply. The University does not cancel classes for nonpayment or nonattendance.

Refer to the Payment Schedule and the Academic Calendar on the Student Portal for payment due dates and tuition penalties for dropping classes after the start of the semester.

Payments are due in the Accounting Office, located in the 1st floor of 4401 Village Drive, Fairfax, VA 22030, on or before 6:00 p.m. on due dates, regardless of postmark if mailed. Credit card payments made through the Student Portal must be completed by 11:59 p.m., to be considered in that day's business. Students must check Student Portal for balance due, verify registration, and pay through the Student Portal or at the Accounting Office by the due date. Failure to receive a reminder bill confirming charges does not waive the requirement for payment when due.

4.2. International Tuition

Virginia International University offers quality education at an affordable rate and provides students with access to scholarship programs and Federal Financial Aid. Tuition and fees are subject to change. The following tuition and fee structure is effective for 2017-2018 academic year.

Tuition is based on 3 credits for 1 course
- Undergraduate Degrees are 120 credits
- Undergraduate Certificates are 24 credits
- Graduate Degrees are 36 credits; 39 credits for M.Ed.
- Graduate Certificates are 18 credits

Full-time course load varies per program.

4.4. Non-Intensive ESL Tuition

Students can pay tuition and fees through the Student Application Portal after completing the online registration. The class payment and registration must be completed at least one business day before the first day of classes. For example, the class registration and payment must be completed by 11:59 pm Thursday before the Saturday class. Late registrations or payments will not be accepted.

The following tuition and fee structure is effective for 2017-2018 academic year. Tuition and fees are subject to change. Each class is offered upon reaching a required number of student enrollment.

Refund and Deferral Policy

Students who wish to request a refund or defer their courses should visit Accounting Office or call (703) 591-7042 ext. 335 during regular business hours or email to accounting@viu.edu.

Saturday Museum Class

Museum class tuition is non-refundable. However, a student may choose another Saturday Museum class and request a deferral up until one business day before the class for which he/she originally registered.

Non-intensive Evening and Weekend Classes

Refunds for the non-intensive evening and weekend classes are granted up to three business days before the first day of classes. Students are permitted to defer to another course within the program up until one business day after the first day of class for which he/she originally registered.

4.5. School of Test Preparation Tuition

Students can pay tuition and fees through the Student Application Portal after completing the online registration. The class payment and registration must be completed at least one business day before the first day of classes. For example, the class registration and payment must be completed by 11:59 pm Thursday before the Saturday class. Late registrations or payments will not be accepted.

The following tuition and fee structure is effective for 2017-2018 academic year. Tuition and fees are subject to change. Each class is offered upon reaching a required number of student enrollment.

### 4.8. Delinquent Accounts

#### Financial Holds

If a student's account is not paid in full by the due date, a financial hold will be placed to student's account and the student’s access to campus resources will be blocked. Course grades, official transcripts, and diplomas will not be issued until the account is paid in full. In addition, students with delinquent accounts may have a prepayment hold placed on their account, requiring payment in full at the time of registration for all future semesters.

The university may require payments toward a delinquent account to be in the form of certified funds such as cash, money order, or wire transfer to the university's bank account.

#### Collection Process

The university pursues debt in accordance with the guidelines set forth by the Commonwealth of Virginia in the Virginia Debt Collection Act. Virginia State law requires that the university make every attempt to collect past due amounts. If, after 60 days, full payment of a debt has not been received, the student account will be placed with a collection agency. Students are responsible for any collection costs incurred.

Students should be advised that debts placed with a collection agency will affect the student’s credit rating. Collection efforts are also costly to the student, and thus students should avoid these additional costs by paying on time. Collection fees cannot be appealed. If a student finds that their account has been referred to a collection company, they must contact the company immediately to make payment arrangements.

In addition to being sent to a collection agency, the account can be listed by the Credit Bureau as a bad debt, a delinquent account can be collected in full from income tax refunds, lottery winnings, or other refunds due from the state, and the account may be turned over to the Virginia Attorney General’s Office for litigation.

Again, timely payment is strongly encouraged so that the above collection efforts can be avoided. The Accounting Office is committed to helping students resolve delinquent balance. If a student’s account becomes delinquent, please contact the Accounting Office immediately so other options may be discussed.
4.9. Living and Other Expenses
Tuition and fees vary depending on a number of factors including, but not limited to, the program and level of study, course enrollment, and other specific circumstances. This tuition and fee structure is effective as of Fall 2017. Tuition and fees are subject to change. Funds for personal expenses (e.g., supplies, etc.) are not included. E-books are included (upon availability) in academic program tuition.

Living and Other Expenses: Students should calculate and bring extra funds for these expenses based upon their individual projected needs. Below is rough estimation, intended only as a guidance. Actual expenses will vary depending on individual needs.

<table>
<thead>
<tr>
<th>Expenses</th>
<th>Explanation</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Living</td>
<td>The approximate cost for an individual student living in the Washington, D.C. metropolitan area.</td>
<td>$12,000 per academic year (9 months)</td>
</tr>
<tr>
<td>Textbook</td>
<td>Textbook expenses are not included in the cost of tuition. All students must obtain their books before the course add/drop period ends.</td>
<td>Academic program students may spend an average of $100.00 per course in which textbooks are not provided.</td>
</tr>
</tbody>
</table>

4.10. Payment Information

Payment Procedures The full amount of tuition and fees are due and payable one week prior to the start of each semester. Interest will be charged on outstanding balances. A student may not proceed from one academic year to the next without having fully paid the previous year's tuition and fees. Any exceptions must have prior approval of the administration. It is the student's responsibility to make the necessary arrangements for tuition and fee payments on a timely basis so as not to impede his/her academic progress.

Payment Deadline: One week before the first day of classes, students' tuition and fees are due in full for that semester. For an up-to-date payment schedule, please refer to the VIU website. Payments received by the Accounting Office by 6:00 PM EST, Monday through Friday, will be considered as received on that business day. Ample time should be allowed for payments to be processed. Payments received are applied to the oldest outstanding balance first.

Making a Payment
The Accounting Office strives to make bill payment as easy as possible for students. For convenience, students are able to make payments in the following ways:

Payment via the Student Portal
We encourage all students to take advantage of the easy and hassle-free option to make tuition payments by credit or debit card through the student portal. Avoid the wait and make your payment when it is convenient for you!

Payment in the Accounting Office
The Accounting Office is able to take your payments in person Monday through Friday until 6 PM. We accept payments by credit card, check, cash, or money order.

Payment via Mail
The Accounting Office will happily receive checks or money orders via mail. Please do not send cash payments via mail. Please allow 10 business days for delivery by the due date, and postmarks are not considered a receipt of payment. Payments may be mailed to the following address:

Virginia International University
ATTN: Accounts Receivable
4401 Village Drive
Fairfax, VA 22030 United States

Payment Methods
Payments can be made using the following methods:

Credit and/or Debit Card: Credit and/or debit card payments are accepted at the Accounting Office and online through the student portal. VIU accepts Master Card, Visa, Discover, and American Express.
(Note: Online payments can be made by using multiple cards. Please note that the same card cannot be used more than once in the same day).

**Check:** All checks should be made payable to **Virginia International University**, with the VIU student ID number written on the memo line. Checks that are already endorsed are not accepted. Checks must be payable in US dollars with an intermediary bank in the US.

**Cash:** Cash is only received in person at the Accounting Office located at the Village Drive campus. Cash payments should not be sent through the mail. VIU is not responsible for cash payments that are lost or stolen prior to arriving in the VIU Accounting Office.

**Wire Transfer:**

VIU offers two options for students wishing to pay via wire transfer:

**GlobalPay**

We offer a simple electronic payment mechanism through Western Union Business Solutions called GlobalPay which allows students to pay tuition and fees using their local currency. Our hope is that this option will save students money on exchange rates and bank fees. Payments made via GlobalPay are credited directly to your student account in as few as two (2) business days.

Depending on your country and region, you may have different options for GlobalPay payment via local bank transfer, credit card, Western Union Agents, or ChinaPay. Your payment options and availability will vary by country and region. For instructions on paying via GlobalPay, please contact the Accounting Office at accounting@viu.edu for further instructions.

**Traditional Wire Transfer**

To make a traditional wire transfer to VIU, please contact the Accounting Office at accounting@viu.edu for further instructions. When sending a wire transfer, be sure to include the student's full name and student ID number.

**Money Order**

Money orders should be made payable to Virginia International University. Please be sure to include the student's full name and student ID number.

**Demand Drafts**

VIU will accept demand drafts (DDs) only if the funds are drawn on a US bank and in US currency. Drafts should only total the amount of tuition and fees for the semester for which the student is paying. All demand drafts received which exceed the amount of total tuition and fees for that semester will be refunded only after the Demand Draft is processed and settled.

**IMPORTANT NOTE:** VIU’s Accounting Office does not accept payments over the phone.

### 4.11. Payment Plan

**About Tuition Payment Plan**

For students who wish to finance their tuition in installments, VIU has a payment plan available. There is a non-refundable fee of $30.00 per installment. Failure to pay any outstanding balance will result in an academic hold on the student’s account, accrual of late fees, and ineligibility to apply for a payment plan in future semesters.

*Note: Students who are in their first semester of study at VIU are not eligible to apply for a payment plan.*

**Applying for a Tuition Payment Plan**

You are eligible for a payment plan if:

1. You are not a first-semester student;
2. There is not a financial hold on your account;
3. You are studying in an academic undergraduate, graduate, or certificate program (not ESL);
4. You have registered for courses in the current term and your total bill is more than $2,000;
5. You are not on the waiting list for any courses; and
6. The payment deadline has not passed.

After you have received confirmation of approval of your application, you may visit the Accounting Office to make your first installment payment or you can make the payment through your student portal.
4.12. Cancellation and Refund Policy

If a student elects to drop one or more courses or withdraw from the university, the following refund schedule will be used to determine any outstanding financial obligation for which the student may be responsible:

<table>
<thead>
<tr>
<th>Last Date of Attendance</th>
<th>Tuition Refund Amount*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to the last day of add/drop period</td>
<td>100% of the semester tuition</td>
</tr>
<tr>
<td>After the add/drop and through 25% of the semester</td>
<td>50% of the semester tuition</td>
</tr>
<tr>
<td>Through 50% of the semester</td>
<td>25% of the semester tuition</td>
</tr>
<tr>
<td>After 50% of the semester</td>
<td>No refund will be issued</td>
</tr>
</tbody>
</table>

* Excludes all fees

To initiate the refund process, the student can submit a Refund Request Form or contact the Student Accounts Office. Students may download the form on the website or obtain a hard copy from the Accounting Office. Student Accounts Office reviews the student accounts periodically and contact students with overpayment. Students can decide to request refund or keep the overpayment balance to their account. The bank transaction fee, however, will be deducted from this total. In general, VIU will refund the tuition deposit in the same manner as it was received by VIU (credit card payment, bank wire transaction, or check). Please note, VIU will only issue tuition refunds to the organization or person who made the original payment. All fees (application fee, postage fee, student service fee, etc.) are not refundable.

The official withdrawal date, for the purpose of a refund calculation, is the last date on which the student was recorded present for a class. If no payment was made, or if the student was participating in a payment plan and the payments are insufficient to cover the student’s obligations according to the schedule above, the university will send the student a bill for the difference. If the student’s financial obligation is not fulfilled, VIU is authorized to do the following until the money owed is paid:

- a) Withhold the release of the student's academic records or any information based upon the records.
- b) Withhold the issue of the student's transcripts.
- c) If the student's account remains delinquent, VIU reserves the right to terminate enrolment and cancel F-1 visas of international students.
- d) Late tuition payments are subject to financial penalties.
- e) Financial hold will be placed and access to student portal and Moodle will be blocked.

Online Education Cancellation and Refund Policy

If a student elects to drop one or more courses or withdraw from the university, the following refund schedule will be used to determine any outstanding financial obligation for which the student may be responsible:

<table>
<thead>
<tr>
<th>Last Day of Attendance Notice</th>
<th>Tuition Refund Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to the last day of add/drop period</td>
<td>100% of the tuition</td>
</tr>
<tr>
<td>After the add/drop &amp; through 25% of the session</td>
<td>75% of the tuition</td>
</tr>
<tr>
<td>Through 50% of the session</td>
<td>50% of the tuition</td>
</tr>
<tr>
<td>Through 75% of the session</td>
<td>25% of the tuition</td>
</tr>
<tr>
<td>After 75% of the session</td>
<td>No refund will be issued</td>
</tr>
</tbody>
</table>

* Excludes all fees

To initiate the withdrawal process, the student must submit an Institutional Withdrawal Form to Virginia International University. Students may download the form from our website or obtain a hard copy from the Registrar's Office or the Office of International Student Services.

To initiate the refund process, VIU requests that the student submit a Refund Request Form. The form must be submitted to Virginia International University within 12 months of the last day the student attended a class. Students may download the form from our website or obtain a hard copy from the Accounting Office.
The official withdrawal date, for the purpose of a refund calculation, will be the last date on which the student was recorded present for a class. If no payment was made, or if the student was participating in a payment plan and the payments are insufficient to cover the student’s obligation according to the schedule above, then the university will send the student a bill for the difference. If the student’s financial obligation is not fulfilled, VIU is authorized to do the following until the monies owed are paid:

a) Withhold the release of the student’s academic records or any information based upon the records
b) Withhold the issue of the student’s transcripts
c) If the student’s account remains delinquent, VIU reserves the right to terminate enrollment
d) Late tuition payments are subject to financial penalties.

Museum Trips Cancellation and Refund Policy

A Day at the Museum class payment and registration deadline
The payment and registration deadline is one business day before the first day of classes.
Note: Student will not be permitted to register or make a payment on the same day of class.

A Day at the Museum class deferral
After paying the course fee, the student may elect to defer his/her class up until one business day before the class for which she/he originally registered.
Note: A Day at the Museum classes can be deferred only with other museum classes.

Tuition for a Day at the Museum is non-refundable.

Other Non-Intensive ESL Courses Cancellation and Refund Policy

Non-Intensive ESL (Business English, Evening ESL & American Language and Culture) payment and registration deadline:
The payment and registration deadline is one business day before the first day of classes.
Example: If the first day of class is Monday, December 12, tuition may be paid until Friday, December 9.

Non-Intensive ESL (Business English, Evening ESL & American Language and Culture) refunds:
Refunds will be granted up to three business days before the first day of classes; after this time, no refunds will be granted. Students will, however, be permitted to defer/change to another course until one business day after the first day of class.
Example: If the course starts on Monday, December 12 and tuition was paid on or before Wednesday, December 7, the student is eligible for a tuition refund. If tuition was paid on and after Thursday, December 8, the student is not eligible for a tuition refund but will be permitted to defer/change to another course until one business day after the first day of class (see below).

Non-Intensive ESL (Business English, Evening ESL & American Language and Culture) course deferral/change:
The student may defer/change to another course up to one business day after the first day of the course for which s/he originally registered. Students wishing to defer/change course should coordinate with the Accounting Office during regular business hours to do so.
Example: If the first day of class is Monday, December 12, the student has the option to defer/change to another course until Tuesday, December 13.

4.13. Return to Title IV Funds (R2T4)

Title IV Refunds
When a student withdraws, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive. If a recipient of Title IV grant or loan funds withdraws from a school after beginning attendance, the amount of Title IV funds earned by the student must be determined. If the amount disbursed to the student is greater than the amount the student earned, it is the responsibility of the school and the student to return any unearned funds to the Department of Education. The R2T4 Policy and Institutional refund policy is provided to all students via the catalog, which can be accessed at www.viu.edu.

Withdrawal Process
The law requires that if a recipient of Title IV assistance withdraws/resigns from an institution before completing the semester in which the recipient began attendance, the institution must calculate the percentage and amount of Title IV assistance the student earned. Unearned Title IV funds must be returned to the Title IV programs by the school and/or the student. Students who wish to resign from the University should follow withdraw procedures located in the academic catalog. An electronic version of the catalog is located online at www.viu.edu.

Withdrawal Date, Last Date of Attendance, and Date of Determination
The date of withdrawal or withdrawal date is always the last date of attendance (LDA) as supported by VIU’s attendance records. The date of determination (DOD) is no later than 14 days from the LDA, except if the student confirmed and documented his or her return into a course within the payment period. When a student indicates his or her intent to return, the DOD is no later than 14 days from the date the student was scheduled to return.

Leave of Absence
Students on leave of absence will be treated as a withdrawal for Federal Financial Aid purposes.

Post-Withdrawal Disbursements
If the amount disbursed to the student is less than the amount the student earned, and for which the student is otherwise eligible, he or she is eligible to receive a post-withdrawal disbursement of the earned aid that was not received. Any post-withdrawal disbursement due must meet the current required conditions for late disbursements. A school is required to make (or offer as appropriate) post-withdrawal disbursements to eligible students. A post-withdrawal disbursement must be made within 180 days of the date the institution determines that the student withdrew. The amount of a post-withdrawal disbursement is determined by following the requirements for calculating earned FSA and has no relationship to incurred educational costs.

Procedures:
- A student (or parent, in the case of a Direct PLUS loan) is notified of eligibility for a post-withdrawal disbursement of within 30 days of the date of determination by email and must respond within fourteen days.
- If the student (or parent) accepts the post-withdrawal disbursement, it will be made as soon as possible but no later than 180 days of the withdrawal date.
- The Financial Aid Office will track this notification and make appropriate updates in the system as necessary.
- When the student’s (or parent’s) response is received it will be updated in the system.
- The priorities for disbursement are grants first; paid to outstanding institutional charges before being paid directly to the student (or parent).

Determining the Percentage of Aid Earned
VIU uses the payment period for the calculation of the Return of Title IV Funds formula. The payment period is the semester in which the student received Title IV funds. Because classroom attendance is taken by instructors and tracked for online courses, VIU is an attendance taking institution.

The percentage of time the student completed for the semester determines the "earned percentage." The earned percentage is based on calendar days in the semester, including weekends. Only scheduled breaks of at least 5 days will be excluded. The length of the break is determined by counting from the first day of the break up to the next day on which classes are offered. The weekends preceding and following the break are counted as part of the break, unless Saturday classes are scheduled.

Responsibility to Return Funds
Institutional charges are used to determine the unearned portion of Federal Student Aid. It is the school’s and student’s responsibility to return any un-earned aid funds. Any unearned funds are returned within 45 days of the date of determination that the student withdrew.

Order of Return of Title IV Funds
Title IV aid is returned in the following order:
1. Unsubsidized Federal Direct Stafford Loans
2. Subsidized Federal Direct Stafford Loans
3. Federal Direct PLUS Loans
4. Federal Pell Grants
5. Iraq and Afghanistan Service Grant

Student Notifications
Upon completing the R2T4 calculation, the business office will return any unearned Loan and Grant funds to the Department of Education. Students will be notified in writing of any funds returned on their behalf.

Return to Title IV Examples:
1. It is Jennifer’s first semester, and she is enrolled in the Business Administration program. She is a full-time student enrolled in 12 credits in the semester (15 weeks / 105 days). On the 2nd day of week 7, Jennifer withdrew from her courses to pursue an acting career. Jennifer attended VIU for 51 days ((7 x 7) + 2 = 51) in an enrollment period of 105 days; therefore, she completed 48.57% (51/105) of her enrollment period. During the current payment period, Jennifer was disbursed a Pell grant for $1,500 and a subsidized loan for $1,500, a total of $3,000. Her earned aid is $1457 (48.57% x 3,000), whereas her unearned aid is $1,543 ($3,000-$1,457). After the institutional refund is applied and unearned Pell Grant funds are returned Jennifer will have to repay the disbursed and earned subsidized loan amount funds. She may also have to repay any disbursed unearned loan funds to VIU.

2. It is John’s second semester and he is a full-time student enrolled in 12 credits in the semester. On the 5th day of week 11, it was the last time John attended class. John attended VIU for 75 days ((11 x 7) + 5 = 82) in an enrollment period of 110 days; therefore, he completed 74.54. % (82/110) of his enrollment period. During the current payment period, John was disbursed a Pell grant for $900, a subsidized loan for $2,500, and an unsubsidized loan for $1,000, a total of $4,400. Because he attended for at least 60% of the enrollment period, his total earned aid is $4,400, and there is no unearned aid.

4.14. Discount Policy

Family Discount Policy
Virginia International University offers a 5% tuition discount per semester for immediate family members studying concurrently and on a full-time basis at VIU. The discount is valid as long as the immediate family members (defined as parents, children, brothers, sisters, and spouses) are enrolled and paying tuition. The discount is applied to the tuition fees of both students.

When and How to Apply: The deadline to apply for the family discount is the last day of the add/drop period in each semester. Applications after this deadline will only be considered for the following semester. To be considered for the family discount, the student needs to complete the Application for Family Discount and submit it to the Accounting Office for approval along with proof of the students’ relationship as immediate family. The VIU student ID number of the relative is required for this application.

Family Discount Procedures
The discount is applied to the student’s tuition only. Any scholarships awarded will be deducted first. The discount will be applied to the remaining amount. If a student qualifies for more than one discount, only one will be applied.

The students must be enrolled on a full-time basis to be eligible for this discount. A student is considered to be full-time when he or she is enrolled in the applicable semester as follows: 20 hours in the ESL program, 12 credit hours in an undergraduate degree or certificate program, 9 credit hours in a graduate degree or certificate program, or a combination of these considered full-time by the VIU Registrar’s Office. This discount will also apply to the tuition fees charged for additional enrolled courses in the same semester.

Discount Procedures
Discounts are applied to student tuition only. Any scholarships awarded will be deducted first. The discount will be applied to the remaining amount. If a student qualifies for more than one discount, only one will be applied.

5. FINANCIAL AID

The Financial Aid Office provides a variety of services to help students pay for their education; including, financial aid advising, exploring funding resources, and financial assistance. Federal student financial aid awards may consist of grants and loans. Awards are based primarily on financial need, although there are some alternative financial aid sources available for those who may not qualify for need-based financial assistance. Financial Aid counseling service is available Monday through Friday by phone, email, or personal appointment.

Eligibility
In order to be eligible to receive federal financial aid at Virginia International University, both new and currently enrolled students must file a Free Application for Federal Student Aid (FAFSA) and comply with all federal, state, and VIU regulations and policies regarding financial aid. Virginia International University Federal Title IV School code for the FAFSA is 041440. Priority consideration for all sources of financial aid is given to those students whose financial aid applications are on file with the Financial Aid Office by the deadline of that given semester/session. To meet this priority filing date, students should file the FAFSA as soon as possible after October 1st, of each year. The FAFSA is filed online at www.fafsa.gov.

Financial Aid
Annual Renewal of Financial Aid
Students who wish to apply for federal student financial aid, including federal loans, are required to file a Free Application for Federal Student Aid (FAFSA) each year to determine eligibility. The financial aid awarded may be adjusted annually based on the renewed FAFSA application.

Financial aid for summer is generally limited to students who have remaining Federal Pell Grant or Federal Loan eligibility. Contact the Financial Aid Office for specific information regarding eligibility.

5.1. Financial Aid Programs
Virginia International University administers the following federal student financial aid programs: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Subsidized and Unsubsidized Federal Direct Stafford Loans, and Federal PLUS Loans for parents of dependent students and graduate students.

Title IV aid is packaged in the following order:

1. **Federal Pell Grant** – a maximum award of $5,920 for 2017-18 award year that does not have to be repaid.
2. **Federal Supplemental Educational Opportunity Grant (FSEOG)** – additional grant for students who demonstrate exceptional financial need, and it does not have to be repaid. Funds for this program are only limited to Federal Pell Grant recipients.
3. **Federal Direct Subsidized Loan** – a low interest loan available to students who demonstrate financial need. Interest does not accrue and repayment does not begin until six months after the recipient leaves school or drops below half-time status.
4. **Federal Direct Unsubsidized Loan** – a low interest loan available to undergraduate and graduate students who are eligible with or without financial need. Note that interest begins accruing on this type of loan while recipients are still in school.
5. **Federal Direct PLUS Loan for Parents of Dependent Students and Graduate Students** - a loan available to parents of dependent undergraduate students and to graduate students. Eligible participants can borrow up to the cost of attendance.

All financial aid recipients are responsible for becoming familiar and complying with applicable federal and state regulations, and university policies.

All students receiving financial aid must be enrolled in an eligible degree or certificate program; maintain satisfactory academic progress (SAP) as defined by Virginia International University in accordance with federal guidelines (see below); be a U.S. citizen, permanent resident of the U.S., or eligible non-citizen, and meet other basic eligibility criteria as defined by the U.S. Department of Education.

Satisfactory Academic Progress (SAP) Standards
Federal legislation governing the administration of federal programs requires colleges and universities to define and enforce standards of academic progress for students receiving or applying for financial aid. To comply with this legislation, Virginia International University established a formal satisfactory academic progress policy. For detailed information, go to the Satisfactory Academic Progress section or contact the Financial Aid Office.

Return of Title IV Funds
The Financial Aid Office is required by federal law to recalculate federal financial aid eligibility for students who completely withdraw from all classes, drop out, are dismissed, or take a leave of absence prior to completing the payment period or term. According to the regulations, the amount of Federal Title IV awarded to a student must be recalculated in these situations and any portion of the financial aid received that is considered to be “unearned” must be returned to the Title IV Program(s) from which it was received. Any student considering dropping or withdrawing from all courses, should contact the Financial Aid Office immediately regarding possible adjustments to their financial aid.

Programs that Qualify for Federal Student Financial Aid
All graduate, undergraduate, and certificate (except Graduate Certificate in Project Management and ESL) programs qualify for federal student financial aid. All non-credit certificate programs and continuing education programs do not qualify for federal student financial aid.

For more information, please contact the Financial Aid Office by email at financialaid@viu.edu. To be considered for federal financial aid, please complete your FAFSA to determine your eligibility for all federal aid programs.

Contact Information
5.2. Title IX Compliance

In compliance with the Title IX 20 U.S.C. § 1681(a), no student at Virginia International University shall, on the basis of sex, be excluded from participation in, be denied benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. Furthermore, sexual harassment and violence are strictly prohibited at Virginia International University. For more information, please see section 8.6. Sexual Misconduct Policy and Notice of Non-Discrimination.

Any victims or third parties should report all incidents of sex discrimination, sexual harassment, or sexual violence to the Title IX Coordinator and Deputy Coordinators, at the below contact information:

**Title IX Coordinator**
Name: Christina Koonts  
Title: Associate Vice President, Institutional Effectiveness & QA  
Office Address: 4401 Village Drive, Fairfax, VA 22030  
Telephone: (703) 591-7042 Ext. 318  
Email: christina@viu.edu

**Title IX Coordinator**
Name: Caitlin Myron  
Title: Title IX & Clery Compliance Coordinator  
Office Address: 4401 Village Drive, Fairfax, VA 22030  
Telephone: (703) 591-7042 Ext. 379  
Email: cmyron@viu.edu

**Title IX Coordinator**
Name: Rebecca Yu  
Title: Director of Human Resources  
Office Address: 4401 Village Drive, Fairfax, VA 22030  
Telephone: (703) 591-7042 Ext. 338  
Email: rebecca@viu.edu

In accordance with the federal law, all victims and third parties have the option of reporting incidents by email, phone, mail, or in person to the Title IX Coordinator. All victims have the right to report to police, Virginia International University will facilitate that process if desired by the victim. Victims also have the right not to report to police.

All incidents of sex discrimination, sexual harassment, or sexual violence will be investigated promptly, in order to remedy any hostile educational environment created by such behaviors. Investigations may include the assistance of police, which may delay the response of Virginia International University to accommodate a police investigation. If the case requires police investigation, Virginia International University will delay their response to the case a maximum of 10 days in order to give appropriate time for police to gather evidence. If Virginia International University must delay their response, all parties will be informed of the delay and given an approximate timeline for when the response will resume. Institutional investigations will take no more than 60 days, except of in the instance of a complex case which will be addressed within a reasonable time-frame given the circumstances.

Employees and third party reports are protected along with reporting victims from any adverse consequence, harassment, intimidation, or discrimination that is causally related to reporting sex discrimination under Title IX.

6. SCHOLARSHIPS

Scholarship Program Description
Virginia International University offers the unique opportunity to acquire an excellent, multi-disciplinary education at a lower cost by offering our students access to scholarships. VIU has been attracting individuals who take their VIU experiences into their own cultures, share their knowledge with future generations and launch successful careers. Thus, there are several different types of scholarships available based on exemplary personal skills, academic achievement, extracurricular participation, and residency. Full-time undergraduate and graduate current students, students attending the English as a
Second Language program, and prospective students, who started their application to VIU, are eligible to apply for a scholarship if the scholarship requirements are met. Every scholarship has unique criteria.

**Scholarship Program Funding**
The VIU Scholarship Program funding is derived from a number of sources and is supported by generous contributions from individuals and organizations. The VIU Board of Trustees approves the allocation of resources for the scholarship program from the annual operating budget during its annual meeting prior to the start of the calendar year. Scholarships are awarded annually and range from $500.00 to full tuition.

### 6.1. Application Instructions

Students must apply for admission to Virginia International University, or be currently enrolled as full-time students, before they can be eligible to apply for any scholarship.

To apply for a scholarship, students must:
1. Apply for admissions at VIU (new students)
2. Browse the scholarship opportunities
3. Choose up to two types of scholarship
4. Review the requirements for the scholarship application
5. Apply online through the applicant portal or student portal
6. Upload their documents

All supporting document submissions must be scanned, color copies of original documents. Samples of these documents may include transcripts, diplomas, certificates, and test scores. Photocopies are not considered acceptable documentation. If any document is issued in the applicants’ native language, they must provide both the original document and a translation of the document in English. Translated documents must be notarized. VIU has the right to request original documentation. Submission of fabricated or false documents will result in disqualification from future scholarship application.

### Application Deadlines

All applications and supporting materials must be received by 12:00 PM EST on the day of the application deadline.

<table>
<thead>
<tr>
<th>Semester</th>
<th>Application Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 2017</td>
<td>April 7, 2017 – May 12, 2017</td>
</tr>
<tr>

</tr>
</tbody>
</table>

### Selection & Announcement

The scholarship selection process begins immediately after the application period ends. All applications are initially screened for completion and criteria assessment. Once the application is deemed complete, the application will be available for the Scholarship Committee’s review. Each application is reviewed and assessed on an individual basis.

Selected applicants will be invited for an interview with the members of the Scholarship Committee as part of the selection process. The interview will be held at VIU campus or via Skype. Applicants may bring additional supporting materials to the interview if they wish.

Scholarship awards will be determined by the Scholarship Committee prior to the first day of classes for the semester to which the student applied. Awardees will be notified by email.

### 6.2. Scholarship Rules and Regulations

1. **Application**
   1.1 Students who are awarded a scholarship must reapply each year if they want to be considered for the scholarship for the next academic year. There is no guarantee that the scholarship will be awarded for the following year.
   1.2 Students are eligible to apply for up to two scholarship types, but they will be eligible to receive only one scholarship per academic year.
   1.3 All documents must be received by the application deadline. Incomplete applications will automatically be denied.
   1.4 Scholarship application period opens three times a year (Spring I, Summer I, and Fall I).
      1.4.1 Returning students are eligible to apply for scholarships for Spring, Summer, or Fall semesters.
      1.4.2 The New Horizon scholarship accepts applications for Spring, Summer, or Fall.
1.5 Academic merit holds the highest weight in the review of most scholarship applications. In the case of a tie, the committee will rely on this hierarchy to make their award decision.

1.6 Applicants must submit one application for each scholarship for which they wish to apply.

2. Scholarships are awarded as credit towards tuition only. The award amount will be divided into installments and the credit will be deducted from the total tuition charged for each semester.

3. Scholarships cannot be awarded to applicants who receive any VIU discount or outside scholarship funding besides Financial Aid (e.g., government scholarships, academic collaboration-related funding, etc.).

4. Cumulative GPA can be rounded one decimal place for eligibility requirements.

5. Student must maintain the requirements for the scholarship for which they applied in order to continue receiving the scholarship for the subsequent semester.

6. Evidence of English language proficiency is required depending on the type of scholarship.

7. Students must be in good standing with the university in order to apply for any scholarship.

8. Scholarship awardees must agree to sign a Media Release Form authorizing VIU to use their picture, video, and/or testimonial for scholarship marketing purposes.

9. VIU full-time staff is only eligible to apply for the VIU Staff Workforce Development Scholarship.

10. Students who are awarded with a scholarship during their last semester cannot apply the full awarded amount to one semester; only half of the scholarship amount will be applied to the student’s last semester of study.

11. Students who apply for the Work on Campus scholarship will be automatically granted the award if eligibility requirements are met. However, VIU has the right to retrieve the amount awarded for the Work on Campus scholarship within 30 consecutive days if a student resigns or is let go from the position.

12. Students must be enrolled full time in one of VIU’s on-ground degree or language programs in order to receive the scholarship award.

13. VIU has the right to request original documentation. Submission of fabricated or false documents will result in immediate dismissal of the application and will disqualify the individual from applying to the scholarship program in the future. Documents submitted for application purposes will not be returned to the applicant.

14. There is no guarantee that a scholarship will be awarded solely because the applicant meets the requirements, eligibility, and/or fulfillment of the scholarship criteria. All applicants should submit their application and follow proper procedures.

6.3 Types of Scholarships and Eligibility

Current and prospective students are eligible to apply. Students who are enrolled in any of VIU’s undergraduate, graduate, and language studies programs as full-time students are eligible to apply for a scholarship if requirements are met. Students enrolled in the language studies program (ex. ESL program) as part-time students are also eligible to apply. Prospective students have the chance to apply for scholarships during their application process for admission to VIU.

VIU currently offers several types of scholarships to assist prospective and current students.

1. Fresh Start Scholarship

The Transfer-In Scholarship is awarded to students who are transferring to Virginia International University for the first time from another college or university in the United States. This scholarship assists students who are looking for a fresh start at our university and to those who have committed to educational success throughout their lifetime. This scholarship is awarded to first time, first semester transfer-in students only.

Amount: $500 per academic year ($250 per semester)

Eligibility

To be eligible to apply for this scholarship, applicants must meet the following criteria:

- Must have been enrolled and studied as a full-time student at an accredited university in the U.S. for at least one semester.
- Must be in good academic standing and must meet a minimum 3.00 (on a 4.0 scale) cumulative GPA requirement.

Application Documents: Completed applications must include all of the following:

1. Online application form (applicant portal or student portal)
2. Most recent transcript from the college, or university attended in the United States. Transcript should indicate the completion of a minimum of 9 credits (graduate level) or 12 credits (undergraduate level) from an accredited United States post-secondary institution (not VIU) at which the language of instruction was English. The GPA for those credits must not be lower than C-level.
3. Personal statement of success of at least 500 words describing the student’s background, future goals, education, influential experiences, and career objectives. This should be submitted in the form of an essay, not a list of facts.
4. One letter of recommendation from a faculty member at the student’s current college or university.
2. **Student Activity Scholarship**
The Student Activity Scholarship recognizes a select number of students for their leadership in students' activities at Virginia International University. Activities may include attendance to events, volunteering, field trips, workshops, etc. Candidates should have contributed to the betterment of both their fellow classmates and the university and have ensured a brighter future for those with whom they have interacted. The Office of Student Affairs will keep track of students' participation.

**Amount:** up to $1,000

**Eligibility:** To be eligible to apply for this scholarship, applicants must meet the following criteria:
- Must have achieved the silver or gold level in the VIU Leadership and Mentorship Program.
- Must be in good academic standing and must meet a minimum 3.00 (on a 4.0 scale) cumulative GPA requirement.

**Application Documents:** Completed applications must include all of the following:
1. Online application form (applicant portal or student portal)
2. Unofficial Transcript (Unofficial transcripts are available for printing in the student portal).
3. Personal statement of at least 500 words (250 words for language program students), detailing participation on campus, leadership, and community service experience. This must be in essay format, not a list of facts.
4. Certificate or letter from the Office of Student Affairs stating the level of achievement in the VIU Leadership and Mentorship program.

3. **Regional Scholarship**
The purpose of this scholarship is to provide and maintain awareness of the value that Virginia International University places on ethnic diversity and multiculturalism within the community. The scholarships will be awarded to prospective students from 7 regions around the world. There are 18 scholarships available for each region.

**Amount:** $500 – up to full tuition per academic year

**Eligibility:** To be eligible to apply for this scholarship, applicants must meet the following criteria:
- Must be a first-time applicant for any of VIU's academic program.
- Must apply for one of VIU's undergraduate or graduate program as a full-time student.

**Regions:**
I. **North America and the Caribbean: 17 countries**
   - Canada, The United States, Anguilla, Antigua and Barbuda, Barbados, Dominica, Dominican Republic, Grenada, Jamaica, Mexico, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Trinidad and Tobago, Bahamas, Haiti, Honduras, Belize.

II. **Central and South America: 18 countries**
   - Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Guyana, Nicaragua, Panama, Paraguay, Peru, Suriname, Uruguay, Venezuela.

III. **Sub-Saharan Africa: 52 Countries**

IV. **East Asia and The Pacific: 25 Countries**
    - Australia, Brunei, Burma, Cambodia, Mainland China, Federated States of Fiji, Hong Kong and Macau, Indonesia, Japan, Laos, Malaysia, Marshall Islands, Micronesia, Mongolia, New Zealand, Palau, Papua Nova Guinea, Philippines, Singapore, South Korea, Taiwan, Thailand, Timor-Leste, Tonga, Vietnam.

V. **Europe and Eurasia: 45 Countries**
    - Albania, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Lithuania, Luxembourg, Macedonia (The Former Yugoslav Republic of), Malta, Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, Serbia, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, Ukraine, United Kingdom.

VI. **Middle East and North Africa: 19 Countries**
Algeria, Bahrain, Egypt, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, West Bank and Gaza, Yemen.

VII. South and Central Asia: 13 Countries
Afghanistan, Bangladesh, Bhutan, India, Kazakhstan, Kyrgyzstan, Maldives, Nepal, Pakistan, Sri Lanka, Tajikistan, Turkmenistan, Uzbekistan.

Application Documents: Completed applications must include all of the following:
1. Online application form (applicant portal or student portal)
2. Secondary or higher education transcript*
3. Letter of recommendation from faculty (academic) or supervisor (professional)
4. Personal statement of success of at least 500 words describing your background, future goals, education, influential experiences, and career objectives in the form of an essay; not a list of facts
5. Evidence of English proficiency
   Option 1: Test scores (see table above for minimum requirement).
   Option 2: Provide an official transcript indicating completion of a minimum of 9 credit hours (graduate level) or 12 credit hours (undergraduate level) from an accredited United States post-secondary institution (not VIU) at which the language of instruction was English. The GPA for those credits must not be lower than C-level.
   Option 3: Provide a high school diploma from a recognized institution within the United States.
*If you earned your bachelor's degree in its entirety in the United Kingdom, Ireland, Australia, New Zealand, or Anglophone Canada, you are exempt from the evidence of English proficiency requirement.

6. Special Achievement
Learning occurs not only inside the classroom but outside as well. This scholarship is awarded to students who have demonstrated superior talent and experiences outside the classroom. This should include, but is not limited to, experience in the fields of athletics, music, and art. Candidates' professional experiences are also valued.

Amount: $700 – $3,000 - per academic year for academic programs

Eligibility: To be eligible to apply for this scholarship, applicants must meet the following criteria:
- Must be able to show significant excellence and experience related to a demonstrated talent, achievement and/or career field.
- Must be in good academic standing and meet a minimum 3.0 (on a 4.0 scale) cumulative GPA requirement.

Application Documents: Completed applications must include all of the following:
1. Online application form (applicant portal or student portal)
2. Most recent secondary or higher education transcript (VIU students may submit unofficial transcripts available for printing in the student portal).
3. Personal statement of at least 500 words detailing talent and achievements in essay format. The talent and experiences must be measurable achievements and not just recreational in nature.
4. Official proof of awards, certificates of achievement, licenses, etc. must be provided (without official proof of awards, the application cannot be considered).

5. New Horizon Scholarship
The purpose of the New Horizon Scholarship at Virginia International University is to provide tuition assistance to students who are living in areas of the world where there have been recent natural disasters or civil unrest. Virginia International
University believes that all students deserve the opportunity to attain their educational goals, regardless of the constraints that such situation would put on accomplishing these goals. The application for this scholarship is open three times a year.

**Amount:** $1,000 up to full tuition – per academic year

**Eligibility:** To be eligible to apply for this scholarship, applicants must meet the following criteria:

- Applicants must be living in areas where there has been either a recent natural disaster or civil unrest (VIU reserves the sole right and responsibility to determine whether a country qualifies for the New Horizon Scholarship).

**Application Documents:** Completed applications must include the following:

1. Online application form (applicant portal or student portal)
2. Personal statement of success of at least 500 words describing how the situation in your country has affected you. This should be in the form of an essay, not a list of facts.
3. A print out of a news article giving details of the situation in your home country. This news article may come from a local, national, or international newspaper or news magazine or the websites associated with the newspaper or news magazine. Blogs will not be accepted.

6. **Campus Employment Scholarship**

Student Support Representatives contribute significantly to both academic and administrative areas of the University. On-campus employment opportunities offer students worthwhile work experience relevant to their career field. Students will be compensated financially and will receive a Campus Employment Scholarship during their eligible semesters of on-campus employment. Students hired as Student Support Representatives will receive the Campus Employment Scholarship (CES) after their second semester of employment on-campus. Students are eligible for either the Campus Employment Scholarship, or Academic Scholarship, but not both.

**Eligibility:** To be eligible for this scholarship, students must meet the following criteria:

- Must be enrolled as a full time student (3 graduate courses; 4 undergraduate courses).
- Must be working on VIU campus a minimum of 16 hours a week for at least 8 continuous weeks.
- Must be in good academic standing and meet a minimum 3.00 (on a 4.0 scale) cumulative GPA requirement.

**Application Requirements:** There is no application for this scholarship.

7. **Dean’s Academic Scholarship**

The Dean’s Academic Scholarship is awarded to students who have demonstrated educational excellence inside the classroom at Virginia International University. The selection is based upon academic achievement as well as potential for continued academic and professional success.

**Amount:** $2,000 per academic year

**Eligibility:** To be eligible to apply for this scholarship, applicants must meet the following qualifications:

- Must be enrolled as a full time student (3 graduate courses; 4 undergraduate courses).
- Must be in good academic standing and meet a minimum 3.70 (on a 4.0 scale) cumulative GPA requirement.

**Application Documents:** Completed applications must include all of the following:

1. Online application form (applicant portal or student portal)
2. Unofficial Transcript (Unofficial transcripts are available for printing in the student portal).
3. Personal statement of success of at least 500 words describing your background, future goals, education, influential experiences and career objectives. This should be in the form of an essay, not a list of facts.
4. Two letters of recommendation from faculty members at VIU.
5. Evidence of English Language Proficiency (any ONE of the following):
   - Option 1: Test Scores – TOEFL score of at least 90 (iBT) or 577 (pBT) OR an IELTS score of at least 6.5 OR a PTE Academic score of least 64*
   - Option 2: Provide transcript indicating completion of a minimum of 9 credit hours (graduate level) or 12 credit hours (undergraduate level) from an accredited United States post-secondary institution (not VIU) at which the language of instruction was English. The GPA for those credits must not be lower than C-level.

6. **SCHOLARSHIPS**
Option 3: Provide a Certificate of Completion from the English as Second Language Program at Virginia International University.

*If you earned your bachelor’s degree in its entirety in the United Kingdom, Ireland, Australia, New Zealand, or Anglophone Canada, you are exempt from the evidence of English proficiency requirement.

8. **Presidential Academic Scholarship**

The Presidential Academic Scholarship is the most prestigious merit-based scholarship offered by the university. The selection is based upon exceptional academic achievement, as well as the potential for continued academic and professional success.

*Amount: $4,000 up to full tuition per academic year.*

**Eligibility:** To be eligible to apply for this scholarship, applicants must meet the following criteria:

- Must be enrolled as a full-time student (3 graduate courses; 4 undergraduate courses).
- Must be in good academic standing and meet a minimum 3.90 (on a 4.0 scale) cumulative GPA requirement.

**Application Documents:** Completed applications must include all of the following:

1. Online application form (applicant portal or student portal)
2. Unofficial Transcript (Unofficial transcripts are available for printing in the student portal).
3. Personal statement of success of at least 500 words describing your background, future goals, education, influential experiences and career objectives. This should be in the form of an essay, not a list of facts.
4. Two letters of recommendation from faculty members at VIU.
5. Evidence of English Language Proficiency (any ONE of the following):
   - Option 1: Test Scores – TOEFL score of at least 90 (iBT) or 577 (pBT) OR an IELTS score of at least 6.5 OR a PTE Academic score of at least 64*
   - Option 2: Provide transcript indicating completion of a minimum of 9 credit hours (graduate level) or 12 credit hours (undergraduate level) from an accredited United States post-secondary institution (not VIU) at which the language of instruction was English. The GPA for those credits must not be lower than C-level.
   - Option 3: Provide a Certificate of Completion from the English as Second Language Program at Virginia International University.

*If you earned your bachelor’s degree in its entirety in the United Kingdom, Ireland, Australia, New Zealand, or Anglophone Canada, you are exempt from the evidence of English proficiency requirement.

7. **ACADEMIC REGULATIONS**

7.1. **Enrollment**

**Full-Time Students:** For Fall and Spring semesters, a full-time course load is 9 semester credit hours for graduate level programs and 12 semester credit hours for undergraduate level program. ESL students must study for 20 hours per week to be considered a full-time student, which applies for all terms. For Summer terms, graduate students registered for 3 or more credit hours per term and undergraduate students registered for 6 or more credit hours per term are considered full-time students. Certification by the Registrar’s Office of any student as full-time requires that the student be engaged in full-time academic study. Certification will not be warranted merely by payment of full-time tuition. Students not attending classes full-time will not be certified as such.

**Part-Time Students:** All students who do not meet the criteria as a full-time student (e.g., students who enroll for less than the minimum number of credit hours per semester/session as prescribed above) are considered part-time students.

**Course Overload:** Students who wish to register for more than 9 credits for graduate programs or more than 12 credits for undergraduate programs in the Fall or Spring semester, or more than 6 credits for graduate or undergraduate programs in the Summer sessions must complete a course overload form. For graduate programs a minimum CGPA of 3.5 and for undergraduate programs a minimum CGPA of 3.0 is required to become eligible. Students must obtain an approval signature from their academic advisor as well as the dean of the appropriate school, and submit the form to the Registrar’s Office prior to the end of the add/drop period. Students must be in a good academic standing to request for a course overload. The school dean has the authority to approve or deny the request.

**Undergraduate Students Classification:** Classification of undergraduate students is based on the number of undergraduate course credits earned as follows: freshman, 0–29 credits earned; sophomore, 30–59 credits earned; junior, 60–89 credits earned; and senior, 90 or more credits earned. All undergraduate certificate students are considered freshman.

**Continuous Enrollment**

All students in degree-seeking programs (whether full-time or part-time) are required to maintain enrollment in consecutive semesters of consecutive academic years until completion of the academic program. Summer breaks and an authorized...
leave of absence are the only acceptable exceptions to this rule. If a student fails to enroll by the add/drop deadline of a given semester, his or her status as a student at Virginia International University will be terminated. For the degree-seeking students, the Fall and Spring semesters are mandatory, and the summer terms are optional. The degree-seeking F-1 students are not required to take classes during the summer terms, and they are allowed to take a break or take less than full-course load during the summer terms, unless summer is the first term of enrollment. ESL students who complete four (4) consecutive terms of ESL classes and wish to continue with the ESL program is eligible to take an annual break. ESL F-1 students must submit an Annual Break Request Form and get an official approval from the International Student Services Office (ISS Office/DSO).

7.2. Non-Degree Enrollment
All non-degree-seeking applicants must meet VIU’s admission requirements and submit the following items to the Admissions Office:

- Online application
- Application fee
- Transcripts from all previously attended schools and all diplomas received (refer to the Error! Reference source not found. section).
- Evidence of sufficient English language proficiency (non-native English speakers only)

Non-degree applicants who wish to take graduate level courses may be required to submit additional materials. Please refer to our graduate admission requirements.

Registration is permitted on a space-available basis. Students must understand that they cannot graduate from any program or receive any degree in non-degree status. Non-degree students must follow and meet the same academic standards as degree-seeking students. Courses in which non-degree students enroll are subject to all regular tuition and fees. The university does not issue I-20s for non-degree study.

If a non-degree-seeking student wishes to change his or her status to degree-seeking, the student must reapply to the university through the regular admission process with the Admissions Office. A maximum of 12 credits from non-degree study can be transferred to a graduate level program at the university; a maximum of 18 credits from non-degree study can be transferred to an undergraduate level program at the university.

Policy on Student Cross Enrollment
Students self-identify as either an online or on-ground student on their university application. Traditional on-ground students may take one online course per term. Online students must seek permission to take an on-ground course from their advisor and registrar. If students want to change delivery mode they must fill out a change of program form with the Admission office.

7.3. Language of Instruction
VIU proudly maintains an international focus as one of its values, which is evident in the curriculum and among the wider learning community membership. In order to facilitate communication and instruction in a manner that would be conducive to all community members, English is used as the primary medium of instruction. Only under special circumstances, or when otherwise impossible, community members should strive to communicate in English.

7.4. Academic Advising
Academic advising includes, but is not limited to, assisting students in choosing a concentration, planning course selection and registration, tracking academic progress, developing an academic plan, advising the student on how to improve his or her GPA, and providing guidance on career planning. General academic advising procedures are to be followed by all VIU students. With their advisor’s help, students design and maintain an academic program that will fulfill general and specific degree or certificate requirements. It is the student’s responsibility to understand and satisfy all academic requirements. Since individual programs may establish their own advising processes, students should check with their school dean or director for any additional procedures.

Results of all advising sessions, including any recommendations or approved modifications, are entered into the student’s program of study.

Upon admission to a VIU program of study, but before the beginning of classes, students are encouraged to meet with their academic advisors. This initial advising session includes the following:

1. A review of the requirements for the student’s intended program of study.
2. A review of the student’s record-to-date to determine whether academic deficiencies exist that must be remedied.
3. A recommendation as to course selection for the upcoming semester/academic year.
4. A discussion of the career and/or graduate study options open to the student.
5. Further evaluation of the student’s suitability to major in the chosen discipline.

Students returning for study at VIU must schedule a meeting with their advisors to take place no later than one week before the start of classes. The meeting should accomplish at least 1, 2, and 3 above (4 and 5 as needed).

7.5. Semester and Credit System

VIU operates on a calendar in which the academic year is divided into two main semesters: Fall and Spring. Courses are also offered during the two shorter Summer terms. The Fall and Spring semesters span over 15 weeks each. The Summer term consists of two concentrated sessions consisting of 8 weeks each for academic courses. All online courses are offered in an 8-week format during the first and the second halves of the Fall, Spring and Summer semesters. The ESL program is offered in a 7-week term format.

Credit Hours

Federal regulation (§600.2 of the Department of Education Federal Code) defines a credit hour as the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or

2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

For VIU students to complete any program, they must complete a specified number of credit hours as required by their respective programs of study. One credit hour can be earned by successful completion of 15 contact hours of learning. One contact hour of learning is defined as a minimum of 50 minutes of supervised or directed instruction and appropriate break(s). For example, for three graduate credit hours, a student must receive 45 contact hours of classroom instruction or a combination of lab and class work. Two hours of lab is equal to one hour of classroom teaching. Additionally, three hours of internship or externship is equal to one hour of classroom teaching. The coursework in online courses is equivalent to the amount of coursework in the on-ground version of the same courses.

7.6. Grading System and Grade Point Average

Explanation of Grades: For graduate level courses, the grades of A, A-, B+, B, B-, C+, and C are passing grades, and C-, D+, D, D-, and F are failing grades. For undergraduate level courses, the grades of A, A-, B+, B, B-, C+, C, C-, D+, D, and D- are passing grades, and F is failing grade. The grade of S is a passing grade and the grade of U is a failing grade for ESL courses. The grade of “I” (Incomplete) is given to a student whose work has been of passing quality but who has, for compelling reasons, been unable to complete all of his or her required coursework within 8 weeks of the beginning of next term. For the purpose of SAP evaluation, a grade of “I” is included in the calculation of the CGPA as a failing grade and counts as credit hours attempted for calculating the completion rate. The quality of performance in any academic course is reported by a letter grade. These grades denote the character of work and are assigned grade points as follows:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Letter Grade</th>
<th>Grade Points</th>
<th>CGPA</th>
<th>Academic Standing</th>
</tr>
</thead>
<tbody>
<tr>
<td>94.00-100.00</td>

Grade Point Average (GPA): GPA is defined as the total grade points (PTS) divided by credit hours (HRS).

Cumulative GPA (CGPA): Is defined as the overall GPA attained so far in an ongoing education period.

The GPA is determined by dividing the total number of grade points earned in courses by the total number of credits attempted. The GPA is carried out to three digits past the decimal point (example 1.000). No rounding up or down shall be done to arrive at the GPA. When a course is repeated, only the highest grade earned is counted in the computation of the GPA and the CGPA for graduation.

Course Codes and Levels:

- ESL 0100-0899: English as a Second Language courses (ESL is a non-credit program)
- XXXX 100-499: Undergraduate level courses, classified by academic subject (alternatively division or area) and level of difficulty.
  - 100-199: General Education Courses*
  - 100-299: Lower Division Courses
  - 300-499: Upper Division Courses
- XXXX 500-999: Graduate level courses, classified by academic subject (alternatively division or area) and level of difficulty.

*NOTE: General Education Courses in the languages division may contain course numbers up to 305

Receiving Grades: Students will receive their grades by the close of business on the day grades are due to the Registrar’s Office. Students can view their grades via the student portal.

7.7. Grade Change Policy

Faculty members (instructors) are responsible for and have the authority to assign grades due to their position to evaluate the student’s academic work and performance in a course. It is the responsibility of the instructor to initiate any grade change. Grade changes from an incomplete must be submitted to the Registrar’s Office within 8 weeks of the beginning of next term as stated in the Academic Calendar. Other grade changes must be submitted to the Registrar’s Office no later than the end of the following semester. Any grade change submitted after the deadline will not be accepted by the Registrar’s Office.

Incomplete Grade (“I”): The grade of “I” (Incomplete) is given to a student whose work has been of passing quality but who has, for compelling reasons, been unable to complete all of his or her required coursework by the end of the semester. An “I” grade is not to be given for late submission of work. A grade of “I” must be evaluated and changed within 8 weeks of the beginning of next term. At this time, all work from the previous semester/session must be completed and submitted to the instructor. If a grade is not submitted within 8 weeks of the beginning of next term, the grade will be changed from “I” to “F” with the assumption that the student has not fulfilled his/her requirements for the course.

The impact of an “I” grade on a student’s satisfactory academic progress is as follows:

- A grade of “I” is included in the calculation of the CGPA as a failing grade and counts as credit hours attempted for calculating the completion rate.
- Courses that remain as an “I” at the end of 8th week of the beginning of next term will automatically become an “F” grade.
- Incomplete and Withdrawal grades may have an adverse effect on the successful course completion percentage of a student if he/she has been charged tuition for any part of the course.
- The “I” grade is only issued for verifiable, unavoidable reasons. Since the “I” grade extends enrollment in the course, requirements for satisfactory completion will be established through student/faculty consultation and documented on the student’s transcript.

Prior to the submission of a grade change from an Incomplete to an actual letter grade, an instructor must send a request for grade re-submission to the Registrar by email. Upon receiving the request, the Registrar enables the grade book to allow a grade to be amended by the instructor. Then, the instructor will make changes to the grade book on the faculty portal and re-submit the grade to the Registrar via the faculty portal.

ACADEMIC REGULATIONS
Grade Change: The following are examples of appropriate reasons for grade appeals:

- Arithmetical errors, typos, or incorrect calculations in the grade book
- Coursework submitted was excluded in grade calculation
- Grade appears to be based on impermissible factors such as discrimination, bias, or retaliation

The following are examples of denial reasons for grade appeals:

- To enable a student to graduate
- To allow a student to be awarded a scholarship, President's/Dean's List inclusion, or Latin honors
- To avoid receiving an academic warning, probation, or dismissal
- Personal issues that are not related to academics
- To comply with internal and/or external program standards
- Demonstration of not having completed course requirements

Grade Change Initiated by an Instructor: A grade can be changed by an instructor regardless of whether the change was a requested by the student. After final grades are submitted, an instructor must notify the Registrar by email at registrar@viu.edu and copy the dean/program director prior to making any changes or corrections to a grade. Upon request, the Registrar can enable the grade book to allow a grade to be amended by the instructor. Then, the instructor will make changes to the grade book on the faculty portal and re-submit the grade to the Registrar via the faculty portal.

Grade Change Initiated by a Student: A student who wishes to question a grade must contact the instructor of the course in writing within the first two weeks of the next semester/session. This includes the summer sessions, even if the student decides not to take course(s) during the summer sessions. The instructor will review the request and reply to the student regarding the decision. The school dean and Registrar may be copied on the written request and decision.

In the event that the instructor does not respond within 2 weeks or the issue remains unresolved after receiving the instructor's determination, the student may appeal in writing to the school dean within seven (7) days. The school dean will call a meeting with a grievance panel, which consists, at minimum, of the dean and/or the Program Designee, one faculty member, and the President or Vice President of the Student Union. The student and faculty member will be invited to present their sides of the issue to the grievance panel. The grievance panel will then determine an appropriate resolution; both the student and faculty member will be notified of the decision within seven (7) days. The decision made by the grievance panel is final and cannot be further appealed.

7.8. Repeat Courses (“R”)

If a student repeats a course and successfully completes the course, the following rules will apply in posting the student’s cumulative record:

1. The original grade, credit hours, and subsequent repetitions must be calculated as credits attempted in the successful course completion percentage for the purpose of satisfactory academic progress. As a general rule, all of the credit hours for which the university has collected any tuition, whether for a first time or repeated course, will be included in the computation of the successful course completion percentage.
2. The cumulative GPA will be based only upon the higher grade for the repeated course attempted.
3. The original grade for the course repeated under this rule will remain on the student’s academic record. The lower attempt will be excluded in the cumulative GPA calculation and the higher grade will be included in the cumulative GPA calculation.
4. Course repetition does not extend the Maximum Time Frame for completing a program of study. (Maximum Time Frame is the time allowed for a student to complete a course of study. This requirement is discussed in more detail in other sections.) The student must complete the program within the original Maximum Time Frame allowed for their program.

7.9. Transfer Credits (“TC”) Policy

When a student brings credits from other institutions, these credits will be noted with a grade of “TC” (Transfer Credits). Transfer credits (“TC”) are included in the calculation of the maximum allowable credits and completion rate requirements as credits attempted and credits earned for SAP calculation. Since these courses will not carry grades, they will have no effect on GPA calculations. The student’s new normal program length will be shortened to reflect the transfer courses and the Maximum Time Frame will be recalculated.

For a graduate degree-seeking transfer student, the majority of the credits required for a graduate degree program must be completed at VIU. For an undergraduate degree-seeking transfer student, a minimum of 50% of the credit hours must be completed at VIU. For example, a transfer student in VIU’s graduate degree program would have to complete at least 21 of the required 36 or 39 credit hours at VIU. This means that prior to enrollment, a graduate degree student may transfer up to 15 semester graduate credits from other accredited institutions and apply them towards a graduate degree program at VIU at the discretion of the institution. A graduate level certificate student may transfer up to 6 semester credit hours of
graduate credit hours from other accredited institutions and apply them towards a graduate level certificate program. A minimum of a 3.000 grade point average (“B”) out of 4.000 must have been earned on all graduate level transferable credit hours. An undergraduate degree student may transfer up to 60 semester credit hours from other accredited institutions and apply them to their program. An undergraduate level certificate student may transfer up to 12 semester credit hours and apply them towards an undergraduate level certificate program. A minimum of a 2.000 grade point average (“C”) out of 4.000 must have been earned on all undergraduate level transferable credit hours.

Transferable credit is considered upon the request of the student at the time of initial registration. Graduate students who want to apply courses taken at another college/university toward their VIU graduate degree must understand that the following criteria must be met in order to be considered for transfer of credit:

(a) Courses are from an accredited institution recognized by the US Department of Education, the Council on Higher Education Accreditation, or, for foreign institutions, the government or appropriately recognized organization accreditation;
(b) Courses are equivalent to VIU courses;
(c) Courses consist of at least 3 credit hours;
(d) Course grades are B or higher;
(e) Courses does not duplicate;
(f) Courses does not duplicate;
(g) Courses does not duplicate;
(h) The maximum number of transferable credits is 15 credits.

Undergraduate students who want to apply courses taken at another college/university toward their VIU undergraduate degree must understand that the following criteria must be met in order to transfer their credits:

(a) Courses are from an accredited institution recognized by the US Department of Education, the Council on Higher Education Accreditation, or, for foreign institutions, the government or appropriately recognized organization accreditation;
(b) Courses are equivalent to VIU courses;
(c) Courses consist of at least 3 credit hours;
(d) Course grades are C or higher;
(e) Courses does not duplicate;
(f) Courses does not duplicate;
(g) Courses does not duplicate;
(h) The maximum number of transferable credits is 60 credits.

**7.10. Dual Enrollment**

Being enrolled and studying at another institution during the time while also enrolled at VIU is considered to be dual enrollment. A student may transfer no more than two courses (up to 6 credit hours) from another institution; provided that the total number of transfer credit does not exceed the 50% threshold and the institution’s accreditation (or its equivalency) is verifiable, with the exception of a bachelor’s degree program which allows up to four courses (12 credit hours) to be transferred. The transfer credits are counted as part of the maximum transfer credits, and a prior written approval of the school dean/director is required.

**7.11. Transferability of Credits**

Transfer of Virginia International University credits to another institution is at the discretion of the receiving institution and no guarantee of credit transfer can be made by the university.

**7.12. Course Add/Drop**

After registration, a student may add a course at any time before the deadline specified in the Academic Calendar. Permission to add a course after the last day of the add/drop period requires proof of extenuating circumstances and the written approval of the school dean. Under no circumstances may a course be added after three (3) calendar days beyond the last day to add a course. Students wishing to drop a course must do so before the last day of the add/drop period. A course that is dropped before the specified date will not appear in the student’s academic record. To add or drop a course,
the student must fill out a Course Add/Drop/Withdrawal Form (available from the Registrar’s Office and on our website at www.viu.edu), obtain the school dean’s or the academic advisor’s signature, and submit the completed form to the Registrar’s Office.

7.13. Withdrawals (“W”)
Withdrawals after the Add/Drop Period:
A student who wishes to change his/her schedule by dropping a course may do so only during the add/drop period by submitting a Course Add/Drop/Withdrawal Form. Students may withdraw only after obtaining the school dean’s or academic advisor’s signature on the Course Add/Drop/Withdrawal Form. Forms must be received within the following timeframes to be considered withdrawal without penalty. Any withdrawal after that will result in failing grade.

<table>
<thead>
<tr>
<th>Course Length</th>
<th>Submission Window</th>
</tr>
</thead>
<tbody>
<tr>
<td>15 Weeks</td>
<td>Week 2 to end of Week 10</td>
</tr>
<tr>
<td>8 Weeks</td>
<td>Week 2 to end of Week 5</td>
</tr>
<tr>
<td>7 Weeks</td>
<td>Week 2 to end of Week 4</td>
</tr>
</tbody>
</table>

A grade of “W” (indicating official withdrawal) will be recorded on the student’s transcript. “W” grades are not calculated in the CGPA; however, they will be considered credit hours attempted if the student has incurred a financial obligation for the course. “W” grades affect the required minimum completion rate.

To withdraw from a course, the student must complete the relevant section of the Course Add/Drop/Withdrawal Form, obtain the school dean or academic advisor’s signature, and submit the completed form to the Registrar’s Office.

Withdrawals from the University: A student may withdraw from the university when circumstances beyond the student’s control make it impossible for him or her to complete their coursework for the semester. A student wishing to withdraw from the university must complete the relevant section of the Institutional Withdrawal Form, obtain the school officials’ signatures, and submit the completed form to the Registrar’s Office. If a student fails to attend for a period of 14 consecutive calendar days of classes for which he or she is registered in a given semester or term, the university will make a determination as to whether the student intends to return to classes or should be administratively withdrawn from his or her program of study. The student will receive a grade of “W” if he or she withdraws between the second and tenth week of the semester for 15-week courses, or between the second and fifth week of the session for 8-week courses. A student who does not withdraw from the university before the deadline will receive a failing grade or a letter grade based upon his/her performance in the course. The institutional refund policy is applied to determine if the institution is required to provide a refund to the student. Students who fail to register by the end of add/drop period are automatically considered to be officially withdrawn from the University.

7.14. Course Auditing (“AU”)
Students electing to take a course for audit must receive approval from the school dean prior to the completion of the add/drop period. Students may not make changes to their audit status after the add/drop period. A variety of factors go into reviewing and approving a course audit, including space available in the course, a student’s current and previous academic standing, the total number of courses in a program, a student’s visa status, and the number of remaining courses left in the program. A grade of “AU” is awarded for a course audit. The faculty member and the student must agree to the terms of a course audit including expectations for attendance, participation, and coursework to be completed. Failure to adhere to these requirements will result in failure with a grade of “F” for the course. Classes taken for audit may be repeated for credit. Audited courses do not count as credits attempted for the purpose of determining satisfactory academic progress. Therefore, they have no effect on the student’s GPA computation. Program and prerequisite policies apply to all auditing courses. Audited courses are subject to all regular tuition and fees. Tuition and fees are subject to change without prior notice.

7.15. Not Reported (“NR”)
An “NR” grade means that a grade has not yet been reported by an instructor at the time of grade processing. If an instructor does not submit grades by the deadline of grade submission, the Registrar’s Office records a temporary grade of “NR” to the student records. An actual letter grade will replace the NR grade once final grade processing takes place. “NR” grades are not calculated in the CGPA; however, they will be considered credit hours attempted for academic satisfaction progress calculation. At the time “NR” changes to the letter grade, the student’s SAP will be re-evaluated.

7.16. Program and Course Prerequisite Policy
Program and course prerequisites are designed to ensure that students registered for a course have the required minimum background for study of the course content. This background may be obtained through courses equivalent to the listed prerequisites or through other educational and professional experiences. In such cases, students should consult school
deans for advice and guidance. In those cases, a prerequisite may be waived with the appropriate approval. The approval of the waiver, to include documentation, will be maintained in the student records.

7.17. Attendance Policies

General Attendance Policy
The policy applies to all programs unless specified otherwise.

1. In recognizing the correlation between attendance and academic achievement as well as student retention, regular and punctual attendance is mandatory for students enrolled at Virginia International University. Instructors are required to maintain attendance for each class meeting.

2. In cases of absence, it is the student's responsibility to notify the course instructor prior to missing class. In cases where advance notification is not feasible (e.g., accident or emergency) the student must provide notification as soon as possible after the absence. This notification should include an explanation of why a notice could not be sent prior to the class.

3. Some absences can be determined as "excused absence" and permit the student to make up the missed coursework without penalty.

4. There are only five acceptable reasons for absence from a class or lab to be "excused absence":
   1) **Serious illness or serious medical emergencies on the part of the student or a dependent.** The student must submit a doctor's note explaining the reason for the absence to the instructor(s).
   2) **Family emergency.** The student must submit a note and supporting documents to their instructor explaining the reason for their absence. In case of a death in the family, a death certificate must be submitted as supporting documents.
   3) **Legal.** The student must submit the official documentation to their instructor explaining the reason for their absence.
   4) **Military duty.** Student must provide an official government, state, or civic document indicating conditions and length of required service.
   5) **Authorized and approved events which are of significant relation to course content as approved by the faculty member and/or dean.**

5. The instructor can require additional documentation substantiating the excused absence from the student and have established timeframe for such submission.

6. To make up the excused absence course work, the student must initiate communication with the instructor to determine the deadline and what will constitute as the make-up of the course work. The instructor must provide the student an opportunity to make up any in-class quizzes, exams, or other works that contribute to the final grade or provide a reasonable alternative by a date agreed upon by the student and instructor. The final decision on the content and deadline of the make-up must be communicated to the student in writing, by the instructor, via VIU campus email. If the student does not follow the makeup plan (e.g., no show at the prearranged time or missed the deadline for makeup work), they forfeit their rights for further make up of that work. Timely communication between the student and instructor is important.

7. Absences for unexcused reasons will result in not being able to make up in-class work, quiz, exam or other work and may negatively affect the student's final course grade. The instructor is under no obligation to provide an opportunity to a student that has unexcused absences.

8. Students with more than 4 absences (e.g., 5 or more excused and/or unexcused) in a course per semester will result in a failing grade for the course. F-1 visa students must continue attending classes to maintain their visa status even if they have missed more than 4 classes and will be receiving a failing grade.

9. The Registrar’s Office will notify a student and his/her academic advisor when he/she misses the third class (excused and/or unexcused). The notification is sent to the student VIU campus email. However, students are responsible for monitoring their own attendance records on Student Portal. Failure to receive the notification does not negate their attendance status.

10. Students must maintain at least 75% attendance at any given time during the semester, regardless of whether the absence is excused or unexcused. Failure to do so will result in further warning from the Registrar’s office. F-1 visa students will be reported to the International Student services Office for further action. F-1 visa students may lose their status if the attendance rate does not improve.

11. If the student feels that he or she has been unfairly denied an excused absence, the student may appeal to the School Dean who will consider the case and attempt to resolve the problem. If the case cannot be satisfactorily resolved at that level, a final appeal may be made to the grievance panel.

12. **Tardiness.** All students are expected to arrive on-ground classes on time. Late attendance is disruptive to both the instructor and students. If a student is tardy for an on-ground class more times than what the instructor(s) consider acceptable, the instructor will report the issue to the student's school dean for appropriate disciplinary action. Three class sessions of tardiness per course whether arriving late or leaving early or a combination of both will be counted as
one unexcused absence. The conversion is made in Registrar’s Office based on attendance records submitted by instructor.

13. A student who wishes to question their attendance must contact the instructor of the course in writing before the course ends or within the first two weeks of the next semester/session. This includes the summer sessions, even if the student decides not to take course(s) during the summer sessions. The instructor will review the request and reply to the student regarding the facts of the student’s attendance record. The school dean and Registrar may be copied on the written request and facts regarding the attendance record.

In the event that the instructor does not respond within 2 weeks or the issue remains unresolved after receiving the instructor’s determination, the student may appeal or request exception to the attendance policy in writing to the school dean within seven (7) days. The school dean will call a meeting with a grievance panel, which consists, at minimum, of the dean and/or the Program Designee, one faculty member, and the President or Vice President of the Student Union. The student and faculty member will be invited to present their sides of the issue to the grievance panel. The grievance panel will then determine an appropriate resolution; both the student and faculty member will be notified of the decision within seven (7) days. The decision made by the grievance panel is final and cannot be further appealed.

ESL Attendance Policy

Our Intensive English Program’s attendance policy requires all students to attend their scheduled classes and to arrive to class on time. Missing more than three classes (excused and/or unexcused) that meet 70 hours per term or two classes that meet 35 hours per term may result in losing your visa status. VIU maintains meticulous attendance records and will cancel students’ I-20s if they cannot maintain their visa status. Furthermore, low attendance will have a negative effect on a student’s grades and may result in a failing grade. Failing more than one course per semester means that the student may have to repeat the whole level.

In cases of absence, it is the student’s responsibility to notify the course instructor prior to missing the class. In cases where advance notification is not feasible (e.g. accident, or emergency), the student must provide notification by the next class meeting after the absence. This notification should include an explanation of why a notice could not be sent prior to the class.

1. Some absences can be determined as “excused absence” and permit the student to make up the missed coursework without penalty.

2. There are only three acceptable reasons for absence from a class or lab to be “excused absence”:
   1. **Serious illness or serious medical emergencies on the part of the student or a dependent.** The student must submit a doctor’s note explaining the reason for the absence.
   2. **Family emergency.** The student must submit a note and supporting documents explaining the reason for their absence. In case of a death in the family, a death certificate must be submitted as supporting documents.
   3. **Legal.** The student must submit the official documentation explaining the reason for their absence.

3. To make up the excused absence coursework, the student must initiate communication with the instructor to determine the deadline and what will constitute as the makeup of the course work. The instructor must provide the student an opportunity to make up any quiz, exam or other work that contributes to the final grade or provide a reasonable alternative by a date agreed upon by the student and instructor.

4. To submit an excused absence, fill out the “excused absence documentation submission form” from the red folder opposite room 232. Include any doctor’s notes and all supporting documentation. Give all documents to either associate director in room 232. Do not give any documents to your teacher.

5. One unexcused absence (one class absence per session) can be made up by completing a pre-arranged two-hour session in the tutoring center. Prior arrangements must be made with your teacher and the tutoring center administrator.

6. Absences for unexcused reasons will result in not being able to make up work, quizzes, exams or other work and may negatively affect the student’s final course grade.

Attendance in Online Classrooms

Regardless of the modality of instruction, attendance is based upon a student’s active participation and engagement in academically related activities that can be documented. For courses offered in an online format, documentable, academically related activities are defined in the course syllabus via the course assignments/requirement’s. Attendance is attributed considering both the timely and meaningful completion of these academically related activities. Examples of academically related activities could include, but are not limited to the following:

- Course assignments and discussion forums outlined on the syllabus
- Participation in required synchronous sessions as outlined on the syllabus
• Submission of timesheets for an internship or practicum

In order to receive attendance for a given week, a majority of the academically related activities must have been completed meaningfully and on time.

Meaningful completion of work includes meeting the minimum requirements for academic work as outlined in the course syllabus. The following are examples of activities that are not acceptable for the purpose of attendance in the online classroom because they do not demonstrate meaningful completion or participation in academically related activities:
• Student logging into the course page
• Student posting content unrelated to a discussion form (for example, posting an unrelated bio or photo), or simply posting a single sentence as a response to a prompt
• Student communicating with a professor from the learning management system or via email
• Student downloading files or watching/listening to media files on the course page

Timely submission of work includes the completion of work or participation in an activity by the due date defined in the course syllabus. Students are considered to have participated on time if participation/completion is done by the due date identified in the syllabus.

Attendance for online courses is recorded each week on Faculty Portal. The last day of attendance for an online class is defined as the last day in which the student was engaged in an academically related activity that can be documented.

7.18. Satisfactory Academic Progress (SAP) Policy
The Satisfactory Academic Progress (SAP) Policy monitors and measures whether the students are maintaining satisfactory academic progress in their educational programs. The standards and requirements of satisfactory academic progress apply to all enrolled students.

The SAP Policy contains the following sections:
  7.18.1. President’s and Dean’s List
  7.18.2. Graduation Requirements
  7.18.3. Latin Honors
  7.18.4. Satisfactory Academic Progress Standards
    7.18.4.1. Maximum Time Frame (MTF)
    7.18.4.2. Qualitative Standards – CGPA
    7.18.4.3. Quantitative Standards – CR
    7.18.4.4. SAP Requirement Charts
    7.18.4.5. Academic Warning and Notification
    7.18.4.6. Academic Dismissal and Notification
    7.18.4.7. Procedure to Appeal an Academic Dismissal
    7.18.4.8. Academic Probation
    7.18.4.9. Re-entry (Student Withdrawal and Readmission Policy)
    7.18.4.10. Special Letter Grades and SAP evaluation
    7.18.4.11. Remedial Courses and SAP evaluation
    7.18.4.12. Changing or Adding Program, Concentration or Specialization and SAP evaluation
    7.18.4.13. Satisfactory Progress Requirement for ESL Program

7.18.1. President’s and Dean’s Lists
The President’s and Dean’s Lists are compiled at the end of the Fall and Spring semesters to recognize VIU’s high-achieving academic students in degree programs. The list consists of names of students who meet the criteria for that semester as outlined below.

President’s List

<table>
<thead>
<tr>
<th></th>
<th>Requirements</th>
<th>Undergraduate Program Students</th>
<th>Graduate Program Students</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Minimum GPA</td>
<td>4.00</td>
<td>4.00</td>
</tr>
<tr>
<td>2</td>
<td>Minimum credit hours attempted and earned</td>
<td>12</td>
<td>9</td>
</tr>
<tr>
<td>3</td>
<td>Minimum grade</td>
<td>A</td>
<td>A</td>
</tr>
<tr>
<td>4</td>
<td>Other requirements</td>
<td>• No I, U or F</td>
<td>• Only required grades for the intended program are considered.</td>
</tr>
</tbody>
</table>

ACADEMIC REGULATIONS
## Dean's List

<table>
<thead>
<tr>
<th>#</th>
<th>Requirements</th>
<th>Undergraduate Program Students</th>
<th>Graduate Program Students</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Minimum GPA</td>
<td>3.75</td>
<td>3.90</td>
</tr>
<tr>
<td>2</td>
<td>Minimum credit hours attempted and earned</td>
<td>12</td>
<td>9</td>
</tr>
<tr>
<td>3</td>
<td>Minimum grade</td>
<td>C+</td>

<td>• No I, U or F</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Only required grades for the intended program are considered.</td>
<td></td>
</tr>
</tbody>
</table>

A letter from either the Office of the President or the Dean’s Offices is sent to students noting their accomplishments and placement on the list. The President’s and Dean’s list are published on VIU’s website twice a year.

### 7.18.2. Graduation Requirements

It is a student’s responsibility to notify the Registrar’s Office of intent to graduate. To be considered for graduation, a student must submit an “Application for Graduation Form”, a complete “Degree Audit Form” and meet all academic requirements.

**Degree Requirements:** Students should meet the following minimum requirements to qualify for a degree:

<table>
<thead>
<tr>
<th></th>
<th>Graduate Degree</th>
<th>Undergrad. Degree</th>
<th>Graduate Certificate</th>
<th>Undergrad. Certificate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum Passing Grade Per Course</td>
<td>C</td>
<td>D-</td>
<td>C</td>
<td>D-</td>
</tr>
<tr>
<td>CGPA</td>
<td>3.00</td>
<td>2.00</td>
<td>3.00</td>
<td>2.00</td>
</tr>
<tr>
<td>Total Required Credit Hours</td>
<td>36 or 39*</td>
<td>120</td>
<td>18</td>
<td>24</td>
</tr>
</tbody>
</table>

* Master of Education requires 39 credits. All other master’s degree programs require 36 credits.

**Fee:** The fee for graduation is $150 for all undergraduate and graduate students if paid by the deadline, or $200 if paid after the deadline. The graduation fee is non-refundable.

**Records:** Records are sealed at graduation. No changes may be made to the academic record (transcript) after a degree has been awarded.

**Cancellation of Degree Application:** Students who cancel their application for graduation, or whose applications are cancelled by the Office of the Registrar, must reapply for graduation in order to be considered for a subsequent semester.

### 7.18.3. Latin Honors

Latin honors are given to graduate and undergraduate degree recipients who have achieved a high cumulative grade point average (CGPA) in their programs. The notation will appear on the diploma as well as on the transcript. Because transfer credits do not carry grades and therefore have no effect on GPA calculations, transfer courses are not considered for Latin honors.

The requirements for graduation with honors are as follows:

<table>
<thead>
<tr>
<th>Graduate Degree Program</th>
<th>Degree GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.950 or higher</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.900 - 3.949</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.800 - 3.899</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Undergraduate Degree Program</th>
<th>Degree GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.800 or higher</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.700 - 3.799</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.600 - 3.699</td>
</tr>
</tbody>
</table>
Satisfactory Academic Progress Standards

The satisfactory academic progress (SAP) standards are measured after the final grades are recorded at the end of Fall, Spring, Summer I and Summer II, which are called "evaluation points". SAP is measured by the following three criteria.

1. Maximum Time Frame for Program Completion (MTF)
2. Qualitative Standard: a required minimum cumulative grade point average (CGPA)
3. Quantitative Standard: a required minimum completion rate (CR)

Students who fail to meet any of the above mentioned criteria will be considered not meeting the SAP requirements and will be put on Academic Warning or Academic Dismissal.

At the time of SAP review, students will fall into one of the following categories:

- **GOOD STANDING**: Student has met the required SAP and is eligible for aid for the following semester or academic year.
- **ACADEMIC WARNING**: Student has not made progress standards for the first time; the student will remain eligible for financial aid for one semester.
- **ACADEMIC DISMISSAL**: Student fails to meet the required SAP at the end of an academic warning period or at the end of an academic probation period; the student is no longer eligible for Financial Aid. Please see re-establishing eligibility below.
- **ACADEMIC PROBATION**: The student will remain eligible for financial aid for one semester or length of Academic Plan. At the next evaluation point, if the student continues to not meet SAP, then the student will not be eligible for financial aid.

### 7.18.4.1. Maximum Time Frame (MTF)

Students at VIU must complete their program of study within 1.5 times the Normal Program Length (NPL) as measured in semester credit hours attempted. This is called the Maximum Time Frame (MTF) and is formulated as MTF = 1.5 x NPL. For example, the MTF for an undergraduate degree program is 180 credits MTF = 1.5 x NPL = 1.5 x 120 credits = 180 credits.

Credit hours attempted is defined as any clock or credit hour for which a student has incurred a financial obligation. All registered hours at the end of the add/drop period will be counted in the MTF determination. In addition, all transfer credit hours accepted from other institutions will be counted in the MTF.

*Beyond the program prerequisites.*

<table>
<thead>
<tr>
<th>Program of Study</th>
<th>NPL in credits</th>
<th>MTF credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate Certificate Programs</td>
<td>24</td>
<td>36</td>
</tr>
<tr>
<td>Graduate Certificate Programs</td>
<td>18</td>
<td>27</td>
</tr>
<tr>
<td>Undergraduate Degree Programs</td>
<td>120</td>
<td>180</td>
</tr>
<tr>
<td>Master of Education</td>
<td>39*</td>
<td>57*</td>
</tr>
<tr>
<td>All Other Graduate Degree Programs</td>
<td>36*</td>
<td>54*</td>
</tr>
</tbody>
</table>

If a student is unable to complete the program within one of the aforementioned MTF allowed in credits, the individual will be dismissed from the program, no academic warning or probation is allowed at this point, and the student will not be eligible to receive the original credential (e.g., bachelor's degree).

### 7.18.4.2. Qualitative Standards - CGPA

Students must meet the qualitative standard of a minimum cumulative grade point average (CGPA) requirement at each SAP evaluation point, as shown in the “SAP Requirement Charts” by program level below.

Undergraduate degree program students must have a minimum cumulative grade point average (CGPA) of 2.00 and graduate degree program students must have a minimum CGPA of 3.00 at the end of the second academic year and at the end of each semester thereafter.

Undergraduate certificate program students must have a minimum cumulative grade point average (CGPA) of 2.00 and graduate certificate program students must have a minimum CGPA of 3.00 at the end of academic year and at the end of each semester thereafter.

A student who fails to meet SAP standards for the first time will be placed on "Academic Warning" status. A student who fails to meet SAP standards at the end of the "Academic Warning" period will be dismissed (Academic Dismissal) from the
program and the university, with the option to appeal if mitigating circumstance(s) resulted in the dismissal. If the appeal is approved, the student will be placed on "Academic Probation" with an approved Academic Plan and expected to improve academic standing within the given timeframe in the Academic Plan.

There are only certain mitigating circumstance(s) that can be considered for an appeal. Please refer to the Procedure to Appeal Academic Dismissal for the exhaustive list.

7.18.4.3. Quantitative Standards – CR
Students must meet the quantitative standard of a minimum completion rate (CR) requirement at each SAP evaluation point, as shown in the “SAP Requirement Charts” below, by program level.

A student who fails to meet SAP standards for the first time will be placed on “Academic Warning.” A student who fails to meet SAP standards at the end of the “Academic Warning” period will be dismissed from the program and the university, with the option to appeal if mitigating circumstance(s) resulted in the dismissal. If the appeal is approved, the student will be placed on “Academic Probation” with an approved Academic Plan and expected to improve academic standing within the given timeframe in the Academic Plan.

There are only certain mitigating circumstance(s) that can be considered for an appeal. Please refer to the Procedure to Appeal Academic Dismissal for the exhaustive list.

7.18.4.4. SAP Requirement Charts

1. Undergraduate Degree Programs

<table>
<thead>
<tr>
<th>Credits Attempted</th>
<th>Required Minimum CGPA</th>
<th>Required Minimum CR</th>
<th>Result if SAP Not Met</th>

7.18.4.5. Academic Warning and Notification
Failure to achieve the required minimum CGPA and/or the required minimum completion rate at the required evaluation point will result on Academic Warning (See the “SAP Requirement Charts”). The academic warning period is one semester. A notification to students on Academic Warning will be sent no later than the end of the course add/drop period of next semester/session. The notification is sent to the students VIU campus email. However, students are responsible for monitoring their own academic progress. Failure to receive the notification does not negate the student’s SAP result and its implications.

Students on Academic Warning are required to meet with their academic advisor to register for the next semesters, and must work towards improving his or her CGPA and/or completion rate to meet the minimum SAP requirements by the end of next semester to be in good academic standing.

If a student fails to meet the SAP requirements at the end of the Academic Warning period, the student will be dismissed from the program and the university, with the option to appeal if mitigating circumstance(s) resulted in the dismissal. If the appeal is approved, the student will be placed on Academic Probation. Refer to the Procedure for Appealing Academic Dismissal and Academic Probation section for further detail on this process.

7.18.4.6. Academic Dismissal and Notification
There are four (4) reasons that a student can be on Academic Dismissal due to the SAP requirements:

1) Failure to meet the required SAP standards at the end of an Academic Warning period
2) Failure to meet the required SAP standards at the end of an Academic Probation period
3) Failure to comply with Academic Plan during or at the end of an Academic Probation period
4) If the review of a student’s SAP evaluated at any time indicates that it is mathematically impossible for the student to meet the minimum requirements of the Standards of SAP policy at the next mandatory evaluation point the result will be an Academic Dismissal from the program and the university.

The Academic Dismissal will be notified to the students by Registrar’s Office via VIU campus email within 5 business days after the final grades are posted. However, all students are responsible for monitoring their own academic progress. Failure to receive the notification does not negate the student’s SAP result and its implications.

The student who is dismissed may appeal to the Office of Academic Affairs within 10 business days of the notification by writing if a mitigating circumstance resulted in the dismissal. Refer to the “Procedure for Appealing Academic Dismissal” section below for more detail on this process. F-1 students dismissed from the program and the university and/or lost their appeal will have their F1 visa status terminated.

7.18.4.7. Procedure for Appealing Academic Dismissal
A student being dismissed for not meeting SAP requirements can appeal the Academic Dismissal if they have mitigating circumstance(s) that contributed to the dismissal. The following is a list of conditions that can be considered as mitigating circumstances which have negatively impacted academic progress:

- Student illness or injury that lead to hospitalization or documented serious illness or injury of the student (including mental health issues)
- Death of an immediate family member (a parent, spouse, sibling or child)
- Illness of an immediate family member where the student is the primary caretaker or the family member is the primary financial support
- Work-related major changes during the period (including Military deployment)
- Natural disaster
Any consideration of the conditions outside of the list provided should be discussed with the Office of Academic Affairs. The appeal must be submitted to the Office of Academic Affairs within 10 business days from the notification, in writing, and must include following documents:

1. Letter of appeal, explaining the mitigating circumstances that resulted in the academic dismissal, explanation on how the circumstance have been remedied or changed to ensure that he or she will be able to meet SAP requirements
2. Supporting documentation of the mitigating circumstances, and its remediation or change.

If a student is dismissed for the second time during or after an academic probation, due to not meeting the SAP requirement and/or the Academic Plan goals, the student will not be able to appeal the second dismissal immediately unless the mitigating circumstance claim that affected low academic progress is different than the one indicated in the first approved appeal.

Title IV financial aid student recipients cannot appeal two times in a row even if the mitigating circumstance that resulted in the academic dismissal is different than the one indicated in the first approved appeal. Two times in a row is defined as submitting an appeal for a semester immediately following an appealed semester whether submitted, approved, or denied. After the second dismissal, if the student wishes to enroll back at VIU, for the same program or a different program, the student must sit out one year, after which the student will be eligible to re-appeal and if approved resume study at VIU under Academic Probation.

The appeal process is the same, and if approved, Academic Probation requirements apply. In other words, the student must meet the standards of SAP by complying with the Academic Plan, and successfully meet the SAP requirement by the end of the probation period. (See the “Academic Probation” section for further detail.) If the second re-entry appeal is denied, no additional appeals may be allowed and the student is permanently dismissed from the university. No consideration of a dismissal appeal will be given until all financial holds have been removed. The SAP Appeal Committee will not review an appeal if the financial holds have not been removed prior to the deadline.

7.18.4.8. Academic Probation
A student whose academic dismissal appeal is approved by the SAP Appeals Committee will be placed on “Academic Probation” and can continue his or her study under the condition of an approved Academic Plan. The statement “Academic Probation” will be entered into the student’s permanent record.

Academic probation is one semester with the exception of an additional semester if it is approved in the Academic Plan. The Academic Plan is a written agreement between a student and an academic advisor in order for the student to improve his/her academic progress. The academic plan includes a course schedule plan during the Academic Plan period to ensure that the student has a realistic achievable academic plan. It may include the courses that need to be repeated during the probationary period. The plan also includes the required minimum CGPA and minimum completion rate that the student must achieve at the end of Academic Plan period.

If the student on academic probation attains the minimum SAP requirement at the end of or during the probationary period, the Academic Probation status will be lifted and the student will be considered in a good academic standing. If a student fails to meet the SAP requirement at the end of the probationary period, or fail to follow and meet the Academic Plan goals, the student will be dismissed from the program and the university. “Academic Dismissal” will be entered into the student’s permanent record.

7.18.4.9. Re-entry (Student Withdrawal and Readmission Policy)
Withrawal: Students who have voluntarily withdrawn from the university in good standing may apply to be re-admitted into the university through the regular VIU admission process. If accepted, they may re-enroll and become a VIU student once again. Students who were on Academic Warning, or Academic Probation at the time of their voluntarily withdrawal, the student will be placed back on those status and same requirements will apply, upon successful re-admission. The students who were on Academic Probation will be conditionally accepted with the understanding that the student will submit a revised Academic Plan, approved by their academic advisor, to the Registrar’s Office to complete enrollment.

Termination Due to Academic Dismissal: Students must successfully complete the regular admission process first to receive conditional acceptance. After which the student must successfully appeal the Academic Dismissal to be enrolled back in class. Refer to the Procedure for Appealing Academic Dismissal section.

Termination Due to Non-Academic Reasons: Students who have had their status as a student involuntarily terminated due to non-academic reasons must apply to be re-admitted through the VIU admission process. A written petition may be
requested during the re-admission process. All students who have had their student status terminated for any reason must clear all outstanding financial balances with the Accounting Office prior to applying for re-admission into the university.

**F-1 Visa Reinstatement:** Students who have failed to maintain their F-1 visa status for any reason must apply for reinstatement of their F-1 status with the U.S. Citizenship and Immigration Services (USCIS) before they can enroll at the university. VIU will evaluate the circumstances in which the student lost the visa status and only those who were terminated for reasons beyond the student’s control will be considered for reinstatement. Students who have been out-of-status for more than five months are not eligible to apply for reinstatement within the United States. Student must leave the U.S and reapply for a new I-20 in order to resume full time attendance.

Students who have their visa status terminated will need to clear all financial obligations with the VIU Accounting Office before formally beginning the reinstatement process. Students who have their visa status terminated while studying at VIU will not be able to continue their studies during the semester in which their status was terminated. Students will instead may apply for reinstatement and continue their studies during the semester following the termination. Applying for reinstatement does not guarantee the terminated status will be reversed. This decision is made solely by USCIS.

7.18.4.10. Special Letter Grades and SAP evaluation

**Incomplete Grade ("I")**
For the purpose of SAP evaluation, a grade of “I” is included in the calculation of the CGPA as a failing grade and counts as credit hours attempted for calculating the completion rate. Courses that remain as an “I” at the end of 14 calendar days after the final grade submission date will automatically become an “F” grade.

If the student’s SAP is not met while receiving an “I” grade, SAP will be re-evaluated after the “I” grade changes to an actual letter grade.

**Repeat Course ("R")**
The original grade, credit hours, and subsequent repetitions must be calculated as credits attempted in the completion rate and MTF for the purpose of SAP evaluation. When a course is repeated, the lower grade will be excluded in the cumulative GPA calculation and the higher grade will be included in the cumulative GPA calculation.

**Non-Punitive Grades**
“AU”, “TC”, “W”, “NR” grades are considered as Non-Punitive Grades.

**Audited Course ("AU")**
Audited courses do not count as credits attempted for the purpose of determining satisfactory academic progress and have no effect on the student’s CGPA and Semester GPA computation.

**Transfer Credits ("TC")**
When a student brings credits from other institutions, these credits will be noted with a grade of “TC” (Transfer Credits). Transfer credits ("TC") are included in the calculation of the maximum allowable credits and completion rate requirements as credits attempted and credits earned for SAP calculation. Since these courses will not carry grades, they will have no effect on GPA calculations. The student’s new normal program length will be shortened to reflect the transfer courses and the Maximum Time Frame will be recalculated.

**Withdrawal ("W") – Withdraw without penalty**
A student who wishes to change his/her schedule by dropping a course may do so only during the add/drop period by submitting a Course Add/Drop/Withdrawal Form. Students may withdraw only after obtaining the school dean’s or academic advisor’s signature on the Course Add/Drop/Withdrawal Form. Forms must be received within the following timeframes to be considered withdrawal without penalty. Any withdrawal after that will result in failing grade

<table>
<thead>
<tr>
<th>Course Length</th>
<th>Eligible Timeframe for “W”</th>
</tr>
</thead>
<tbody>
<tr>
<td>15 Weeks</td>
<td>Week 2 to end of Week 10</td>
</tr>
<tr>
<td>8 Weeks</td>
<td>Week 2 to end of Week 5</td>
</tr>
<tr>
<td>7 Weeks</td>
<td>Week 2 to end of Week 4</td>
</tr>
</tbody>
</table>

A grade of “W” (indicating official withdrawal) will be recorded on the student’s transcript. “W” grades are not calculated in the CGPA; however, they will be considered credit hours attempted if the student has incurred a
financial obligation for the course. “W” grades affect the required minimum completion rate. Please refer to the
Withdrawals ("W") section in the academic catalog for further information.

Not Reported (“NR”)
An “NR” grade means that a grade has not yet been reported by an instructor at the time of grade processing. “NR”
grades are not calculated in the CGPA; however, they will be considered credit hours attempted for academic
satisfaction progress calculation. At the time “NR” changes to the letter grade, the student's SAP will be re-
evaluated.

Non-Credit Courses (ESL Courses)
The grade of “S” (Satisfactory) is a passing grade and the grade of “U” (Unsatisfactory) is a failing grade for ESL courses.
ESL courses do not affect CGPA or Completion Rate calculations.

7.18.4.11.Remedial Courses and SAP evaluation
Remedial and/or Program Prerequisite Courses
Remedial and/or program prerequisite courses needed to meet certain conditions of admission to the program do not apply
towards any degree requirements. Therefore, those courses do not affect CGPA, Completion Rate and Maximum Time
Frame calculation.

Extended-Enrollment
Virginia International University does not offer extended enrollment.

7.18.4.12.Changing or Adding Program, Concentration or Specialization and SAP Evaluation
Change of Program, Concentration, or Specialization
When a student changes his or her program, the grades earned in the first program will be recorded as earned if the courses
are applicable to the new program and will affect the student’s new program CGPA, Completion Rate and MTF calculation.
Changing from online program to on ground program, or vice versa, of the same degree program will not be considered a
change of program.

To change a program, concentration, or specialization, a student must:
1. Submit a Change of Program or Concentration/Declaration Form
2. Meet with the current program school dean for acknowledgement
3. Meet with the new program school dean for advising
4. Meet with a representative of VIU’s Admissions Office to determine if extra documentation is required and to request
for a transfer credit evaluation if applicable

If a student being on academic warning or academic probation changes a program, the SAP will be re-evaluated for the
new program. If a student is dismissed from the previous program, he or she must appeal with a mitigating circumstances
and the appeal must be approved in order to start the new program. Such student will start on Academic Probation in the
new program.

Additional Program, Concentration or Specialization
When a student graduates from a program at VIU and enrolls in another program, concentration, or specializa
tion the grades
used in the CGPA of the previous curriculum, if applicable to the new curriculum, will be recorded as grades earned, and
will be applied to the student's new curriculum CGPA, Completion Rate and MTF calculation.

7.18.4.13.Satisfactory Progress Requirement for ESL Program
Evaluation Points
Students enrolled in the ESL program are assessed at each level to determine satisfactory progress. Full-time ESL students
are expected to pass a level in each term. Part-time ESL students are expected to pass a course(s) in each term they
registered for.

ESL Academic Warning
A full-time ESL student who fails to pass a level in the ESL program will receive an academic warning. A part-time ESL
student who fails to pass a course(s) will receive an academic warning.

ESL Academic Probation
A full-time ESL student with an Academic Warning status will be placed on ESL Academic Probation if s/he fails to pass a
level in the next consecutive term. A part-time ESL student with an Academic Warning status will be placed on ESL
Academic Probation if s/he fails to pass a course(s) in the next consecutive term.
ESL Academic Dismissal

A full-time ESL student who is on Academic Probation must pass the current level or s/he will be dismissed and the statement "Academic Dismissal" will be entered into the student’s permanent record. A part-time ESL student on Academic Probation must pass all courses in order to avoid being dismissed from the program and the university. F-1 students dismissed from the program and the university will lose their F-1 visa status if they do not appeal or the result of appeal is denied by the SAP Appeals Committee.

Procedure for appealing ESL Probation or Dismissal

A student being dismissed for violating Satisfactory Academic Progress can appeal if they have mitigating circumstance(s) that contributed to the dismissal. The mitigating circumstance(s) must be supported with sufficient documentations.

The following is a list of conditions that can be considered as mitigating circumstances which have negatively impacted academic progress.

- Student illness or injury that lead to hospitalization or documented serious illness or injury of the student (including mental health issues)
- Death of an immediate family member (a parent, spouse, sibling or child)
- Illness of an immediate family member where the student is the primary caretaker or the family member is the primary financial support
- Work-related major changes during the period (including Military deployment)
- Natural disaster

Any consideration of the conditions outside of the list provided should be discussed with the Office of Academic Affairs. The student must appeal to the Office of Academic Affairs within 10 business days from the notification. The appeal must be in writing and must include following documents:

1. Letter of appeal, explaining the mitigating circumstances that resulted in the academic dismissal, explanation on how the circumstance have been remedied or changed to ensure that he or she will be able to meet SAP requirements
2. Supporting documentation of the mitigating circumstances, and its remediation or change.

7.19. Leave of Absence (LOA)

From time to time, students may seek authorization for a leave of absence (LOA) from the university to temporarily interrupt a program of study. A LOA allows for a student to suspend his or her enrollment for a brief period of time rather than withdrawing from the program and re-enrolling. In the case of prolonged illness or accident, death in the family, or other special circumstances that make attendance impossible or impractical, a LOA may be granted to the student if requested in writing by the student.

Instructions

1) A student seeking a LOA must consult with his/her academic dean, and submit a LOA form to Registrar’s Office. The request must be signed and dated with the reason for LOA.
2) Upon receiving the LOA request and form, the university will determine if there is a reasonable expectation that the student will return to the university and resume his/her study. The university will grant the request or deny it, and inform the student by email.
3) The LOA cannot exceed 180 days in any 12-month period. Students with F-1 visa must contact the International Student Advisor for consultation prior to requesting for a LOA to ensure compliance with federal immigration regulations [8 C.F.R.§214.2(f)(6)(iii)(B)].
4) The student must report to Registrar’s Office upon returning from the approved LOA on/or prior to the expected return date stated on the LOA form.
5) If a student does not resume attendance at the university on/or before the end of an approved LOA, the student will be considered withdrawn from the institution. The date that the LOA was approved should be considered the last date of attendance for refund purposes.

7.20. Learning Beyond the Classroom

VIU embraces a learning model that allows for continued learning beyond just in-class contact time through use of our learning management system (LMS). The LMS allows for facilitated growth opportunities used to supplement the traditional in-class experience. Unless otherwise specified, all courses are fully conducted in their specified modality/format to include the completion of 15 lecture; 30 lab; or 45 practicum/externship hours per credit. Outside, or supplemental work through the LMS would be in addition to these hours. All courses at VIU utilize the LMS for tasks like assignment submission and other out-of-class activities aimed at engagement beyond the classroom. These additional learning opportunities can include guest lectures, discussion forums, or other similar means of interacting with the course outside of the traditional lecture time. All such work/activities are conducted through the LMS in addition to the traditional contact time in class.
8. STUDENT RIGHTS & RESPONSIBILITIES

Students at VIU enjoy certain rights but also have certain responsibilities. The submission of an application for admission to VIU represents a voluntary decision on the student’s part to participate in the programs offered by the institution pursuant to its policies, rules, and regulations. The university’s approval of that application, in turn, represents the extension of a privilege to join VIU and remain a part of the university so long as the student meets the required academic and social standards of VIU.

VIU is a learning community with specific expectations concerning the conduct of its students. The university strongly believes that students are adults who are expected to take personal responsibility for their own conduct. Acceptance into any of the university's programs implies that the student has the following rights and responsibilities:

1. To pursue his/her educational goals through the resources and the opportunities made available to him/her by the university.
2. To challenge any university ruling or other sanction by appealing to due process, except as hereinafter provided.
3. To inquire, express views, and assemble with others as long as the student does not interfere with the rights of others or the university’s effective operation.
4. To receive a professional and non-biased review of his/her academic ability and performance.
5. To recognize the safety and protection of property and the continuity of the educational process.
6. To help the university maintain good relations with its neighbors and the surrounding community by, among other things, obeying all traffic regulations, refraining from causing any disturbance, and respecting private property.

8.1. Grounds for Warning, Suspension, or Dismissal

Any of the following may be considered as cause for probation, suspension, or dismissal:

1. Academic dishonesty of any kind
2. Failure to maintain satisfactory academic progress
3. Violation of institutional rules and regulations
4. Failure to maintain financial obligations

8.2. Academic Dishonesty Policy and Procedures

Academic Integrity and Code of Academic Excellence

In the pursuit of academic excellence, it is the policy that all parties associated with Virginia International University (VIU) conduct themselves with a high level of honesty and responsibility in regard to academic scholarship. VIU is committed to the establishment of and adherence to high academic and integrity standards in order to foster reputations that students, faculty, staff, and alumni can be proud of. This reputation directly correlates to the value of the degrees conferred by the institution and is viewed with utmost importance. This requires that students understand the importance of integrity and adhere to the highest standards while in class or on internships, at work, and in continuing education.

The university commits to preparing students to be professionally and academically prepared for the professional rigors of the world of work. In order to ensure that high quality educational opportunities are offered and to ensure the rigors of academic excellence, VIU requires that students adhere to the Code of Academic Excellence in order to build upon and foster the educational demands of the institution.

I. Academic Integrity

Formal oversight of the Academic Integrity is monitored by the entire VIU learning community including students, faculty, and staff of VIU. The student body is involved with the formal review, investigation, and recommendation of sanctions against violations of the Code of Academic Excellence through the participation of the President or Vice President of the Student Union, who will participate in Programmatic Grievance Panels as required. Suspected violations of academic integrity shall be directed to the appropriate School Dean or Office of the Academic Affairs in writing.

II. Code of Academic Excellence

The Code of Academic Excellence is a commitment by students to adhere to and build the reputation of the academic rigors and continual conduct focused on integrity and personal-academic growth. The following statement is adopted by VIU and applies to all students at the Institution:
“All Virginia International University students are expected to perform with integrity and respect for the high rigors of academic excellence espoused by VIU. Academic integrity includes the maintenance of a learning environment where everyone is given an opportunity to succeed through their own efforts and violations to the Code of Academic Excellence are not tolerated by the learning community.”

Academic Misconduct
Violations to the Code of Academic Excellence can ultimately lead to the improper evaluation of assessment tasks leading to unjust attribution of grades or course status. Therefore, it is integral to monitor and evaluate any allegation of academic misconduct. Forms of violation can include, but are not limited to the following:

A. Unauthorized use of material or improper collaboration
B. Intended or unintended plagiarism
C. Submissions of the same work for multiple courses
D. Falsifying, purchasing or altering the work of others or representing others’ materials as one’s own work
E. Unauthorized access to or the theft of the work of others

Each instance of alleged abuse of the Academic Code of Excellence will be evaluated and reviewed by members of the VIU learning community taking into consideration such factors as the student’s prior academic history. Therefore, the listing above is not intended to be exhaustive and is merely meant to serve as a list of potential areas for violation.

Reporting and Resolving Academic Misconduct
VIU is committed to the immediate resolution of allegations of misconduct. Wherever possible, if academic misconduct can be stopped prior to the occurrence of a violation, it is encouraged that members of the learning community hold each other accountable. When necessary, students, instructors, administrators and staff members, or other external parties may report misconduct. In doing so, it is important to understand both the scope of program oversight regarding allegations of misconduct and the adjudication process for allegations of misconduct.

I. Scope of School/Program Oversight
In cases where violations of the Code of Academic Excellence are suspected, the student, staff or faculty member shall notify the dean of the school in which the allegation took place. Each school within the university has an appointed designee (“Program Designee”) who oversees and manages the adjudication process to completion. This designee will either be the dean of the school or someone on the dean’s staff. In the rare instance where the dean has a conflict of interest, a dean from another school will be made the de facto designee for the proceedings as selected by the Vice President of Academic Affairs.

II. Adjudication of Allegations
In the event that an instructor or colleague suspects academic dishonesty, he or she will follow the procedures outlined below in order to encourage a fair and equitable solution for any and all violations to the Code of Academic Excellence. Consultation with the program designee (dean, chair, or director) is compulsory. To verify if this is repeated misconduct, the first step in reporting every instance of academic misconduct is through consultation with the Program Designee, based upon which the instructor will follow the forthcoming procedures.

As a gatekeeper for Academic Integrity, the Program Designee will determine if the offense constitutes a first, second, etc. violation. In instances where an egregiously serious offense is presented, the Program Designee may recommend resolution five.

1. Resolution for the First Allegation of Misconduct:
   a. The instructor alleging misconduct must inform the student in writing of the violation and host a meeting between him/herself and the student whereby the student is given a verbal warning and a zero grade on the assignment with the option of resubmitting the work.
   b. The instructor must submit a letter of allegation to the dean of the school to be placed in the university records.

2. Resolution for Second Allegation of Misconduct:
   a. If a violation to the Academic Code of Excellence is alleged again for the same student a second time, the instructor shall inform the student in writing of the charges against violating the Code of Excellence & Academic Integrity Policy and that the allegation has been escalated to the dean's office.
   b. The instructor shall gather the original student documentation related to the incident (which includes the student’s work and plagiarism report from Turn-it-in and/or any supporting documentation) and submit it to the Program Designee.
   c. The Program Designee shall schedule a meeting with the student to discuss the allegation.
   d. During the meeting, the student is reminded of the Code of Excellence & Academic Integrity Policy. The student is also shown the copy of the Code of Excellence & Academic Integrity Policy that was signed by him/her.
e. The Program Designee informs the student that he/she will receive a zero for the assignment with no option to resubmit the work.

f. A copy of the student’s work is given back to the student, while the original work and case supporting documentation is kept in the student’s permanent file at VIU.

3. Resolution for Third Allegation of Misconduct:
   a. If a violation to the Academic Code of Excellence is alleged again for the same student for the third time, the Program Designee shall send a written or electronic notice to the student explaining the nature of the allegation and inform the student that this matter will be handled by the school’s grievance panel, which consists, at minimum, of the dean and/or Program Designee, one faculty member, and the President or Vice President of the Student Union.
   b. During the grievance panel meeting, the Program Designee shall present documentation about all the instances of academic misconduct. The panel will then discuss the violation and possible consequences of the violation. Consequences of violations to the code can include but are not limited to:
      i. Failure of a course with the option to repeat the course.
      ii. Suspension from the school for a minimum of one semester
   c. A formal meeting will be arranged between the dean and/or Program Designee and the student in which the verdict will be presented to the student in the form of a formal letter. A copy of this letter will also be provided to the Registrar’s Office where it will be added to the student’s permanent record. Appeals to decisions can only be made to the Institutional Grievance Committee.
   d. At this time, the Program Designee will return a copy of the paper (with comments) to the student while keeping the original paper and supporting documentation in the university records.

4. Resolution for the Fourth Allegation of Misconduct:
   a. If a violation to the Academic Code of Excellence is alleged again for the same student for the fourth time, a written or electronic notice shall be sent to the student explaining the nature of the violation and informing the student that this matter will be handled by the Institutional Grievance Panel, which consists, at a minimum, of the dean and/or Program Designee, the Vice President of Academic Affairs, and a designee from the Office of the President.
   b. During the Institutional Grievance Panel hearing, the Program Designee will provide documentation of all allegations of misconduct. The panel will then discuss the violation and possible consequences of the violation. Possible consequences can include:
      i. Failure of an internship or externship with the option to repeat.
      ii. Permanent expulsion from the university
   c. The student will be notified in writing by a letter from the Vice President of Academic Affairs regarding the decision. Appeals to decisions can only be made to the Office of the Vice President of Academic Affairs.
   d. At this time, the Program Designee will return a copy of the paper (with comments) to the student while keeping the original paper and supporting documentation in the university records.

5. Resolution of Allegation of Egregious Instances of Misconduct
   a. If a violation to the Academic Code of Excellence is alleged that is determined by the Program Designee as being an egregious violation of misconduct, a written or electronic notice shall be sent to the student explaining the nature of the allegation and informing the student that this matter will be handled by the Institutional Grievance Panel, which consists, at a minimum, of the dean and/or Program Designee, the Vice President of Academic Affairs, and a designee from the Office of the President.
   b. During the Institutional Grievance Panel hearing, the Program Designee will provide documentation of all allegations of misconduct. The panel will then discuss the alleged violation and possible consequences of the violation. Possible consequences can include:
      i. Failure of a course with the option to repeat the course.
      ii. Failure of an internship or externship with the option to repeat.
      iii. Suspension from the school for a minimum of one semester
      iv. Permanent expulsion from the university
   c. The student will be notified in writing by a letter from the Vice President of Academic Affairs regarding the decision. Appeals to decisions can only be made to the Office of the Vice President of Academic Affairs.
   d. At this time, the Program Designee will return a copy of the paper (with comments) to the student while keeping the original paper and supporting documentation in the university records.

The university does not excuse any violation of its policies on the basis that the student was not aware of these policies and their subsequent penalties and sanctions.
8.3. Non-Academic Dishonesty/Misconduct

By enrolling in the university, the student recognizes that the following types of behavior are prohibited and that being found guilty of engaging in them can serve as grounds for certain sanctions, including expulsion or the involvement of the local police department:

1. **Illegal activities**: Violation of any federal, state, and local laws and any published or decreed university policies will be reported to the proper authorities.

2. **Copyright infringement**: Most printed materials, photographs, motion pictures, sound recordings, and computer software are protected by copyright. Copyrighted works may not be reproduced, distributed, performed, or adapted by students without the copyright owner’s permission. For more information, please see the Copyright & Fair Use Policies for Software & Other Materials section in this Catalog.

3. **Computer misuse**: Some software products are protected by copyright laws. Students may not copy the institution’s software without permission of the copyright holder. Additionally, students may not place personal software on the institution’s computers or damage or destroy either software or computers. For more information, please see the Copyright & Fair Use Policies for Software & Other Materials section in this Catalog.

4. **Drug use**: The manufacture, sale, dispensation, possession, or use of any controlled substances or illegal drug paraphernalia on university premises or at university sponsored events is considered an illegal activity and is prohibited on all university property. For more information, please see section 8.7. **Drug and Alcohol Policy**.

5. **Alcohol consumption**: The use, possession, or sale of any alcoholic beverage, regardless of its potency or lack thereof, is prohibited on all university property. For more information, please see section 8.7. **Drug and Alcohol Policy**.

6. **Inappropriate classroom behavior**: May include, but is not limited to:
   1. Disruption of the classroom atmosphere;
   2. Engaging in non-class activities, for instance, talking to another student, talking on a cell phone, or working on an assignment for another class;
   3. Use of profanity in classroom discussion; or
   4. Use of abusive or disrespectful language toward the instructor or a student in the class, or about other individuals or groups.

7. **Obscene language or conduct**: Use of profanity and disorderly or obscene conduct is strictly prohibited.

Students are expected to familiarize themselves with the university's policies on the following activities: unauthorized entry or presence in any university building or facility; solicitation and sales; smoking; sexual harassment & misconduct; physical or psychological assault/abuse of others; and unauthorized or disorderly assemblies that hamper the effective functioning of the university, its students, staff, and visitors, and its daily routine operations.

The university does not excuse any violation of its policies on the basis that the student was not aware of these policies and their subsequent penalties and sanctions. The university reserves the right to expel any student for illegal activity and/or for any action outlined above.

**Disruptive Classroom Behavior**

In general, classroom management is the responsibility of the instructor. The learning environment of the entire class should not be jeopardized for the sake of a single student or group of students. Inappropriate classroom behavior may include, but is not limited to:

1. Disruption of the classroom atmosphere;
2. Engaging in non-class activities, for instance, talking to another student, talking on a cell phone, or working on an assignment for another class;
3. Use of profanity in classroom discussion; or
4. Use of abusive or disrespectful language toward the instructor or a student in the class, or about other individuals or groups.

Instructors have the right to dismiss a student temporarily from class when the student's behavior distracts or disrupts the other students' learning.

8.4. Civil Rights and Sexual Harassment

VIU does not and will not tolerate sexual harassment of students, faculty, and/or staff. This policy is part of the university's effort to maintain a learning and working environment free from sexual harassment, exploitation, or intimidation. Violation of this policy will subject individuals to disciplinary actions, up to and including dismissal for employees and students. Sexual harassment is a form of sex discrimination that is illegal under Title VII of the Civil Rights Act of 1964 for employees and under Title IX of the Education Amendments of 1972 for students. In keeping with the guidelines provided by the US Equal Employment Opportunity Commission on sexual harassment in employment, VIU defines sexual harassment as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature directed at an
individual, or action taken in retaliation for reporting such behavior, regardless of where such conduct may occur. Sexual harassment is deemed to have occurred when:

1. Submission to the conduct is either explicitly or implicitly a term or condition of an individual's employment or academic performance;
2. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions, including, but not limited to, promotion, transfer, selection for training or performance evaluation, or used as the basis for academic evaluation;
3. The conduct has the purpose or effect of unreasonably interfering with an affected employee's work performance or an affected student's academic performance or participation in educational pursuits; or
4. The conduct has the purpose or effect of creating an intimidating, hostile, or offensive work or study environment.

Sexual harassment is a serious offense. As a consequence, any faculty or staff member who engages in such conduct or encourages such behavior by others shall be subject to disciplinary action that may include dismissal. A student who engages or assists in such conduct shall be subject to disciplinary measures including reprimands, suspensions, or termination to remedy violations of this policy. Students accused of sexual harassment will have the right to a fair due process hearing.

8.5. **Americans with Disabilities (ADA) Policy**

Virginia International University is a diverse community that provides equal opportunity in employment, activities, and its academic programs. The University does not discriminate on the basis of race, color, religion, gender, ethnic or national origin, disability, age, marital status, veteran status, membership in uniformed services, gender identity, or sexual orientation in the administration of any of its education policies, admission policies, scholarship and loan programs, and other school-administered policies and programs, or in its employment related policies and practices. Virginia International University is firmly committed to adhere to all federal and state equal opportunity and civil rights laws, including but not limited to Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990, and their implementing regulations. For more information about Title IX, please see section 5.2. **Title IX Compliance**.

In accordance with Title III of the Americans with Disabilities Act, Section 506, Virginia International University is committed to ensuring that all of its facilities and programs are accessible to all persons. If you believe you may qualify for course adaptations or accommodations in accordance with ADA, Section 506, it is your responsibility to contact VIU’s Office of Student Affairs for an accommodation approval letter.

Documentation about your particular diagnosis must be provided by a qualified health professional (such as a physician, surgeon, psychiatrist, licensed clinical or educational psychologist, or certified learning disability specialist), and must be currently relevant (less than 3 years old). The assessment of reasonable accommodation is the decision of the university and will be provided to you in a letter of accommodation for your instructors no later than the second class session.

VIU’s Office of Student Affairs contact information:
Email: studentaffairs@viu.edu
Phone: (703) 591-7042 ext. 367
Location: 4401 Village Dr, Fairfax, VA 22030

The Office of Student Affairs is open from Monday to Friday during regular hours of operation.

8.6. **Sexual Misconduct Policy and Notice of Non-Discrimination**

Virginia International University does not discriminate on the basis of sex in its education programs or activities. Prohibited Conduct under the Sexual Misconduct Policy constitutes sex discrimination prohibited by Title IX of the Education Amendments of 1972 (Title IX), sections of the Violence Against Women Reauthorization Act (VAWA), Title VII of the Civil Rights Act of 1964 (Title VII), the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act), and the Virginia Human Rights Act.

Title IX prohibits sex discrimination in all aspects of university activities and programs. This means that students are entitled to an environment that is free from sex discrimination. Both men and women can be victims of sex discrimination, and sex discrimination can occur between members of the same or opposite sex.

Individuals who have been found to have violated this policy will face disciplinary action, up to and including expulsion. It is the responsibility of every member of the VIU community to create and foster an environment free from sex discrimination. As such, all members of the community are encouraged to take reasonable actions to stop or prevent an act of sex discrimination. Anyone who takes such actions will receive the support of VIU.
Virginia International University (VIU or the University) is committed to maintaining a safe educational and work environment in which no member of the community is, on the basis of sex, gender, sexual orientation, or gender identity, excluded from participation in, denied the benefits of, or subjected to discrimination in any VIU program or activity. The Sexual Misconduct Policy applies to any form of sexual or gender-based discrimination, which includes, but is not limited to, sexual assault, domestic violence, dating violence, stalking, and harassment.

VIU provides ongoing prevention, awareness, and training programs for employees and students in an effort to:

- To eliminate, prevent, and address sex discrimination and its effects;
- Encourage reporting;
- Make available timely services for those affected by Prohibited Conduct; and
- To provide the prompt and equitable investigation and resolution of Prohibited Conduct cases.

Any question regarding the interpretation and application of this policy shall be referred to the Title IX Coordinator. The Title IX Coordinator may designate a Title IX Deputy Coordinator to serve as the Title IX Coordinator for any procedures outlined in this policy. For more information, please see the Sexual Misconduct Policy available at: http://www.viu.edu/students/resources/students-rights-and-responsibilities/sexual-misconduct-policy.html

8.7. Drug and Alcohol Policy

VIU is committed to providing an environment free of alcohol and drug abuse in compliance with the Drug Free Schools and Communities Act and the Higher Education Act of 1965.

Virginia International University does not condone the illegal or otherwise irresponsible use of alcohol and other drugs. It is the responsibility of every member of the VIU community to know the risks associated with substance use and abuse. This responsibility obligates students and employees to know all relevant VIU policies, and federal, state, and local laws and to conduct themselves in accordance with those laws and policies. To ensure the availability of this information, the University publishes the following information regarding VIU policies and sanctions; laws and penalties associated with substance use and abuse; health and behavioral risks of drug use; and resources for treatment and educational programming. The dissemination of this information is in support of the Drug Free Schools and Communities Act and the Clery Act.

Alcohol Policy

VIU hopes the Alcohol Policy will encourage students and employees to make responsible decisions regarding the consumption of alcoholic beverages. As such, VIU is a dry campus and expressly prohibits the sale, consumption, or use of alcoholic beverages on any VIU property.

All members of the VIU community are expected to know and act in accordance with Virginia laws concerning the purchase, possession, consumption, sale, and storage of alcoholic beverages. However, ignorance of the law is not a viable defense. Thus, the VIU community is reminded of the following:

1. Any sale of an alcoholic beverage requires an ABC license.
2. Alcoholic beverages are not to be given or sold to persons who are under the legal drinking age, which is 21 years of age.
3. Alcoholic beverages are not to be given to persons who are intoxicated.
4. State law prohibits drinking in unlicensed public places; public intoxication; possession of an alcoholic beverage by someone under the legal drinking age; falsely representing one’s age for the purpose of procuring alcohol; and purchasing an alcoholic beverage for a person who is under the legal drinking age.
5. Violations of state alcohol laws are criminal misdemeanors punishable by fines up to $2,500, imprisonment up to 12 months, and suspension of a driver’s license.
6. The use of alcoholic beverages as a prize in a contest, drawing, lottery, etc., is prohibited.
7. The use of alcoholic games (e.g., quarters, drink-offs, beer-pong, etc.) is prohibited.
8. VIU recognizes the value of group-sponsored social events that take place off-campus. VIU acknowledges that some of these group-sponsored events that take place off-campus may be at establishments that serve alcohol. VIU does not prohibit the consumption of alcohol at these events. However, groups or individual group members may be held accountable for the underage possession or consumption of alcohol, and unsafe or irresponsible behavior that occurs during a group-sponsored event.
   Unsafe behavior includes, but is not limited to, consuming alcohol through beer bongs, participating or facilitating drinking games, or consuming an excessive quantity of alcohol in a short amount of time. Irresponsible behavior includes, but is not limited to, the use or attempted use of fraudulent identification to obtain alcohol or making alcohol available to underage persons.
9. VIU funds may not be used to purchase or obtain alcohol.
Members of the VIU community, and their invited guests, who reside in property leased by VIU who are lawfully permitted to purchase, possess, and consume alcohol, may do so in the residence.

Any member of the University community who violates state alcohol laws is subject to disciplinary action. Whether or not criminal charges are brought, all students are subject to disciplinary action for any violation of state alcohol laws that occurs:

1. On VIU owned, controlled, or leased property;
2. At VIU sponsored functions; or
3. Under other circumstances involving a direct and substantial connection to the University.

Any student found to have engaged in such conduct is subject to the entire range of sanctions, including suspension and expulsion.

Students and recognized student organizations are always expected to conduct themselves in accordance with the laws of the Commonwealth of Virginia and to assume full responsibility for their activities and events.

**Drug Policy**
The unauthorized manufacture, sale, distribution, and possession of “controlled substances” (illegal drugs), including marijuana, cocaine, heroin, and LSD, are prohibited by both state and federal law and are punishable by severe penalties. VIU does not tolerate or condone such conduct.

Any member of the University community who violates state or federal drug laws is subject to disciplinary action. Whether or not criminal charges are brought, all students are subject to disciplinary action for any violation of state or federal laws that occurs:

1. On VIU owned, controlled, or leased property;
2. At VIU sponsored functions; or
3. Under other circumstances involving a direct and substantial connection to the University.

Any student found to have engaged in such conduct is subject to the entire range of sanctions, including suspension and expulsion. Students and employees who are found to be in violation of state or federal drug laws may be referred to the appropriate authorities for criminal prosecution.

**Health and Behavioral Risks**
The negative physical and mental effects of the use of alcohol and other drugs are well-documented. Use of these drugs may cause: blackouts, poisoning and overdose; physical and psychological dependence; damage to vital organs such as the brain, heart and liver; inability to learn and remember information; and psychological problems including depression, psychosis and severe anxiety. Other risks include impaired judgment and coordination which can lead to: DUI/DWI arrests; hazing; falls, drowning and other injuries; contracting sexually-transmitted diseases including AIDS; and unwanted or unplanned sexual experiences and pregnancy.

The substance abuse of family members and friends may also be of concern to students and employees. Patterns of risk-taking behavior and dependency not only interfere in the lives of the abuser, but can also have a negative impact on the affected students’ academic work, emotional well-being and adjustment to college life.

Assistance is available both on-campus and off-campus for students and employees who are dependent on, or who abuse alcohol or other drugs. Counseling services are available on-campus for students. Visit the website for counseling services or if you would like to make an appointment, email counseling@viu.edu.

Substance Abuse and Mental Health Services’ Treatment Referral Routing Service provides referrals to local treatment facilities, support groups, and community-based organizations. Callers can also order free publications and other information. It is a confidential, free, 24/7/365 information service.

Hotline: 1-800-662-4357  
Online treatment locators: https://findtreatment.samhsa.gov/  
Helpline website: https://www.samhsa.gov/find-help/national-helpline  
Organization website: https://www.samhsa.gov/

**Federal and Commonwealth of Virginia Penalties**
Federal and Virginia law penalizes the unlawful manufacturing, distribution, use, and possession of controlled substances, including prescription drugs. Synthetic designer drugs such as “bath salts,” “plant food,” and “carpet cleaner,” contain mixtures of many different chemicals, including those that resemble cocaine, methamphetamine, and MDMA or “ecstasy.”
Federal law makes the distribution of “analogue” substances marketed for human consumption illegal if those substances are chemically similar to a scheduled illegal drug and have the same pharmacological effect on a user.

Federal law sets penalties for first offenses ranging from less than one year to life imprisonment and/or fines up to $10 million. Penalties may include forfeiture of property, including vehicles used to possess, transport or conceal a controlled substance, and the denial of professional licenses or federal benefits, such as student loans. The punishment for the possession and/or distribution of a controlled substance analogue is up to twenty years in prison and a fine of up to $1 million.

Convictions under Virginia law may be misdemeanor or felony crimes with sanctions ranging from probation to life imprisonment and/or fines of up to $1 million. Virginia law specifically prohibits the sale, gift, distribution, and possession of synthetic cannabinoids, which carry penalties as a Class 6 felony.

Federal law holds that any person who distributes, possesses with intent to distribute, or manufactures a controlled substance in, or within one thousand feet of an educational facility is subject to a doubling of the applicable maximum punishments and fines. A similar Virginia law carries sanctions of between one and five years’ imprisonment and up to a $100,000 fine for similar violations.

Limited Amnesty
Virginia International University encourages the reporting of all potential violations of Prohibited Conduct under the Sexual Misconduct Policy. VIU does not condone underage alcohol consumption or the use of illegal drugs. However, because it is of the utmost importance of VIU to protect the wellbeing of its students and employees, VIU may extend limited amnesty from disciplinary action for the illegal consumption of alcohol or illegal drug use by victims, witnesses, and those reporting incidents or assisting victims of Prohibited Conduct. These individuals must have acted in good faith, and any such violation must not have placed the health or safety of any other person(s) at risk.

The Title IX Coordinator and the President, or their designees’, will determine if amnesty will be applied and to what extent. Alcohol and drug amnesty is intended to encourage students and employees to seek assistance for themselves and others by reducing the fear of facing VIU’s Students Rights & Responsibilities Policy/Employee Handbook Policies for such conduct. It is an attempt to remove barriers that may prevent an individual from reporting, seeking medical assistance, or other assistance.

8.8. Non-Smoking Policy
Smoking is not permitted within facilities owned or leased by the university or in university-owned vehicles. Smoking is not permitted within 50 feet of any university facility.

8.9. Weapons Policy
The use, possession, or sale of firearms, other weapons, or any dangerous explosives or explosive elements or component parts on university property is strictly prohibited.

Weapons are defined as, but not limited to:

a) Any gun, bow, crossbow, or other weapon designed or intended to propel a missile or projectile of any kind, including any pistol, revolver, rifle, musket, long gun, or other weapon designed or intended to propel a missile of any kind by action of an explosion of any combustible material; or any object similar in appearance whether capable of being fired or not, in such a manner as to induce fear in the mind of a reasonable person;

b) Any stun weapon, including any device that emits a momentary or pulsed output, which is electrical, audible, optical, or electromagnetic in nature and is designed to temporarily incapacitate a person;

c) Any knife, including but not limited to any dirk, bowie knife, switchblade knife, ballistic knife, machete, sword, saber, or razor, except a pocket knife having a folding metal blade less than three inches;

d) Any slingshot, spring stick, metal knucks, or blackjack;

e) Any flailing instrument consisting of one or more rigid parts connected in such a manner as to allow them to swing freely, which may be known as a nun chakka, nun chuck, nunchaku, shuriken, or fighting chain;

f) Any disc, of any configuration, having at least two points or pointed blades which is designed to be thrown or propelled and which may be known as a throwing star or oriental dart;

g) Any frame, receiver, muffler, silencer, missile, projectile or ammunition designed for use with a dangerous weapon, including any cartridge, pellet, ball, missile or projectile adapted for use in a firearm;

h) Any explosive substance or explosive device, if such substance or device is intended to be used as a weapon that causes but not limited to bodily harm of another person; any person who constructs, uses, places, sends, or causes
work may not be reproduced, distributed, performed, or adapted by others without the copyright owner’s permission. Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject them to civil and criminal liabilities. Works protected by copyright include, but are not limited to: literary, musical, and pictorial works; sound recordings, motion pictures, and other audiovisual works; and computer software.

VIU employees shall use computer software only in accordance with the terms of the VIU Computer Software Policy and the licensing agreement for the software. The University does not condone or support the use of any unauthorized copies of software. All software used by University employees to perform their responsibilities shall be purchased through appropriate procedures.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement. Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For more information, please see the website of the U.S. Copyright Office at http://www.copyright.gov/, especially their FAQ's at www.copyright.gov/help/faq.

There are some exceptions in United States copyright law such as the fair use doctrine. The fair use doctrine allows limited use of copyrighted material without the permission of the copyright owner for several purposes, including teaching and scholarship. It is the responsibility of each student, faculty, and staff to inform oneself about what is and what is not permissible use of copyrighted material. Copyright and fair use guidelines for students, faculty, and staff can be found on the VIU Library website and are posted in the VIU Library as well as at all photocopy machines at VIU. For additional assistance with copyright and fair use issues, please consult the VIU Librarians.

Violations of VIU’s copyright and fair use policies will be dealt with in the same manner as violations of other university policies and may result in disciplinary review. In such a review, the full range of disciplinary sanctions is available, including the loss of computer use privileges, dismissal from the University, and legal action.

8.11. Students’ Records and Release of Information
In compliance with Public Law 93-380, “The Family Educational Rights and Privacy Act” (FERPA), which is Section 438 of the General Education Provision Act, VIU has adopted policies and procedures that permit students the opportunity to view their educational records upon request. Educational records mean those records, files, documents, and other materials that contain information directly related to a student. The institution will not permit access to or release of confidential information from a student’s records to any individual or agency without the written consent of the student, except for the following situations:
1. Name, address, telephone number, date and place of birth, program undertaken, dates of attendance, and certificates, diplomas, and degrees awarded may be provided to third parties unless the request to omit such information is presented in writing.
2. Records are required by VIU officials in the proper performance of their duties. VIU defines a school official as a person employed by the university including a full-time or adjunct professor/instructor, an administrator, clerical staff, a member of the board of trustees or a member of committees and disciplinary boards, or a student serving on an official committee, such as a disciplinary committee, with legitimate educational interests.

STUDENT RIGHTS & RESPONSIBILITIES 77
3. In accordance with FERPA, a school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibility.
4. Information may be provided to organizations conducting studies for educational and governmental agencies.
5. Information may be provided to US government agencies as listed in Public Law 93-380 who request information for specific purposes.
6. Information may be provided at the request of any accrediting agencies.
7. Information may be provided to parents of dependent children as defined in the Internal Revenue Code of 1954.
8. Information may be provided to appropriate persons in connection with an emergency.
9. Information may be provided for the purposes of awarding financial aid.
10. Information may be provided in response to legal court orders.

**Definition of Student Records**
A student file (electronic file in the university's file server for the students who initiated a program in Spring 2012 or physical file for the students who enrolled prior to Spring 2012) is maintained by the Registrar’s and Admissions Offices, which includes the following student information:

- Enrollment Agreement Form at the time of initial enrollment for each program, which includes the enrollment contract and other information relating to the payment for educational services
- Passport copy or ID card that indicates the student name
- Permanent (home) and/or local addresses
- Admission-related documents as well as an acceptance letter issued by the university
- Copy of diploma/certificate
- Copy of transcript which shows the graduation date and the degree/certificate obtained at VIU
- Record of warning, probation, dismissal, or termination, if applicable

These additional records are kept in a student file when applicable:
- Copy of I-20 for F-1 visa students
- Copy of non-immigrant visa for foreign students
- Veterans Administration records for veterans

VIU has the right to keep all documents that a student submits to the university.

**Record Keeping Period**
All student academic records including transcripts are required to be maintained by the Registrar’s Office. The student files are kept for specific duration as follow:

- Minimum 10 years following a student's graduation from VIU
- Minimum 10 years following a student’s withdrawal from VIU (including those who transferred out, those terminated by SEVIS, and unauthorized withdrawal cases)

The following records are kept in electronic format in the university database permanently in accordance with the guidelines published by the State Council for Higher Education of Virginia (SCHEV):

- Transcripts showing the name of student, the program title, the semesters enrolled, and grades and credit hours
- Grades
- Attendance records
- Course descriptions

All admission related documents and records for applicants who do not enroll in the university are maintained by the Admissions Office electronically in the student file server for the period of time mentioned below:

- 5 years following the applied semester or session
- 5 years following the denial of a student's visa request and a completed refund, if applicable
- Incomplete application files will be kept for 2 years

**FERPA and Directory Information Withheld/Released**
The Family Educational Rights and Privacy Act (FERPA) is also known as the "Buckley Amendment." FERPA is a federal law enacted in 1974 which enables certain rights of students with respect to their education records. Specifically, it enables students the right to:

1. Inspect and review their education records;
2. Request the amendment of inaccurate or misleading records;
3. Consent to disclosure of personally identifiable information contained in their education record; and
4. File a complaint with the US Department of Education concerning alleged failures by VIU to comply with this law.
Virginia International University strives to fully comply with this law by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. FERPA authorizes the release of "Directory Information" without the student’s prior consent under certain conditions which are set forth in the Act.

Students who wish to withhold their directory information must submit a Directory Information Withhold Form to the Registrar’s Office.

8.12. Formal Complaint Procedure

Virginia International University is committed to providing a positive educational experience for its students. VIU faculty and staff attempt to create, in all areas, an atmosphere that is conducive to learning. For this reason, VIU has established a procedure to address any school-related problems, concerns, or complaints to ensure that student concerns on academic and non-academic matters are constantly aware, addressed, resolved, improve and enhance the quality of services.

The life cycle of a complaint is made up of five stages, wherein the first stage encourages informal resolutions to address and resolve the student complaints as quickly as possible. In the event that matters are unresolved or do not result in a satisfactory outcome, the complaints can be escalated to the next stage. Certain complaints will receive immediate attention by the Department of Quality Assurance and a formal investigation will be launched, based on the urgency and sensitive nature of a given complaint.

Stage 1: Informal complaint

VIU team members maintain an open-door policy. Students may express concerns to any administrator. In order to resolve the problem at the earliest opportunity, all students are encouraged to address their complaints initially to VIU staff member involved or the other department responsible to oversee the immediate area causing the concerns. It is advisable for VIU staff members and department involved to briefly record the complaints in writing and share with other departments if the case and experience could benefit other departments. For example, academic concerns will be handled by the instructors directly. Students should first discuss the problem with the instructor and then with the Dean of the School, if necessary. If the problem is not resolved at that level, the student should then contact the Vice President of Academic Affairs.

Stage 2: Referral to Appropriate Executive

In the event that a complaint may not be resolved at the departmental level, the complaint will be escalated to the next highest level. If the complaint is academic in nature, it would be escalated from the faculty to the dean, and eventually the Provost level. A complete list of possible escalation is below:

Stage 3: Complaint to Institutional Effectiveness & Quality Assurance Department
Students have various options to file complaints and suggestions for academic and non-academic matters to Institutional Effectiveness & Quality Assurance Department. There are three options that students can choose to file the complaints and suggestions.

1. Online: Individuals can complete the online suggestion form on the website or send an email to qa@viu.edu.
2. On Campus: Suggestion boxes are placed at the front desk of each campus, along with business cards for the Quality Assurance team.
3. In Person: Students can walk in to discuss complaints with quality assurance department every day of the week.

Quality Assurance staff investigates the complaint, interviews the parties involved, find the related resources and provides the resolution. The complaint is logged and is forwarded to the related department to review, improve and enhance the quality of the education and services.

Stage 4: Referral to Office of the President

If the complaint or grievance may not be resolved at any of the previous three levels, a student is referred directly to the office of the President for resolution of their complaint. The President and his support staff take the time to listen to the student or staff member, hear the grievances, and also receives a full, written report on the background of the issue from Quality Assurance and tries to find a fair and agreeable resolution for all parties.

Stage 5: Formal Written Complaint

At any time throughout the complaint process, at the written request of the student for issues that are academic in nature, an ad-hoc Grievance Committee comprised of the Provost, one senior faculty member, the Dean of the School, and other invited staff or faculty. The Committee will convene to address concerns which remain unresolved. The ad-hoc Grievance Committee will convene within ten (10) working days of a written request from the student. The student will be notified of the committee’s decision within three working days of the meeting.

If after following the above stated procedure, the student feels that his or her concerns have not been resolved, he or she may address these concerns in writing to the following organizations:

State Council for Higher Education for Virginia (SCHEV) Accreditng Council for
James Monroe Building Independent Colleges and
101 N. 14th Street Schools (ACICS)
Richmond, VA 23219 750 First Street NE, Suite 980
Institutional Approval Coordinator Washington, DC 20002

VIU ensures that a student will not be subjected to unfair action as a result of initiating a complaint proceeding.

8.13. Academic Catalog Changes Policy

This Academic Catalog is current as of the time of printing. From time to time, it may be necessary or desirable for VIU to make changes to the Academic Catalog due to the requirements and standards of the university’s accrediting body, state licensing agencies, the US Department of Education, and market conditions, among other reasons. VIU reserves the right to make changes to any provision of the Academic Catalog, including the amount of tuition and fees, academic programs and courses, university policies and procedures, faculty and administrative staff, the Academic Calendar and other dates and provisions.

VIU reserves the right to make changes in equipment and instructional materials, modify curricula, and when size and curriculum permit, to combine classes. Academic Affairs Office should be contacted for information concerning any such changes. Changes will be added as an addendum to the Catalog and will be published on VIU’s website.

9. ACADEMIC PROGRAMS
9.1. Academic Program Listing
VIU currently offers 24 different programs of study across the graduate, undergraduate and certificate levels. A breakdown of each program and information related to each is displayed in the table below:

*Program Measured in Clock Hours

9.2. Undergraduate Programs
VIU currently offers two undergraduate degree programs and two programs from the School of Business (SB) and the School of Computer Information Systems (SCIS):

1. Bachelor of Science in Business Administration (BSBA)
2. Bachelor of Science in Computer Science (BCS)
3. Certificate in International Business

VIU’s undergraduate degree programs provide a high level of professional education in business administration and computer science studies. They cover a broad range of subjects, thereby qualifying students for more diverse job opportunities. For the admission requirements and a list of materials required for admission to the undergraduate degree programs, please refer to the Application for Admission section of the Academic Catalog.

Undergraduate Program Requirements
An undergraduate baccalaureate degree at VIU can be earned by completing the program minimum course requirements of 120 credit hours and undergraduate certificate can be completed by earning 24 credit hours. All courses, including the General Education Department (GEC) courses, are three (3) credit hour courses. To qualify for a bachelor’s degree, students must meet all credit requirements as described below:
1. Students enrolled in any undergraduate degree program must maintain a Cumulative Grade Point Average (CGPA) of at least 2.0 (B), out of 4.0, and a minimum grade of at least 0.7 (D-), out of 4.0, in all courses to remain in good standing and to graduate.
2. The maximum number of credit hours permitted for the completion of any undergraduate degree program is 180 semester credits.
3. Undergraduate students may transfer up to 60 semester credit hours of college credits earned at other accredited institutions.
4. No degree credit is earned by a student for any grade below 0.7 (D-), out of 4.0, received in an undergraduate-level course. However, any grades lower than 0.7 (D), out of 4.0, will be calculated in the CGPA.
5. The student must have completed a minimum of 120 semester credit hours. The required distribution of these credit hours is shown under the detailed description of each undergraduate degree program.

Undergraduate Internships
Undergraduate degree programs offer academic internship options. An internship provides an opportunity for students to gain practical experience. In each program, there are separate internship courses in which a student can earn 3 credits. In some cases, internships can be completed in conjunction with specific courses and the student can earn a portion of the course credit with his or her internship program. Those courses are marked as "Internship/CPT qualified" in the course lists, as well as in the course descriptions. There are no guarantees that all interested students will be able to participate in internships, as they are based solely on the student’s academic credentials, the internship interview, and internship availability. International students must complete the Curricular Practical Training (CPT) authorization process in order to participate in the internship program. For more information on CPT, see the Regulations for International Students section or contact VIU’s Career Center.

9.3. General Education Department

Mission
The mission of the General Education Department is to prepare VIU students to obtain the necessary skill set to be well-prepared for their academic programs; shape their world view as an individual; foster engagement and motivated creativity; and to simply be able to contribute to the society as an accomplished human being.

Divisional Outcomes

Arts & Humanities
1. Define and express an appreciation of the essential elements of the arts as they relate to societal and cultural values.
2. Express sensitivity and tolerance of cultural differences.
3. Understand differing worldviews in order to be literate in concepts that are behind one’s behavior, traditions, daily preferences, and values.

Communication
1. Express oneself clearly both orally and in writing in a respectful and academic manner.
2. Develop critical and reflective reading and inquiry skills to synthesize, analyze, and evaluate.
3. Conduct research and organize material effectively.

Language
1. Understand the language, customs, and culture of an additional language.
2. Develop critical thinking skills in order to analyze the human condition of speakers of other languages.
3. Recognize that language skills allow students to be able to communicate in new ways.

Math
1. Apply problem solving skills and pattern intelligence skills.
2. Develop analytical reasoning to solve problems.

Natural Sciences
1. Apply problem solving skills and utilize the scientific method.
2. Recognize natural systems and processes in relation to the surrounding world.

Social Sciences & Cultural Studies
1. Interpret human behavior and develop skills to successfully interact with individuals at all levels of society.
2. Critically analyze the organization of society and the role of individuals and groups in the larger society.
3. Demonstrate a basic knowledge of ethical norms to exercise independent judgment and ethical decision-making.

Structure of General Education Department

ACADEMIC PROGRAMS
The General Education Department requires completion of a total of 36 credits (12 courses). Undergraduate students are required to meet the General Education Department requirements consisting of courses across six divisions: Communications (nine credits), Arts and Humanities (six credits), Social Sciences and Cross Cultural Studies (six credits), Mathematical Sciences (three credits), Natural Sciences (six credits), and Languages (six credits). Student are able to choose among courses within a Division unless otherwise noted by their academic program of study or School. Students should choose courses in consultation with their academic advisor who will provide suggestions for courses most relevant to the student’s academic discipline.

9.4. Graduate Programs

VIU currently offers thirteen graduate degree programs and six graduate certificate programs from the School of Business, the School of Computer Information Systems, the School of Education, and the School of Public & International Affairs:

1. Master of Business Administration (MBA)
2. Master of Science in Accounting (MAC)
3. Master of Science in Project Management (MPM)
4. Master of Science in Computer Science (MCS)
5. Master of Science in Information Systems (MIS)
6. Master of Science in Information Systems Management (MISM)
7. Master of Science in Information Technology (MIT)
8. Master of Science in Software Engineering (MSE)
9. Master of Arts in TESOL (MATESOL)
10. Master of Education (M.Ed.)
11. Master of Science in Applied Linguistics (MSAPLX)
12. Master of Science in International Relations (MIR)
13. Masters of Public Administration (MPA)
14. Graduate Certificate in Project Management
15. Graduate Certificate in Business Intelligence
16. Graduate Certificate in Information Systems
17. Graduate Certificate in Information Systems Management
18. Graduate Certificate in Information Technology Audit & Compliance
19. Graduate Certificate in TESOL

VIU's graduate degree programs provide a high level of professional education in business and public administration, computer information systems, software engineering, education, international relations, and TESOL. They cover a broad
range of subjects, thereby qualifying students for diverse career opportunities. For the admission requirements and a list of materials required for admission to the graduate degree programs, please refer to the Application for Admission section of the Academic Catalog.

Graduate Program Requirements
Graduate degrees are earned by completing a minimum of 36-39 credit hours, or a minimum of 18 credit hours for certificate programs, beyond the prerequisite courses and typically 3 credit hours per course. To qualify for a graduate degree, students must meet the requirements below.

1. Students enrolled in the graduate degree program must maintain a Cumulative Grade Point Average (CGPA) of at least 3.0 (B), out of 4.0, and a minimum grade of at least 2.0 (C), out of 4.0, in all courses to qualify for the degree, to remain in good standing, and to graduate.

2. The Maximum Time Frame (MTF) permitted for the completion of any graduate degree program is 54 semester credit hours for 36 credit hour programs, and 58.5 semester credit hours for 39 credit hour programs. The Maximum Time Frame (MTF) permitted for the completion of any graduate certificate program is 27 semester credit hours for 18 credit hour programs.

3. Only graduate level courses may be applied toward the degree. A master’s student may transfer up to 18 credit hours of graduate credits earned at other accredited institutions.

4. No degree credit is earned by a graduate student for any grade below 2.0 (C), out of 4.0, received in a graduate level course. However, any grades lower than 2.0 (C), out of 4.0, will be calculated in the CGPA.

5. Credit earned with undergraduate level courses taken as required prerequisite courses by the graduate student will not be counted towards the total credit requirement for degree completion.

Thesis Guide
Students must consult with their academic advisors for thesis courses.

Graduate Internships
Some graduate degree programs offer an internship program in which students are eligible to participate. An internship provides an opportunity for students to gain practical experience. In each program, there are separate internship courses in which a student can earn 3 credit hours. In some cases, internships can be completed in conjunction with specific courses and the student can earn a portion of the course credit with his or her internship program. Those courses are marked as “Internship/CPT qualified” in the course lists, as well as in the course descriptions. There are no guarantees that all interested students will be able to participate in internships, as they are based solely on the student’s academic credentials, the internship interview, and internship availability. International students must complete the Curricular Practical Training (CPT) authorization process in order to participate in the internship program. For more information on CPT, see the Regulations for International Students section above or contact VIU’s Career Center.

10. SCHOOL OF BUSINESS

The mission of the School of Business is to provide a diverse body of students with the ability to succeed in a global business environment. Through our faculty, the School of Business at VIU is committed to helping students to respect, value, and appreciate the wealth of diversity common to the international business community.

School of Business Learning Outcomes
To achieve the mission of the School, all graduates are expected to achieve the following learning outcomes:

- SO A.: Apply principles of management, finance, economics, and accounting to business practices.
- SO B.: Integrate knowledge of business concepts, functions and methodologies to achieve successful business decisions.
- SO C.: Recognize and incorporate cultural diversity and promote collaborative enterprise in business decisions.
- SO E.: Determine the role of leadership in high performing organizations and business entities.

10.1. Bachelor of Science in Business Administration
The Bachelor of Science in Business Administration (BSBA) program prepares qualified students for leadership positions in the 21st century global marketplace. Future leaders will need to balance the goals of economic success with the constraints of greater social and environmental responsibility. Students are instructed by a distinguished faculty and learn to integrate changing human and information resources with continually developing technology, while nurturing the entrepreneurial spirit that has always been one of the key characteristics to successful businesses. The School of Business offers a Bachelor of Science in Business Administration degree with the following three concentrations: (a) Finance, (b) International Business, and (c) Marketing.
BSBA Program Outcomes
In business organizations, VIU BSBA graduates will be able to:
1. Describe the major concepts of the global economy, finance and accounting and their implications for business decision making.
2. Analyze business issues and apply business functional area knowledge, quantitative and qualitative tools and techniques to solve problems.
3. Demonstrate knowledge of contemporary theory and practice in international business.
4. Identify principles of management, organizational behavior, operations management, strategy and policy, international management and entrepreneurship.
5. Utilize information technology and effective communication tools and methods to complete work and disseminate results and findings of research and analysis.
6. Explain ethical and social responsibilities of businesses.

Career Paths for BSBA Graduates
Students graduating from the BSBA program should be prepared to provide leadership a variety of business settings. The BSBA Program develops the foundation for continuing education and growth in all fields of business and administration. Graduates of the BSBA Program can anticipate jobs in the following types of careers at the entry-level, experienced, and management levels:
- Small Business Owner
- Retail Store Manager
- Management Consultant/Analyst
- Business Development Officer
- Business Manager
- Financial Officer
- Financial Advisor
- Marketing Coordinators/Managers

Structure of the BSBA Program
The BSBA program degree requires the completion of 40 courses at 3 credits hours each. Students will take 84 credit hours of Foundation Core Courses, Professional Core Courses, Concentration Courses, and 36 credit hours of General Education Department Courses, for a total of 120 credit hours.

Concentration: (6 Courses - 18 Credit Hours)
All concentration courses should be taken during the third and fourth years of study. Some of these concentration courses may be replaced with elective courses. Elective course offerings may vary semester to semester and are subject to change without prior notice. All concentration courses are internship/CPT qualified.

1. Finance: (6 Courses - 18 Credit Hours) The Finance concentration prepares students to examine the decision-making process and the role of markets in the allocation of both real and financial resources. It integrates the fields of finance and business economics. Students will explore both theoretical and applied concepts in the related fields of corporate finance, investment, speculative and financial markets, real estate, banking, industrial organization, and public policy to business. Balanced emphasis is placed on primary theory and its application to business problems.

2. International Business: (6 Courses - 18 Credit Hours) The International Business concentration provides a solid foundation in the theory and practice of modern business organizations in relation to current economic, political, and socio-cultural environments.

3. Marketing: (6 Courses - 18 Credit Hours) The Marketing concentration prepares students for careers in any sector of this exciting field. A wide range of course options allow students to acquire a strong general background in marketing or to specialize in one of the sub disciplines of the field, for example, Internet Marketing.
Elective Courses: (4 Courses - 12 Credit Hours)
Students are required to take four (4) elective courses. The courses can be selected from other BSBA concentrations, the School of Computer Information Systems concentration core courses (with the permission of the Dean of SCIS), or the courses listed below.

10.2. Certificate in International Business
The International Business program is designed to provide students with knowledge about the global business environment. Students will understand key aspects of international business including import/export, marketing, finance and economics. Students acquire an awareness of the importance of cultural competence and working in international or multinational companies.

Certificate in International Business Program Outcomes
1. Apply effective oral and written communication skills.
2. Demonstrate a high level of ethics and professionalism.
3. Apply technological and analytical skills.
4. Recognize and integrate global cultural diversities in business decisions.
5. Apply decision making skills through utilizing best practices in business.
6. Interpret international business concepts, principles and financial strategies.

Career Paths for International Business Certificate Graduates
Students graduating from the International Business Certificate program should be prepared to provide support a variety of business settings. The international business certificate program develops the foundation for continuing education and growth in all fields of business and administration. Graduates of the International Business Certificate Program can anticipate jobs in the following types of careers at the entry and experienced professional levels:
- Import/Export Manager
- In business sector sales, marketing, consulting, e-Business, and advertising positions
- In government and non-profit agencies, a certificate in International Business can serve as a foundation upon which to develop more specialized business functions such as finance, management, or marketing.

10.4. Master of Business Administration
VIU’s Master of Business Administration (MBA) program enables students to gain knowledge in the core business areas of management, finance, marketing, accounting, and decision-making. The program provides students with high quality, professional education in business administration, thereby qualifying students for more diverse career opportunities.

MBA Program Outcomes
In business organizations and situations, VIU MBA graduates will be able to:
1. Employ effective business communication practices to share and disseminate information.
2. Apply business statistics, qualitative and quantitative methods including regression analysis, descriptive statistics and business forecasting to solve problems.
3. Utilize tools and techniques of business management to ensure efficient business outcomes on time and within budget
4. Examine the role of leadership in creating high performing organizations
5. Strategically analyze business decisions by integrating theory and practice.
6. Identify and distinguish the impact of ethical obligations and social responsibilities on business decisions.

Career Paths for Masters in Business Administration Graduates
Students graduating from the MBA program should be prepared to provide leadership a variety of business settings. The MBA program develops the foundation for continuing education and leadership in all fields of business and administration. Graduates of the MBA Program can anticipate jobs in the following types of careers at the management, director, and executive levels:

- Account Manager
- Administrative Services Manager
- Business Manager
- Business Analyst
- Management Consultant
- Officer Manager
- Operating Supervisor
- Senior Administrator/Executive Level Manager
- Leadership Consultant
- Management Consultant
- Marketing Manager
- Project Manager
- Finance Manager
- Financial Analyst

Concentrations of the MBA Program
There are fifteen (15) concentration in the MBA program.

1. Accounting
2. Contract Management
3. Entrepreneurship
4. Executive MBA
5. Global Logistics
6. Health Care Management
7. Hospitality and Tourism Management
8. Human Resource Management
9. International Business Management
10. International Finance
11. Leadership Management
12. Management Consulting
13. Marketing Management
14. Mass Media and Public Relations
15. Project Management

This degree is earned by completing the program course requirements of 36 credit hours at 3 credit hours per course, beyond the prerequisite courses.

MBA Program Prerequisites
Applicants seeking admission into the MBA program who have no previous business background and whose bachelor’s degrees are not related to business, and who have not completed the equivalency of the five courses listed below are required to take the following MBA program prerequisite courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 101</td>
<td>Principles of Microeconomics</td>
<td>None</td>

<tr>
<td>BUSS 303</td>
<td>Principles of Finance</td>
<td>ACCT 201</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 120</td>
<td>Academic Writing</td>
<td>None</td>
<td>3</td>
</tr>
</tbody>
</table>

*This requirement is added effective with Spring 2015 semester.*

These program prerequisites can be taken at the same time. Some or all of these prerequisites may be waived at the Dean’s discretion. Students also have an option to test out of these courses or provide other evidence of content knowledge through certifications, successful completion of similar courses, or training certificates.

MBA Core Courses: (21 Credit Hours)
Core courses provide students with the skills and knowledge that all managers need. Every MBA student must complete the following seven (7) core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

Pre-MBA Program
Students who have earned their Bachelor's degree with less than 120 undergraduate credit hours can be given conditional admission to the MBA program, provided they enroll in and successfully complete the remaining credit hours needed to equal 120, by selecting from the undergraduate courses offered at VIU. Among the 120 required credit hours, the MBA Program prerequisite courses (ECON 101, STAT 200, ACCT 201, BUSS 303 and ENGL 120) must be fulfilled. Students must consult their academic advisor before choosing classes. Successful completion of the 120 credit hours, including the four MBA Program prerequisite courses, will allow students to complete the undergraduate credit requirement and enter the MBA program.
10.5. Masters of Science in Accounting Degree

The Masters of Science in Accounting (MAC) degree program is designed to provide mastery of both technical and operational competencies for students and professionals with financial, accounting, management, and general business backgrounds who are seeking positions in Accounting.

MAC Program Outcomes

In business organizations and situations, VIU MAC graduates will be able to:

1. Demonstrate the ability to apply concepts of accounting theory and practice in a variety of business settings.
2. Analyze complex financial and managerial accounting problems and formulate, communicate and explain recommendations to decision makers.
3. Demonstrate the ability to communicate fundamental accounting and tax principles and techniques effectively both in writing and orally.
4. Construct GAAP compliant financial statements including the balance sheet, income statement, statement of cash flows, and statement of stockholder's equity, and understand their interrelationships.
5. Evaluate accounting practices from ethical, legal, and regulatory perspectives while considering the interests of diverse stakeholders.
6. Integrate accounting principles and enterprise technology solutions to maximize value recognized by organizations.

The Masters of Science in Accounting degree program is earned by completing 30 semester credits of coursework and 6 semester credits of thesis work beyond the required courses.

Career Paths for MS in Accounting Graduates

Students graduating from the MS in Accounting program should be prepared to provide leadership a variety of financial and accounting settings. The MS in Accounting program develops the foundation for continuing education and leadership in all fields of accounting. Graduates of the MS in Accounting Program can anticipate jobs in the following types of careers at the management, director and executive levels:

- Accounting Manager
- Auditor
- Budget Analyst
- Controller
- Environmental Accountant
- Financial Analyst
- Financial Manager
- Financial Planner
- Fraud Investigator
- Internal Auditor
- Payroll Staff, Manager
- Risk Manager
- Strategic Planner
- Tax Specialist
- Postsecondary Business Teacher

MS in Accounting Program Prerequisites

If an applicant does not have previous business and/or management background, finance and accounting experience and his/her bachelor’s degree is not related to business and management, he/she is required to take the following MS in Accounting Program prerequisite courses (5 courses, 15 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 200</td>
<td>Introduction to Statistics</td>

**Accounting Core: (7 courses, 21 credits)**

This set of courses provides basic concepts, analysis and fundamental knowledge in auditing, taxation, financial reporting, business ethics and information systems within the accounting field. Every MAC student must complete the following seven (7) courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBA 511</td>
<td>Managerial Accounting and Finance</td>
<td>ACCT 201, BUSS 303</td>
<td>3</td>
</tr>
<tr>
<td>MBA 605</td>
<td>Auditing</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>MBA 608</td>
<td>Financial Reporting and Decision Making</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>MBA 610</td>
<td>Taxation of Business Entities</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>MBA 611</td>
<td>Business Ethics and Law</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>MBA 654</td>
<td>Accounting Information Systems</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 600</td>
<td>Cost Accounting</td>
<td>MBA 511</td>
<td>3</td>
</tr>
</tbody>
</table>

**Accounting Electives: (3 courses, 9 credits)**

To expand the knowledge and broaden the experience and skills in accounting field, students are required to complete three elective courses (9 credits) from the list below:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBA 614</td>
<td>International Finance</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>MBA 620</td>
<td>Long-term Financial Decisions</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>MBA 621</td>
<td>Trading and Risk Management</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 601</td>
<td>Advanced Financial Accounting</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 602</td>
<td>International Accounting</td>
<td>MBA 511</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 603</td>
<td>Contemporary Topics in Accountancy</td>
<td>MBA 511</td>
<td>3</td>
</tr>
</tbody>
</table>

**Accounting Thesis Courses (2 courses, 6 credits)**

Accountants are widely employed throughout practically every industry and every area of employment. Often serving as the essential source for financial data critical to the organization’s ultimate success, accountants may provide financial insights which serve as the primary factor in making all other decisions. Through the thesis process, students will have an opportunity to demonstrate their ability to integrate accounting practices, various business models, and business operational procedures for the purpose of maintaining an organization’s fiscal, legal, and ethical stability as well as actualize their understanding through imperial research.

10.6. Masters of Science in Project Management Degree
VIU’s Master of Science in Project Management (MPM) degree is designed to provide mastery of both technical and operational competencies for professionals with diverse backgrounds seeking leadership positions as a project manager.

MPM Program Outcomes
In business organizations and situations, VIU MPM graduates will be able to:
1. Explain the elements of project initiation, project implementation and termination.
2. Apply cost accounting concepts to project management according to its contractual parameters.
3. Function as a leader in the formulation of the project management plan, implementation, and validation of outcomes.
4. Strategize on problem solving/ing reflective of the triple constraints of scope, time, and schedule.
5. Distinguish between projects and the ongoing nature of operations.
6. Recognize and understand cultural diversity and acceptance of others.
7. Apply technological skills, tools and techniques to guide overall project execution.
8. Apply effective oral and written communication skills.
9. Demonstrate a high level of ethics and professional behavior in all matters of project contract negotiation.

The MPM degree program is earned by completing the program course requirements of 30 semester credit hours and 6 semester credit hours of thesis, beyond the program prerequisite courses.

Career Paths for Master of Project Management Graduates
Students graduating from the MPM program should be prepared to provide leadership a variety of business settings. The MPM program develops the foundation for continuing education and leadership in all fields of business and administration. Graduates of the MPM Program can anticipate jobs in the following types of careers at the management, director and executive levels:
- Construction Manager
- Cost Estimator
- General and Operations Manager
- Industrial Production Manager
- Management Consultant
- Organizational Change Manager
- Procurement Manager
- Project Developer
- Project Quality Manager
- Project Specialist
- Project Team Lead
- Project Manager

MPM Program Prerequisites
If applicants do not have previous business background and project management experience, and their bachelor’s degrees are not related to business and management, they are required to take the following MPM program prerequisite courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 101</td>
<td>Principles of Microeconomics</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>STAT 200</td>
<td>Introduction to Statistics</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 201</td>
<td>Principles of Financial Accounting</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>BUSS 303</td>
<td>Principles of Finance</td>
<td>ACCT 201</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 120*</td>
<td>Academic Writing</td>
<td>None</td>
<td>3</td>
</tr>
</tbody>
</table>
This requirement is added effective Spring 2015 semester.
These program prerequisites are co-requisites and may be taken at the same time. Some or all of these prerequisites can be waived at the Dean's discretion.

MPM Degree Requirements
MS in Project Management requires 36 academic credit hours, and consists of three areas of study that develop necessary knowledge and skills to become a Project Manager. If desired, an MS in Project Management graduate can take an additional course aimed at successful preparation for obtaining the Project Management Professional (PMP) certification.

<table>
<thead>
<tr>
<th>Area</th>
<th># of Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Management Core courses</td>
<td>4</td>
<td>12</td>
</tr>

<td>36</td>
</tr>
</tbody>
</table>

General Management Core (4 courses, 12 credits)
General management core courses provide students with the skills and knowledge that all project managers need including accounting, finance, organizational behavior, marketing and leadership. Every MPM student must complete the following four (4) courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBA 511</td>
<td>Managerial Accounting and Finance</td>
<td>ACCT 201, BUSS 303</td>
<td>3</td>
</tr>
<tr>
<td>MBA 512</td>
<td>Project &amp; Cost Management</td>
<td>STAT 200</td>
<td>3</td>
</tr>
<tr>
<td>MBA 513</td>
<td>Organizational Behavior &amp; HR Management</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>MBA 514</td>
<td>Marketing Management</td>
<td>None</td>
<td>3</td>
</tr>
</tbody>
</table>

Project Management Core (6 courses, 18 credits)
Project Management core courses offer students the familiarity and skills in managing projects, evaluating risks, handling contractual and procurement activities and analyzing advanced projects management practices. Every MPM student must complete the following six (6) courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PMP 605</td>
<td>Project Management Systems</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>PMP 610</td>
<td>Quality Project Management Practices</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>PMP 615</td>
<td>Risk Project Management</td>
<td>None</td>
<td>3</td>
</tr>
<tr>
<td>PMP 620</td>
<td>Contract and Procurement Management</td>

<td></td>
</tr>
<tr>
<td>PMP 625</td>
<td>Advanced Project Management Practices</td>
<td>PMP 605</td>
<td>3</td>
</tr>
</tbody>
</table>

Project Management Thesis Course (2 courses, 6 credits)
The project management concept is commonly integrated across many disciplines. As a project manager, it is important to have a working understanding of various industries. Through the thesis process, students will have an opportunity to demonstrate their ability to integrate people, processes, and technology for the purpose of understanding an organization's mission and vision as well as actualize their understanding through imperial research.

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>

10.7. Graduate Certificate in Project Management

The VIU Certificate in Project Management is uniquely different from the Master’s Degree in Project Management or the MBA with a concentration in Project Management in two areas: The focus of a Graduate Certificate in Project Management is on strategic outcomes rather than organizational strategic outcomes, and certificate courses are aligned principally to the core processes and knowledge areas found in the Project Management Body of Knowledge (PMBOK).

GCPM Program Outcomes
In business organizations and situations, VIU GCPM graduates will be able to:

1. Manage the initiation of projects and planning of activities that accurately forecast project costs, timeline, and quality.
2. Implement processes for successful resource, communication, and risk and change management.
3. Demonstrate processes for successful resource, communication, and risk and change management.
4. Conduct effective project execution and control techniques that result in successful projects.
5. Demonstrate a strong working knowledge of ethics and professional responsibility.

The GCPM degree program is earned by completing the program course requirements of 18 semester credit hours.

Career Paths for Graduate Certificate in Project Management
The GCPM program develops the foundation for continuing education and leadership in all fields of business and administration. Graduates of the GCPM Program can anticipate jobs in the following types of careers at the management and director level:

- Construction Manager
- Cost Estimator
- General and Operations Manager
- Industrial Production Manager
- Management Consultant
- Procurement Manager
- Project developer
- Project Specialist
- Project Manager

Graduate Certificate in Project Management Courses
Students must take all six (6) courses (18 credit hours).

11. SCHOOL OF COMPUTER INFORMATION SYSTEMS
The mission of the School of Computer Information Systems is to prepare graduates to serve as leading practitioners in the field of computing in a global context and to enable them to realize their dreams through
academic excellence. We provide a world-class education in the computing discipline from diverse faculty who are experts in the fields of computer science, information systems and information technology.

**School of Computer Information Systems Learning Outcomes**

A. Apply various critical thinking and programming skills tailored to professional objectives  
B. Recognize and utilize a variety of tools for technical and operational aspects of IT project management  
C. Maintain and understand knowledge of current and future trends in computer technology  
D. Effectively communicate and collaborate with a variety of invested individuals  
E. Facilitate practices and procedures with social, ethical and legal understandings of technologies

11.1. Bachelor of Science in Computer Science  
The curriculum for the Bachelor of Science in Computer Science degree is designed to give a student a state of the art education in both the theory and practice of Computer Science. Upper-level courses involve students in team projects that emphasize industrial applications and best practices.

**BCS Program Outcomes**  
VIU’s BCS program emphasizes the design and use of computer technology to develop information processing systems. The program provides students with broad range of computer knowledge and practical skills required in most of business and industry areas today. Successful graduates are awarded a Bachelor of Science in Computer Science degree. No concentration or specialization is associated with this degree, but students have a large selection of electives to choose from in the final year based on their specific areas of interest.

Specifically, the BCS program graduates will be able to:  
1. Learn object oriented programming to apply fundamental concepts of programming  
2. Introduce IDE and DBMS and managerial tools in case studies and practice with these tools  
3. Analyze current and future trends in computer science  
4. Demonstrate effective communication and collaboration skills with peers  
5. Develop an appreciation of social, ethical and legal aspects of technologies and their applications in the Computer Science field  
6. Introduce computer science theory and algorithms in the modeling and design of computer-based systems  
7. Understand network concepts, protocols, security, and cloud computing technologies.

**BCS Career Paths**  
VIU’s BCS program educates and trains students to create and implement solutions for information systems-based needs and problems in research, commercial, financial, governmental, or other types of organizations. The approach of this degree program is to integrate theoretical and practical aspects of the computing science and technology. The program provides a blend of theory and applications, preparing students for a variety of Computer Science careers in industry, government, and academia; and to develop the foundation for continuing education and growth in the field of Computer Science. Specific career paths include positions at the entry, experienced professional and management level such as:

- Computer Systems Analyst  
- Software Developer  
- Database Developer  
- Database Administrator  
- Computer Programmer  
- Web Developer  
- QA Tester  
- Network System Administrator

**BCS Degree Requirements**  
The Bachelor of Science in Computer Science requires 40 courses: twelve (12) General Education Department Courses (CAC), eighteen (18) Professional Core Courses and ten (10) Elective Courses.

<table>
<thead>

11.2. Master of Science in Computer Science

The Master of Science in Computer Science (MCS) program is designed to appeal to a broad range of individuals. The program balances theory with practice, offers an extensive set of traditional and state-of-the-art courses, and provides the necessary flexibility to accommodate students with various backgrounds, including computer professionals who want to expand their understanding of Computer Science, as well as individuals whose undergraduate degrees are not in Computer Science but wish to broaden their knowledge in computing. The program also provides the background necessary to continue the study of Computer Science at the doctoral level. Students may choose a thesis option, which requires two semesters of study under the direction of a professor in which the student gains an understanding of an area of current research and contributes to it.

In the MCS program, a student must opt to pursue one specialization from the choice of the following seven specializations available:

1. Computer Animation and Gaming;
2. Cybersecurity;
3. Data Management;
4. Intelligent Systems;
5. Networking;
6. Software Applications Development;
7. Software Engineering.

MCS Program Outcomes

The main objective of VIU’s MCS program is to provide a deep understanding of computer science theory and applications. The program aims to equip the student with the knowledge and skills that enable her/him to identify and solve problems in specific areas using analytical and critical thinking skills; communicate...
effectively using visual, mathematical and/or language skills in the modes of oral and/or written presentation; develop a macro-vision understanding that the world is a set of related systems and that problem solving contexts do not exist in isolation; and contribute to cross-functional teams, including geographically dispersed teams. Each MCS specialization will have its own specialization-specific objective, which is given in the relevant part of this document.

The curriculum design provides all MCS degree holders with a core set of knowledge. Furthermore, to make students more employable, the program offers students a set of courses (reinforced with practical experience) in a particular area within Computer Science (CS) as a specialization. A particular MCS specialization allows a student to concentrate in a specific area for which there is demand and to achieve mastery of in the area. These graduates will have the following skills, knowledge, and values:

1. Apply object oriented programming in desktop and mobile applications
2. Employ IDE and managerial tools in real world applications
3. Analyze current and future trends in computer science and adapt them appropriately to changing business needs
4. Illustrate effective communication and collaboration skills with stakeholders
5. Demonstrate understandings of privacy, security, forensics and copyright issues in professional and social environments
6. Understand various data structures and developing effective algorithms
7. Understand, develop and apply database management concepts and tools
8. Understand and design computer and network architecture and analyze different architectural models
9. Concentration Specific Outcome:
   a. Computer Animation and Gaming: Conceptualize, design and implement computer graphics and animation programs that meet certain objective criteria.
   b. Cybersecurity: Identify, develop, and implement effective and efficient defense mechanisms to secure organization networks and information resources to support organizational goals.
   c. Data Management: Collect, organize, store, manipulate, analyze, secure, and communicate structured and unstructured data; in order to integrate information technology solutions and business processes to meet the information needs of businesses and other enterprises.
   d. Intelligent Systems: Apply artificial intelligence (AI), machine learning and intelligent systems techniques to solve real-world problems.
   e. Networking: Understand network and Internet architecture, network design and implementation, network performance analysis, network management, network security, and emerging trends in networking technology.
   f. Software Applications Development: Analyze, design, implement and test software applications that meet the business objectives of an organization using techniques such as design patterns, component-based architectures, web services, service-oriented architectures and emerging technologies.
   g. Software Engineering: Carry out requirements engineering, design and construct high quality software, software testing, maintenance, configuration and management to meet the business needs of an enterprise in a highly dynamic and competitive business environment.

Career Paths for MCS Graduates
Students graduating from the MCS program should be prepared to provide leadership in the Computer Science field. The MCS program prepares students for productive long-term careers in industry, government, and academia; and to develop the foundation for continuing education and growth in the field of Computer Science. MCS graduates will become key contributors to Computer Science research and applied Computer Science and can further their education by entering a doctoral degree program. Graduates of the MCS program can anticipate the following types of computer science professional careers at the management, director and executive levels:

• Computer scientist in the role of researcher, theorist or inventor;
• Computer engineer or designer for hardware based organizations;
• Consultant for projects that include a substantial dependence on Computer Science;
• Research and development in Computer Science and related disciplines;
• Application and system programmers or developers;
• Software system architect;
• Instructor at a college or university teaching Computer Science related courses.

MCS Program Prerequisites
All new MCS students need certain basic skills to prepare them for success in the MCS program. The MCS degree provides a broad understanding of computer science theory and technology. Students who do not have the required background need to take some or all of the prerequisites before taking the Core Courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses. Thus to be successful, students must have a background in the following areas:

<table>

</tr>
</tbody>
</table>
^Course can be waived if student passes a standardized examination for this course, or by Dean’s Approval

These program prerequisites are co-requisites and may be taken simultaneously with the master’s degree courses. Some or all of these prerequisites may be waived at the Academic Advisor’s discretion.

MCS Degree Requirements
The MCS degree will be earned by completing the program course requirements of 36 credit hours, beyond the program prerequisite courses. To qualify for the MCS degree, students must meet all credit requirements, as described below.

VIU’s MCS program is generally completed within two years of full time study. It consists of five (5) core courses (15 credits), five (5) specialization elective courses (15 credits) and two (2) other electives. The specialization electives allow a student to concentrate in a specific area for which there is demand and to achieve knowledge depth in that area. The two other (exit) electives give a student the opportunity to integrate and apply the knowledge and skills studied so far to real-world situations/problems through a capstone project, internship or a master’s thesis. The specialization elective courses provide an opportunity for students to develop and fine-tune specific computing skills according to their areas of interest.

The description of the courses can be found under the Course Descriptions section.
MCS Specialization Courses: (5 courses - 15 Credit Hours)
Students must select one of the specializations listed below during the second year of their study. Students must choose five (5) courses (15 credit hours) from the Specializations Elective Courses.

1. **Computer Animation and Gaming**
The objective of this specialization is to equip students with in-depth knowledge and skills that will enable them to conceptualize, design and implement computer graphics and animation programs that meet certain objective criteria.

<table>
<thead>
<tr>
<th>Code</th>

5. Networking

The objective of this specialization is to equip the students with a comprehensive understanding of the network and Internet architecture, network design and implementation, network performance analysis, network management, network security, and emerging trends in networking technology. The program is designed to equip students with extensive hands-on experience in order to analyze, design, procure, manage, and implement state-of-the-art computer networking solutions and technologies.

<table>
<thead>

</tbody>
</table>

* Internship / CPT qualified course.

6. Software Applications Development

The objective of this specialization is to equip the students with a comprehensive understanding of advanced software applications development using modern program paradigms and tools. The program is designed to equip students with extensive hands-on experience in order to analyze, design, implement and test software applications that meet the business objectives of an organization using techniques such as design patterns, component-based architectures, web services, service-oriented architectures and emerging technologies.

<table>

* Internship / CPT qualified course.

7. Software Engineering

The objective of this specialization is to equip the student with the knowledge and skills to effectively carry out requirements engineering, design and construct high quality software, software testing, maintenance, configuration and management to meet the business needs of an enterprise in a highly dynamic and competitive business environment.
**MCS Other Elective Courses: (2 Courses – 6 Credits)**
The student must select two courses from the list of courses below or from any other specialization electives. Students can only enroll in the Capstone project course of their chosen specialization.

**Pre-MCS Program**

Students who have earned their bachelor’s degree with less than 120 undergraduate credits can be given conditional admission to the MCS program, provided they enroll in and successfully complete the remaining credits by selecting from the bachelor of science in computer science (BSC) undergraduate courses offered at VIU. Among the 120 required credits, the MCS program prerequisite courses must be fulfilled. Students must consult their academic advisor before choosing the pre-MCS courses who will advise them on the appropriate course selections from VIU’s BCS program while complying with MCS program prerequisites. Successful completion of the pre-MCS courses will allow these students to complete the undergraduate credits requirement of 120, and enter into the MCS program.

**11.3. Master of Science in Information Systems**
The Master of Science in Information Systems (MIS) is designed to prepare students for positions in Information Systems and related fields. The curriculum is focused on gaining a better understanding of the use of information systems to enhance business processes and the decision-making process associated
with them. Business theory is merged with information systems theory to prepare leaders for success in public and private business environments. Practical applications are emphasized throughout the curriculum.

**MIS Program Objective**

VIU’s Master of Science in Information Systems (MIS) program is the study of information systems, including their design, development, deployment, and usage in various organizations. Research in this field covers a wide range of topics including design and architecture, deployment and execution, adoption of information technology in organizations, human factors in information systems, knowledge acquisition, expert systems, systems analysis and design methods, object-oriented enterprise modeling, knowledge-based systems to support database design, automated mediation in group support systems, and distributed information systems.

The main objective of the MIS program is to provide a comprehensive understanding of information systems in organizations. The program aims to equip the student with the knowledge and skills that enable her/him to focus on integrating information technology solutions and business processes to meet the information needs of businesses and other enterprises, enabling them to achieve their objectives in an effective and efficient way. The program also aims to equip students with the knowledge and skills to identify and solve problems using analytical and critical thinking skills; communicate effectively using visual, mathematical and/or language skills in the modes of oral and/or written presentation; develop a macro-vision understanding that the world is a set of related systems and that problem solving contexts do not exist in isolation; and contribute to cross-functional teams, including geographically dispersed teams.

The curriculum design provides all MIS degree holders with a core set of knowledge. Furthermore, to make students more employable, the program offers students a related set of courses (reinforced with practical experience) in a particular focus area within information systems as a specialization. A particular MIS specialization allows a student to concentrate in a specific area for which there is demand and to achieve breadth and depth in that area. Each MIS specialization has its own specific objective, which is given in the relevant section of this catalog. Students graduating from the MIS program should be prepared to provide leadership in the information systems field.

In the MIS program, a student must opt to pursue one specialization from the following seven specializations available:

1. Business Intelligence and Data Analytics;
2. Cybersecurity;
3. Data Management;
4. Enterprise Project Management;
5. Health Informatics;
6. Information Assurance;
7. Knowledge Management.

**MIS Program Outcomes**

These graduates will have the following skills, knowledge, and values:

1. Develop an understanding of social, ethical, information and network security, and legal aspects of technologies.
2. Introduce fundamental programming concepts, design, and develop IDE applications that efficiently utilize database concepts and manipulation.
3. Be prepared for leadership roles in professional practices with strengths in design, problem solving, communications and collaboration with peers.
4. Apply knowledge of formal software development concepts to processes, programming paradigms and mathematical models appropriate to different application contexts.
5. Apply critical thinking and problem solving skills to synthesize managerial business decisions.
6. Understand IT infrastructure and different architectural models in computer networks.
7. Concentration Specific Outcome:
a. Business Intelligence and Data Analytics: Demonstrate the ability to analyze and mine large volumes of data in order to support marketing, and financial decision making to give an enterprise a competitive advantage.

b. Cybersecurity: Apply knowledge and skills to identify, develop, and implement effective and efficient defense mechanisms to secure organization networks and information resources.

c. Data Management: Apply knowledge and skills to collect, organize, store and manipulate data; in order to integrate information technology solutions and business processes to meet the information needs of businesses.

d. Enterprise Project Management: Apply managerial knowledge and skills to optimize time, budget, personnel and other resources required for enterprise IT projects.

e. Health Informatics: Apply knowledge and skills to health care information systems and data management, and related ethics and compliance considerations.

f. Information Assurance: Apply knowledge and skills to ensure confidentiality, integrity, and availability to protect and defend information and information systems.

g. Knowledge Management: Apply managerial skills to collect, organize, and analyze knowledge to meet the business organizational needs in order to remain competitive.

The MIS program is designed to support both traditional and emerging career opportunities. The Career paths for the MIS graduates include the following positions at the manager, director, and executive levels:

- Data administration
- Systems integration
- Networking, telecom, and infrastructure
- Management of sourcing and global projects
- IT project management
- Analysis of information systems development projects
- Cybersecurity
- IT consulting for projects that include a substantial dependence on information systems
- Academia as an instructor at a college or university teaching information systems-related courses
- Research and development of information technologies and related products and services

VIU’s MIS program is generally completed within two years of full time study. It consists of five (5) core courses (15 credits), five (5) specialization elective courses (15 credits) and two (2) other electives. The specialization electives allow a student to concentrate in a specific area for which there is demand and to achieve breadth and depth in that area. The two other electives give a student the opportunity to integrate and apply the knowledge and skills studied so far to real-world situations/problems through a capstone project, internship or a master’s thesis. The specialization elective courses provide an opportunity for students to develop and fine-tune specific computing skills according to their areas of interest.

**MIS Program Prerequisites**

All new MIS students need certain basic skills to succeed in the MIS program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin work on the core courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

<table>

</tr>
</tbody>
</table>

MIS Core Courses: (5 Courses – 15 Credits)
The MIS core courses provide students with the skills and knowledge needed by all information systems professionals. Along with the knowledge of the specific technical areas of information systems, these courses are designed to improve communication and other skills relevant to working in cross-functional teams.

Each candidate must satisfactorily complete the following five (5) core courses (15 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Name</th>
<th>Course Prerequisite</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMP 550</td>

7. MIS: Knowledge Management
The objective of this specialization is to equip the student with the knowledge and skills to collect, organize, store, manipulate, analyze, secure, and communicate structured and unstructured organizational knowledge to meet the businesses needs of an organization and for the organization to remain competitive.

Pre-MIS Program

Students who have earned their Bachelor’s degree with less than 120 undergraduate credits can be given conditional admission to the MIS program, provided they enroll in and successfully complete the remaining credits by selecting from the Bachelor of Science in Computer Science (BCS) undergraduate courses offered at VIU. Among the 120 required credits, the MIS program prerequisite courses must be fulfilled. Students must consult their academic advisor or the Dean before choosing the pre-MIS courses who will advise them on the appropriate course selections from VIU’s BCS program while complying with MIS program prerequisites. Successful completion of the pre-MIS courses will allow these students to complete the undergraduate credit requirement of 120, and enter into the MIS program.

11.4. Master of Science in Information Systems Management

The Master of Science in Information Systems Management (MISM) has been designed to address the urgent needs of hiring managers in the information systems area with regard to the skill sets of information systems managers. The graduates will be able to manage the in-house and outsources development of information systems and perform effectively as both producer and consumer of information systems services. Program graduates will demonstrate professional competencies that will make them valuable contributors in cross-functional teams, able to keep their skills fresh as the industry develops, with a clear understanding of their roles as responsible professionals in a complex business, policy and social context. Program graduates will be responsible and ethical professionals who understand the economic, organizational, policy and social dimensions of their work in this dynamic and complex field.

MISM Program Outcomes

The program objectives of the Master of Science in Information Systems Management fall in three general categories: Technical, organizational and cross-cutting knowledge, skills and dispositions. Upon completion of the program, the graduates will be able to:

SCHOOL OF COMPUTER INFORMATION SYSTEMS 127
1. Develop an understanding of social, ethical, information and network security, and legal aspects of technologies;
2. Design effective management information systems to address organizational needs;
3. Be prepared for leadership roles in professional practices with strengths in design, problem solving, communications and collaboration with peers;
4. Demonstrate an understanding of the major phases of the system development life-cycle;
5. Apply critical thinking and problem solving skills to synthesize managerial business decisions;
6. Describe theories, components, strategies, frameworks, models, processes and practices of the information technology governance.

Career Paths for MISM Graduates
The MISM program is designed to support both traditional and emerging career opportunities. The career paths for the MISM graduates include the following positions at the management, director, and executive levels:

- Information systems manager
- Information systems project manager
- Information systems integrator
- Information systems security specialist
- Database administrator
- Chief technology officer
- Chief information officer
- IT consultant
- Computer systems analyst
- Cloud architect

MISM Program Prerequisites
All new MISM students need certain basic skills to succeed in the MISM program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin work on the Core Courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

*Internship / CPT qualified course. All 600-level CMP elective courses in the MISM program are CPT eligible for the students enrolled in the MISM program.

### Pre-MISM Program

Students who have earned their Bachelor’s degree with less than 120 undergraduate credit hours can be given conditional admission to the MISM program, provided they enroll in and successfully complete the remaining credit hours by selecting from the Bachelor of Science in computer science (BCS) undergraduate courses offered at VIU. Among the 120 required credit hours, the MISM program prerequisite courses must be fulfilled. Students must consult their academic advisor before choosing the Pre-MISM courses who will advise them on the appropriate course selections from VIU’s BCS program while complying with MISM program prerequisites. Successful completion of the Pre-MISM courses will allow these students to complete the undergraduate credit hour requirement of 120, and enter into the program.

### 11.5. Master of Science in Information Technology

The Master of Science in Information Technology (MIT) program prepares individuals for leadership roles in the IT industry. The program provides knowledge and skills across an entire range of topics in the industry –computer networking, software development, database technologies, computer architecture, IT governance and strategy, Web development, information assurance, ethics, etc.
The core of the program is focused on building a foundation of critical thinking skills with which to make professional judgments and design and implement solutions aligned with business needs. The MIT program builds these skills through a solid understanding of theoretical methods, principles, and tools and an examination of fundamental information technology issues and processes.

Faculty with both academic and industry backgrounds also provide practical perspective. Real-world problems and opportunities with software intensive systems are explored, and methods to evaluate, adopt and take advantage of emerging technologies are studied. MIT students will also be working closely with fellow IT professionals, completing applicable assignments and projects within teams.

**MIT Program Outcomes**
The program objectives fall in two general categories: technical and organizational. Upon completion of the program, graduates will be able to:

1. Apply problem solving skills in web site development, web-database integration, and network and system administration.
2. Contribute to business processes through mathematical analysis, design and optimization in response to organizational needs.
3. Demonstrate understandings of privacy, security, forensics and copyright issues in professional and social environments.
4. Illustrate effective communication and collaboration skills with stakeholders.
5. Understand and develop real world IDE applications using database management concepts.
6. Develop computer and network architectural solutions for information systems and technologies.

**Career Paths for MIT Graduates**
The MIT program is designed to support both traditional and emerging career opportunities. The career paths for the MIT graduates include the following positions at the experienced professional, management, director and executive levels:

- IT manager
- IT project manager
- Chief technology officer
- Chief information officer
- Database administrator
- IT consultant
- Computer systems analyst
- Cloud architect
- Information security analyst

**MIT Program Prerequisites**
All new MIT students need certain basic skills to succeed in the MIT program. Students who do not have the requisite background in computing need to take some or all of the prerequisite courses before they begin work on the Core Courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

**Pre-MIT Program**

Students who have earned their Bachelor’s degree with less than 120 undergraduate credit hours can be given conditional admission to the MIT program, provided they enroll in and successfully complete the remaining credit hours by selecting from the Bachelor of Science in Computer Science (BCS) undergraduate courses offered at VIU. Among the 120 required credit hours, the MIT program prerequisite courses must be fulfilled. Students must consult their academic advisor before choosing the Pre-MIT courses who will advise them on the appropriate course selections from VIU’s BCS program while complying with MIT program prerequisites. Successful completion of the Pre-MIT courses will allow these students to complete the undergraduate credit hour requirement of 120, and enter into the program.
11.6. Master of Science in Software Engineering

The Master of Science in Software Engineering (MSE) program prepares students to become Software Engineering professionals. Graduates are prepared to address the global need for professionals that apply computer science, engineering, and mathematical principles to design, develop, test and maintain software. The core of the program is focused on building a foundation of critical thinking skills on which to make professional judgments.

This program builds these thinking skills through a solid understanding of theoretical concepts, principles, and tools; and coverage of the fundamental software development issues and processes. Topics covered include: requirements engineering, software design and construction, verification, testing, maintenance, software process improvement, project management, quality assurance, etc. Faculty with both academic and industry backgrounds also provide practical perspectives. Real-world problems and opportunities with software intensive systems are explored, and methods to evaluate, adopt and take advantage of emerging technologies are learned. Students of the Master of Science in Software Engineering program will also be working closely with fellow software professionals, completing applicable assignments and projects within teams.

MSE Program Outcomes

The program objectives fall in three general categories: technical, organizational and cross-cutting knowledge, skills and dispositions. Upon completion of the program, the graduates will be able to:

1. Apply object oriented software engineering to build robust software solutions and web applications;
2. Apply knowledge of formal software development concepts to processes, programming paradigms and mathematical models appropriate to different application contexts;
3. Analyze current and future trends in software engineering and adapt them appropriately to changing business needs;
4. Illustrate effective communication and collaboration skills with stakeholders;
5. Demonstrate understandings of privacy, security, forensics and copyright issues in professional and social environments;
6. Carry out requirements engineering, design and construct high quality software, software testing, maintenance, configuration and management to meet the business needs of an enterprise in a highly dynamic and competitive business environment;
7. Analyze, design, implement and test software applications that meet the business objectives of an organization using techniques such as design patterns, component-based architectures, web services, service-oriented architectures and emerging technologies.

Career Paths for MSE Graduates

Graduates of the MSE program can expect to pursue the following professional careers at the experienced professional, managerial, and executive levels:

- Software engineer
- Software architect
- Software project leader
- Software project manager
- Software designer
- Program developer
- Chief technology officer
- Chief information officer
- Software consultant
- Computer systems analyst

MSE Program Prerequisites

All new MSE students need certain basic skills to succeed in the MSE program. Students who do not have the requisite background in computing concepts or programming need to take some or all of the prerequisite courses before they begin work on the Core Courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

Successful completion of the Pre-MSE courses will allow these students to complete the undergraduate credit hour requirement of 120, and enter into the program.

**11.7. Graduate Certificate in Business Intelligence**

In a knowledge-intensive economy, success depends on an organization’s ability to understand trends in its data and exploit it to generate intelligence to gain and maintain competitive advantages. The Graduate Certificate in Business Intelligence (BI) program is designed to meet the overwhelming need of the industry to transform raw data and information into business intelligence that is used to drive efficiency, maximize the technology investment and strengthen customer relationships.

VIU’s Graduate Certificate in Business Intelligence enables managers and system/business analysts to understand how information can be accessed from corporate databases and data warehouses, and how models can be built for a broad variety of decision problems. The modeling techniques that are covered in the program range from traditional statistical models and optimization models to new techniques.

**Graduate Certificate in BI Program Outcomes**

Graduates of this program will be able to:
1. Introduce fundamental programming concepts and skills involving object-oriented programming languages.
2. Develop an understanding of social, ethical, information and network security, and legal aspects of technologies.
3. Introduce, design, and develop applications that efficiently utilize database concepts to support marketing, and financial decision making.
4. Be prepared for leadership roles in professional practices with strengths in design, problem solving, communications and collaboration with peers.
5. Apply critical thinking and problem solving skills to synthesize managerial business decisions.

**Career Paths for Graduate Certificate in BI Graduates**

Career paths for the Graduate Certificate in BI include the following positions at the experienced professional and managerial levels:
- Business intelligence analyst
- Business intelligence manager
- Business intelligence consultant

**Graduate Certificate in BI Program Prerequisites**

All new students in this certificate program need certain basic skills before they can enroll in the program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin studying the courses in the program. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.
### Graduate Certificate in BI Degree Requirements

The program consists of four (4) Core Courses and two (2) Elective courses. The elective courses provide the opportunity for the students to develop further competencies covered in the core courses, based on their area of interest.

### 11.8. Graduate Certificate in Information Systems

The Graduate Certificate in Information Systems (IS) is designed to prepare students for positions in the information systems field. The curriculum is focused on gaining a better understanding of the use of information systems to enhance business processes and the decision-making process associated with them.

Information systems professionals design, implement and deploy software solutions that are the driving force in every organization. This program accommodates students just beginning to explore the field and those with a thorough understanding of computerized information systems. Practical applications are emphasized throughout the program.

VIU’s Graduate Certificate in Information Systems is the study of information systems, including their design, development, deployment, and usage in various organizations. Research in this field covers a wide range of topics including design and architecture, deployment and execution, and management of information systems and the underlying technology in organizations.

### Graduate Certificate in IS Program Outcomes

VIU’s Graduate Certificate in Information Systems teaches students the significance of an effective information system for any organization and the creation and execution of an information system for achieving an organization’s objectives. Students will be able to use technology as a competitive advantage.
and understand how technology helps to achieve the key business goals of an organization. Upon the completion of the program, the students will be able to:

1. Apply knowledge of formal software development concepts to processes, programming paradigms and mathematical models appropriate to different application contexts;
2. Develop an understanding of social, ethical, information security, and legal aspects of technologies in the Computer Science field;
3. Introduce, develop, and apply database management concepts and IDE tools;
4. Adapt professional and communication skills to function effectively in both centralized and distributed software development teams;
5. Develop competency in creativity, critical thinking, problem identification, formulation and solving.

Career Paths for Graduate Certificate in IS Graduates
Graduates of this program can anticipate the following types of careers at the experienced professional and managerial levels:

- System/Programmer/Business Analyst
- Database designer
- Systems manager
- Information systems director

VIU’s Graduate Certificate in IS program is generally completed within two years full time. It consists of four (4) Core Courses (12 credit hours) and two (2) Elective Courses (6 credit hours).

Graduate Certificate in IS Program Prerequisites
All new students of IS Graduate Certificate program, need certain basic skills in order to succeed in the program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin studying the Core Courses. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

†Course can be waived if student passes a standardized examination for this course or by Dean’s approval.

These program prerequisites are co-requisites and may be taken at the same time. Additionally, the Dean or Associate Dean at his/her discretion has the authority to issue permission or a waiver for these courses.

Graduate Certificate in IS Program Degree Requirements
This certificate will be earned by completing the program course requirements of 18 credit hours, beyond the program prerequisite courses.

### 11.9. Graduate Certificate in Information Systems Management

The Graduate Certificate in Information Systems Management (ISM) develops students' abilities to conceptualize and manage the design and implementation of high-quality information systems. The curriculum focuses on the concepts, methods and practical applications of information systems in the global workplace.

Graduates of the Graduate Certificate in ISM will be able to manage the in-house and outsourced development of information systems and perform effectively as both producer and consumer of information systems services. Program graduates will demonstrate professional competencies that will make them valuable contributors and managers of cross-functional global teams working together in implementing change processes and innovation in the organizations by introducing, managing, and updating new and existing information systems.

### Graduate Certificate in ISM Program Objectives

The program objectives of the Graduate Certificate in ISM fall in two general categories: technical, and organizational. Upon completion of the program, the graduates will be able to:

1. Design effective management information systems to address organizational needs;
2. Be prepared for leadership roles in professional practices with strengths in design, problem solving, communications and collaboration with peers;
3. Demonstrate an understanding of the major phases of the system development life-cycle;
4. Apply critical thinking and problem solving skills to synthesize managerial business decisions.

### Career Paths for Graduate Certificate in ISM Graduates

Career paths for the Graduate Certificate in ISM include the following types of positions at the experienced professional and managerial levels:

- Information systems manager
- Information systems consultant
- Information systems administrator

### Graduate Certificate in ISM Program Prerequisites

All new students in this certificate program need certain basic skills in order to succeed in the program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin studying the courses in the program.
In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

**11.10. Graduate Certificate in Information Technology Audit & Compliance**

Businesses today operate in complex technology-based environments. To ensure efficiency and accuracy in information systems and for prevention of fraudulent practices, businesses require their information systems and processes to be audited. Stakeholders need assurance of confidentiality, integrity and availability of data. VIU’s Graduate Certificate in Information Technology Audit and Compliance (ITAC) courses enables students to learn security concepts and understand how IT-related risks can be minimized through security and control measures. Students will also develop an understanding of major regulatory requirements.

**Graduate Certificate in ITAC Program Objectives**

Upon completion of the program, the graduates will be able to:

1. Demonstrate understandings of privacy, security, forensics and copyright issues in professional and social environments;
2. Illustrate effective communication and collaboration skills with stakeholders;
3. Introduce and develop real world applications using database management concepts;
4. Perform audit planning, information collection techniques and forms of evidence.

Career Paths for Graduate Certificate in ITAC Graduates
Career paths for the Graduate Certificate in ITAC include the following types of positions at the experienced professional and managerial levels:
- Information security auditor
- Network security auditor
- Information security administrator

Graduate Certificate in ITAC Program Prerequisites
All new students in this certificate program need certain basic skills in order to succeed in the program. Students who do not have the requisite background in business administration and information technology need to take some or all of the prerequisite courses before they begin studying the courses in the program. In some cases, the program prerequisite courses may have course prerequisites to be taken before enrolling in the program prerequisite courses.

12. SCHOOL OF EDUCATION

The School of Education’s mission is to provide a diverse and practical preparation for graduates to serve in roles of instructional design and delivery, educational leadership, and social change. The School provides a world-class education from faculty who are experts in the field of education.

The curricula offered within the School of Education encompass its core mission, which is achieved through the following school learning outcomes that are incorporated into each program:

A. Engage in critical thinking and innovative problem solving for successful leadership in a variety of educational organizations.
B. Communicate and collaborate with stakeholders in an effective and professional manner.
C. Create meaningful and supportive learning environments with a focus on student success and social justice.
D. Utilize research to inform the development of curricula, course content, and assessment tools to meet the needs of students and communities.
E. Demonstrate expertise in content areas.
F. Creatively utilize technology skills to achieve learning objectives in a variety of modern educational environments.

The School of Education offers graduate-level programs in language education, higher education, and secondary education.

12.1. Master of Arts in TESOL

Program Mission and Description
VIU’s MA in TESOL (Teaching English to Speakers of Other Languages) program prepares students to work as English teachers in a world where the global need for English language skills is growing. Students will also gain valuable classroom experience through observation and supervised teaching.

The mission of the MA in TESOL program at Virginia International University is to enable students to be successful language teaching professionals in a wide variety of contexts and among diverse student populations in the US and abroad by equipping them with the knowledge, skills, and experience to contribute to and excel in innovative and collaborative work environments.

Program Learning Outcomes
The outcomes of the program are interwoven throughout all courses within the degree. Students are expected to make progress towards meeting these outcomes throughout their program of study. The learning outcomes are to:

1. Understand the nature, structure, and uses of human language and theoretical models of language acquisition.
2. Critically analyze current research regarding language learning and teaching, and demonstrate knowledge of research findings and how to apply them.
3. Design language courses, assessment practices, and learning environments for a particular program and its curriculum.
4. Make principled use of established, new, and emerging technologies to promote access, engagement, and success in learning both within and beyond the classroom.
5. Utilize critical-thinking skills to problem-solve issues faced by language learners and educators.
6. Use community, institutional, and technological resources to demonstrate use of proper academic communication, ethics, and professionalism.
Career Paths for MA in TESOL Graduates
Upon successful completion of the program, students will have a solid linguistic and pedagogical base for teaching English to speakers of other languages. Graduates from VIU’s MATESOL will be qualified to teach English in a variety of educational settings in the US and abroad, such as intensive language programs, private language schools, adult education programs, and English as a foreign language programs in non-English speaking countries. Employment opportunities are at the experienced professional, management and director level for graduates of this program.

Accreditation: Virginia International University is an accredited institution of higher learning holding accreditation through the Accrediting Council for Independent Colleges and Schools (ACICS) that is certified to operate by the Virginia State Council of Higher Education for Virginia (SCHEV). Additionally, information on accreditation can be found in the Accreditation and Certifications section of this catalog.

NOTE: Please note that this program does not provide the licensure required to teach grades K-12 in American public schools. In order to obtain teacher licensure, please contact the respective state Department of Education to determine eligibility and requirements.

Mode of Delivery
VIU’s School of Education embraces a learning model that allows for a hybrid learning environment in which students can benefit from a combination of online coursework and in-class meetings. The purpose of a hybrid format is to allow for flexibility in ways that enable students to learn and grow outside of the walls of the classroom.

Program-Specific Admission Requirements:
Admission to the program does not require any previous coursework in pedagogy or language studies. A bachelor’s degree or its equivalent in any field is required for admission.

Each candidate is also required to submit a resume or curriculum vitae detailing his/her work history and education, along with a 500-word statement of purpose describing his/her academic interests, professional objectives, reasons for applying to the program, and areas of interest to be explored in the program. In addition, the candidate is required to submit a minimum of two (2) official recommendation letters, at least one of which must be dated within the past three years. These recommendations must be from professionals (preferably current or former instructors or employers) who can speak to the candidate’s academic abilities, and must be written in English or accompanied by official translations. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.

Additionally, since the language of instruction at VIU is English, candidates will need to provide evidence of sufficient English language proficiency by obtaining academic-level scores on all components of the placement and exit test or by submitting examination information from an approved standardized examination (examples: TOEFL, IELTS, etc.).

Program-Specific Graduation Requirements:
All candidates for graduation are required to submit a formal Summative Concentration Portfolio, the details of which include: Part A-Career Preparation; Part B-Two Writing Samples; Part C-Concentration Application; and Part D-Internship Experience. The required minimum cumulative GPA for graduation from this program is 3.0.

Program Structure
This program can be completed within four (4) semesters of full-time study. A total of 36 credit hours (12 courses) are required for graduation. The program consists of seven (7) Core courses (21 credit hours) and five Elective courses (15 credit hours).
<table>

This program requires completion of a practicum course (APLX 665). This practicum course gives the students a chance to observe experienced teachers, to reflect on and formulate their ideas about teaching and learning, and to gain classroom experience through supervised teaching.

Core Courses in Foundations of Applied Linguistics and Principles of Language Teaching (7 courses – 21 credits)
The core courses for this program cover two major foundational areas including foundational coursework in 1) applied linguistics, and 2) the principles of language teaching. The Foundations of Applied Linguistics courses provide students with the foundational theoretical knowledge required of TESOL professionals. This includes a strong understanding of the nature and structure of language, theoretical models of language acquisition, and awareness of connections to language pedagogy. The Principles of Language Teaching courses provide students with the fundamentals of language teaching, building upon the theoretical principles explored in the Foundations of Applied Linguistics courses. Aspects explored in these courses include the development of a strong background in language teaching methodology; materials, curriculum, and course design; assessment strategies; and effective uses of technology to enhance language learning and teaching. All courses in the Language Teaching Core require classroom observation and reflection on topics related to each course’s content. The TESOL Practicum course (APLX 665) gives students a chance to observe more experienced teachers, to reflect on and refine their ideas about teaching and learning, and to gain classroom experience through supervised teaching.

NOTE: Students who wish to take a course outside of their major, but still offered by at least one program within the School of Education can petition to do so with permission from the instructor of the course and the Dean. Requests are considered based upon a student’s previous academic performance including meeting the minimum attendance requirements for previous courses and maintaining satisfactory progress.

12.2. Graduate Certificate in TESOL

Program Mission and Description
The Graduate Certificate in TESOL program prepares its students to work as English teachers in a world where the global need for English language skills is growing. Upon successful completion of the program, students will have a sound grasp of the structure of modern English as well as basic concepts of language acquisition and language pedagogy, and gain valuable classroom experience through observation and supervised teaching.

The mission of the GC in TESOL program at Virginia International University is to provide foundational knowledge and skills required for graduates to be successful language teaching professionals in a wide variety of contexts and among diverse student populations in the US and abroad by equipping them with the knowledge, skills, and experience to contribute to and excel in innovative and collaborative work environments.

Program Learning Outcomes
The outcomes of the program are interwoven throughout all courses within their degree. Students are expected to make progress towards meetings these outcomes throughout their program of study. The learning outcomes are to:

1. Understand the nature, structure, and uses of human language and theoretical models of language acquisition.
2. Critically analyze current research regarding language learning and teaching, and demonstrate knowledge of research findings and how to apply them.
3. Demonstrate the ability to design English language courses and curricula that enhance learning and reflect the needs, goals, and values of students and other stakeholders.
4. Demonstrate the ability to use established, new, and emerging technologies to promote access, engagement, and success in the classroom.
5. Utilize critical-thinking skills to problem-solve issues faced by language learners and educators.
6. Use community, institutional, and technological resources to demonstrate use of proper academic communication, ethics, and professionalism.
Career Paths for Graduate Certificate in TESOL Graduates
Graduates will be qualified to teach English in a variety of educational settings in the US and abroad, such as intensive language programs, private language schools, adult education programs, and English as a foreign language programs in non-English speaking countries. Employment opportunities are available at the experienced professional and management level for graduates of this program.

Accreditation: Virginia International University is an accredited institution of higher learning holding accreditation through the Accrediting Council for Independent Colleges and Schools (ACICS) that is certified to operate by the Virginia State Council of Higher Education for Virginia (SCHEV). Additionally, information on accreditation can be found in the Accreditation and Certifications section of this catalog.

NOTE: Please note that this program does not provide the licensure required to teach grades K-12 in American public schools. In order to obtain teacher licensure, please contact the respective state Department of Education to determine eligibility and requirements.

Mode of Delivery
VIU’s School of Education embraces a learning model that allows for a hybrid learning environment in which students can benefit from a combination of online coursework and in-class meetings. The purpose of a hybrid format is to allow for flexibility in ways that enable students to learn and grow outside of the walls of the classroom.

Program-Specific Admission Requirements:
Admission to the program does not require any previous coursework in pedagogy or language studies. A bachelor’s degree or its equivalent in any field is required for admission.

In addition, the candidate is required to submit a minimum of two (2) official recommendation letters, at least one of which must be dated within the past three years. These recommendations must be from professionals (preferably current or former instructors or employers) who can speak to the candidate’s academic abilities, and must be written in English or accompanied by official translations. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.

Additionally, since the language of instruction at VIU is English, candidates will need to provide evidence of sufficient English language proficiency by obtaining academic-level scores on all components of the placement and exit test or by submitting examination information from an approved standardized examination (examples: TOEFL, IELTS, etc.).

Program-Specific Graduation Requirements:
All candidates for graduation are required to submit a formal Summative Teaching Portfolio, the details of which include: Part A-Career Preparation; Part B-Two Writing Samples; Part C-Concentration Application; and Part D-The Practicum Experience. The required minimum cumulative GPA for graduation from this program is 3.0.

Program Structure:
This program can be completed within two (2) semesters of full-time study. A total of 18 credit hours (6 courses) are required for graduation. The program consists of four (4) Core courses (12 credit hours) and two (2) Elective courses (6 credit hours).
This program requires completion of a practicum course (APLX 665). This practicum course gives the students a chance to observe experienced teachers, to reflect on and formulate their ideas about teaching and learning, and to gain classroom experience through supervised teaching.

**Core Courses in Foundations of Applied Linguistics and Principles of Language Teaching (4 courses – 12 credits)**

The core courses for this program cover two major foundational areas including foundational coursework in 1) applied linguistics, and 2) the principles of language teaching. The *Foundations of Applied Linguistics* courses provide students with the foundational theoretical knowledge required of TESOL professionals. This includes a strong understanding of the nature and structure of language, theoretical models of language acquisition, and awareness of connections to language pedagogy. The *Principles of Language Teaching* courses provide students with the fundamentals of language teaching, building upon the theoretical principles explored in the Foundations of Applied Linguistics courses. Aspects explored in these courses include the development of a strong background in language teaching methodology; materials, curriculum, and course design; assessment strategies; and effective uses of technology to enhance language learning and teaching. All courses in the Language Teaching Core require classroom observation and reflection on topics related to each course’s content. The TESOL Practicum course (APLX 665) gives students a chance to observe more experienced teachers, to reflect on and refine their ideas about teaching and learning, and to gain classroom experience through supervised teaching.

Graduate Certificate in TESOL students must take one in each of the following core areas, for a total of 12 credit hours:

- Language Structure (either APLX 500 or APLX 615)
- Language Acquisition (APLX 510)
- Language Teaching Methodology (APLX 530)
- Language Teaching Practicum (APLX 665)

The courses listed below can be taken in any order with the exception of APLX 665 TESOL Practicum which must be taken either together with or after APLX 530 Language Teaching Methods.

</tbody>
</table>

In addition, students must take two Elective courses in the areas of particular interest to them, for a total of 6 credits. Any of the courses offered for the MA in TESOL degree can be taken to satisfy this requirement except for the courses listed with the course code corresponding to the shared business courses (codes including BUSS).

---

<sup>2</sup> Can be a co-prerequisite and be concurrently enrolled.

EDUC 576 | Course Design for the Virtual Classroom | Completion of an introductory technologies for teaching course | 3 |
EDUC 640 | Introduction to Research Methods | Completion of 9 credits or permission of the instructor | 3 |

NOTE: Students who wish to take a course outside of their major, but still offered by at least one program within the School of Education can petition to do so with permission from the instructor of the course and the Dean. Requests are considered based upon a student’s previous academic performance including meeting the minimum attendance requirements for previous courses and maintaining satisfactory progress.

### 12.3. Master of Science in Applied Linguistics

**Program Mission and Description**
The mission of the MS in APLX Degree Program is to enable multilingual education professionals and administrative leaders to serve effectively in technologically enhanced educational environments by providing them with the theoretical knowledge and practical skills necessary for success in culturally and linguistically diverse contexts.

**Program Learning Outcomes**
The outcomes of the program are interwoven throughout all courses within each concentration. Students are expected to make progress toward meetings these outcomes throughout their program of study. The learning outcomes are to:

1. Understand the nature, structure, and uses of human language and theoretical models of language acquisition.
2. Critically analyze current research regarding language learning and teaching, and demonstrate knowledge of research findings and how to apply them.
3. Design language courses, assessment practices, and learning environments for a particular program and its curriculum.
4. Make principled use of established, new, and emerging technologies to promote access, engagement, and success in learning within and beyond the classroom.
5. Drawing on observations, experiences, theory- and research-based knowledge, and/or reflection, design and conduct research to answer original questions of personal and professional interest.
6. Utilize critical-thinking skills to problem-solve issues faced by language learners and educators.
7. Use community, institutional, and technological resources to demonstrate use of proper academic communication, ethics, and professionalism.

Career Paths for MS in Applied Linguistics Graduates
VIU’s MS in APLX program is designed to prepare future educators for leading roles in the growing field of education. Graduates from the MS in Applied Linguistics (MS in APLX) program will be able to work as educators and consultants in a broad array of educational institutions that provide services to learners from differing linguistic and cultural backgrounds. Graduates of the MS in Applied Linguistics program can serve in these institutions in the following positions at the experienced professional, management, and director levels:
- Multilingual language instructors
- Researchers
- Program administrators
- Intercultural communications specialists
- Second language technology specialists.

Accreditation: Virginia International University is an accredited institution of higher learning holding accreditation through the Accrediting Council for Independent Colleges and Schools (ACICS) that is certified to operate by the Virginia State Council of Higher Education for Virginia (SCHEV). Additionally, information on accreditation can be found in the Accreditation and Certifications section of this catalog.

NOTE: Please note that this program does not provide the licensure required to teach grades K-12 in American public schools. In order to obtain teacher licensure, please contact the respective state Department of Education to determine eligibility and requirements.

Mode of Delivery
VIU’s School of Education embraces a learning model that allows for a hybrid learning environment in which students can benefit from a combination of online coursework and in-class meetings. The purpose of a hybrid format is to allow for flexibility in ways that enable students to learn and grow outside of the walls of the classroom.

Program-Specific Admission Requirements:
Admission to the program does not require any previous coursework in pedagogy or language studies. A bachelor’s degree or its equivalent in any field is required for admission.

Each candidate is also required to submit a resume or curriculum vitae detailing his/her work history and education, along with a 500-word statement of purpose describing his/her academic interests, professional objectives, reasons for applying to the program, and areas of interest to be explored in the program. In addition, the candidate is required to submit a minimum of two (2) official recommendation letters, at least one of which must be dated within the past three years. These recommendations must be from professionals (preferably current or former instructors or employers) who can speak to the candidate’s academic abilities, and must be written in English or accompanied by official translations. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.

Additionally, since the language of instruction at VIU is English, candidates will need to provide evidence of sufficient English language proficiency by obtaining academic-level scores on all components of the placement and exit test or by submitting examination information from an approved standardized examination (examples: TOEFL, IELTS, etc.).

Program-Specific Graduation Requirements:
All candidates for graduation are required to submit a formal Summative Portfolio, the components of which include: Part A-Career Preparation; Part B-Two Writing Samples; Part C-Specialty Application; and Part D-Internship Experience. Students must demonstrate a minimum of intermediate-level proficiency in at least one other language besides English prior to graduation from the program. Demonstrations of proficiency
can include graduation from a secondary or post-secondary program whose primary language was a language other than English, successful completion of a graduate course taught in a language other than English, successful completion of intermediate-level coursework in a foreign or second language at an accredited institution, completion of a recognized proficiency exam (e.g., ACTFL’s Oral Proficiency Interview), or other demonstrations deemed appropriate by the Dean of the School. The required minimum cumulative GPA for graduation from this program is 3.0.

**Optional Master’s Thesis Track:**
Students wishing to conduct original research in an area of interest should consider electing to complete an optional thesis. Students who wish to complete a thesis must receive approval from the Dean of the School of Education in addition to consulting a potential mentor before the completion of their second semester of study. The thesis is not required of MS in APLX students but will serve as a personalized and distinguishing mark on the Graduate Degree from the University. Students intending to continue their education in a Ph.D. program should consider the thesis option as one of several ways to demonstrate their research potential. Students electing to take the Thesis Track must supply their fully developed thesis prior to the conferral of the degree.

Given the heavy emphasis on research methods, and the requirement for a solid foundation in research in order to complete a Master’s Thesis, a student choosing the thesis option should consider taking an additional advanced research methods course beyond the foundational research course required in the program. To facilitate the research process for the thesis, students should take an advanced research methods course focusing on the methods that would be used in the thesis. This would be an additional course beyond the requirements of the program. Permission must be obtained by the instructor of the course that is being requested and the Dean of the School of Education.

Requests to complete a thesis are considered based upon a student's previous academic performance including meeting the minimum attendance requirements for previous courses and maintaining satisfactory progress.

**Program Structure**
This program can be completed within four (4) semesters of full-time study. A total of 36 credits (12 courses) are required for graduation.

The MS in APLX program requires the completion of an internship (APLX 666, EDUC 667, or EDUC 668) within the student’s content area and the concentration area. The internship gives students a chance to observe real-world practices, to reflect on and formulate their ideas about teaching and learning, and to gain valuable practical experience in the field.

**Core Courses in Foundations of Applied Linguistics and Principles of Language Teaching (7 courses – 21 credits)**
The core courses for this program cover two major foundational areas including foundational coursework in 1) applied linguistics, and 2) the principles of language teaching. The *Foundations of Applied Linguistics* courses provide students with the foundational theoretical knowledge required of TESOL professionals. This includes a strong understanding of the nature and structure of language, theoretical models of language acquisition, and awareness of connections to language pedagogy. The *Principles of Language Teaching* courses provide students with the fundamentals of language teaching, building upon the
theoretical principles explored in the Foundations of Applied Linguistics courses. Aspects explored in these courses include the development of a strong background in language teaching methodology; materials, curriculum, and course design; assessment strategies; and effective uses of technology to enhance language learning and teaching. All courses in the Language Teaching Core require classroom observation and reflection on topics related to each course’s content.

NOTE: Students who wish to take a course outside of their major, but still offered by at least one program within the School of Education can petition to do so with permission from the instructor of the course and the Dean. Requests are considered based upon a student’s previous academic performance including meeting the minimum attendance requirements for previous courses and maintaining satisfactory progress.

**Master’s Thesis Track:** Students electing to complete the optional Thesis Track must be on track for successful completion and must meet all other program requirements prior to conferral of the degree. Students must be in good academic standing at the time of registration for the thesis and must remain in good standing throughout the time enrolled in the thesis course (typically the final semester of study). VIU’s MS in Applied Linguistics Program, with the optional thesis, requires completion of APLX 699 as the Elective Course option for a minimum of three credits.

12.4. Master of Education (M.Ed.)

**Program Mission and Description**
The Master of Education in secondary education at VIU is designed to prepare future educators for leading roles in the growing field of secondary education. This program can be completed within four (4) semesters of full-time study.

The mission of the Education program at Virginia International University is to enable professional secondary educators to effectively serve in culturally diverse and technologically enhanced educational environments by empowering them with the skills and attributes associated with problem solvers, critical thinkers, and scholars in order to facilitate learning and academic achievement for secondary students and others they may serve.

Program Learning Outcomes
The outcomes of the program are interwoven throughout all courses within the degree. Students are expected to make progress toward meeting these outcomes throughout their program of study. The learning outcomes are to:

PO-1: Develop learner environments reflective of best practices for teaching and learning, secondary learners, and culturally responsive pedagogy creating optimal student achievement opportunities.

PO-2: Serve as independent researchers with the ability to action research as well as assess and implement research and best practices associated with effective pedagogical practices for secondary learners.

PO-3: Effectively collaborate with others as well as lead the collaborative process for the purpose of better meeting the needs of their student population and the communities in which they serve.

PO-4: Serve as leaders in developing and designing teaching and learning opportunities which are effective and generate learner motivation and academic success.

PO-5: Foster teaching and learning environments that are respectful and inclusive as well as reflective of the needs, feelings, and cultural values of the student population and communities they are serving.

PO-6: Develop, design, and implement assessment and evaluation strategies which are authentic and encompass student characteristics such as their cognitive abilities, cultural values, and academic abilities.

PO-7: Use community, institutional, and technological resources to demonstrate use of proper academic communication, ethics, and professionalism.

Career Paths for MEd Graduates
Graduates from the M.Ed. programs will be able to effectively address challenges and possibilities in their roles as successful secondary teachers, educators, and leaders of their communities worldwide. Employment at the experienced professional level is possible in positions such as:

- Secondary science instructor
- Secondary mathematics instructor
- Secondary ESOL instructor
- Private School Instructors
- Curriculum Developers

Accreditation: Virginia International University is an accredited institution of higher learning holding national accreditation through the Accrediting Council for Independent Colleges and Schools (ACICS), and certified to operate by the Virginia State Council of Higher Education for Virginia (SCHEV). Additionally, information on accreditation can be found in the Accreditation and Certifications section of this catalog.

**NOTE:** Please note that this program does not provide the licensure required to teach grades K-12 in American public schools. In order to obtain teacher licensure, please contact the respective state Department of Education to determine eligibility and requirements.

Mode of Delivery
VIU’s School of Education embraces a learning model that allows for a hybrid learning environment in which students can benefit from a combination of online coursework and in-class meetings. The purpose of a
hybrid format is to allow for flexibility in ways that enable students to learn and grow outside of the walls of the classroom.

**Program-Specific Admission Requirements:**
Admission to the program does not require any previous coursework in education. A bachelor’s degree or its equivalent in any field is required for admission. Because graduates will be expected to be content-area experts in their concentration, having a bachelor’s degree in the content area is important for employment opportunities in secondary education institutions; therefore, having a bachelor’s degree in the content-area is advisable.

Each candidate is also required to submit a resume or curriculum vitae detailing his/her work history and education, along with a 500-word statement of purpose describing his/her academic interests, professional objectives, reasons for applying to the program, and areas of interest to be explored in the program. In addition, the candidate is required to submit a minimum of two (2) official recommendation letters, at least one of which must be dated within the past three years. These recommendations must be from professionals (preferably current or former instructors or employers) who can speak to the candidate’s academic abilities, and must be written in English or accompanied by official translations. Recommendations must include contact information with a minimum of an email address (preferably an institutional email address) and physical mailing address. By submitting recommendations, applicants are permitting VIU to contact recommenders on their behalf regarding their application.

Additionally, since the language of instruction at VIU is English, candidates will need to provide evidence of sufficient English language proficiency by obtaining academic-level scores on all components of the placement and exit test or by submitting examination information from an approved standardized examination (examples: TOEFL, IELTS, etc.).

**Program-Specific Graduation Requirements:**
All candidates for graduation are required to submit a formal Summative Teaching Portfolio, the details of which include: Part A-Career Preparation; Part B-Two Writing Samples; Part C-Concentration Application; and Part D-The Practicum Experience. The required minimum cumulative GPA for graduation from this program is 3.0.

**Program Structure**
VIU’s M.Ed. Program offers three Content Area Concentrations: Secondary Science, Secondary Mathematics, and English for Speakers of Other Languages (ESOL). The M.Ed. degree can be earned by completing the program course requirements of 39 credit hours. The program consists of six (6) Core courses, five (5) Content Area courses, and one (1) Elective course.

The M.Ed. program requires the completion of a Practicum within the student’s subject area. The practicum gives students a chance to observe real-world practices, to reflect on and refine their ideas about teaching and learning, and to gain valuable practical experience in the field. The practicum is worth 6 credit hours and works towards meeting the requirements of the Virginia Department of Education’s required supervised classroom experience.

**Core Courses in Foundations of Secondary Education Courses (6 courses – 18 credits)**
The Foundations of Secondary Education Core courses provide an in-depth understanding of the fundamentals of secondary education in the United States. The foundation courses include a depth and breadth understanding of the realities and practices in higher education to include contemporary and innovative approaches. Students take six (6) courses from this division.

NOTE: Students who wish to take a course outside of their major, but still offered by at least one program within the School of Education can petition to do so with permission from the instructor of the course and the Dean. Requests are considered based upon a student’s previous academic performance including meeting the minimum attendance requirements for previous courses and maintaining satisfactory progress.

13. SCHOOL OF PUBLIC & INTERNATIONAL AFFAIRS
The mission of the School of Public and International Affairs (SPIA) is to prepare students for careers in the field of International Relations and Public Administration by providing them with the skills to understand theoretical concepts and theories, think critically and creatively engage in research, and apply analytic and business skills to practical experiences.

School of Public and International Affairs Learning Outcomes

SO-1: Employ critical thinking and problem solving for successful leadership in domestic and international organizations.
SO-2: Demonstrate expertise in the content area including public and international affairs, management and development.
SO-3: Communicate and engage with stakeholders and the wider professional community.
SO-3: Conduct research and offer analysis and policy prescriptions.

14.1. Master of Science in International Relations
In an increasingly interdependent world, it is important for professionals to have an understanding of the complex issues that go beyond our own borders. Virginia International University’s MS in International Relations is a graduate-level degree that arms students with the tools to understand the implications of global issues in today’s world and contribute to and work in a dynamic and fast-paced environment in a professional setting.

MS in International Relations Program Outcomes
PO-1: Demonstrate knowledge and understanding of the main concepts, empirical findings and theories in the field of International Relations.
PO-2: Use empirical cases and models to apply theoretical concepts, draw new conclusions and applications.
PO-3: Communicate effectively on issues in the areas of international affairs, business and development.
PO-4: Develop original research to analyze complex problems and ideas, and offer solutions and policy prescriptions.
PO-5: Engage with the wider professional community and follow the latest developments in the field of International Relations.
PO-6A: Demonstrate knowledge and understanding of applied research specific to the theory and practice of International Economic Development.
PO-6B: Demonstrate knowledge and understanding of applied research specific to the theory and practice of International Business.

Career Paths for MS in International Relations Graduates
Students with degrees in Master of Science in International Relations can pursue a variety of professional careers at the experienced professional, management, and director levels in the areas of institutional/community development, humanitarian aid, public service, diplomacy, foreign affairs, and international law. Graduates can work in the public sector and the civil service as diplomats, conflict analysts, policy researchers, project coordinators or administrators. They can also pursue careers with non-governmental and multilateral organizations such as the United Nations, the World Bank and the International Monetary Fund. Those organizations hire International Relations experts as project managers, economic and political risk analysts, consultants and research associates. The private sector also offers a vast range of opportunities, including jobs in field of media and publishing, journalism, sales and marketing, public relations, political campaigns and charitable action.

Program Prerequisites
Applicants seeking admission to the MS in International Relations program, who have no political science or international affairs background, and whose bachelor’s degrees did not include the following courses are required to take MIR program prerequisites.

Pre-MIR Program

Students who have earned their bachelor’s degree with less than 120 undergraduate credit hours can be given conditional admission to the MIR program, provided they enroll in and successfully complete the remaining credit hours by selecting from the undergraduate courses offered at VIU. Among the 120 required credit hours, the MIR program prerequisite courses must be fulfilled. Students must consult their academic advisor before choosing the Pre-MIR courses who will advise them on the appropriate course selections from VIU’s undergraduate courses while complying with MIR program prerequisites. Successful completion of the Pre-MIR courses will allow these students to complete the undergraduate credit hour requirement of 120, and enter into the program.

13.2. Master of Public Administration

Program Description and Objectives

The Master of Public Administration Program prepares students for careers in public management and administration. Students will acquire the skills to resolve industry challenges related to project management, finance, human resources and leadership. They will be able to utilize their knowledge in a variety of areas in state and local government, public and federal agencies and private and public organizations and non-profits both in the DC Metropolitan area and worldwide.

MPA Program Outcomes

PO-1: Demonstrate ability to analyze public policy formulation, interactions and implications.
PO-2: Demonstrate knowledge of key leadership concepts and theories that can be used to effectively lead in the public sector.
PO-3: Apply principles of finance to public and non-profit operations.
PO-4: Communicate critically and effectively within one’s discipline and/or professional practice.
PO-5: Apply quantitative and qualitative techniques of analysis and research

Concentration Specific Outcomes

PO-6A: Demonstrate knowledge and expertise of applied research specific to the theory and practice of Public Management
PO-6B: Demonstrate knowledge and expertise applied research specific to the theory and practice of Information systems
PO-6C: Demonstrate knowledge and expertise applied research specific to the theory and practice of Health Care Administrative and Public Health

Career Paths for MPA Graduates

The program objectives of the MPA are designed to enable graduates to be successful in the multitude of employment positions at the experienced professional, management and director levels that an MPA degree will garner including, government, organizational management, health care administration, and many more. Typical places of employment for individuals with this degree include state and local government agencies, federal government agencies, public agencies, non-profit corporations, and many private and publicly held organizations worldwide.
Program Prerequisites
Applicants seeking admission into the MPA Program, who have no previous business, political science or international affairs background and whose Bachelor degrees did not include the following courses are required to take MPA program prerequisites.

### Pre-MPA Program

Students who have earned their Bachelor's degree with less than 120 undergraduate credit hours can be given conditional admission to the MPA program, provided they enroll in and successfully complete the remaining credit hours by selecting from the undergraduate courses offered at VIU. Among the 120 required credit hours, the MPA program prerequisite courses must be fulfilled. Students must consult their academic advisor before choosing the Pre-MPA courses who will advise them on the appropriate course selections from VIU's undergraduate courses while complying with MPA program prerequisites. Successful completion of the Pre-MPA courses will allow these students to complete the undergraduate credit hour requirement of 120, and enter into the program.
14. SCHOOL OF LANGUAGE STUDIES

14.1. English as a Second Language Program

Program Description and Outcomes:
The English as a Second Language (ESL) Program at VIU provides quality English language instruction for students whose native language is not English. The program focuses on helping students develop sufficient language proficiency and skills for successful study at an American university or college. The program also offers students the ability to prepare for several standardized English proficiency exams through electives including TOEFL and IELTS.

The outcomes are interwoven throughout all courses within the program. Students are expected to make progress toward achieving these outcomes throughout their studies within the program. The learning outcomes are intended to help the learner to attain their desired level of English language proficiency skills for future academic success by allowing them to:

1. Respond to written or spoken English in order to communicate clearly and effectively
2. Comprehend authentic English language texts across multiple genres
3. Produce a variety of written work in English to convey coherent ideas
4. Utilize increasingly more complex grammatical patterns in the appropriate context
5. Employ essential strategies to determine the meaning of vocabulary and grammar in context
6. Apply acquired language skills to a variety of communicative situations, audiences, and environments

Program Mission:
The School of Language Studies supports the mission and philosophy of VIU by empowering its student population with the linguistic, academic, and intercultural communication skills necessary to become leaders in the global community.

Program-Specific Admission Requirements:
Admission to the program requires a placement exam or other proof of English language proficiency.

Initial Program Placement:
All new students are required to demonstrate their level of English proficiency in order to properly place students in the right level. Students can fulfill this requirement by taking an English language proficiency test at VIU to determine appropriate placement in one of the seven levels within the program.

Program Advancement, Completion, and Placement:
ESL courses are non-credit-bearing courses. All ESL courses are graded on a pass/fail basis. An average score of 75.00% and maintaining visa compliance are required to pass an ESL class.

Full-time students who pass all their ESL core courses (Levels 0200-0700) receive a certificate of level completion and advance to the next level. Full-time 0800 students who pass 140 hours of the 0800-level courses including ESL 0806, and earn a score of 80 or higher on the exit test receive a certificate of program completion. For students who score lower than 80 on the exit test, it may be taken one additional time for a fee of $30 (Exit Test Fee). The program completion certificate serves as evidence of sufficient English proficiency for admission to VIU’s degree programs.

Students who do not pass required courses (all core classes for 0200-0700; 140 hours of elective courses in 0800) in a given term have the option of retaking the placement test at the end of the term for advanced placement in a higher level. Continuing students who wish to retake the placement test must take it before the start of the next term.

Program Length:
If a student enters our program at ESL 0200, that student can expect the complete SLS program of study in 14 months without failing one level. Students are allowed to take each level from ESL 0200 – ESL 0700
three times, and ESL 0800 a maximum of two times. Therefore, it potentially stands that a student would require 40 months to complete the program in this unlikely scenario, not including breaks.

**Appealing Level Placement**
Students may appeal their initial placement by completing a “Level Change Request Form” from the third day of classes. This form is available in Room 232. Any student level changes are discussed by the teacher, student and administrators as well as reviewing the placement test scores and finalized by the fifth day of classes. After that day, there are no further changes to students’ levels.

**Program Structure:**
The program offers instruction across seven levels of proficiency: Low Beginner (0200), Beginner (0300), Elementary (0400), Low Intermediate (0500), Intermediate (0600), High Intermediate (0700) and Advanced (0800). Each level can be completed in one term of full-time study. The overall length of the program depends on the initial placement level and on how quickly the student progresses from one level to another. Each level includes a minimum of 140 academic hours of classroom instruction per level/term. Each term is 7 weeks long and full-time students receive 20 hours of classroom instruction per week. Students in levels 0200 – 0700 will take two core classes (10 hours/week for each class), Speaking, Listening & Pronunciation and Reading, Writing & Grammar. Students in the Advanced (0800) level are able to choose from elective classes, which either meet for 5 hours/week or 10 hours/week.

In addition to the regular ESL classes, students placed in the High Intermediate or higher level are given an option of selecting intensive TOEFL courses, the focus of which is TOEFL iBT preparation. Each 7-week term, students take 2 core classes (10 hours/week for each class), which can be any combination of TOEFL & Academic Reading, TOEFL Writing, TOEFL & Academic Listing and TOEFL Speaking.

Please refer to the ESL Programs Course Descriptions section in the Academic Catalog for course descriptions.

15. SCHOOL OF ONLINE EDUCATION

In addition to regular classroom delivery, VIU offers online courses as an alternative delivery method of instruction. The following degree programs at VIU can also be partially or fully completed online:

Graduate Level Programs:
1. Master of Business Administration (MBA)
2. Master of Science in Accounting (MAC)
3. Master of Science in Project Management (MPM)
4. Master of Science in Computer Science (MCS)
5. Master of Science in Information Systems (MIS)
6. Master of Science in Information Systems Management (MISM)
7. Master of Science in Software Engineering (MSE)
8. Master of Science in Information Technology (MIT)
9. Master of Art in Teaching English to Speakers of Other Languages (MA in TESOL)
10. Master of Education (M.Ed.)
11. Master of Science in Applied Linguistics (MSAPLX)
12. Master of Science in International Relations (MIR)
13. Master of Public Administration (MPA)
14. Graduate Certificate in Project Management
15. Graduate Certificate in Business Intelligence
16. Graduate Certificate in Information Systems
17. Graduate Certificate in Information Systems Management
18. Graduate Certificate in Information Technology Audit and Compliance
19. Graduate Certificate in TESOL

Undergraduate Level Programs:
20. Bachelor of Science in Business Administration (BSBA)
21. Bachelor of Science in Computer Science (BCS)

Non-credit Certificate program
22. English as Second Language (ESL)

VIU delivers asynchronous online courses through the VIU eCampus which is an eLearning platform for accessing course material, submitting assignments, and communicating with instructors and classmates online. The online courses offered in the eCampus do not differ in content, expectations, and requirements from the regular on-campus courses. The learning objectives are the same for online and on-campus classes. Online sessions typically contain the following elements: session learning objectives, online lecture videos, and readings, multimedia, presentations, assignments, threaded discussions, case studies,
quizzes, opportunities for collaborative learning and for problem solving. The methods that are used to deliver the online courses typically consist of lectures, discussion forums, research, case studies, and group work. These are supported by selected tools and resources that include, but are not limited to printed materials and resources, video, audio, nonlinear media, interactive media, reviews, exams, email communication, threaded discussions, blogs, chat, and teleconferencing.

The online courses at VIU are completely Internet-based with no face-to-face meeting requirement. Typically, students work independently on their own schedule. Occasionally, synchronous activities are held to allow for the instructor and the students to communicate in real-time. The courses are instructor-led: the instructor leads the online course activities, manages the online forums, and monitors and assesses student progress and performance in the online classroom.

The online courses have three (3) credit hours as specified by the program of study. The syllabi, as well as textbook, are similar to those used in face-to-face classes. The online courses follow the 8-week format as described in the Academic Calendar section of this Catalog. In addition to degree programs, VIU also offers some courses of the English as a Second Language (ESL) Program online. The ESL online courses follow a 7-week format. Upon successful completion of the online courses, students receive a Certificate of Course Completion. Please refer to the ESL Program section in this Academic Catalog for details of the program and courses.

15.1. Academic Calendar for Online Programs
At VIU online courses are offered in an 8-week format in the first and the second halves of the Fall, Spring and Summer semesters. Online ESL courses are completed in 7-week term.

*Late registration fee applies after this date, until the end of course add/drop period.*

**NOTE:** The Academic Calendar is subject to change without prior notice. The latest version of the calendar is available on the VIU website.
15.2. **Admission Requirements**
The admissions requirements for online programs are the same as our on ground programs, except for the application fee. There are no additional admission requirements for students taking online courses. Therefore, please refer to Application for Admission section in this catalog.

Prior to registering for online classes, prospective students must be admitted to an academic program of study at VIU. F-1 visa international students must comply with the visa restrictions when taking online courses. Students who plan to study online only are not required to have a US visa to enroll in an online program or course of study.

All applicants for the ESL Online Program must submit proof of a certain level of English language proficiency as indicated in the table below. There are two ways to meet these English language proficiency requirements for ESL online courses:

1. Submit scores for one of the following tests:
   
<table>
<thead>
<tr>
<th>Name of Standardized Test</th>
<th>Minimum Scores Required*</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL iBT</td>
<td>50</td>
</tr>
<tr>
<td>TOEFL pBT</td>
<td>463</td>

<tr>
<td>IELTS Academic</td>
<td>Overall band 5.5</td>
</tr>
<tr>
<td>PTE Academic</td>
<td>40</td>
</tr>
<tr>
<td>ITEP Academic Plus</td>
<td>4</td>
</tr>
</tbody>
</table>

   * Scores must be less than 2 years old. If the student has been studying continuously at a college or university in the United States, s/he may submit an older score that has been accepted at the current school.

2. Complete VIU’s ESL placement test, which is available on-ground and online. The ESL placement test will assess the student’s English proficiency and determine the appropriate level. Admission is not guaranteed.

In addition, students who are enrolling in VIU programs online are required to confirm that they meet the required technical capabilities throughout the admission process including the required PC, Mac, or tablet requirements, Internet connection, web browser, software, and recommended hardware requirements listed on the university website and in section 15.5 of this academic catalog. Virtual interviews may also be required for students enrolling in online programs at VIU.

15.3. **Tuition and Fees of Online Courses**
The following tuition rates apply for fully online students and not for residential students taking online course(s). The tuition does not include the cost of textbooks and other course related materials.

**Graduate Level Programs:**
- **Tuition:**
  - $429 per credit
  - $1,287 per course
  - $3,861 per semester (full-time, 9 credit hours)

**Tuition for Program Prerequisites:** Graduate Students who need to take program pre-requisite courses will pay the Undergraduate tuition rate for those courses required.

**Undergraduate Level Programs:**
- **Tuition:**
  - $341 per credit
  - $1,023 per course
  - $4,092 per semester (full-time, 12 credit hours)

**Non-Credit Certificate Program - ESL Program:**
- **Tuition:**
  - $9.00 per hour
  - $630 per 7-week course
Related Fees: Some fees are mandatory and due at the time of application or enrollment. There are also services at VIU when it is necessary as student progress through their program of study or required upon their request. All fees are non-refundable.

<table>

</tbody>
</table>

* This is different from Online ESL placement test. The English Placement Test determines proficiency level for Academic studies using Accuplacer test.

15.4. Online Course Cancellation and Refund Policy

Dropping course(s): If a student elects to drop one or more courses during the add/drop period, 100% of the tuition for the dropped course(s) will be refunded. Students cannot drop courses after the add/drop period. However, a student may withdraw from specific courses with a grade of “W.” The cancellation and refund policy will be applied.

Leave of absence: There are no tuition charges if a student submits an approval form for a leave of absence prior to the last day of add/drop period. If a student requests a leave of absence after the last day of the add/drop period, the cancellation and refund policy will be applied.

<table>
<thead>
<tr>

</tr>
<tr>
<td>Through 50% of the session</td>
<td>50% of the tuition</td>
</tr>
<tr>
<td>Through 75% of the session</td>
<td>25% of the tuition</td>
</tr>
<tr>
<td>After 75% of the session</td>
<td>No refund will be issued</td>
</tr>
</tbody>
</table>

* Excludes all fees

A written notice must be submitted to officially withdraw from Virginia International University. The official withdrawal date, for the purpose of a refund calculation, will be taken from the date the written notice is received by VIU.

a) Notifying the academic coordinator or instructor that you want to drop/withdraw from a course does not officially withdraw a student from a course.

b) Non-attendance in a course will not constitute a drop/withdrawal.

c) Students who do not officially drop/withdraw from a course will be financially responsible for the tuition.

No refund will be honored without written notice. Students may download the Online Education Institutional Withdrawal Form from our website or obtain a hard copy from the Registrar’s Office. VIU
requests that a Refund Request & Application Cancellation Form be submitted within 12 months of the initial application date.

VIU will issue refunds to individuals who have terminated their status as students within 45 days after receipt of a written request. If no payment was made, the University will bill the student for the amount due according to the schedule above.

If a student's financial obligation is not fulfilled, VIU is authorized to do the following until the monies owed are paid:

a) Withhold the release of the student's academic records or any information based upon the records.
b) Withhold the issue of the student's transcripts.
c) If the student's account remains delinquent, VIU reserves the right to terminate enrollment. Late tuition payments are subject to financial penalties.

15.5. Technical Requirements
In order to participate in the online class activities and run VIU’s Learning Management System (Canvass) effectively you should, at a minimum, use the following technical components. If you do not follow the suggested requirements, Canvass may still work, but some functionality may be lost.

System Requirements
Student must have access to a high-speed internet, a personal computer that is up-to-date and maintained. Students taking online courses will also need a microphone, speaker (or earphones), and a webcam. These items can be either built-in or external.

- **For PC Users:**
  - A modem or other device capable of connecting to the Internet. A high speed connection is strongly recommended.
  - Processor: Intel I3/ equivalent or better processor (Dual Core processor **strongly recommended**)
  - Operating System: Windows 7 or newer with current updates installed.
  - Memory: 4 Gigabytes RAM Memory or higher
  - Hard drive: 120 Gigabyte or higher
  - Speaker (built-in or external)
  - Microphone (built-in or external)

- **For Mac Users:**
  - A modem or other device capable of connecting to the Internet. A high speed connection is **strongly recommended**.
  - Processor: Intel I3/equivalent or better
  - Operating System: MAC OS X 10.6 (Snow Leopard) or newer
  - Memory: 4 Gigabytes RAM Memory or higher
  - Hard drive: 120 Gigabyte or higher
  - Speaker (built-in or external)
  - Microphone (built-in or external)

- **Tablets and Smart Phones:**
  - Although Moodle works on most tablets and smart phones, some features may not work properly on these devices. We recommend using a PC or Mac as your primary means of access to Moodle.

Browser Requirements
The latest version of Chrome, Firefox or Safari is recommended for the best online learning experience. There is a known conflict between Safari and the Turnitin plagiarism prevention service for Moodle. If you encounter problems with Turnitin on Mac, try using Chrome or Firefox browsers.

Following browser settings required for smooth operation of Moodle:

- Enable cookies
- Enable Javascript (Javascript and Java are not the same, Moodle does not require Java)
Software Requirements
- Up-to-date virus protection software
- Microsoft Office suite or Office Online account
- Adobe Acrobat Reader or browser add-on

15.6. Additional Information
Identity Verification, Privacy, and Access: In compliance with the pertaining laws that regulates the verification of student identity in distance learning, VIU Online has established and will periodically evaluate its process to ensure that a student who has enrolled in VIU Online program or course of study is the same student who participates in online class discussions, completes all required coursework, including quizzes, tests and exams, and receives the academic credit.

To authenticate online student identification:
1) VIU uses secure login and pass code to verify the identity of students who participate in online programs.
2) VIU Online uses secure connection to connect to the Learning Management System (LMS) to protect the security of user credentials.
3) VIU staff communicate all user account related messages through the VIU provided student email accounts.
4) VIU Online uses a secure web form to reset LMS user passwords.

When an LMS username and/or password is forgotten, users will be directed to an online form where they enter their VIU provided email address to receive a new password to regain access to the LMS. Account passwords will not be sent to the user by using any other means.

In the event that a student is having trouble accessing the VIU provided email account, the student will be required to reset the email account password by either physically contacting VIU offices and providing photo ID or scheduling an online meeting with live video capability to present a photo ID to reset email password. During this session, students will be asked at least two personal and/or demographic questions such as date of birth, Social Security Number, birth city, current address in file in order to verify identification.

16. SCHOOL OF TEST PREPARATION
The School of Test Preparation (STP) at VIU is committed to maintaining the highest compliance with VIU standards. Our vision is to improve students’ learning outcomes by providing students with tools to build their confidence and by assisting them in becoming independent learners who are able to rely on their own strengths and abilities. The STP collaborates with students to address their unique needs while respecting individual achievements, concerns, and goals the vision of the STP is to be an essential component in each students’ academic or professional journey, locally or internationally.

16.1. Programs and Program Requirements
TOEFL iBT
The Test of English as a Foreign Language, or TOEFL, is designed to assess the English language proficiency of those who plan to study or work where English is the language of communication or instruction.
- It is used for admissions, scholarships, visas, and immigration
- It contains four sections: reading, listening, speaking, and writing
- All sections are completed on a computer
- Test takers receive scores on a band scale from 0 to 120
- Tests can be taken at any ETS authorized test center

IELTS
The International English Language Testing System, or IELTS, is designed to assess the language ability of candidates who plan to study or work where English is the language of communication or instruction.
• It is used for admissions, scholarships, visas, and immigration
• It is made of four sections: reading, listening, speaking, and writing
• Three sections are completed on a computer; speaking is completed face-to-face with the test administrator
• Test takers receive scores on a band scale from 1 to 9
• Tests can be taken at any IELTS authorized test center

GRE
The Graduate Record Examination, or GRE, is a standardized test required for admission to most graduate schools in the United States.

• The GRE General Test
  This exam aims to measure verbal reasoning, quantitative reasoning, analytical writing, and critical thinking skills that have been acquired over a long period of time and that are not related to any specific field of study. A perfect score is 170.

• The GRE Subject Test
  Another option is the GRE Subject Test. There are seven types of tests that measure the knowledge in the specific areas of biochemistry, cell and molecular biology, biology, chemistry, literature in English, mathematics, physics, and psychology. The length of each exam is 170 minutes.

• Both types of test can be taken at any ETS authorized test center

GMAT
The Graduate Management Admission Test, or GMAT, is a computer adaptive test intended to assess certain analytical, writing, quantitative, verbal, and reading skills in written English for use in admission to a graduate management program, such as an MBA. The GMAT assesses analytical writing and problem-solving abilities while also addressing data sufficiency, logic, and critical reasoning skills believed to be vital to real-world business and management success.

• The GMAT exam consists of four sections: analytical writing assessment, integrated reasoning, the quantitative section, and the verbal section
• The total GMAT score ranges from 200 to 800 and measures performance on the quantitative and verbal sections together; scores are given in increments of 10 (e.g., 540, 550, 560, 570, etc.)
• Test takers may register for the GMAT at mba.com

LSAT
The Law School Admission Test, or LSAT, is a half-day standardized test administered four times each year at designated testing centers throughout the world. Administered by the Law School Admission Council (LSAC) for prospective law school candidates, the LSAT is designed to assess reading comprehension and logical and verbal reasoning proficiencies. The test is an integral part of the law school admission process in the United States, Canada (common law programs only), the University of Melbourne in Australia, and a growing number of other countries. An applicant cannot take the LSAT more than three times within a two-year period.

• Raw scores are converted to an LSAT scale that ranges from 120 to 180, with 120 being the lowest possible score and 180 the highest possible score
• LSAT can be taken through the Law School Admission Council (LSAC)

SAT/ACT
The ACT is a national college admissions examination that consists of subject area tests in

<table>
<thead>
<tr>
<th>English</th>
<th>Mathematics</th>
<th>Reading</th>
<th>Science</th>
</tr>
</thead>
</table>

The ACT with writing includes the four subject area tests plus a 40-minute writing test.
ACT results are accepted by all four-year colleges and universities in the US. The ACT includes 215 multiple-choice questions and takes approximately 3 hours and 30 minutes to complete.

The SAT is a standardized test widely used for college admissions in the United States. It was first introduced in 1926, and its name and scoring have changed several times, being originally called the Scholastic Aptitude Test, then the Scholastic Assessment Test, then the SAT I: Reasoning Test, then the SAT Reasoning Test, and now simply the SAT.

TOEFL for CEUs
Course Description:
The TOEFL Preparation course gives students all the tools they need to succeed on the new TOEFL iBT® integrated skills test. The TOEFL Preparation course provides a wealth of practice for all sections of the TOEFL test:

- **Reading:** Practice the different test question types, including filling in a table or chart, determining vocabulary from context, and paraphrasing.
- **Listening:** Develop essential listening and note-taking skills to enable you to answer questions based on authentic informal conversations in an academic setting and academic lectures.
- **Speaking:** Learn specific skills to successfully respond to personal opinion or experience questions and questions that integrate speaking, listening, and reading skills.
- **Writing:** Strengthen grammar and writing skills to generate ideas, organize, and develop your topic for TOEFL essays.
- **Vocabulary:** Expand your academic vocabulary to increase understanding of TOEFL test materials.

Other benefits of the program include diagnostic pre-tests and post-tests that allow students to identify strengths and weaknesses and assess improvement in each section; mini-tests that preview the test's integrated four-skill format; and complete practice tests which familiarize students with the actual formatting and timing of the test.

TOEFL for CEU Requirements
(12 weeks (60 hours, 6.0 C.E.U.s)

IELTS for CEUs
Course Description:
The IELTS preparation course gives students all the tools they need to succeed on the IELTS test. The course provides a wealth of practice for all sections of the IELTS test:

- **Reading:** Practice the different test question types, including descriptive passages, locating and matching, discursive passages, general training reading, determining vocabulary from context, and paraphrasing.
- **Listening:** Develop essential listening and note-taking skills to enable you to answer questions based on authentic informal conversations in an academic setting and academic lectures.
- **Speaking:** Learn specific skills to successfully respond to personal opinion or experience questions and questions that integrate speaking, listening, and reading skills.
- **Writing:** Strengthen grammar and writing skills to generate ideas, organize, and develop your topic for IELTS essays and describing and/or contrasting diagrams, maps, graphs, and tables.
- **Vocabulary:** Expand your academic vocabulary to increase understanding of IELTS test materials.
Other benefits of the program include diagnostic pre-tests and post-tests that allow students to identify strengths and weaknesses and assess improvement in each section; mini-tests that preview the test’s integrated four-skill format; and complete practice tests which familiarize students with the actual formatting and timing of the test.

1. Online application form
2. $20 application Fee (non-refundable)
3. Intermediate to Advanced proficiency in English

17. COURSE DESCRIPTIONS

Course credits are shown in parenthesis, e.g., (3 credits), following the course title. Credits are based on class contact (lecture) hours unless otherwise stated. Lecture courses comprise 1 credit for each 15 hours of face to face, 1 credit of for each 30 hours of laboratory, and 1 credit for each 45 hours of practicum/internship. All courses are lecture courses unless otherwise indicated.

ACCT 201: Principles of Financial Accounting (3)
Prerequisite: None
This course is an introduction to accounting concepts and procedures for an organization. The emphasis is upon the accounting cycle as well as the recording, summarizing, and interpretation of accounting information.

ACCT 202: Principles of Managerial Accounting (3)
Prerequisite: ACCT 201 Principles of Financial Accounting
This course continues the elementary accounting principles with a focus on operations, time value of money, and cost accounting. Job-order costing, process costing, cost-volume-profit, budgeting, and variance are introduced.

ACCT 305: Accounting Information Systems (3)
Prerequisite: ACCT 201 Principles of Financial Accounting and COMP 124 Information Technology
This course focuses on the design and analysis of automated accounting systems for businesses. It includes the examination of payroll, receivables and payables, charts of accounts, and accounting reports as well as internal control and security issues.

ACCT 600: Cost Accounting (3)
Prerequisite: MBA 511 Managerial Accounting and Finance
Internship/CPT Qualified
This course focuses on developing knowledge around the principles and practices related to providing management with cost information critical to decision making. Cost accounting is a process of collecting, analyzing, summarizing and evaluating cost of delivery (products or services) with the goal of informing management around alternative decision points. Topics covered include standard costing practices, activity based costing principles, cost-volume-profit analysis, and other key concepts relevant to the cost accounting discipline.

ACCT 601: Advanced Financial Accounting (3)
Prerequisite: MBA 511 Managerial Accounting and Finance
Internship/CPT Qualified
This course focuses on understanding the available alternatives and correct accounting for complex business transactions and business models. Topics covered will include variable interest entities (e.g. joint venture accounting), merger and acquisition principles, accounting for multinational corporations, and other subject matter required in an increasingly complex business environment. Case studies will be used in a highly interactive classroom environment will allow students to explore topics in depth.

ACCT 602: International Accounting (3)
Prerequisite: MBA 511 Managerial Accounting and Finance
Internship/CPT Qualified
As activities and interests of investors, lenders, and companies become increasingly global, accounting professionals are expected to understand and communicate to management the impact of these complexities. This course focuses on developing knowledge and understanding around issues such as international financial reporting standards (IFRS), translation of foreign currency financial statements, analysis of foreign financial statements, and contrasts in multinational auditing and corporate governance. At the end of the course, students will have gained a better understanding of the implications for the accounting profession where international influences impact the daily business transactions of an organization.

ACCT 603: Contemporary Topics in Accountancy (3)
Prerequisite: MBA 511 Managerial Accounting and Finance
Internship/CPT Qualified
The focus of coursework will be current topics of interest in the technical accounting discipline and the general accounting, finance, and business environment. Students will explore hot button topics which impact the practice of the profession as well as the impact on business organizations. A combination of lecture, case studies, classroom interaction, and student project research and presentation will provide students the opportunity to explore contemporary topics of interest and interpret how issues may influence the practice of accounting.

ACCT 650: CPA Exam Preparation (3)
Prerequisite: Completion of all core courses of MS in Accounting curriculum
The focus of this course is to familiarize students with the CPA exam, as administered by the American Institute of Certified Public Accountants (AICPA). The overall exam administration process will be reviewed
and each exam section (Auditing and Attestation, Financial Accounting and Reporting, Regulation, and Business Environment and Concepts) will be reviewed to help students understand the subject matter tested. Additionally, students will participate in practice exam sessions aimed at providing for a self-assessment of exam readiness.

**ACCT 698: Master Thesis I (3)**
*Prerequisite: Completion of at least five Core courses and Dean's or academic advisor's approval.*
The thesis work can comprise basic research or a practical project. Students are encouraged to start their thesis work as early as possible. Usually after completing two semesters of course work, the student will be asked to work with a faculty advisor to choose a suitable master's thesis topic and prepare a thesis proposal. Thereafter, the student completes the project and writes a thesis. The master's thesis will project will be conducted over a period of two semesters.

**ACCT 699: Master Thesis II (3)**
*Prerequisite: ACCT 698 Master Thesis I*
The thesis work can comprise basic research or a practical project. Students are encouraged to start their thesis work as early as possible. Usually after completing two semesters of course work, the student will be asked to work with a faculty advisor to choose a suitable master's thesis topic and prepare a thesis proposal. Thereafter, the student completes the project and writes a thesis. The master's thesis will project will be conducted over a period of two semesters.

**APLX 500: Introduction to Language and Applied Linguistics (3)**
*Prerequisite: None*
This course is designed to provide students with a general introduction to the scientific study of language. The goal is to familiarize students with linguistic terminology, teaching both the methods of linguistic analysis and how to apply them. The course focuses on an introduction to the nature of the language faculty, speech (including physical and mental aspects), the structure of language (including morphology and general syntax), and how language is used. The course also provides an introduction to language acquisition principles, language processing in the brain as well as language change and variation. For students studying a linguistic concentration, it provides the background needed to succeed in other linguistic courses.

**APLX 510: Introduction to Language Acquisition (3)**
*Prerequisite: None*
This course introduces students to the main theories of language acquisition and their relevance to language teaching. Students will become familiar with the key concepts that inform the study of L2 acquisition through the review of relevant literature on second language acquisition. The course will also develop students' ability to relate their understanding of how learners acquire second language to language pedagogy.

**APLX 520: Introduction to Multilingualism (3)**
*Prerequisite: None*
*Internship/CPT Qualified*
This course provides an introduction to the linguistic theories and methods associated with multilingualism. Students gain perspectives on the similarities and differences between first and additional language acquisition in children and adults. Key areas of the course include models of second language acquisition, multilingual development, sentence processing, aging and the multilingualism brain, social and cultural constraints, motivational constraints, communication disorders, identity and the education of bilinguals.

**APLX 530: Language Teaching Methods (3)**
*Prerequisite: None*
This course is an introduction to the modern theories and current practices of second language pedagogy. Students will learn methodologies of lesson planning, skill integration techniques, course and program development and classroom management. This course provides students with a framework to develop course and programmatic curriculum defined by outcomes centered on an integrated approach to language teaching.
APLX 540: Language Curriculum and Materials Design (3)
Prerequisite: None
Internship/CPT Qualified
This course introduces the students to a needs-based, learning-centered approach to designing courses. Through needs assessment, students identify curricular goals and course objectives. From these they determine an appropriate syllabus structure, develop a course unit outline, plan and create materials for lessons, determine training needs for course instructors and devise a system of evaluation.

APLX 550: Language Assessment (3)
Prerequisite: None
Internship/CPT Qualified
This course examines in depth the major categories of language assessment. The main topics include approaches to evaluating language sub-skills (vocabulary, grammar, pronunciation) and communication skills (speaking, listening, reading, and writing); models of language assessment; examination of standardized tests and their appropriate application; and research-based framework linking assessment to instruction.

APLX 572: Technologies for Language Learning (3)
Prerequisite: None
Internship/CPT Qualified
This course examines the use of technology as a teaching tool for the traditional classroom. Students explore methods of implementing technology into the classroom/curriculum and how to discern the efficacy of digital/online resources to provide an engaging and authentic learning environment.

APLX 615: Pedagogical Grammar for Communicative Classrooms (3)
Prerequisite: None
Internship/CPT Qualified
This course provides an overview of the structure of language drawing upon the theoretical perspective of generative grammar, cognitive sciences, systemic-functional, and corpus linguistics to illuminate how grammar operates at the morphological, syntactic, and discourse levels. The course provides insight into the nature of the human capacity of language via means of a concentrated focus on the structure of language. Students will explore and analyze the internal structure of words, phrases and sentences as well as gain a foundation in understanding how language is structured but also how it is changeable over time.

APLX 620: Teaching Pronunciation (3)
Prerequisite: None
Internship/CPT Qualified
This course is a comprehensive introduction to pronunciation pedagogy. This is a two part course including a theoretical look at the sound system and practical application of phonology/pronunciation in the second language classroom and curriculum. Students will study the anatomy and mechanics of speech as well as principles/practices and realistic resources and technology for application in the classroom.

APLX 623: Teaching Multiliteracy (3)
Prerequisite: None
Internship/CPT Qualified
This course introduces students to the pedagogical approaches to second language reading and writing in the framework of current theoretical perspectives on second language reading and writing processes, practices, and authors. Students gain practical knowledge in the areas of phonemic awareness, vocabulary and text comprehension, tactics for improving reading fluency and teaching writing in contextual exercise.

APLX 630: Sociolinguistics in the Classroom (3)
Prerequisite: None
Internship/CPT Qualified
This course introduces students to theoretical principles governing social and linguistic variation, the methodology used to study it, the patterns and systems that underlie language variation in use, and the
ways in which alternations between different language varieties index personal style, social power, and national identity.

**APLX 635: Intercultural Communication (3)**
*Prerequisite: None*
*Internship/CPT Qualified*
This course also serves to introduce students to key issues of intercultural communication, core American and foreign cultural concepts, and ways in which culture affects language teaching and learning.

**APLX 655: Special Topics in Applied Linguistics (3)**
*Prerequisite: Permission from the Academic Dean*
*Internship/CPT Qualified*
This course covers topics of current interest selected by the faculty before each semester. Special topics courses are developed to cover emerging issues or specialized content not represented in the main curriculum, but deemed to be of special interest to language teaching professionals.

**APLX 665: TESOL Practicum (3)**
*Prerequisite/Co-requisite: APLX 530 or APLX 540*
*Credit Hour Breakdown: 115 hours of practicum, 15 hours of seminar/lab*
This course is designed to provide an experiential exposure to an actual second language classroom setting. It serves as a practical experience to observe and provide personal and professional development for a student's actual teaching experience applying the skills learned in the program. The course provides opportunity for observation, cooperative planning with a language teaching professional and supervised teaching to an actual class. Additionally, students will fine tune existing skills learned while taking courses in the program through periodic seminars and journal assignments. Throughout the course, students will build a professional teaching portfolio used as the final requirement for graduation from the program.

**APLX 666: Internship for Multilingual Education (3)**
*Prerequisite: Completion of a minimum of 18 credits in the program Credit Hour Breakdown: 135 hours of practicum*
This course provides supervised field experience in a setting appropriate to the student's program and career goals. Examples of appropriate experience include (but are not limited to) teaching language courses: assisting a language instructor; developing language teaching materials or tests. The students are expected to work on-site for at least 135 hours; when the student is the primary instructor of a course, it may be appropriate to count 2 hours of prep and grading for each hour of face-to-face classroom instruction. Students are expected to communicate with the faculty advisor regularly and submit required documentation and projects on time.

**APLX 699: Master's Thesis Research (3)**
*Prerequisite: Concurrently enrolled in or successful completion of EDUC 640, good academic standing, and permission of the Academic Dean.*
The Master's Thesis provides an opportunity for students to build upon and contribute considerably to existing knowledge in the field. Students shall formalize a specific and specialized topic of interest directly related to their field of study. This shall be done through independent research and empirical analysis on an area deemed to be a problem or needs more extensive consideration.

The purpose of the thesis is to incorporate and integrate knowledge learned throughout the courses in the program of study. Students will work closely with a core faculty member to identify a topic of interest and conduct rigorous review and analysis of the relevant theoretical, empirical and practical knowledge. Students are encouraged to choose topics related to their specific interests including previous experience and or future professional or academic goals.

**ARAB 100: Elementary Arabic I (3)**
*Prerequisite: Placement or no previous exposure to the language.*
This course is an introduction to Arabic grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are
embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language.

ARAB 105: Elementary Arabic II (3)
Prerequisite: ARAB 100 or placement
This course is an introduction to Arabic grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Arabic I while reinforcing production skills and vocabulary building.

ARAB 200: Intermediate Arabic I (3)
Prerequisite: ARAB 105 or placement
This course is an intermediate Arabic course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Arabic I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

ARAB 205: Intermediate Arabic II (3)
Prerequisite: ARAB 200 or placement
This course is an intermediate Arabic course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Intermediate Arabic I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

ARAB 250: Conversational Arabic I (3)
Prerequisite: ARAB 105 or placement
This course is an intermediate Arabic course and builds upon skills learned in the elementary level. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in elementary and intermediate Arabic with a focus on oral communication in the target language. The target language is the primary language of instruction.

ARAB 300: Advanced Arabic I (3)
Prerequisite: ARAB 205 or placement
This course is an advanced Arabic course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar,
structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

**ARAB 305: Advanced Arabic II (3)**
*Prerequisite: ARAB 300 or placement*
This course is an advanced Arabic course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

**BIOL 101: General Biology (3)**
*Prerequisite: None*
This course is an introduction to the fundamentals of biology. It includes cell structure, chemistry and function, adaptation, and ecology.

**BUSS 154: Introduction to Import & Export Management (3)**
*Prerequisite: None*
**Internship / CPT Qualified**
For many organizations, the first step toward multinational operations begins with importing and exporting goods. This course focuses on the strategies and processes of import/export management.

**BUSS 210: Introduction to Business (3)**
*Prerequisite: None*
This course presents an introduction to the functioning of business enterprises within the US economic framework. Topics include developing a business vocabulary and learning the basic principles and practices of contemporary businesses. Upon completion, students should have an understanding of business concepts that will serve as a foundation for their further studies in the business field.

**BUSS 260: Internship Level I (3)**
*Prerequisite: None*
This course will provide practical training and hands-on experience to undergraduate students working in various areas of business administration. The objective is to expose students to the process and operations of the general business environment. Students will be able to gain insights into general business operations which would enhance their classroom learning in various business disciplines. This three credit hour internships are for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**BUSS 261: Internship Level II (3)**
*Prerequisite: None*
This course will provide practical training and hands-on experience to undergraduate students in their more concentrated area of business administration. The objective is to give students practical work experience in a business environment specially related to their undergraduate business contraction area. Students will gain key industry knowledge in specific concentration areas such as international business, marketing, finance, etc. This three credit hour internships are for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.
BUSS 301: Principles of Management (3)
Prerequisite: None (For SED students permission of the advisor and successful completion of 18 credits in the program.)
This course surveys the theories and practices of management, including quantitative and behavioral approaches.

BUSS 302: Principles of Marketing (3)
Prerequisite: None (For SED students permission of the advisor and successful completion of 18 credits in the program.)
This course examines the role of marketing in society and the economy, the role of marketing in business operations, and the management of the firm's marketing effort.

BUSS 303: Principles of Finance (3)
Prerequisite: ACCT 201 Principles of Financial Accounting
This course focuses on the methods of financial analysis and planning within the firm including time value of money, cash flow analysis, capital budgeting, and valuation of debt and equity instruments.

BUSS 307: Business Law I (3)
Prerequisite: None
This course examines operations relative to the legal and regulatory environment of business. Topics include torts, contracts, liability, sales, and forms of doing business.

BUSS 312: Organizational Theory & HR Management (3)
Prerequisite: None (For SED a student permission of the advisor and successful completion of 18 credits in the program.)
This course examines how knowledge of individual and group behavior is applied in an organizational setting. Topics include motivation, leadership, group formation and behavior, dysfunctional behaviors, job/task behaviors, and job enrichment/enlargement. The course also examines the ways in which firms recruit, select, train, evaluate, and compensate employees. Current practices in industry are discussed as well as theories and labor law.

BUSS 314: Corporate Finance (3)
Prerequisite: BUSS 303 Principles of Finance
Internship / CPT Qualified
This course on corporate money management deals with long- and short-term capital, financial resources, flow of funds analysis and its time value, credit policy formulation and operation, financial aspects of parent-subsidiary relationships, and financial functions in the multinational corporations.

BUSS 321: Consumer Behavior (3)
Prerequisite: BUSS 302 Principles of Marketing
Internship / CPT Qualified
This course examines how our knowledge of human behavior is used to create and market goods and services. It also examines how marketers study human behavior to determine consumer needs as well as predict future needs.

BUSS 322: Marketing Research (3)
Prerequisite: STAT 200 Introduction to Statistics
Internship / CPT Qualified
This course examines the theories and techniques of marketing research. In addition to discussing the design of marketing research studies, the tools used to carry out such studies will be covered as well as the use of marketing research results to make management decisions.

BUSS 340: International Business (3)
Prerequisite: BUSS 210 Introduction to Business or BUSS 312 Organizational Theory & HR Management
Internship / CPT Qualified
This course focuses on the international environment and the ways in which businesses adapt to differences in culture, economic systems, and political systems.

**BUSS 348: Public Relations (3)**
*Prerequisite: BUSS 210 Introduction to Business*
This course explores the interdisciplinary knowledge and skills foundations related to public relations, management, communication, social sciences and research. Students will be trained in the basic practical skills and educated in public relations, international public relations, and ethical and legal issues at a level suitable for an undergraduate academic qualification.

**BUSS 360: Internship Level III (3)**
*Prerequisite: None*
This course will provide practical training and hands-on experience to undergraduate students in their area of professional interest. The objective is to give students experience and exposure in areas of their specific current and/or future professional interest. Students will be able to work in any key business areas as long as the opportunity clearly aligns to their professional goals. This three credit hour internships are for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**BUSS 406: Operations Management (3)**
*Prerequisite: STAT 200 Introduction to Statistics*
This course applies the mathematical modeling techniques of operations research to business operations problems such as forecasting, scheduling, facility design, and facility location.

**BUSS 407: Political & Social Environment of Business (3)**
*Prerequisite: BUSS 301 Principles of Management*
This course examines how business decisions are shaped by the political, legal, and social environment in which firms operate. It includes an examination of ethical decision-making as well as social responsibility.

**BUSS 420: Introduction to Investment Banking (3)**
*Prerequisite: BUSS 303 Principles of Finance*
*Internship / CPT Qualified*
This course analyzes the financial services that investment banks provide to corporations and governments. Some of the topics included are raising capital through the issuance of equity and debt securities; initial public offerings and secondary issues; private placements; venture capital; privatizations; and mergers and acquisitions, including the related activities of divestitures, spin-offs, and workouts.

**BUSS 421: Advertising and Promotion (3)**
*Prerequisite: BUSS 302 Principles of Marketing*
*Internship / CPT Qualified*
This course examines the ways in which organizations promote their goods and services to potential customers. The costs and benefits of various promotional mixes and strategies are examined.

**BUSS 422: Sales Management (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course deals with the personal selling function and its related managerial activities. It covers the development of the sales function, sales management planning, and sales force organization, recruiting, training, supervision, motivation, compensation, and evaluation.

**BUSS 423: Services Marketing (3)**
*Prerequisite: BUSS 302 Principles of Marketing*
*Internship / CPT Qualified*
This course focuses on the specific challenges of marketing the services firm. The basic conceptual differences between selling a product and selling a service are the critical distinction in this course.
BUSS 424: Not-for-Profit Marketing (3)
Prerequisite: BUSS 302 Principles of Marketing
Internship / CPT Qualified
This course focuses on the specific challenges of marketing the not-for-profit organization. Topics include marketing for donations, marketing to attract members and volunteers, and how the intangible nature of most not-for-profit activities distinguishes this type of marketing from other marketing activities.

BUSS 425: Internet Marketing (3)
Prerequisite: BUSS 302 Principles of Marketing
Internship / CPT Qualified
This course focuses on the marketing of goods and services over the Internet. It examines emerging theories and practices of online companies as well as successes and failures of Internet-based marketing.

BUSS 430: Financial Analysis and Valuations (3)
Prerequisite: BUSS 303 Principles of Finance
Internship / CPT Qualified
The focus of this course is on the valuation of companies. Topics discussed include discounted cash flow techniques and valuations using alternative valuation techniques such as price multiples. Emphasis is on developing the required information for valuation from financial statements and other sources.

BUSS 442: International Marketing (3)
Prerequisite: BUSS 302 Principles of Marketing
Internship / CPT Qualified
This course focuses on the marketing of goods and services in international and global markets. It examines the ways in which firms globalize and localize their offerings to balance the demands of scale economies with consumer needs.

BUSS 443: International Strategy (3)
Prerequisite: BUSS 210 Introduction to Business
Internship / CPT Qualified
This course focuses on the strategies employed by firms competing in multinational and global markets. It draws heavily upon case studies of firm strategies.

BUSS 444: International Finance (3)
Prerequisite: BUSS 303 Principles of Finance or ECON 101 Principles of Microeconomics
Internship / CPT Qualified
This course focuses on the techniques and strategies of firms operating in the international environment. Topics covered include exchange rates, currency trading and risk, hedging techniques, international capital markets, and blocked fund alternatives.

BUSS 456: Project Management (3)
Prerequisite: None
This course introduces main project management concepts such as the keys to project success, leadership skills in project management, project management process and lifecycle, project planning, defining project outcomes and objectives, working effectively with key stakeholders, defining project scope, project phasing, time and cost, operational risk, project monitoring and control, progress reviews, quality assurance, change management, project risk assessment, and working with people and teams.

BUSS 460: Internship Level IV (3)
Prerequisite: None
This course will provide practical training and hands-on experience to undergraduate students as related to their area of interest for their senior research project course. The objective is to give students insights
and access to information that will help them complete their senior business research project. Students will be able to work in any area of interest as long as it relates to their current or future conceptual framework of their senior research project. This three credit hour internships are for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**BUSS 470: Business Law II (3)**
*Prerequisite: BUSS 307 Business Law I*
This course continues the discussion of legal topics relevant to business. It is especially useful to accounting students who are preparing for the CPA exam, but it is also useful for any student wanting to gain further understanding of legal issues in business.

**BUSS 480: Senior Business Research Project (3)**
*Prerequisite: All Core Courses and first semester senior Concentration Courses Internship / CPT Qualified – Per Approval by the Dean*
This course is designed for students to develop a project that will encompass the key elements of business operations which have been studied throughout the undergraduate degree program, culminating in the submission of a final project paper and an oral presentation.

**CAR 100: Career Planning & Management (3)**
*Prerequisite: None*
In-depth exploration and assessment of career values, occupational interests, skills, personality style, work environment preferences; concentration and career exploration; exposure to career and occupational information resources. Students learn and practice job search strategies and tools, including resumes and interviewing skills; decision-making, goal-setting and action planning; and self-marketing techniques for effective career management.

**CAR 600: Career Planning & Management (3)**
*Prerequisite: None*
In-depth exploration and assessment of career values, occupational interests, skills, personality style, work environment preferences; concentration and career exploration; exposure to career and occupational information resources. Students learn and practice job search strategies and tools, including resumes and interviewing skills; decision-making, goal-setting and action planning; and self-marketing techniques for effective career management.

**CHEM 101: General Chemistry (3)**
*Prerequisite: None*
This course introduces the fundamentals of chemistry including atomic and molecular structure, thermo-chemical changes, and conservation of energy.

**CHIN 100: Elementary Chinese I (3)**
*Prerequisite: Placement or no previous exposure to the language.*
This course is an introduction to Chinese grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Chinese I while reinforcing production skills and vocabulary building.

**CHIN 105: Elementary Chinese II (3)**
Prerequisite: CHIN 100 or placement
This course is an introduction to Chinese grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Chinese I while reinforcing production skills and vocabulary building.

CHIN 200: Intermediate Chinese I (3)
Prerequisite: CHIN 105 or placement
This course is an intermediate Chinese course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Chinese II while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

CHIN 205: Intermediate Chinese II (3)
Prerequisite: CHIN 200 or placement
This course is an intermediate Chinese course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Intermediate Chinese I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

CHIN 250: Conversational Chinese I (3)
Prerequisite: CHIN 105 or placement
This course is an intermediate Chinese course and builds upon skills learned in the elementary level. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in elementary and intermediate Chinese with a focus on oral communication in the target language. The target language is the primary language of instruction.

CHIN 300: Advanced Chinese I (3)
Prerequisite: CHIN 205 or placement
This course is an advanced Chinese course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

CHIN 305: Advanced Chinese II (3)
Prerequisite: CHIN 300 or placement
This course is an advanced Chinese course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

CMP 110: Introduction to Computing (3)
Prerequisite: None
This course introduces computer systems, their capabilities, limitations, and applications. Students survey computer concepts with an emphasis on the personal computer and its practical use, including hardware, application and system software, the Internet and World Wide Web, communications, database management, e-commerce, and computers in society.

CMP 120: Programming Logic (3)
Prerequisite: None
This course introduces algorithmic thinking and problem solving without focusing on any particular language. Students will learn the basic constructs of programming, including variables, constants, expressions, control structures, functions pointers and arrays, and are introduced to functional, decision-based and iterative processing of data.

CMP 130: Ethical, Societal and Legal Aspects of Computing (3)
Prerequisite: None
This course first provides a review of computer systems, applications and the Internet; and thereafter discusses the impacts of technology on society and the responsibilities of technical professionals as the principal agents in developing and applying new technology. Various important and controversial issues will be discussed, such as computers and privacy, effects of communications technology on the democratic process, environmental problems, intellectual property, and technology and war. Several different ethics codes will be used as the basis for discussion of professional obligations.

CMP 210: Programming I (3)
Prerequisite: CMP 120
This course examines the fundamental data structures and analyzes algorithms such as files, sets, strings, and linked lists. It introduces searching and sorting algorithms and algorithm analysis. This course also covers abstract data types and essential data structures such as arrays, stacks, queues, and trees. The major emphasis of this course is on program development through various programming projects.

CMP 220: Programming II (3)
Prerequisite: CMP 120
This course concentrates on the concepts of object oriented programming (OOP) paradigm. Concepts presented are exemplified using a selected object oriented programming language. Topics include: fundamental abstraction, modularity and encapsulation mechanisms in OOP, classes, inheritance, polymorphism, exception handling, concurrent programming, data structures. Students complete a term project that utilizes object oriented programming.

CMP 230: Discrete Mathematical Methods for Computing (3)
Prerequisite: None
This course is intended to be a college-level introductory Discrete Mathematics course for either undergraduate or graduate students. The course focuses on the following seven key topics: Combinatorial Problems and Techniques, Sets, Relations and Functions, Coding Theory, Graphs, Matching, Counting Techniques, Recurrence Relations and Generating Functions.
CMP 250: Computer Architecture (3)  
Prerequisite: CMP 110  
This course is an introduction to the architecture of computer systems. Topics include: computer hardware organization; floating-point arithmetic; central processing units; instructions set design issues; micro-programmed control; addressing and memory hierarchies; bus control and timing; hardwired control; parallelism, pipelining; input/output mechanisms, peripheral devices; interrupt systems; software versus hardware trade-offs.

CMP 260: Operating Systems (3)  
Prerequisite: CMP 110  
The course is an introduction to the fundamentals of operating systems. Topics included: concurrent processes and synchronization mechanisms; processor scheduling; memory management, virtual memory; paging, file management; input/output management; deadlock management; interrupt structures, interrupt processing; device management; performance of operating systems; synchronization in a multi-programmed operating systems and with virtual memory management. Formal principles are illustrated with examples and case studies of one or more contemporary operating systems.

CMP 270: Essentials of Networking (3)  
Prerequisite: CMP 110  
This course includes the fundamentals of network standards, concepts, topologies and terminologies including LANs, WANs, Internet Protocol addressing, subnet masking and network design, and various protocols. This course teaches concepts from the Open Systems Interconnection Networking Reference Model, developed by the International Standards Organization to describe the function and structure of network communications protocols.

CMP 330: Data Structures and Algorithm Analysis (3)  
Prerequisite: CMP 120  
This course introduces the analysis of algorithms and the effects of data structures on them. Topics include algorithms selected from areas such as sorting, searching, shortest paths, greedy algorithms, backtracking, divide and conquer, and dynamic programming. Data structures include heaps and search, splay, and spanning trees. Analysis techniques include asymptotic worst case, expected time, amortized analysis, solution of recurrence relation and reductions between problems.

CMP 340: Principles of Programming Languages (3)  
Prerequisite: CMP 120  
This course covers the fundamental concepts of programming language design and implementation. Topics include: language paradigms, syntax and semantics; names, binding, allocation, data structures, data types; scopes; control structures, data flow, concurrency; exception handling; subprograms; comparison of imperative, functional, logical, and object-oriented programming languages.

CMP 343: Computer Security Principles (3)  
Prerequisite: CMP 270  
The course is an introduction to computer security. Course topics include: computer security incident response process; computer criminal evidence collection, analysis and handling, email investigation, malicious code investigation, network traffic analysis and router investigation, hacker tools analysis, and computer/network forensic report writing. The course identifies and examines information security threats, information security methods, and implementation approaches used in information technology industry.

CMP 350: Database Concepts (3)  
Prerequisite: None  
This course introduces the fundamental concepts for design and development of database systems. Topics include: review of relational data model and the relational manipulation languages SQL and QBE; integrity constraints; logical database design, dependency theory and normalization; query processing and optimization; transaction processing, concurrency control, recovery, and security issues in database
systems; object-oriented and object-relational databases; distributed databases; emerging database applications.

**CMP 353: Application Software Security (3)**  
*Prerequisite: CMP 343*  
*Internship /CPT Qualified*  
This course studies the security concepts in developing software applications. Topics include design principles for secure software development, and some of the security issues in current programming and scripting languages, database systems Web servers, as well as issues in web applications security.

**CMP 355: Programming with C/C++ (3)**  
*Prerequisite: CMP 120*  
This course covers the fundamental concepts of C/C++ programming language. Topics include variables, expressions and interactivity, relational and logical operators, looping, functions, arrays, pointers, classes, file operations, inheritance, polymorphism and virtual functions. Student completes a term project that utilizes C/C++.

**CMP 360: Web Development Methods (3)**  
*Prerequisite: CMP 120*  
*Internship /CPT Qualified*  
This course introduces web development technologies. The topics include: webpage design techniques, using web design editors, designing graphical user interface with image processing tools, client and server side scripting, and development of database applications. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional webpages and have hands-on experience in designing a website.

**CMP 365: Information Technology Project & Service Management (3)**  
*Prerequisite: The Program Core courses*  
This course introduces the fundamentals of project management, beginning with project definition and culminating in the post-project review. Students learn techniques, terms and guidelines that are used to manage costs, schedules, risk, group dynamics and technical aspects throughout the life cycle of the project. The course also investigates peculiarities of projects when services are outsourced in another department in the organization, domestically, and internationally.

**CMP 373: Operating System Security (3)**  
*Prerequisite: CMP 343*  
This course discusses security concepts and issues relative to a wide range of operating systems, as well as existing tools and technologies for setting up a secure system. Topics include vulnerabilities and risk assessment in operating systems, secure passwords, and trusted operating systems.

**CMP 375: Human-Computer Interactions (3)**  
*Prerequisite: None*  
Topics that this course covers include effective, productive information systems, design and evaluation of interactive computer systems, input and output devices, screen layouts, machine design, health issues and ergonomics, and organizational impacts.

**CMP 389: Independent Study (3)**  
*Prerequisites: The Program Fundamental Core courses, and Dean’s approval*  
This course offers the opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student; and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term.

**CMP 391: Internship Level I (3)**  
*Prerequisite: Dean’s approval*  
This course provides practical experience through hands on activities for undergraduate students in direct connection with the core courses taken in their program. Students will have the ability to apply theoretical
concepts in real life applications, and to extend their knowledge base examples of real life applications. Students are expected to work at least 135 hours per semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**CMP 392: Internship Level II (3)**
*Prerequisite: Dean’s approval*
This course provides practical experience through hands on activities for undergraduate students in direct connection with the core courses taken in their program. Students will have the ability to apply theoretical concepts in real life applications, and to extend their knowledge base examples of real life applications. Students are expected to work at least 135 hours per semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**CMP 420: Usability Evaluation and Interface Development (3)**
*Prerequisite: CMP 375*
This course surveys methods for evaluating user interfaces. For projects, students will perform a heuristic evaluation, a cognitive walkthrough, a usability test and a comparison study. Class meetings will also introduce, discuss and occasionally practice additional methods such as user modeling and questionnaires.

**CMP 440: Software Engineering (3)**
*Prerequisite: CMP 220 or CMP 330*
This course covers the techniques in software design and development. Topics include: modern software engineering practice for long-term, large-scale programming projects; methods for requirements, specification, design, analysis, implementation, verification, and maintenance of large software systems; advanced software development techniques and large project management approaches; project planning, scheduling, resource management, accounting, configuration control, and technical documentation. Students organize, manage and develop a software engineering project.

**CMP 443: Network Security (3)**
*Prerequisite: CMP 343*
This course discusses the network security principles and applications, including authentication applications, IP security, Web security, network management security, wireless security and system security.

**CMP 445: Distributed Systems (3)**
*Prerequisites: CMP 250 or CMP 260*
This course introduces the fundamentals of distributed systems and algorithms. Topics include: distributed systems architecture; input/output subsystems; distributed shared memory; load-balancing; cache coherency; message passing; remote procedure calls; group communication; naming and membership problems; asynchrony, logical time and consistency; fault-tolerance and recovery.

**CMP 453: Information Assurance and Privacy (3)**
*Prerequisite: CMP 343*
This course is an introduction to the various technical and administrative aspects of information security and assurance. This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features.

**CMP 463: Computer Forensics (3)**
*Prerequisite: CMP 343*
Internship /CPT Qualified
This course surveys the processes of performing computer crime investigations. The course examines three key areas: the computer technology, investigative techniques and the legal aspects. Students learn how to investigate crime scenes, intrusions, and hacker attacks; gathering and analyzing digital evidence to discover the truth; the technical expertise needed to gather, filter, and authenticate e-evidence for use in court or legal actions with knowledge of relevant laws regarding civil rights, search warrants, and rules of evidence; computer and email forensics, PDA and Blackberry forensics, cell phone and IM forensics.

CMP 465: Theory of Computation (3)  
_Prerequisites: CMP 230_  
This course covers theoretical frameworks of computing and their relations to formal grammars and languages. Topics include: finite state machines; regular languages and their limitations; tape automata, pushdown automata; context free languages, normal form grammars; Turing machines, halting problem; unsolvable decision problems.

CMP 466: Programming for Mobile Devices (3)  
_Prerequisite: CMP 330 or CMP 220 or CMP 360_  
Internship /CPT Qualified  
This programming course is designed to introduce and familiarize the student to programming mobile devices using current platforms and mobile device emulators. An overview of the most common tools and techniques for writing mobile applications are examined, with focus on the development of the user interface and the usability of the application.

CMP 467: Database Systems for Web Applications (3)  
_Prerequisite: CMP 350_  
Internship /CPT Qualified  
The student explores the software development life cycle for Web applications. It provides an in-depth coverage on critical Web application development topics combined with technical foundations and hands-on experiences, and implementation of real-world Web applications and secure Web transactions.

CMP 471: Special Topics in Computer Science (3)  
_Prerequisites: The Program Fundamental Core courses or Dean’s Approval_  
Internship /CPT Qualified  
This course will cover topics of current interest selected by the faculty. Subjects will be announced before each semester.

CMP 472: Special Topics in Information Technologies & Systems (3)  
_Prerequisites: The Program Fundamental Core courses or Dean’s Approval_  
Internship /CPT Qualified  
This course will cover topics of current interest selected by the faculty. Subjects will be announced before each semester.

CMP 489: Independent Study (3)  
_Prerequisites: The Program Fundamental Core courses and the Dean’s approval_  
This course offers opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student; and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term.

CMP 491: Internship Level III (3)  
_Prerequisite: Dean’s approval_  
This course provides practical experience through hands on activities for undergraduate students in direct connection with the core courses taken in their program. Students will have the ability to apply theoretical concepts in real life applications, and to extend their knowledge base examples of real life applications. Students are expected to work at least 135 hours per semester. Students are required to attend two
meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**CMP 492: Internship Level IV (3)**  
*Prerequisite: Dean’s approval*  
This course provides practical experience through hands on activities for undergraduate students in direct connection with the core courses taken in their program. Students will have the ability to apply theoretical concepts in real life applications, and to extend their knowledge base examples of real life applications. Students are expected to work at least 135 hours per semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**CMP 498: Capstone Project I (3)**  
*Prerequisite: All 300-Level core courses*  
This is the first phase of a technical project that emphasizes engineering design principles on a specific topic in any field of computer science or engineering. It will be carried out by the senior student under the supervision of a faculty member. The first phase of the project includes identification of a topic and completion of the preliminary work. A progress report must be submitted at the end of the semester detailing the problem description, proposed solution approach, and a list of deliverables.

**CMP 499: Capstone Project II (3)**  
*Prerequisite: CMP 498*  
This is the second phase of the technical project that emphasizes engineering design principles on a specific topic in any field of computer science or engineering. It will be carried out by the senior student under the supervision of a faculty member. The first phase of the project must be completed in CMP 498. A written report summarizing the accomplishments of the project and an oral presentation are required in this course.

**CMP 509: Health Informatics Capstone Project (3)**  
*Prerequisite: Completion of the all core courses and four specialization elective courses*  
A capstone project that integrates knowledge gained in the classroom with real-world problems that consists of practical work and research in a major area of Health Informatics; including emerging trends and their potential effect on health informatics. Potential areas of work include design or analysis of health informatics systems, programs, or applications; program planning; and policy development.

**CMP 511: Computer Architecture and Implementation (3)**  
*Prerequisite: CMP 250 or CMP 260*  
This course surveys architecture and organization of modern computing systems including: CPU design, instruction sets, memory hierarchy, pipelined machines, and multiprocessors. The emphasis is on the major component subsystems of high performance computers: pipelining, instruction level parallelism, thread-level parallelism, memory hierarchies, input/output, and network-oriented interconnections. This course introduces techniques and tools for quantitative analysis, evaluation, and implementation of modern computing systems and their components.

**CMP 513: Risk Management and Control (3)**  
*Prerequisite: CMP 612*  
This course examines in detail the planning, organizing, and managing of resources to bring about the successful completion of specific project goals and objectives, within time, budget and scope. Topics covered include scope control, resources management, adhering to project constraints of scope, quality, time and budget; risk assessment and identification, handling and monitoring risks, the tools and techniques for risk mitigation and control; using project management tools to facilitate scheduling, estimating, tracking and controlling the project schedule and costs; communicating project status, developing contingency plans, and incorporating risk and quality factors into project cost and schedules. This course emphasizes a hands-on approach in using project management tools.

**CMP 514: Virtual Organizations (3)**
Prerequisite: CMP 612
This course examines virtual teams and collaborative technologies. The topics covered include the process of virtual teaming, group psychology, group communication theories, group behaviors, design and leadership of meetings, meeting types; information briefing, document writing, focus group, decision making, requirements gathering, and training; leading, participating in and maintaining geographically distributed development (GDD) projects; survey of current collaboration technologies, and selecting appropriate collaboration technologies.

CMP 515: Enterprise Program Management (3)
Prerequisite: CMP 612
Internship / CPT Qualified
This course examines how an enterprise coordinates and effectively manages all its IT projects and programs. The topics covered include IT project and program management, the IT program management office, the role of program management, managing stakeholder expectations, program and project governance, organizational change and business process reengineering, global, ethics, and security management.

CMP 516: IT Investment Economics (3)
Prerequisite: CMP 513
This course discusses the application of financial analysis and decision-making approaches to assist in making IT investment decisions. The topics covered include break-even analysis, present value (PV) analysis, profitability index (PI), and return on investment (ROI) for different IT investment decisions, cost benefit analysis, outsourcing including offshoring, offshore management, acquisition management and global perspectives, balanced scorecard, and multi-factor scoring, benchmarking, and IT investment portfolio methods.

CMP 518: Special Topics in Enterprise Project Management (3)
Prerequisite: Dean’s approval
Internship / CPT Qualified
This course will cover topics of current interest, emerging topics and technologies in IT project management selected by the faculty. Topics will be announced before each semester.

CMP 519: Enterprise Project Management Capstone Project (3)
Prerequisite: All core courses and four specialization courses
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices in enterprise project management including emerging trends and their potential effect on enterprise project management will be studied.

CMP 540: Information Technology Fundamentals & Management (3)
Prerequisite: None
This course provides in-depth coverage of the role of information systems in business organizations, with a focus on their applications and current issues facing managers and users. Lectures, discussions, presentations and student project work will promote an understanding of the strategic importance of information systems, their impact on people and organizations, the many ways they can improve work practices, and the ways they can improve products and services.

CMP 550: IT Infrastructure (3)
Prerequisite: None
This course provides a holistic overview of the IT infrastructure in large enterprises. The topics covered include telecommunications fundamentals including data, voice, image, and video, the concepts, models, architectures, protocols, standards, and security for the design, implementation, and management of digital networks, server architectures, server farms, cluster computing, grid computing and cloud computing; storage area networks and network attached storage, data center design and implementation; the development of an integrated technical architecture (hardware, software, networks, and data) to serve organizational needs in a rapidly changing competitive and technological environment; network, data and
application architectures, and enterprise application integration, XML, Web Services (WS), and service oriented architectures (SOA).

**CMP 551: Research Methods (3)**  
*Prerequisite: None*  
This course provides knowledge of research methodologies used in management information systems, information systems, information technology, computer science, and other disciplines. The course includes experimental design, surveys, case studies, and fieldwork. It introduces students to applied research methodologies. The use of analytical tools, literature searches, and the application of VIU documentation style will result in a formal written proposal that may serve as the basis for each student’s special project.

**CMP 552: Information Systems (3)**  
*Prerequisite: None*  
This course explores the management of information systems and related information technologies (IS/IT) as a part of a broader socio-technical system and their impacts on people and processes that extend well beyond organizational boundaries. Also, subjective and debatable issues associated with IS/IT will be discussed. Accordingly, critical thinking is an important part of this course and is essential for an analysis and understanding of important issues associated with the management aspects of information systems.

**CMP 553: Analysis, Modeling and Design (3)**  
*Prerequisite: None*  
This course provides an overview of the systems development life-cycle. It introduces tools and methods for the analysis and design of information systems and the management and organizational skills needed for their implementation. Information analysis in entity-relationship modeling and process modeling in data flow diagrams will be covered as the key skills in structured system analysis and design.

**CMP 554: Healthcare Information Systems (3)**  
*Prerequisite: CMP 550 or CMP 570*  
This course examines information systems in the healthcare domain including information architectures, administrative and clinical applications, evidence-based medicine, information retrieval, decision support systems, security and confidentiality, bioinformatics, information system cycles, electronic health records (EHR), key health information systems and standards, and medical devices.

**CMP 555: Healthcare Data Management (3)**  
*Prerequisite: CMP 553*  
This course examines healthcare informatics standards for storing and exchanging data in healthcare technology systems. It explores the issues of data representation in healthcare systems, including patient and provider identification, audit trails, authentication, and reconciliation; the design of repositories for electronic health records (EHRs) and computerized provider order entry (CPOE) systems; privacy issues, legislation, regulations, and accreditation standards unique to healthcare. The course also examines the relational model, query formulation using SQL, database design using the entity relational model, normalization, transactions, optimization, backup and recovery, security issues, clinical data warehousing and mining, database administration, the JSON data inter-change format, XML as a data model, and internet database environments.

**CMP 556: Database Management Systems I (3)**  
*Prerequisite: CMP 350*  
This course provides an introduction to relational models, normalization, query facilities, transactions, indexing, security issues, relational algebra, SQL database design stages, distributed databases, data warehousing, data and database administration, the JSON data inter-change format, and Internet database environments. Students will learn about various DBMS software products and multi-user database environments and how they are controlled.

**CMP 557: Healthcare Delivery Models (3)**  
*Prerequisite: CMP 570*  
*Internship / CPT Qualified*
The course examines systems of healthcare at a “macro” scale through a variety of readings and classroom discussions. The topics covered include healthcare delivery models, structure, organizations, policy, capital and operating budgets, the budget planning process, and infrastructure design and strategic planning, and the workforce. Other topics include: vendor evaluation and selection, clinical administration systems, the design and management of integrated delivery systems, and emerging trends in healthcare delivery systems. In addition, students are exposed to the processes of healthcare at a “micro” scale, through field experiences in a variety of healthcare settings such as inpatient wards, emergency department, and outpatient clinics.

**CMP 558: Network and Information Security (3)**  
*Prerequisite: CMP 550 or CMP 562*  
This course is an introduction to the key security concepts required for the design, use, and implementation of secure voice and data communications networks, including the Internet. The security topics covered include defense models, authentication and authorization controls including biometrics, firewalls, packet filtering, virtual private networks (VPNs), security policy development, introduction to wireless network security, cloud computing security, disaster planning, backups, and risks mitigation strategies.

**CMP 559: Introduction to Information Assurance (3)**  
*Prerequisite: CMP 540 or CMP 550*  
The course provides an overview of several related topics in information security and assurance. The topics covered include: security architecture, security models, access control systems and methodology, applications and systems security, operation security, database security, cryptography, physical security, network and Internet security, business continuity planning, security management and law and ethics in information assurance.

**CMP 560 Software Engineering (3)**  
*Prerequisite: None*  
The objective of this course is to familiarize students with software application development processes and underlying concepts. Topics covered include Object-Oriented Analysis & Design, Unified Modeling Language, Software Development Life Cycle, Models and Methodologies, Quality Assurance and Improvement, and the basics of tools used for application development such as requirement management tools, version control, modeling, and defect tracking.

**CMP 561: Design and Analysis of Algorithms (3)**  
*Prerequisite: CMP 220 or CMP 330*  
This course provides a survey of computer algorithms, examines fundamental techniques in algorithm design and analysis, and develops problem-solving skills required in all programs of study involving computer science. Topics include advanced data structures, recursion and mathematical induction, algorithm analysis and computational complexity, sorting and searching, design paradigms, and graph algorithms. Advanced topics include randomized algorithms, information retrieval, string and pattern matching, and computational geometry.

**CMP 562: Computer Networks (3)**  
*Prerequisite: CMP 270*  
This course examines data communication and computer networks. Topics include interconnection of networks, network hardware and software, reference models, data communication services and network standardization; the OSI and the Internet (TCP/IP) network models; encoding digital and analog signals, transmission media, protocols; circuit, packet, message, switching techniques, internetworking devices, topologies; routing algorithms, routers, switches, bridges, addressing and names; LANs/WANs, Ethernet, IP, TCP, UDP; the application layer protocols: HTTP, TELNET, SMTP, FTP, and SNMP; cloud computing architectures; and the domain name services. The course covers each network layer in details, starting from the physical layer towards the application layer, and includes an introduction to network security topics.

**CMP 570: Enterprise Information Systems (3)**  
*Prerequisite: CMP 550 or CMP 556*  
This course provides a process-oriented view of the organization and its relationships with suppliers, customers, and competitors. The topics covered include: processes as vehicles for achieving strategic
objectives and gaining a competitive advantage and transforming the organization; process analysis, design, implementation, control and monitoring; processes as a means of achieving compliance; impact of processes on work and work practices; the role and importance of management; the role of enterprise resource planning (ERP), supply chain management (SCM) systems, and customer relationship management (CRM) systems; the process continuum: from structured to unstructured processes; the role of systems in transforming organizations and markets; outsourcing, offshore management, acquisition management and global perspectives.

**CMP 571: Automata and Formal Languages (3)**
*Prerequisite: None*
This course introduces the fundamental concepts in automata theory and formal languages including grammar, finite automaton, regular expressions, formal language, pushdown automaton, and Turing machines. This course covers properties of these models and various rigorous techniques for analyzing and comparing them using both formalism and examples.

**CMP 573: Compiler Construction (3)**
*Prerequisite: CMP561*
This course provides an introduction to compiler construction and covers stages of compilation including lexical analysis, parsing, code generation and code optimization, formal translation of programming languages, program syntax and semantics, finite state recognizers and regular grammars, context-free parsing techniques, attribute grammars syntax-directed translation schema, type checking, code generation, data flow analysis and code optimization.

**CMP 582: Computer Graphics (3)**
*Prerequisite: CMP 561*
This course is mainly a study of the design of graphic algorithms. Topics covered include graphics devices and graphics software, 2D primitives such as lines and curves, algorithms for drawing 2D primitives, polygons, scan conversion and other fill methods, primitives attributes, filtering and aliasing, geometric transformations in 2D in homogeneous coordinates, viewing pipeline, hierarchical graphics modeling, the graphics user interfaces, input functions and interaction modes, 3D graphics: object representations through polygonal methods, spline techniques, and octrees, 3D transformations and the 3D viewing pipeline, and algorithms to detect the visible surfaces of a 3D object in both the object space and the image space.

**CMP 583: Computer Animation (3)**
*Prerequisite: CMP 561*
This course covers computer animation. Topics covered include character animation techniques: key-frame animation, inverse kinematics, facial animation, pd-control, flocking, crowd simulation; motion capture technologies: optical, magnetic, mechanical, gyro-sensors; interpolating values; interpolation-based animation; kinematic linkages; motion capture, physically based animation; fluids: liquids and gases; modeling and animating human figures; facial animation; behavioral animation; special models for animation and using commercial 3-D computer animation packages to create digital artistic works and visualizations.

**CMP 584: Human-Computer Interface Design (3)**
*Prerequisite: CMP 561*
This course examines some design issues for HCI. Topics covered include: the design of dialogues for interactive systems; widgets, windows, and input devices; client-server model; event-driven programming and callbacks; windowing systems and dialog control; psychological, physiological, linguistic, and perceptual factors; advantages and disadvantages of various interaction techniques, command language syntaxes, and data presentation; and design methodology and guidelines.

**CMP 585: Design of Interactive Multimedia (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course examines the design of interactive multimedia. The topics covered include: multimedia development and theory concepts, hardware components, platforms, authoring tool; the scientific, technical, and cognitive foundations of various media including text; sound, graphics, and video; interface design.

CMP 586: Computer Vision (3)
Prerequisite: CMP 582
Internship / CPT Qualified
Topics covered in this course include: image formation, light and shading, color, linear filters, local Image features, texture, stereopsis, structure from motion, segmentation by clustering, grouping and model fitting, tracking, registration, smooth surfaces and their outlines, range data, learning to classify, classifying images, detecting objects in images, image-based modeling and rendering, looking at people, and image search and retrieval.

CMP 587: Game Design and Programming (3)
Prerequisite: CMP 582
Internship / CPT Qualified
This course provides an in depth study of the tools and techniques used in computer game design and development. Topics covered in this course include: games and video games, design components and processes, game concepts, game worlds, creative and expressive play, character development, storytelling and narratives, user interfaces, gameplay, core mechanics, game balancing, genre of games: action, strategy, adventure, and sports games, role-playing, vehicle simulations, online games, and artificial life and puzzle Games.

CMP 588: Special Topics in Computer Animation and Gaming (3)
Prerequisite: Dean's approval
Internship / CPT Qualified
This course will cover topics of current interest including emerging topics and technologies in computer animation and gaming. Topics will be announced before each semester.

CMP 589: Computer Graphics and Animation Capstone Project (3)
Prerequisite: All core and four specialization elective courses
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, and implement graphics and animation programs are explored, including emerging trends.

CMP 591: Graduate Internship Level I (3, 135 contact hours)
Prerequisite: All core courses and/or Dean’s approval (plus one specialization elective course for MCS & MIS Program students)
This course represents an opportunity for students receive academic credit through supervised practical training and earn industry experience in an actual work environment. The internship course guides the learning contract established in the beginning of the term, on which students have to report at the end of term. Students are expected to work at least 135 hours per semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

CMP 593: Security Policy, Law, and Ethics (3)
Prerequisite: None
This course is a study of policy, laws and ethics related to information assurance. The information security responsibilities of major domestic and international agencies (such as the NIST, FBI, NSA) are studied. The topics covered include: issues involving information security management within an organization, appropriate organizational policy, plans, and implementation strategies. The course also covers ethical
issues, such as monitoring employee computer usage in the workplace, and ethical usage of consumer data.

**CMP 594: Risk Management and Disaster Recovery Planning (3)**
*Prerequisite: None*
This course focuses on the identification of threats, risks and vulnerabilities in enterprise information systems, as well as disaster recovery planning for business continuity. The course also examines the safeguards and policies necessary to meet the requirements for the protection of data in enterprise systems. The topics covered include: gap analysis, gap closure and countermeasures, disaster recovery planning, incidence response, emergency response, event management, recovery time and recovery point objectives (RTO and RPO), and business continuity planning.

**CMP 598: Special Topics in Information Assurance (3)**
*Prerequisite: Dean’s approval*
Internship / CPT Qualified
This course will cover topics of current interest, emerging topics and technologies in information assurance selected by the faculty. Topics will be announced before each semester.

**CMP 599: Information Assurance Capstone Project (3)**
*Prerequisite: All core courses and four specialization courses*
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, implement, manage, evaluate, and further improve information assurance are explored, including emerging trends and their potential effect on information security and assurance.

**CMP 602: Network Design and Implementation (3)**
*Prerequisite: CMP 562*
This course focuses on the diverse quality of service (QoS) requirements associated with different types of data, application and business, and on designing networks and communication systems appropriately to ensure the high performance requirements that meet the business needs of an organization. Topics covered include: the specific quality of service requirements for different scenarios, the metrics for measuring quality of service, and the factors which affect the performance of a network, including the actual network design and choice of technologies, as well as the extend, patterns and mix of traffic types present. There is particular emphasis on: congestion control, traffic analysis and patterns, performance prediction and network simulation, evaluation of network performance, security, and their manageability.

**CMP 603: Network Management (3)**
*Prerequisite: CMP 558*
Internship / CPT Qualified
This course studies network management including configuration, performance, fault diagnosis and security management. The course has a strong focus and emphasize on security management. Topics covered include: LAN and WAN network management, configuration, fault detection, security, performance, risk assessment and accounting management. The course also emphasizes problem-solving techniques and network management tools based on SNMP.

**CMP 604: Cloud Computing (3)**
*Prerequisite: CMP 558*
Internship / CPT Qualified
Cloud computing has become ubiquitous with many enterprises leveraging the World Wide Web to fulfill various computing needs using a number of models: SaaS, PaaS and IaaS. The topics covered in this course include: origin, enabling technology and key concepts in cloud computing; the unique set of problems and challenges in developing cloud computing applications; the platform, tools, technologies and processes for developing cloud computing applications using an example platform such as Hadoop; and proposing, developing, and running applications for the platforms covered.

**CMP 608: Special Topics in Computer Networks (3)**
Prerequisite: Dean's approval
Internship / CPT Qualified
This course will cover topics of current interest, specifically emerging topics and technologies in computer networking selected by the faculty. Topics will be announced before each semester.

**CMP 609: Networking Capstone Project (3)**
**Prerequisites: All core courses and four specialization courses**
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, implement, manage, evaluate, and further improve networks are explored; including emerging trends and their potential effect on networking.

**CMP 610: Managing Information System Development (3)**
**Prerequisite: CMP 552 or CMP 553**
This course overviews the processes, methods, and techniques to plan, analyze, and design complex Information Systems, within selected existing frameworks. It involves planning, gathering requirements, modeling business needs, creating blueprints for building the system, and managing and organizing resources in these challenging, difficult, complex and expensive activities.

**CMP 611: Global Information System Development (3)**
**Prerequisite: CMP 552 or CMP 553**
**Internship / CPT Qualified**
This course focuses on the organization of development projects in the global service marketplace, based on key considerations and best practices in outsourced and offshore development. Students learn the most important issues and practices for both clients and service providers. Topics include legal, economic, cultural and intellectual property issues; 24-hour development; strategic division of labor; quality and process standards, and global human resources.

**CMP 612: IT Project Management (3)**
**Prerequisite: None**
**Internship / CPT Qualified**
This course provides an in-depth study of project and change management. The topics covered include: managing projects within an organizational context, including the processes related to initiating, planning, executing, controlling, reporting, and closing a project; project integration, scope, time, cost, quality control, and risk management; software size and cost estimation; monitoring progress; version control; assigning work to programmer and other teams; change management, managing the organizational change process; identifying project champions, working with user teams, training, and documentation; the change management role of the IS specialist; the use of sourcing and external procurement; and contracts and managing partner relationships.

**CMP 613: Technology and Development of E-Business (3)**
**Prerequisite: None**
**Internship / CPT Qualified**
This course addresses the technological structure, architecture, development tools, and methods for constructing such web-based applications. It includes a project to develop an interactive web-based transaction processing system. With the emergence of e-Business, organizations are adapting their transaction processing systems to use web technology. Such systems may operate as Intranet applications within the business, as Extranet applications between the firm and its business partners, or to provide access to customers via the Internet.

**CMP 614: Management Information Systems in Supply Chain Management (3)**
**Prerequisite: None**
**Internship / CPT Qualified**
This course explores the following topics: Integrating information systems technology in manufacturing environments; the role of information systems in supporting manufacturing decision-making processes; manufacturing imposed issues in information processing; and emerging information systems technology affecting manufacturing operations.

**CMP 618: Special Topics in Software Applications Development (3)**
*Prerequisite: Dean's approval*
*Internship / CPT Qualified*
This course will cover topics of current interest, specifically emerging topics and technologies in software applications development selected by the faculty. Topics will be announced before each semester.

**CMP 619: Software Applications Development Capstone Project (3)**
*Prerequisite: All core courses and four specialization courses*
This course consists of a capstone project that integrates and applies concepts previously studied. These concepts include best practices and appropriate technologies to analyze, design, implement, test, evaluate, and further improve software applications development as well as emerging trends.

**CMP 620: Information Technology Governance (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course presents an integrated approach to information technology (IT) governance. It discusses major roadmaps components and IT Governance strategies and frameworks. Topics include strategic alignment of IT with the business, use of assets and resources, delivering on plans and commitments, establishing and/or improving accountability of constituents, managing risk and contingencies, audits, compliance, performance measures and organizational maturity.

**CMP 621: Artificial Intelligence (3)**
*Prerequisite: None*
This course provides overview of the main thrusts in artificial intelligence, starting with the historically symbolic, logic-based approaches to knowledge representation, planning, reasoning and learning, leading into more recent directions of statistics-based probabilistic approaches (such as Bayesian approaches, belief nets, probabilistic reasoning, etc.). This course also touches on more recent developments in natural language processing, visual processing, robotics, machine learning, and philosophical foundations. This course covers search, constraint satisfaction, knowledge representation, probabilistic models, machine learning, neural networks, vision, robotics, and natural language understanding.

**CMP 622: Database Management Systems II (3)**
*Prerequisite: CMP 556*
This course covers file structures, indexing, hashing, algorithms for query processing and advanced normalization and denormalization, query optimization, database security, privacy, introduction to data mining and data warehousing, information retrieval, object-relational databases and XML, database performance tuning, spatial and temporal databases, advanced transaction processing and an introduction to distributed databases, introduction to big data and Hadoop, and database administration using Oracle.

**CMP 624: Data Warehousing (3)**
*Prerequisite: CMP 556*
This course examines the technical skills required to design, implement, and maintain a data warehouse using a DBMS such as Oracle Warehouse Builder. It covers basic data warehousing concepts, data warehousing system design and implementation, gathering data from primary data sources, transforming data, and loading data (ETL) into a DBMS. Students learn how to create a cube using OLAP and analyze cube data using client applications, the typical data warehouse components and architecture.
CMP 625: Text Analytics (3)
Prerequisite: CMP 556
This course covers the querying of unstructured textual data, statistical, syntactical, and logical analysis of natural language, thesaurus and dictionary systems, web corpus construction and web corpora, searching strategies and cataloguing, and large-scale file structures.

CMP 626: Distributed Databases (3)
Prerequisite: CMP 556
This course exclusively focuses on the design and system issues related to distributed database systems. Topics covered include distributed database architectures, design strategies for distributed databases, federated databases, query processing techniques and algorithms, transaction management and concurrency control concepts as well as reliability and fault tolerance mechanisms are used in such systems. Design and implementation issues related to multi-database systems are discussed as well.

CMP 627: Data Mining (3)
Prerequisite: CMP 556
Internship / CPT Qualified
This course is an introductory course on data mining. It covers concepts, algorithms, and applications in data warehousing and online analytical processing, mining frequent patterns and association rules, classification and predication, and cluster analysis, implementations and applications of mining sequential and structured data, stream data, text data, Web data, spatiotemporal data, biomedical data and other forms of complex data.

CMP 628: Special Topics in Data Management (3)
Prerequisite: Dean’s approval
Internship / CPT Qualified
This course covers advanced classification methods, cluster analysis, advanced cluster analysis, outlier detection, text analytics, big data and mining trends. It also covers emerging trends, research and developments in data management including data mining, data warehousing, text analytics, and big data. Topics will be announced before each semester.

CMP 629: Data Management Capstone Project (3)
Prerequisite: Completion of the all Core and four specialization courses
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, implement, manage, evaluate, and further improve databases are explored, including emerging trends and their potential effect on data management.

CMP 630: Network Security Audit & Forensics (3)
Prerequisite: CMP 550 or CMP 562
Internship / CPT Qualified
This course examines computer network forensics. The topics covered include digital evidence concepts relating to a digital crime scene; the identification, preservation, collection, examination, analysis, and presentation of evidence for prosecution purposes; network forensics investigative methodology (OSCAR); sources of network-based evidence; evidence acquisition, packet analysis, statistical flow analysis, and wireless network forensics; network intrusion detection and analysis, event log aggregation, correlation and analysis; and malware forensics. The course also studies auditing and compliance requirements and standards, strategies for achieving and maintaining the same, and the laws and ethics related to computer forensics and challenges in computer forensics.

CMP 632: Requirements Engineering (3)
Prerequisite: CMP 560
The course is an introduction to requirements engineering. The topics covered in this course include domain understanding and requirements elicitation, requirements evaluation, requirements specification and
documentation, use of diagrammatic notations, requirements quality assurance though inspections, reviews, validation and verification, requirements evolution, goal-orientation in requirements engineering, modeling system objectives with goal diagrams, risk analysis on goal models, modeling conceptual objects with class diagrams, modeling system agents and responsibilities, modeling system operations, modeling system behaviors, integrating multiple system views and a goal-oriented model-building method in action.

**CMP 635: Software Quality and Process Improvement (3)**
*Prerequisite: CMP 560*
*Internship / CPT Qualified*
This course is a study of software quality and software process improvement techniques. The topics covered in this course include: software reliability, software quality, verification and validation, ISO 9126 (quality characteristics), ISO 9000 software quality standard, Capability Maturity Models Integration (CMMI) 1 to 5; the Personal Software Process (PSP); and the Team Software Process (TSP) that covers: leadership, teams and team motivation, building teams, managing to plan, maintaining product focus, following the process, managing quality, management support, reporting to management, protecting the team, developing the team, developing team members, and improving team performance.

**CMP 636: Trends in Software Applications Development (3)**
*Prerequisite: CMP 632*
The course covers the development of software applications using new paradigms and architectural styles as well as well-known paradigms. Topics covered in this course include: Component Based Software Engineering (CBSE): Domain engineering and Component-Based Design, Component Qualification, Component Adaptation, Component Composition and Component Update, the V-Model, the object models: OMG/CORBA, COM/DCOM, JavaBeans, CCM, Testing; Web Service (WS); Service-oriented architecture (SOA): benefits, design concept, principles, types, WS protocols, Programmatic Service Contract, Network Management Architecture, benefits and Challenges, SOA Extensions: SOA, Web 2.0, Services over the Messenger, Mashups, Digital Nervous Systems, etc.

**CMP 637: Software Engineering Management (3)**
*Prerequisite: CMP 560*
This course is a study of software engineering management issues. The topics covered in this course include: software project planning, project goals and objectives, project policies and standards, process planning, project assumptions and forecasts, project deliverables, project staffing, effort, schedule, and cost estimation, resource allocation, quality management and project plan/budget development and management; risk management: risk management concepts, risk management process, risk management tools, organizational risk management and joint supplier/customer risk management; software project organization and enactment: project organization, project directing, project control, reporting and supplier contract management; review and evaluation; determining closure and closure activities; software engineering measurement: establish and sustain measurement commitment, plan the measurement process, perform the measurement process, and evaluate measurement; and engineering economics: engineering economics fundamentals, for-profit decision-making, not-for-profit decision-making, estimation, risk, and uncertainty and multiple attribute decisions.

**CMP 639: Software Engineering Capstone Project (3)**
*Prerequisite: Completion of the all core and four specialization courses*
This course consists of a capstone project that integrates and applies concepts previously studied. It includes the best practices and emerging topics and technologies in software engineering.

**CMP 640: Decision Support and BI (3)**
*Prerequisites: CMP 556*
*Internship / CPT Qualified*
This course is an introduction to decision support and Business Intelligence. These topics are combined with practical examples and methods from the real world. The topics covered in this course include: decision
making, systems, modeling, and support, decision support systems concepts, methodologies, and technologies, modeling and analysis, business intelligence, data warehousing, data mining for business intelligence, business performance management, and text and web mining, collaboration, communication, group support systems, knowledge management, artificial intelligence and expert systems, and management support systems.

**CMP 641: Operating Systems (3)**
*Prerequisite: CMP 260*
This course discusses the design and implementation of computer operating systems. Topics include operating system structures, functions of the kernel, process management, central processing unit scheduling, deadlocks, memory management, input/output, file system facilities, concurrent processes, security, and integrity.

**CMP 643: Database Security and Data Protection (3)**
*Prerequisite: CMP 556 or CMP 553*
*Internship / CPT Qualified*
This course examines defense-in-depth strategies for securing database which are constantly under threat especially from SQL injection and other forms of attacks. It also covers mechanisms for securing data at rest and in transit. The topics covered in this course include: current protocols for the secure exchange of data; the Data Encryption Standard and the Advanced Encryption Standard and secure mechanisms for communication; the Public Key Infrastructure (PKI) and the use of digital signatures and certificates for protecting and validating data; firewalls, VPN, IDS/IPS, PKI, patch management, authentication and password security, application security, granular access control, securing database-to-database communications, encryption, privacy, fault tolerance, protection of personal identifiable information (PII), regulations and compliance (SOX, HIPAA, GLBA, etc.), logging, auditing and auditing architectures. Strategies for the physical protection of information assets are also studied.

**CMP 644: Intrusion Detection and Prevention Systems (3)**
*Prerequisite: CMP 558*
The course studies the theory and implementation of intrusion detection and prevention systems. The topics covered in this course include network-based, host-based, and hybrid intrusion detection; intrusion prevention; attack pattern identification; deployment; response; surveillance; damage assessment; data forensics; attack tracing; system recovery; and continuity of operation (COP). The course also examines penetration testing methodologies, planning and scheduling; vulnerability analysis; penetration testing deliverables and documentation.

**CMP 645: Security Management (3)**
*Prerequisite: CMP 558*
*Internship / CPT Qualified*
This course focuses on the managerial aspects of information security and assurance. The topics covered in this course include planning for security and contingencies, information security policy, developing the security program, security management models and practices, risk management, protection mechanisms, personnel and security, law and ethics.

**CMP 647: Wireless and Mobile Security (3)**
*Prerequisite: CMP 558*
*Internship / CPT Qualified*
This course is a study of the wireless and mobile security. The topics in this course include: encryption and cryptographic protocols for wireless and specifications needed for 3GPP: AES, KASUMI, public-key and elliptic curve cryptography, MIMO/OFDMA-based for 4G systems such as Long Term Evolution (LTE), Ultra Mobile Broadband (UMB), Mobile WiMAX or Wireless Broadband (WiBro); intrusion detection systems against worm/virus cyber-attacks; secure routing; authentication on wireless networks; security for handheld devices; real-time wireless security; and security measures for embedded devices.
CMP 648: Special Topics in Cybersecurity (3)
Prerequisite: Dean’s approval
Internship / CPT Qualified
This course will cover topics of current interest, emerging topics and technologies in Cybersecurity selected by the faculty. Topics will be announced before each semester.

CMP 649: Cybersecurity Capstone Project (3)
Prerequisite: All core and four specialization courses
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, implement, manage, evaluate, and further improve network security are explored; including emerging trends and their potential effect on cybersecurity.

CMP 650: Software Design and Construction (3)
Prerequisite: CMP 560
Internship / CPT Qualified
This course is an in-depth study of software design and construction. The topics covered in this course include: software design fundamentals; key issues in software design such as concurrency, control and handling of events, distribution of components, error and exception handling and fault tolerance, interaction and presentation, data persistence; architectural structures and viewpoints, architectural styles (macro architectural patterns), design patterns (micro architectural patterns), human computer interface design, families of programs and frameworks; software design quality analysis and evaluation; software structural descriptions (static) and behavioral descriptions (dynamic); software design strategies and methods: general strategies, function-oriented (structured) design, object-oriented design, heuristic methods, formal methods, Component-Based Design (CBD) and SOA; software construction fundamentals: minimizing complexity, anticipating change, constructing for verification, standards in construction; managing construction, construction methods, construction planning, construction measurement; and practical considerations: construction design, coding, construction testing, construction quality and integration.

CMP 651: Advanced Topics in Database Management (3)
Prerequisite: CMP 556
Internship / CPT Qualified
This course provides an in-depth study of new developments in database systems and intelligent information systems. The course covers internet databases, data warehousing and online analytical processing, object-relational, object-oriented, and deductive databases. Formal semantics of relational database and systems, physical database tuning, advanced issues in query optimization and transaction processing, advanced database facilities such as triggers and materialized views, query caching, and database mediation.

CMP 652: Natural Language Processing (3)
Prerequisite: CMP 561 and CMP 621
The course examines various issues relating to natural language processing. The topics covered in this course include: state of the art in natural language processing (parsing and semantic understanding); formal, context-free, and transformational grammars and parsing; augmented transition networks: problems of complexity, semantics, and context; and deterministic parsing and semantic parsing.

CMP 653: Machine Learning (3)
Prerequisite: CMP 621
This course provides an introduction to machine learning and statistical pattern recognition. Topics covered include: supervised learning: generative and discriminative learning, parametric and non-parametric learning, neural networks, and support vector machines; unsupervised learning: k-means clustering, kernel methods, dimensionality reduction; learning theory: bias and variance tradeoffs, and large margins; and adaptive control and reinforcement learning. The course also discusses recent applications of machine
learning such as speech recognition, text and web data processing, robotics, autonomous navigation, bioinformatics, and data mining.

**CMP 654: Adaptive Learning Systems (3)**  
*Prerequisite: CMP 621*  
*Internship / CPT Qualified*  
This course is a study of adaptive learning as an alternative to rule-based schemes for artificial intelligence. The topics covered in this course include: expert systems, fuzzy methods, neural net architectures, and genetic algorithms are examined and compared.

**CMP 655: Intelligent Agents (3)**  
*Prerequisite: CMP 621*  
*Internship / CPT Qualified*  
This course discusses multi-agent systems concepts, theories, and applications. The topics in this course include: introduction to multi-agent systems (MAS), negotiation in MAS, agent communication language (ACL), applications of MAS with examples, agent architectures, agent model and theory, coordination in MAS, agent oriented software engineering techniques, agent oriented programming, agent and grid computing and classification of agents.

**CMP 658: Special Topics in Intelligent Systems (3)**  
*Prerequisite: Dean’s approval*  
*Internship / CPT Qualified*  
This course will cover topics of current interest, emerging topics and technologies in machine intelligence and cognitive science. Topics will be announced before each semester.

**CMP 659: Intelligent Systems Capstone Project (3)**  
*Prerequisite: All core and four specialization courses*  
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies to design, implement, manage, evaluate, and deploy MAS are explored; including emerging trends.

*Prerequisite: CMP 560*  
This course will consider ethical issues relating to various aspects of software development and design. By utilizing case studies students will examine and discuss various topical situations in the realms of information acquisition, access, stewardship, software licensing, intellectual property, safety and reliability.

**CMP 661: Software Testing (3)**  
*Prerequisites: CMP 561 and CMP 650*  
*Internship / CPT Qualified*  
This course examines software testing issues in software engineering. The topics covered include program testing theory, unit testing, control flow testing, data flow testing, domain testing, system integration testing, system testing categories, functional testing, test generation from a Finite State Machine (FSM), system test design, system test planning and automation, system test execution, acceptance testing, and test team organization, and the IEEE standards for software testing and documentation.

**CMP 662: Software Maintenance & Configuration Management (3)**  
*Prerequisite: CMP 650*  
*Internship / CPT Qualified*  
This course is an in-depth study of software maintenance & configuration management issues. Topics covered include software maintenance fundamentals; key issues in software maintenance: technical, management issues, maintenance cost estimation and software maintenance measurement; the maintenance process; techniques for maintenance; management of the configuration management (CM) process; configuration identification; configuration control; configuration status accounting and software release management and delivery.
CMP 663: Web Applications Development (3)
Prerequisite: CMP553 or CMP561
Internship / CPT Qualified
This course overviews the processes and techniques for developing software for web applications. The concepts of client-server computing in e-commerce theories of usable graphical user interfaces and models for web-based information retrieval and processing are covered. Students study approaches for evaluating and using various common software tools and languages.

CMP 664: Mobile Applications Design and Development (3)
Prerequisite: CMP553 or CMP561
Internship / CPT Qualified
This course looks at the quickly developing landscape of mobile applications. It focuses on Web-based mobile applications, and thus covers issues of Web service design, mobile platforms, and the specific constraints and requirements of user interface design for limited devices. The course combines a conceptual overview, design issues, and practical development issues.

CMP 665: Virtualization Technologies (3)
Prerequisites: CMP 558 and CMP 641
Internship / CPT Qualified
This course is a study of the virtualization concepts and technologies. The topics covered in this course include virtualization concepts, creating and building virtual machines, deploying virtual workstation software, building guest operating systems, constructing a test environment, partitioning servers, managing virtual servers remotely, data center virtualization, implementing remote management tools, securing virtual machine deployments, and reducing the attack surface. The course emphasizes a hands-on approach to virtualization.

CMP 666: Healthcare Economics (3)
Prerequisite: None
Internship / CPT Qualified
This course examines the economic aspects of healthcare systems. Healthcare is studied as a commodity that has supply and demand dimensions. Microeconomic methods are used to study markets and resources in health care. The topics studied include: demand for health and medical care services, provider behavior, and function and behavior of insurance markets, government role, financing arrangements, insurance reform, rationing, price regulation, and provider competition. Case studies are used to understand the economic efficiency of example health care systems such as the U.S. health system, the UK National Health Service, etc.

CMP 667: Biostatistics (3)
Prerequisite: None
This course examines the fundamental statistical issues in the design of clinical research studies. Its primary emphasis is on understanding the design and analytical methods of clinical research from a statistical perspective. The topics studied include: exploratory data analysis, basic concepts of statistical analysis, construction of hypothesis tests and confidence intervals, the development of statistical methods for analyzing data, development of mathematical models used to relate a response variable to explanatory or descriptive variables, and an introduction to statistical analysis of microarray and genomic studies.

CMP 668: Special Topics in Health Informatics (3)
Prerequisite: Dean's approval
Internship / CPT Qualified
This course will cover topics of current interest, emerging topics and technologies in Health Informatics selected by the faculty. Topics will be announced before each semester.

CMP 669: Software Engineering Project (3)
Prerequisite: CMP 610, and CMP 650
Internship / CPT Qualified

This course provides experience in applying software-engineering techniques by giving the students an opportunity to produce software when working in teams under the schedule constraints commonly experienced in industry. Students utilize a software engineering methodology in a team environment in a real-world application. They are involved in all the phases of software development, including project planning, requirements analysis, design, coding, testing, configuration management, quality assurance, documentation, and delivery.

**CMP 670: Legal, Ethical and Social Issues in Healthcare (3)**

*Prerequisite: None*

The course examines the legal principles, statutes, regulations, and case law related to managing health care organizations and health professionals’ practice. It also examines the ethical, and social issues arising in the use of computerized information systems in the delivery of healthcare. Case studies are used to discuss the role of law in the design and implementation of health informatics systems; the U.S. healthcare regulatory environment; and the structure, concepts, and process of decision making on health matters in legislative, administrative, and judicial bodies. Legal health care issues from international perspectives are also studied.

**CMP 671: Special Topics in Computer Science (3)**

*Prerequisite: Dean’s approval*

**Internship / CPT Qualified**

Students may choose to further study the topics in the Computer Science field. Topics can be taken from the domain of Computer Science and should be of significance with respect to the computer science industry. The work can include literature survey, lectures/discussions with assigned faculty, project work, and detailed reports.

**CMP 672: Special Topics in Information Systems (3)**

*Prerequisite: Dean’s approval*

**Internship / CPT Qualified**

Students may choose to study the topics further that are in accordance to the MIS program and their interests. Topics can be taken from the domain of information technology and should be of significance with respect to the information technology industry. The study work can comprise literature survey, lectures/discussions with assigned faculty, project work, and detailed reports.

**CMP 673: Special Topics in Software Engineering (3)**

*Prerequisite: Dean’s approval*

**Internship / CPT Qualified**

This course will cover emerging topics and technologies in information technology selected by the faculty and should be of significance with respect to the software engineering industry. The study work can comprise literature survey, lectures/discussions with assigned faculty, project work, and detailed reports. Topics will be announced before each semester.

**CMP 674: Special Topics in Information Technology (3)**

*Prerequisite: Dean’s approval*

**Internship / CPT Qualified**

This course will cover emerging topics and technologies in software engineering selected by the faculty and should be of significance with respect to the software engineering industry. The study work can comprise literature survey, lectures/discussions with assigned faculty, project work, and detailed reports. Topics will be announced before each semester.

**CMP 675: Knowledge Management & the Learning Organization (3)**

*Prerequisite: None*

**Internship / CPT Qualified**

In today's increasingly competitive business environments, where new business practices and products are regularly introduced, organizations need to be innovative to survive. Knowledge management has been recognized as essential for achieving business success and maintaining an organization's competitiveness. This course explores the concept of knowledge and the means by which organizations seek to manage it through formal technological practices and informal social systems. The topics covered include: organizational strategy and knowledge: managing enterprise intelligence, assessing the strategic value of human capital; facilitating knowledge work flows: knowledge based systems for capturing, storing and distributing explicit and tacit knowledge; data governance; and learning and sharing knowledge: group learning, organizational learning, and knowledge transfer through communities of practice (COP).

CMP 676: Digital Document Analysis (3)
Prerequisite: None
Internship / CPT Qualified
With the ubiquitous use of computer technology and the worlds of paperwork and the web become ever more interdependent, it is becoming increasingly crucial for organizations to find a way to ensure capability, efficiency and security across the totality of their operations by managing the documents properly. This course examines the key issues in document management. The topics covered include: the best practices document management procedures based on ISO standards, application of industry-standard risk management principles related to document control, industry tools and techniques that optimize and streamline project document management, document management systems: capturing paper documents and other digital assets and providing secure storage, document privacy, easy retrieval and archiving, lifecycle administration, and record management.

CMP 678: Special Topics in Knowledge Management (3)
Prerequisite: Dean’s approval
Internship / CPT Qualified
This course will cover topics of current interest, emerging topics and technologies in knowledge management selected by the faculty. Topics will be announced before each semester.

CMP 679: Knowledge Management Capstone Project (3)
Prerequisite: All core and four specialization courses.
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices in knowledge management; including emerging trends and their potential effect on knowledge management.

CMP 680: Organizational and Social Dimensions of Computing (3)
Prerequisite: None
This course discusses the organizational impact and the social implications, rights and duties related to the actions of computing professionals. It investigates the context in which professionals work, the laws and how they are created, human aspects of running a company, software contracts and liability, intellectual property rights, and the legislation that affects the way in which computers are used or misused. Topics include social, legal, financial, organizational and ethical issues in the context of the information technology industry; the role of professional codes of conduct and ethics; and, key legislation.

CMP 681: Enterprise Analytics (3)
Prerequisite: CMP 556
This course examines key issues relating to how an organization can optimize performance, processes, and decisions through big data. The topics covered include: decision making, systems modeling and analysis; decision support systems: concepts, methodologies, and technologies; business intelligence, data warehousing, data mining for business intelligence, return on investments in analytics, business performance management, text and web mining, collaboration, communication, group support systems, knowledge management, applying analytics at production scale, predictive analytics in the Cloud, analytical technology and the business user, organizing analysts, engaging analytical talent, analytics governance, and building a global analytical capability.
CMP 682: Big Data Analytics (3)
Prerequisite: CMP 556
Internship / CPT Qualified
This course aggregates several key technologies used in manipulating, storing, and analyzing big data. Over the years there has been an accumulation of very large volumes of structured, mostly relational data which has been mined using data warehousing technology for marketing, financial decision making and to gain a competitive advantage. The recent explosion of social media and the ubiquitous usage of computers have created the so called big data which mostly consists of unstructured data in the form of e-mails, web logs, videos, tweets, speech, photographs, and others. The topics covered include: a study of Hadoop and related tools that provide SQL-like access to unstructured data; Hive and Pig; analysis of NoSQL storage solutions like HBase, Oracle NoSQL and Cassandra, for their critical features: speed of reads and writes, data consistency, and ability to scale to extreme volumes; memory resident databases and streaming technologies; statistical analysis methods; and open source frameworks such as Mahout and Open R and other statistical tools. The main goal is to discover intelligence that could represents opportunities, and/or threats in a limited amount of time.

CMP 684: Management Decision Modeling (3)
Prerequisite: None
Internship / CPT Qualified
This course examines quantitative analysis for management. The topics covered include: probability concepts and applications, decision analysis, regression models and forecasting, inventory control models, linear programming models, transportation and assignment models, integer programming, goal programming, and nonlinear programming, network models, project management, queuing theory models, simulation modeling, Markov analysis, and statistical quality control.

CMP 685: Advanced Big Data Analytics (3)
Prerequisites: CMP 682
Internship / CPT Qualified
This course discusses advanced topics in big data analytics. The topics covered include: K-Means clustering, association rules, linear and logistic regression, Naïve Bayesian classifier, decision trees, time series analysis, text analysis, using mapReduce, Hadoop ecosystem tools, in-database analytics, and advanced SQL techniques.

CMP 688: Special Topics in BI & Data Analytics (3)
Prerequisite: Dean’s approval
Internship / CPT Qualified
This course covers emerging trends, research and developments in BI and big data analytics. Topics will be announced before each semester.

CMP 689: BI & Data Analytics Capstone Project (3)
Prerequisite: All the core and four specialization courses.
This course consists of a capstone project that integrates and applies concepts previously studied. Best practices and appropriate technologies for BI and big data analytics, including emerging trends and their potential effect on BI and big data analytics, are studied.

CMP 691: Graduate Internship Level II (3, 135 contact hours) Prerequisite: All core courses, Dean’s approval (plus two specialization elective courses for MCS & MIS Program students)
This course offers hands-on experience to students enrolled in the MIS or MCS degrees in a domain close to their main career path intentions. Students are encouraged to pursue projects that would allow them to apply engineering design concepts gained in the classroom, going through all stages of system development, from analysis and design to implementation and testing. This three (3) credit hour project internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

CMP 696: Independent Study I (3)
Prerequisite: Dean’s approval
This course offers opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student; and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term.

CMP 697: Independent Study II (3)
Prerequisite: Dean’s approval
This course offers opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student; and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term.

CMP 698: Master's Thesis I (3, 135 contact hours)
Prerequisite: All core courses, academic advisor approval (plus two specialization elective courses for MIS and MCS students)
The thesis work can comprise basic research or a practical project. Students are encouraged to start their thesis work as early as possible. Usually after completing two semesters of course work, the student will be asked to work with a faculty advisor to choose a suitable master's thesis topic and prepare a thesis proposal. Thereafter, the student completes the project and writes a thesis. The master's thesis project will be conducted over a period of two semesters.

CMP 699: Master's Thesis II (3, 135 contact hours)
Prerequisite: CMP 698
CMP 699 is a continuation of the course CMP 698: Master's Thesis I. The thesis work can comprise basic research or a practical project.

COMM 110: Oral Communication Skills (3)
Prerequisite: None
This course provides the skills needed to prepare and deliver informative and persuasive speeches. Students will focus on adapting communication styles and content to diverse speakers and audiences. This course emphasizes how to compose meaningful and coherent messages; conduct research; and develop effective presentation skills. Students will be required to deliver several oral presentations in front of the class during the semester.

COMM 600: Writing & Editing the News (Introduction to News Editorial Journalism) (3)
Prerequisite: None
Internship/CPT Qualified
This course is designed to teach students the craft of basic news writing and editing. Students will learn how to recognize and acquire news information, cultivate sources, conduct effective interviews, and write balanced news and feature stories. Students will also learn how a newsroom functions and how news is evaluated for consideration and use in a given news cycle. Students enrolled in this course will acquire the basic knowledge necessary for practicing journalism and evaluating news through tested and ethically sound practices.

COMM 605: Media Ethics (3)
Prerequisite: None
Internship/CPT Qualified
This course will cover a wide variety of ethics issues ranging from fairness in the presentation of news (objectivity versus advocacy), to the problems associated with state-sponsored and managed media, to the murky world of maintaining secrecy to hide from the public potentially embarrassing information, on the one hand, and leaking information to the public to further political goals, on the other hand. The course will also look at the manipulation of photo imagery, censorship, and the invasions of privacy that are a part of routine business activities or intrusive government spying. The course will help students develop a deeper, yet clearer, understanding of the complexities involved in the often unethical media practices of governments, businesses, news, and other mass media practitioners.

COMM 610: News Editing (3)
Prerequisite: COMM 600: Writing & Editing the News
Internship/CPT Qualified
Before or after all credible journalism is the editor. This course will examine the wide-ranging role of the editor in journalism and the editing techniques that result in award-winning products. Among their many roles, editors: set the editorial calendar for the year, determine content, dictate design, assign stories, provide guidance, critique and correct stories, select illustrations, and determine story placement. Students will not only become cognizant of the work editors do, but learn what editors expect from their writers and how to deliver on those expectations.

COMM 620: Politics, Journalism, & Business (3)
Prerequisite: None
A principal subject of journalism is politics, but much of the writing about politics involves the triangular relationship between government, business, and journalists. This course will examine those relationships and demonstrate how businesses may use journalism to mediate their interests in shaping public and legislative opinion. It will also examine how government officials use media in attempts to likewise control public opinion and affect control over business activities. This course will offer students a clear and pragmatic understanding of the relationship between journalists and government, allowing students to be better positioned to derive advantages in that relationship.

COMM 625: Media Relations (3)
Prerequisite: None
Internship/CPT Qualified
This course will provide an in-depth look at news media operations with a focus primarily on using news outlets to deliver, promote, and manage key business messages. Responding effectively to news media queries and crisis communications management will be principal content elements. All major mass communications media will be covered: print, radio, television, and the Internet, with an emphasis on proactivity. (If resources permit in a particular semester, the course will include a day of media training at a Washington, DC, communications facility.) In addition to learning how to effectively respond to news media queries, students will also be able to plan, deliver, and manage media campaigns.

COMM 630: International Journalism (3)
Prerequisite: None
This course will introduce the student to varying philosophical approaches, barriers, and ethical challenges to delivering news on a global basis. Emphasis will be placed on a regional approach to the news with a focus on Western and Eastern Europe; the Middle East; Northern and Sub-Saharan Africa; East, South and Central Asia; Latin America; North America; and the U.K. There will also be some discussion of journalism education and international media controversies.

COMM 635: Mass Media & Society (3)
Prerequisite: None
Internship/CPT Qualified
The psycho-social effects of mass media are deep and varied. This course will introduce the student to the theories and structures underlying mass communications operations and how those operations affect and shape individual perceptions and social values. Additionally, the clash between traditional and emerging media is changing how news is used, disseminated, and interpreted. The media role in education, propaganda, and the formation of public opinion will be among other topics receiving emphasis in this course, which is designed in part to help students develop a better sense of how they may influence others through their own participations in traditional and emerging mass and social media outlets.

COMM 641: Media Economics (3)
Prerequisite: None
This course will provide a comprehensive introduction to the economic context and the current financial practices of mass media companies. Students will learn the economic factors that influence the success or failure of contemporary media operations, as well as the management issues relating to new product
development, the development of global markets, and the challenges of business consolidation. Differentiation will be made between the following industry categories: radio, broadcast TV, cable and satellite TV, motion pictures, music recording, newspapers, magazines, books, and Internet-based outlets.

**COMM 643: US Press History (3)**
*Prerequisite: None*
The history of the US press (and, by extension, mass media) is in many ways a history of US cultural and intellectual development. This course will examine that history and show how the press has changed and developed through varying economic, political, and technological eras. Emphasis will be placed on how news organizations have managed to survive through changing times and economic conditions, and how intellectual freedom changed with them, especially between the cyclical antipodes of war and peace.

**COMM 645: The Development & Use of New Media Technology (3)**
*Prerequisite: None*
The clash between traditional and emerging media continues to alter how information and entertainment purveyors reach their audiences, but also how audiences may become active participants in the mass communications process. The development of mass communications technology has led not only to different ways to communicate with and shape audiences, but also to different expectations by the audiences themselves. This course will introduce the student to the technologies that have formed and continue to form the basis for mass media operations, from the development of printing to the emergence and ever-expanding development of electronic media. The course will also focus on helping students to better protect their privacy and the interests of their business activities.

**COMM 647: The Movies: Film & Video Criticism (3)**
*Prerequisite: None*
Movies – produced with film, video, or hybrid techniques incorporating various types of animation – represent what is arguably the most influential contemporary medium, whether measured in terms of its influence on public opinion, politics, sociology, or sheer entertainment. This course will explore the history of the medium, the variety of its genres, and how films are made and convey meaning through scripting, production, final editing, marketing, and distribution. (Caveat: This is not a hands-on course in scriptwriting or film making.) The course will provide a comprehensive understanding of how movies are made, how to identify the intentions of movie makers, and how to critically review and evaluate movies. As part of the course, students will learn how to write and publish movie reviews.

**COMM 649: Small Group & Team Communications (3)**
*Prerequisite: None*
Most work today is accomplished through team work. That is as true for mass media organizations as it is for other business organizations. One look on any given day at a major news organization like The Washington Post makes it abundantly clear that teams of writers and editors work on a daily basis to deliver individual stories. This course will focus on the small group dynamics, team building, and structure that make such work successful.

**COMP 124: Information Technology (3)**
*Prerequisite: None*
This course introduces approaches for using information technology and the role of the computer in modern organizations, discussing hardware and software, computer application development, data processing and database systems, and the impact of computer information systems on society. Emphasis is placed on integrating information technologies into the organization to meet organizational needs. Upon completion, students should be able to understand the different approaches to information technology and be able to determine the correct approach to use in the organization.

**COMP 127: Office Applications (3)**
*Prerequisite: None*
This course provides an overview of personal computer applications. Students study widely used applications, including word processing, spreadsheets, presentation, databases, and introductory elements of web development.
ECON 101: Principles of Microeconomics (3)
Prerequisite: None
Microeconomics mainly studies the economic choices facing the individual entities, including consumers and business firms. This course covers the basic topics of economic tradeoffs, supply and demand model, concept of elasticity, consumer choice model, theories of cost and production, and the firm’s behavior and performance under different market structures. The course also introduces the students to the problems of market failure and public choice, and the impacts of public policy on consumers and business firms.

ECON 102: Principles of Macroeconomics (3)
Prerequisite: None
Macroeconomics is primarily concerned with economic analysis and policy making at the national level. This course introduces the students to the basics of national income determination, measurements of inflation and unemployment rates, economic fluctuations, and economic growth. The course also covers the foundations of aggregate demand and aggregate supply, the basics of the classical and Keynesian models, the tools of fiscal and monetary policies, and an introduction to macroeconomic policy debates.

ECON 207: Intermediate Microeconomics (3)
Prerequisite: ECON 101 Principles of Microeconomics
Internship / CPT Qualified
In addition to an in-depth coverage of the core concepts covered in ECON 101, this course incorporates a number of intermediate microeconomic topics, including the general equilibrium model, game theory, and decision making under risk and uncertainty. The course applies algebra and extensive graphical analysis in presenting its main topics. It also involves problem-solving to demonstrate real-world applications of the theoretical microeconomic concepts.

ECON 208: Intermediate Macroeconomics (3)
Prerequisite: ECON 102 Principles of Macroeconomics
Internship / CPT Qualified
This course goes beyond the basic concepts presented in ECON 102 and provides an in-depth coverage of the core macroeconomic topics within an analytical framework. Furthermore, it introduces the students to a number of modern macroeconomic topics; including credit market imperfections, new Keynesian economics, the monetarist counterrevolution, and international macroeconomics. The course applies algebra and extensive graphical analysis and also involves problem-solving to demonstrate the real-world applications of its theoretical concepts.

EDMA 600: Effective Teaching and Learning for Secondary Mathematics (3)
Prerequisite: None
This course provides a comprehensive review of selected topics focusing on instructional methods and best practices in secondary mathematics education reflective of learner characteristics and learner needs. Through this course, students will explore content-specific pedagogical approaches for teaching algebra, geometry, calculus, and trigonometry. Topics for this course focus on constructivist teaching and learning, including inquiry teaching and learning, concept mapping, scaffolding, student learning styles, authentic assessment, and a variety of approaches documented as effective strategies for increasing student achievement in secondary mathematics instruction.

EDMA 605: Advanced Approaches for Teaching Secondary Mathematics (3)
Prerequisite: EDMA 600
This course provides an advanced review of selected topics and the research focusing on the methods and theory for best practices in secondary mathematics education reflective of learner characteristics and learner needs. Through this course, students will explore content-specific pedagogical approaches for teaching algebra, geometry, calculus, and trigonometry. Topics for this course focus on constructivist teaching and learning including inquiry teaching and learning, concept mapping, scaffolding, student
learning styles, authentic assessment, and a variety of approaches proven effective for increasing student achievement in secondary mathematics.

EDMA 610: Content Area Reading and Writing (3)
Prerequisite: None
This course is designed to introduce and train students on how to provide effective reading and writing instruction within their content teaching areas. As pre-service teachers, it is critical that all teachers have a strong appreciation for the importance of teaching reading to secondary students in all disciplines as well as in English and language arts classes. Cross-curricular literacy approaches are often an important catalyst in secondary students' engagement or disengagement in non-language-arts content areas and serve as a major indicator in their overall success in these classes. This course provides engagement strategies, various approaches to introducing challenging reading materials, and proven strategies for increasing literacy among secondary learners.

EDMA 620: Approaches to Assessments for Teaching & Learning (3)
Prerequisite: None
This course focuses on how to write, construct, and use assessments in the secondary classroom. The course provides a balanced approach to assessment, involving both traditional and innovative techniques. It includes the development and use of written tests, informal assessments, portfolios, and performance assessments. Prospective teachers will find this balanced approach to assessment incredibly useful once they enter the classroom. Additionally, this course provides students with the ability to review and select assessment strategies appropriate for the variety of learner characteristics commonly represented, including levels of cognition, learning styles, ability levels, and student interest, as well as culturally relevant assessment strategies. As a result, students in the course will have the ability to select and/or develop assessment strategies that motivate learners and increase the overall achievement for secondary learners.

EDMA 686: Education Practicum (6)
Prerequisite: EDUC 500, EDUC 503, EDUC 508, EDUC 511, EDUC 521, EDUC 532
Credit Hour Breakdown: 250 hours of practicum, 15 hours of seminar/lab
This course requires that all students successfully complete a 225-hour supervised field experience. Through this supervised classroom experience, students will have the opportunity to implement the theory and practical knowledge they have gained throughout the Master's program in a functioning classroom setting appropriate to the content area and/or grade level they anticipate teaching upon graduating. The supervised classroom experience course provides an opportunity to work towards a Virginia State Department of Education requirement of all Masters of Education majors. The supervised classroom experience will be documented in part through weekly submission of timesheets and bi-weekly discussion forum posts.

Another major component of the practicum course requires students to develop a Teaching Portfolio reflective of their coursework from the program, issues they have identified during their supervised classroom experience, and plans of action for resolving the identified issues supported by empirical research associated with the issue. The portfolio is a culmination of the student's program of study and encompasses content covered throughout the program. Students will present their Teaching Portfolio to the VIU campus community. Mandatory sessions designed to assist students with their Teaching Portfolio are held throughout the term.

EDSC 600: Effective Teaching & Learning for Secondary Science (3)
Prerequisite: None
This course provides a comprehensive review of selected topics focusing on instructional methods and best practices in secondary science education reflective of learner characteristics and learner needs. Through this course, students will explore content-specific pedagogical approaches for teaching biology, chemistry, earth science, and physics. Topics for this course focus on constructivist teaching and learning, including inquiry teaching and learning, concept mapping, scaffolding, student learning styles, authentic assessment, and a variety of approaches documented as effective strategies for increasing student achievement in secondary science instruction.
EDSC 605: Advanced Approaches for Teaching Secondary Science (3)
Prerequisite: EDSC 600
This course provides an advanced review of selected topics and the research focusing on the methods and theory for best practices in secondary science education reflective of learner characteristics and learner needs. Through this course, students will explore content-specific pedagogical approaches for teaching biology, chemistry, earth science, and physics. Topics for this course focus on constructivist teaching and learning, including inquiry teaching and learning, concept mapping, scaffolding, student learning styles, authentic assessment, and a variety of research approaches documented as effective strategies for increasing student achievement in secondary science instruction.

EDSC 610: Content Area Reading and Writing (3)
Prerequisite: None
This course is designed to introduce and train students on how to provide effective reading and writing instruction within their content teaching areas. As pre-service teachers, it is critical that all teachers have a strong appreciation for the importance of teaching reading to secondary students in all disciplines as well as in English and language arts classes. Cross-curricular literacy approaches are often an important catalyst in secondary students’ engagement or disengagement in non-language-arts content areas and serve as a major indicator in their overall success in these classes. This course provides engagement strategies, various approaches to introducing challenging reading materials, and proven strategies for increasing literacy among secondary learners.

EDSC 620: Approaches to Assessments for Teaching & Learning (3)
Prerequisite: None
This course focuses on how to write, construct, and use assessments in the secondary classroom. The course provides a balanced approach to assessment, involving both traditional and innovative techniques. It includes the development and use of written tests, informal assessments, portfolios, and performance assessments. Prospective teachers will find this balanced approach to assessment incredibly useful once they enter the classroom. Additionally, this course provides students with the ability to review and select assessment strategies appropriate for the variety of learner characteristics commonly represented, including levels of cognition, learning styles, ability levels, and student interest, as well as culturally relevant assessment strategies. As a result, students in the course will have the ability to select and/or develop assessment strategies that motivate learners and increase the overall achievement for secondary learners.

EDSC 686: Education Practicum (6)
Prerequisite: EDUC 500, EDUC 503, EDUC 508, EDUC 511, EDUC 521, EDUC 532
Credit Hour Breakdown: 250 hours of practicum, 15 hours of seminar/lab
This course requires that all students successfully complete a 225-hour supervised field experience. Through this supervised classroom experience, students will have the opportunity to implement the theory and practical knowledge they have gained throughout the Master's program in a functioning classroom setting appropriate to the content area and/or grade level they anticipate teaching upon graduating. The supervised classroom experience course provides an opportunity to work towards a Virginia State Department of Education requirement of all Masters of Education majors. The supervised classroom experience will be documented in part through weekly submission of timesheets and bi-weekly discussion forum posts.

Another major component of the practicum course requires students to develop a Teaching Portfolio reflective of their coursework from the program, issues they have identified during their supervised classroom experience, and plans of action for resolving the identified issues supported by empirical research associated with the issue. The portfolio is a culmination of the student's program of study and encompasses content covered throughout the program. Students will present their Teaching Portfolio to the VIU campus community. Mandatory sessions designed to assist students with their Teaching Portfolio are held throughout the term.

EDSL 610: Content Area Reading and Writing (3)
Prerequisite: None
This course is designed to introduce and train students on how to provide effective reading and writing instruction within their content teaching areas. As pre-service teachers, it is critical that all teachers have a strong appreciation for the importance of teaching reading to secondary students in all disciplines as well as in English and language arts classes. Cross-curricular literacy approaches are often an important catalyst in secondary students’ engagement or disengagement in non-language-arts content areas and serve as a major indicator in their overall success in these classes. This course provides engagement strategies, various approaches to introducing challenging reading materials, and proven strategies for increasing literacy among secondary learners.

EDSL 620: Approaches to Assessments for Teaching & Learning (3)
Prerequisite: None
This course focuses on how to write, construct, and use assessments in the secondary classroom. The course provides a balanced approach to assessment, involving both traditional and innovative techniques. It includes the development and use of written tests, informal assessments, portfolios, and performance assessments. Prospective teachers will find this balanced approach to assessment incredibly useful once they enter the classroom. Additionally, this course provides students with the ability to review and select assessment strategies appropriate for the variety of learner characteristics commonly represented, including levels of cognition, learning styles, ability levels, and student interest, as well as culturally relevant assessment strategies. As a result, students in the course will have the ability to select and/or develop assessment strategies that motivate learners and increase the overall achievement for secondary learners.

EDSL 686: Education Practicum (6)
Prerequisite: EDUC 500, EDUC 503, EDUC 508, EDUC 511, EDUC 521, EDUC 532
Credit Hour Breakdown: 250 hours of practicum, 15 hours of seminar
This course requires that all students successfully complete a 225-hour supervised field experience. The portfolio is a culmination of the student's program of study and encompasses content covered throughout the program. Students will present their Teaching Portfolio to the VIU campus community. Mandatory sessions designed to assist students with their Teaching Portfolio are held throughout the term.

EDTC 571: Instructional Technologies for Learning (3)
Prerequisite: None
This course provides an overview of the design, development, integration, and evaluation of instructional technologies and associated instructional strategies. Ethical and legal issues, communicating and accessing information, and evaluating hardware/software are reflected in course projects. This course provides students with opportunities to develop and use a wide variety of electronic resources in order to increase their understanding, knowledge, and skills with instructional technologies. This course ensures, through projects and discussions, that students are effective users of instructional technologies and are prepared to take leadership roles in various environments.

EDTC 573: Emerging and Assistive Technologies (3)
Prerequisite: EDTC 571
This course explores emerging and assistive technologies with appropriate application of learning theories. Students investigate and analyze innovative instructional technologies to determine their value in learning environments for all student populations. Assistive technology and its application within instructional programs to assist those with disabilities are examined in addition to emerging instructional technologies. Students identify, design and explore best practices associated with technology-based instruction and information as it relates to emerging and assistive technologies.

**EDUC 500: Intro to Education and Educational Research (3)**
*Prerequisite: None*
As the initial course in the Masters of Education program, this course provides students with a comprehensive understanding of public education in the U.S. Through this course students will review the inception of public education through the 21st century. Additionally, students enrolled in this course will be introduced to educational research and the role quantitative and qualitative research serves in shaping the educational landscape. Students are required to perform literature searches and conduct reviews of a variety of educational topics, demonstrating a thorough understanding of said topics, while simultaneously demonstrating their research capabilities.

**EDUC 503: Educational Psychology for Secondary Students (3)**
*Prerequisite: None*
Through this course students will be presented with critical content regarding the human growth and development process. Content for this course includes information regarding genetics, heredity, conception, gestation, birth, and early development of young children. This course will also address cognition, motor skills, and the emotional, psychological, and social development of humans. Designed specifically for secondary teachers, a great deal of this course focuses on adolescence and the physical, emotional, psychological, and sexual development middle and high school students undergo as they move from youth to young adult. Other issues addressed in this course include brain development, male and female learner characteristics, and other important findings associated with teaching youth and young adults during this major transitional period of their lives.

**EDUC 508: Motivational Theory and Classroom Management (3)**
*Prerequisite: None*
This course examines classroom-management models and theoretical and empirical approaches to classroom management. The course helps students develop appropriate classroom-management skills, including decision-making and problem solving, exploring the merits and limitations of each classroom-management model, and examines when each approach to classroom management is most appropriate. The course also presents concepts of extrinsic and intrinsic motivation; the concept of self-motivation; assertive, positive, and cooperative discipline; and examines the relationships among classroom environment, classroom behavior, and learning. In this course, students will focus on implementing interventions for preventing and managing routine and disruptive discipline problems in a practical manner to include establishing effective classroom rules and procedures, relationships, role of parents, and helping students contribute to a positive learning environment relevant to their lives.

**EDUC 511: Diversity and Multicultural Education (3)**
*Prerequisite: None*
Through this course, students will be introduced to the issue of diversity and the implications of being a diverse learner in U.S. schools. Those enrolled in the class will be provided a clear and meaningful definition of diversity, which will serve as a major component of the operational paradigm for the course. Students will also be introduced to various aspects of diversity and educated regarding the complexity and nuances of these aspects, the ideas and ideals surrounding each aspect, and how these aspects are commonly made more challenging as they intersect and are commonly combined. Students enrolled in this course will be introduced to research-based strategies for teaching in a diverse setting.

**EDUC 521: Instructional Methods for Special Education (3)**
*Prerequisite: None*
Through this course, students will have the opportunity to explore the issues surrounding teaching students with identified exceptionalities. Initial content for this course includes a review of the history of special
education, which leads to the inception of federal guidelines and practices protecting students with identified exceptionalities and ensuring equal access to education. This course provides an overview of the numerous exceptionalities currently identified and the traits and characteristics associated with each exceptionality, including intellectual, emotional, physical, social, and psychological diagnoses. Finally, this course provides students with a comprehensive understanding of their role as teachers in serving students with identified exceptionalities and provides research-based strategies for the inclusion and effective teaching of students with identified exceptionalities.

EDUC 532: Secondary Curriculum and Instruction (3)
Prerequisite: None
Through this course students will be introduced to a variety of pedagogical practices specific to teaching and learning for secondary students. Students enrolled in this course will be exposed to the two major philosophies of teaching and learning, namely teacher-centered instruction and student-centered instruction. Each of these philosophies will be independently investigated, revealing the various methods and strategies associated with each philosophy. Additionally, students will be required to demonstrate their understanding of the various approaches to teaching and learning through their development of unique and specific teaching and learning scenarios, allowing them the opportunity to implement a combination of select and appropriate methods and strategies.

EDUC 565: Contemporary Issues in Education and Assessment (3)
Prerequisite: None
The course provides a theoretical foundation and framework to promote academic rigor, relevance, and relationships that support student learning. Through this course students will explore curricula issues such as planning, implementation, and evaluation of curriculum at all levels of learning. The course comprehensively addresses philosophies of education, teaching and learning, pedagogical practices, teacher supervision, and educational policy. Students in this course are required to explore various philosophical and educational frameworks, which are regarded as traditional and controversial, as they reflect on the implications of each paradigm and develop their unique view of public education and its future.

EDUC 567: Improving Instruction through Inquiry Practices (3)
Prerequisite: EDUC 565
This course emphasizes the use of learning principles in developing strategies for creating and improving instruction through inquiry and assessments, while ensuring access and participation of all students to achieve high academic standards.

The purpose of this course is to develop students’ abilities to design and conduct classroom-based inquiry related to teaching and learning. It is also designed to make students knowledgeable consumers of academic research. Projects and class activities will enable students to narrow their research focus, formulate a research question, select an appropriate methodology, conduct a literature review, and begin to collect data as part of a pilot project designed to field-test their proposals. Emphasis will be given to different models for conducting research, research design, and the teacher’s role as researcher, investigator, and interpreter of educational research.

EDUC 574 Materials Development for Online Learning (3)
Prerequisite: Prerequisite: Completion of an introductory technologies for teaching course
This course emphasizes the theories and methods of course development specifically for the online environment. Students will learn methods of material creation, skill integration techniques, course and program development, adaptation of onground materials to the online environment and integrative-skill techniques. Students will also learn about the various methods of delivery including onground, online and hybrid courses/programs. Students will learn methods to adapt existing material to a hybrid course.

EDUC 575 Online Teaching Principles and Practices (3)
Prerequisite: Completion of an introductory technologies for teaching course
Internship/CPT Qualified
This course provides an in depth perspective on methods of teaching in the virtual classroom including virtual classroom management, online student engagement techniques, addressing learning modalities, discipline, methods of providing feedback, motivational theories, individual needs assessments. Students will be able to apply theories to practice in the virtual classroom in the roles of teacher, coach and motivator.

EDUC 576 Course Design for the Virtual Classroom (3)
Prerequisite: Completion of an introductory technologies for teaching course
Internship/CPT Qualified
Students will learn methodologies and principles associated with designing and implementing virtual classrooms. Students learn theoretical understandings and considerations of the authenticity of material, interaction among participants, practical learning scenarios and techniques to promote student learning outside of the virtual classroom. Students will also learn about instructional design models and the importance of selecting the appropriate model for lesson development. Additionally, students will be introduced to a needs-based approach to course development in order to identify curricular goals and course objectives. Students will use this needs-based approach to develop a syllabus, a course outline, lesson plans to develop and implement this material into a fully online course.

EDUC 590 Program Administration (3)
Prerequisite: Prerequisite: Completion of teaching methods and successful completion of or concurrent enrollment in a curriculum course
Internship/CPT Qualified
This course provides an in-depth perspective of the administrative requirements of a language program including how to effectively lead and manage a program. Students gain a behind the scenes view of what occurs outside of the classroom environment including the areas of people management, curriculum and programmatic development, customer service and the logistics of managing a program. The course explores the lifecycle of the student from admission to graduation; the lifecycle of faculty members within the program; and the administrative role of managing a curriculum.

EDUC 593: Introduction to Educational Policy (3)
Prerequisite: None
This course provides a comprehensive examination of the policies, which shape, surround, and govern public education. Through this course, students will increase their understanding of the role politics and the various political constituents, including parents and students, play in the consistently changing educational arena. This course also provides insight into the correlations between educational policy and the financing of education. Additionally, this course examines various policy systems such as the school districts themselves, administrators and their roles in policy development and implementation. Lastly, it delves into the trickle-down implications of federal, state, and local policy as they are implemented in the classroom, thus impacting the provision of academic programs, funding and resources, and the professional lives of teachers.

EDUC 595 Program Development and Evaluation (3)
Prerequisite: Completion of an assessment course
Internship/CPT Qualified
Successful educational programs require the development of curricula centered on student needs and ultimate goals. Additionally, language programs have an ethical and social duty to provide a quality, accessible, and relevant educational product for all stakeholders invested in and benefiting from the program. This course explores the need to examine and evaluate both the needs of the stakeholders and the effectiveness of the program by focusing on clear outcomes. Students will learn skills necessary to design evaluations at the course, programmatic, institutional, and societal levels. These skills provide students with the ability to develop, evaluate, and improve existing or new programs.

EDUC 597: Partnerships for School Success (3)
Prerequisite: EDUC 593
This course is designed to provide a comprehensive understanding of the critical role community and school partnerships play in building effective, productive, and high-achieving learning communities. This course
emphasizes techniques of improving instruction through application of research on effective schools and models of schools and teachers developing meaningful and collaborative relationships with the communities their schools serve. Topics covered include community building and shared decision-making, consensus building, establishing group buy-in, collaborative professionalism, and intentionally creating schools that demonstrate respect and value for the students, their families, and the community. Additional topics include instruction regarding the foundations of leadership, collaborative curriculum and instructional design practices, authentic assessment strategies, professional development for leadership and supervision, leadership for communication and community partnerships, and leadership for organizational management.

EDUC 640 Introduction to Research Methods (3)
Prerequisite: Completion of 9 credits, or permission of the instructor
Credit Hour Breakdown: 40 hours of Lecture; 10 hours of Lab
This course covers quantitative and qualitative methods of designing and implementing research in a classroom or institutional setting. It prepares students to conduct and prepare independent research from design to publication.

EDUC 667 Internship in Program Management (3)
Prerequisite: Completion of a minimum of 18 credits in the program
Credit Hour Breakdown: 135 hours of practicum
This course provides supervised field experience in a setting appropriate to the student’s program and career goals. Examples of appropriate experience include (but are not limited to) managing a writing center or a language learning resource center; assisting with language program administration; conducting language testing. The students are expected to work on-site for at least 135 hours. Students are expected to communicate with the faculty advisor regularly and submit required documentation and projects on time.

EDUC 668 Internship in Educational Technology (3)
Prerequisite: Completion of a minimum of 18 credits in the program
Credit Hour Breakdown: 135 hours of practicum
This course provides supervised field experience in a setting appropriate to the student’s program and career goals. Examples of appropriate experience include (but are not limited to) teaching online or blended language courses; assisting a language instructor teaching online or in blended contexts; developing language teaching materials or tests for online or blended classrooms; conducting or contributing to online language testing; conducting or assisting with research into topics relevant to online language learning and teaching. The students are expected to work on-site for at least 135 hours; when the student is the primary instructor of a course, it may be appropriate to count 2 hours of prep and grading for each hour of classroom instruction. Students are expected to communicate with the faculty advisor regularly and submit required documentation and projects on time.

ENGL 113 English Composition and Rhetoric (3)
Prerequisite: None
This course is designed expose students to the conventions of academic writing and critical thinking so that they may successfully produce prose that is clear and direct with appropriate structure and support. Students are introduced to the basic rhetorical modes of narration, classification, exposition, argumentation, description, comparison and contrast, cause and effect, definition, and process in the context of English rhetorical structure. This course provides students with the opportunity to experience writing as a process that requires refinement and experience. Students will learn to write for specific audiences and to understand how to approach writing for different disciplines.

ENGL 120: Academic Writing (3)
Prerequisite: None
Academic Writing focuses on reviewing the fundamentals of standard written English for academic purposes. Students will practice writing common forms of academic documents and demonstrate the ability
to successfully use APA formatting. This interactive class provides students with an opportunity to improve their academic writing skills necessary for success in college and beyond.

**ESL 0230: Low Beginner Speaking, Listening & Pronunciation (70 hours – core)**  
*Prerequisite: Placement or no previous exposure to the language.*  
In this course, students will begin to build their academic listening, speaking, and vocabulary skills, and focus on clear speech through pronunciation practice. Listening tasks include predicting listening content, listening for main ideas, details, opinions, and examples on a variety of high-interest topics. Some of the speaking tasks include expressing opinions and reactions, asking and answering questions, agreeing and disagreeing, and asking for repetition. Pronunciation features are introduced such as sentence intonation and syllable stress. Students will learn and use selected vocabulary from the Academic Word List.

**ESL 0235: Low Beginner Reading, Writing & Grammar (70 hours – core)**  
*Prerequisite: Placement or no previous exposure to the language.*  
In this course, students will begin to build their academic reading, writing, and vocabulary skills with a focus on developing a strong grammatical foundation. Reading skills include previewing a text, reading for main ideas and details, and recognizing different text types. Writing skills include basic sentence structures and an introduction to the writing process including pre-writing, outlining, revising, editing, and rewriting. Some grammatical structures covered are affirmative statements, parts of speech, and selected verb tenses.

**ESL 0330: Beginner Speaking, Listening & Pronunciation (70 hours – core)**  
*Prerequisite: ESL 0230 or placement*  
This course will help students develop the necessary academic speaking and listening skills to gain confidence communicating in English in a variety of situations. Students will focus on building skills to listen for main ideas and details, and recognizing different text types. Speaking skills include forming questions for follow-up, clarification, and repetition. Some speaking tasks involve group and pair discussions, as well as the preparation and delivery of a short presentation. Aspects of pronunciation covered in the course include question intonation, word stress, reduction and linking sounds.

**ESL 0335: Beginner Reading, Writing & Grammar (70 hours – core)**  
*Prerequisite: ESL 0235 or placement*  
This course focuses on developing basic reading and writing skills. Students will develop reading skills including recognizing main ideas and supporting details, making basic inferences, and using charts for comprehension. Students will also focus on developing writing skills such as: capitalizing proper nouns, writing well-formed complete sentences, using coordinating conjunctions, and using time order words. In addition, students will study present and past simple verb tenses, prepositions of location, and subordinating conjunctions. Furthermore, students will also increase their vocabulary by working with synonyms, antonyms, phrasal verbs, and different word forms.

**ESL 0430: Elementary Speaking, Listening & Pronunciation (70 hours – core)**  
*Prerequisite: ESL 0330 or placement*  
This course focuses on developing students’ academic speaking and listening skills, including the ability to identify the main ideas and factual information in level-appropriate listening passages, participate in discussions on a variety of topics, give simple presentations, and verbally summarize listening passages. This course includes an overview and practice of pronunciation features such as sentence stress, reduction, and linking sounds.

**ESL 0435: Elementary Reading, Writing & Grammar (70 hours – core)**  
*Prerequisite: ESL 0335 or placement*  
In this course, students will improve their reading comprehension skills and begin to learn how to write paragraphs. Specifically, students will learn to use a variety of pre-reading strategies to become more effective readers, such as identifying main and supporting ideas of a text, recognizing sequence, and identifying the author’s purpose. Students will be introduced to different types of paragraphs, for example opinion and descriptive, and be expected to produce well-structured paragraphs. In addition, students will
study different verb tenses (including the present perfect,) modals, comparative & superlative adjectives, future time clauses, adverbs.

ESL 0530: Low Intermediate Speaking, Listening & Pronunciation (70 hours – core)
Prerequisite: ESL 0430 or placement
This course focuses on developing students’ listening comprehension, summarizing, and presentation skills. Students will understand main ideas and specific details of recorded passages on academic and general interest topics; take notes while listening; produce oral summaries of written and listening materials; prepare and deliver structured technology-assisted presentations on topics of general interest. In addition, students will give advice, make suggestions, ask for and give clarification to facilitate group discussions; and develop an ability to support opinions, explain in detail, and hypothesize. Students will also work on pronunciation skills including but not limited to word endings, syllable stress, intonation, and linking sounds.

ESL 0535: Low Intermediate Reading, Writing & Grammar (70 hours – core)
Prerequisite: ESL 0435 or placement
In this course, students will work with a variety of academic reading materials to develop basic academic reading skills (skimming for main ideas and scanning for key details). Students will also learn to deduce the meaning of new vocabulary from contextual and structural cues. Students will review the principles of basic paragraph structure and focus on mastering the ability to write different types of paragraphs including descriptive, example, and opinion paragraphs. In addition, students will review sentence structure and learn how to avoid fragments and run-on sentences. Students will continue to work on using verb tenses correctly and ensuring subject-verb agreement in their writing.

ESL 0630: Intermediate Speaking, Listening & Pronunciation (70 hours – core)
Prerequisite: ESL 0530 or placement
This course helps students expand their fluency, emphasizing the language they need for academic studies and real world communication. This course develops students’ listening comprehension and note-taking skills, including listening for main ideas and details, tuning out distractions, and understanding the speaker’s purpose. This course also provides insights into U.S. life and culture and builds academic vocabulary through topics such as gender issues, the environment, and philanthropy. In addition, students will improve their understanding of American English pronunciation by focusing on intonation, stress patterns, and reduced sound in fast speech.

ESL 0635: Intermediate Reading, Writing & Grammar (70 hours – core)
Prerequisite: ESL 0535 or placement
This course is designed for students who need to improve their academic reading and writing skills and enlarge their vocabulary. The students expand their vocabulary by understanding the meaning from context as well as word root meanings. The course readings explore controversial issues of contemporary U.S. culture. During this course, students will be introduced to the basic essay structure as well as various types of essays including descriptive and compare/ contrast. In addition, the course will focus on the correct usage of dependent clauses, subordinating conjunctions, comparatives, phrasal verbs, and complex verb tenses.

ESL 0720: TOEFL & Academic Listening (70 hours – core)
Prerequisite: ESL 0630 or placement
In this intensive course, students will listen to a variety of conversations and lectures in English. Some topics that will be covered in this class are non-academic and informal; they reflect typical situations university students face in the United States. Other topics are academic and come from various fields of study in the natural sciences, the social sciences, the arts, and business. Through daily exercises, students will learn and practice useful listening strategies and test-taking skills that are required for TOEFL iBT.

ESL 0722: TOEFL & Academic Reading (70 hours – core)
Prerequisite: ESL 0635 or placement
This course trains students to read and understand lengthy readings on a variety of academic topics. Students will learn about vocabulary, pronoun reference, the meanings of sentences, where sentences can be inserted, inferences, rhetorical purpose, and overall organization of ideas.

**ESL 0730: High Intermediate Speaking, Listening & Pronunciation (70 hours – core)**  
*Prerequisite: ESL 0630 or placement*  
This course focuses on developing academic listening and speaking skills. Students will learn to give short structured presentations and improve their ability to comprehend and analyze academic discourse including expressing surprise, encouragement, and approval; and refuting an argument. This course includes an accent-reduction component to help students speak clearly and with appropriate intonation patterns. Furthermore, the academic language skills developed in this course will help to prepare students for the TOEFL iBT test.

**ESL 0735: High Intermediate Reading, Writing & Grammar (70 hours – core)**  
*Prerequisite: ESL 0635 or placement*  
In this course, students will review the basic principles of essay organization and focus on mastering multiple types of essays, including argumentative and cause/effect. Students will further develop their academic reading skills in interpretation, inference, and contextual vocabulary cues. Students will analyze summarize, and criticize ideas encountered in reading passages. In addition, this course provides instruction on higher-level grammatical constructions in academic writing, such as verb tense consistency, effective relative clause usage, real and unreal conditionals, and passive voice. Furthermore, the academic language skills developed in this course will help to prepare students for the TOEFL iBT test.

**ESL 0800: Public Speaking & Presentation Skills (35 hours – elective)**  
*Prerequisite: ESL 0730 or placement*  
In this course, students will develop their confidence and abilities to be effective presenters. Students will build their skills by studying speech models; focusing on the physical aspects of presenting such as eye contact, gestures, stance, and voice; employing presentation aids; organizing and outlining speech materials; and most importantly preparing, giving, and evaluating their own presentations. Additionally, strategies for creating and selecting effective visual aids will be discussed and applied. Students who take this course will be able to deliver solid presentations in academic and professional settings.

**ESL 0802: Accent Reduction (35 hours – elective)**  
*Prerequisite: ESL 0730 or placement*  
This course is designed to help prepare students to comfortably converse with clear pronunciation in a variety of situations. The course will focus student attention on intonation and syllable stress, which is one of the most important facets of accent reduction. Students will feel more confident about conversing with Americans in their daily lives. Also, students who are preparing to enter academic programs will gain useful pronunciation experience that will enable them to better understand (and be understood by) native speaking professors and classmates.

**ESL 0806: Academic Writing & Research Skills (70 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
The main focus of this course is to develop the skills and knowledge required to write an academic research paper including quoting, paraphrasing, summarizing, accessing and evaluating research sources, avoiding plagiarism, citing sources and essay formatting according to APA style. In addition, the course familiarizes international students with the general expectations of the American higher education system and assists them in building strong academic skills.

**ESL 0810: Grammar Workshop & Editing (35 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
The course is designed for students who have taken grammar courses and have a general understanding of grammar rules, but have trouble demonstrating it consistently, particularly through their writing. Each
week, the class will target specific grammar errors that are commonly observed among English learners, such as incorrect use of verb tenses, various forms of agreement, determiners, word forms, and mechanics. After reviewing the rules, students will be asked to check their comprehension by using the targeted grammatical points at the sentence and paragraph level, eventually leading to writing 5-paragraph essays, which will be peer- and self-edited.

**ESL 0817: Critical Thinking through News around the World (35 hours – elective)**  
*Prerequisite: ESL 0730 or placement*  
Students in this elective course will use a variety of news sources to develop and sharpen their critical thinking and writing skills, as well as hone the speaking skills necessary to partake in stimulating discussions. Through this course, students will gain a better understanding of the impact of current events throughout the world.

**ESL 0821: TOEFL Speaking (70 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
In this intensive course, students will learn six different tasks of the Speaking section: two independent tasks and four integrated tasks. Students will be introduced to a variety of speaking strategies and given ample opportunities to practice responding to different topics in a given period of time with comprehensible pronunciation.

**ESL 0823: TOEFL Writing (70 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
In this course, students will learn how to write two types of essays for the TOEFL iBT independent and integrated tasks.

**ESL 0840: English for Business Professionals (35 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
In this course, students will improve their skills in the following key areas of business communication: taking part in meetings, telephoning, negotiating, presenting, and socializing. Students will also be introduced to the style, vocabulary, and various formats of business writing, such as letters, reports, memos, email, and other electronic communication. Grammar and editing skills are reinforced as important components of effective professional communication.

**ESL 0850: IELTS Preparation (70 hours – elective)**  
*Prerequisite: ESL 0735 or placement*  
The International English Language Testing System (IELTS) is an internationally recognized standardized English proficiency exam, which is generally required for universities in the UK, Ireland, Australia, and New Zealand. While most American universities require TOEFL scores as entry requirement for international students, some schools also accept IELTS scores. This course prepares students who plan to take the IELTS exam by improving their overall English skills and familiarizing them with the test format, topics, and strategies that are needed to succeed in achieving their desired IELTS score.

**FREN 100: Elementary French I (3)**  
*Prerequisite: Placement or no previous exposure to the language.*  
This course is an introduction to French grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language.

**FREN 105: Elementary French II (3)**  
*Prerequisite: FREN 100 or placement*
This course is an introduction to French grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary French I while reinforcing production skills and vocabulary building.

**FREN 200: Intermediate French I (3)**
*Prerequisite: FREN 105 or placement*

This course is an intermediate French course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary French I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

**FREN 205: Intermediate French II (3)**
*Prerequisite: FREN 200 or placement*

This course is an intermediate French course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Intermediate French I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

**FREN 250: Conversational French I (3)**
*Prerequisite: FREN 105 or placement*

This course is an intermediate French course and builds upon skills learned in the elementary level. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in elementary and intermediate French with a focus on oral communication in the target language. The target language is the primary language of instruction.

**FREN 300: Advanced French I (3)**
*Prerequisite: FREN 205 or placement*

This course is an advanced French course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

**FREN 305: Advanced French II (3)**
*Prerequisite: FREN 300 or placement*
This course is an advanced French course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

**GEOG 101: World Geography (3)**  
*Prerequisite: None*  
This course provides a survey of physical, cultural, and economic aspects of world regions. It serves as an introduction to how constituent parts of the world differ from one another in their associated resources, cultures, and economics. Attention is given to the interrelationships, interdependencies, and associations that bind together the diverse communities of the world.

**GEOL 101: Introduction to Geology (3)**  
*Prerequisite: None*  
This course provides an introduction to the dynamics of the earth—volcanoes, earthquakes, plate tectonics, rivers and streams, groundwater, glaciers, waves, wind, and landslides—with an emphasis on the environment applications of these processes. This course also covers tools of the geologist, for example maps and aerial photographs.

**GOVT 120: Comparative Government (3)**  
*Prerequisite: None*  
This course compares political processes and governing structures in European nations, the former Soviet Union, China, and the United States.

**GOVT 130: American Society and Politics (3)**  
*Prerequisite: None*  
This is an introductory course in the study of international relations. Students will examine important historical and contemporary themes in international relations and discuss the main set of theories in the discipline: realism, idealism, and constructivism. Critical themes and developments to be discussed in the course include global and regional conflict and war, cooperation, international law, terrorism, proliferation of weapons of mass destruction, ethnic conflict and peacekeeping, globalization and international trade and finance, and international organizations and regionalism.

**GOVT 140: International Relations (3)**  
*Prerequisite: None*  
The class is designed to provide students with a core understanding of American politics and society and inspire their interest and possibly involvement in the American political system. It is comprised of three main modules. The first part of the course explores the historic, cultural and religious origins of the American state and focuses on the issues of American exceptionalism, national identity, religious roots and early political development. The second module centers on the key principles, institutions, and decision-making processes of the American political system, and evaluates the basis strengths and weaknesses of American modern governance. Finally, module three, examines some of the most current and prominent dilemmas in modern American life, including the politics of race, social security, health care and gender issues.

**GOVT 505: Research Methods (3)**  
*(Also offered as: CMP 551, PUAD 510)*  
*Prerequisite: None*  
This course provides knowledge of research methodologies used in varying disciplines. The course includes experimental design, surveys, case studies, and fieldwork. It introduces students to applied research methodologies. The use of analytical tools, literature searches, and the application of VIU
documentation style will result in a formal written proposal that may serve as the basis for each student’s special project.

**GOVT 510: Theories of International Relations (3)**
*Prerequisite: None*
This seminar is designed to provide a comprehensive overview of the field of international relations. Throughout the course we will examine different approaches to explaining international relations. By surveying major concepts and theories in the field, the seminar will also assist graduate students in preparing for the further study in the more specialized areas of International Relations.

**GOVT 520: International Security (3)**
*(Also offered as PUAD 520)*
*Prerequisite: None*
This course will familiarize students with some of the major theoretical issues in the study of international security, and some of the central challenges shaping current debates about security and the use of force. War and conflict have been central to international politics. The study of security investigates causes of war, strategies for avoiding conflict, and the impact of new technologies, actors, and ideas on calculations about the use of force. This course will give students a solid grounding in current theoretical issues and security challenges in the international arena, and to encourage them to think about how an understanding of these issues can help them address existing security problems.

**GOVT 530: Democratization (3)**
*Prerequisite: None*
This course provides an overview of the literature in comparative politics on democratization. We will address longstanding conceptual questions including definitions of democracy, democratic transitions, and consolidation. The seminar will also tackle debates related to the preconditions for democratization and as well as different accounts for democratic successes and failures. The course will examine a variety of analytic approaches and methodologies scholars employ in the subfield of comparative politics.

**GOVT 540: International Law (3)**
*Prerequisite: None*
*Internship/CPT Qualified*
This course aims to illustrate the importance of international law, in all its forms, in relation to many of the central issues that preoccupy governments and other relevant actors and to highlight the extent to which the assumptions underpinning this body of law have changed in recent decades. The focus is on the norms, actors and processes which contribute to making international law what it is today. The approach seeks to combine theory and practice, although particular emphasis is attached to the actual practice of international law and its impact, or lack thereof, in relation to some of the most pressing issues on the international agenda. The course will follow relevant current events in the field.

**GOVT 551: Conflict Resolution (3)**
*(Also offered as MBA 551, PUAD 551)*
*Prerequisite: None*
*Internship/CPT Qualified*
This course gives students practical experience in resolving workplace disagreements and discourse. Students will learn how to use different models and theories on resolving conflict in the organization. Students will develop skills in negotiations, dispute resolution, communications, reconciliations and mediations.

**GOVT 612: International Management (3)**
*(Also offered as MBA 612 & PUAD 612)*
*Prerequisite: GOVT 505 or MBA 513*
*Internship / CPT Qualified*
This course focuses on the challenges inherent in managing a workforce comprised of employees from more than one country. Particular emphasis is placed on cultural and legal differences as well as the
development of programs and processes which select, motivate, train, and evaluate across national borders.

**GOVT 613: Enterprise Resource Planning (3)**
(Also Offered as MBA 613 & PUAD 613)
Prerequisite: MBA 512 or GOVT 505
Internship / CPT Qualified
Logistics involves the integration of information, transportation, inventory, warehousing, material handling, and purchasing. All of these areas provide a variety of stimulating jobs for students interested in operations management, marketing, and information systems. Because of the strategic importance of logistical performance, any student interested in senior management will benefit from this course.

**GOVT 614: International Finance (3)**
(Also offered as MBA 614)
Prerequisite: GOVT 505 or MBA 511
Internship / CPT Qualified
This course aims to concentrate on the following two topics: (1) basics of international financial markets including derivatives; and (2) managerial perspectives on international finance. The course includes an analysis of different types of financial instruments, such as currencies, stocks, futures, options, international risk and diversification, and swaps. The course covers the theoretical concepts of international financial markets and the study of valuations, acquisitions, and strategies using various techniques to analyze foreign investments.

**GOVT 615: International Strategy (3)**
(Also offered as MBA 615)
Prerequisite: MBA 516 or GOVT 510
Internship / CPT Qualified
This course examines entry strategies to foreign markets for international and multinational firms as well as strategies for managing operations across borders.

**GOVT 616: International Marketing (3)**
(Also offered as MBA 616)
Prerequisite: MBA 513 or GOVT 510
Internship / CPT Qualified
This course examines the methods and strategies used by firms in international and multinational marketing efforts. Particular attention is paid to how companies decide whether to go global or remain local and how they engage in multi-level marketing opportunities.

**GOVT 617: Import & Export Management (3)**
(Also offered as MBA 617)
Prerequisite: None
Internship / CPT Qualified
For many organizations, the first step toward multinational operations begins with importing and exporting goods. This course focuses on the strategies and processes of import/export management.

**GOVT 618: International Economics & Trade (3)**
(Also offered as MBA 618)
Prerequisite: MBA 511 or Approval by Academic Advisor
Internship/CPT Qualified
The course is designed to provide students with the analytical tools and techniques required to managing financial assets across international borders. Employing modern decision and probability theory and statistical techniques, the students will investigate the concepts governing the economics of international trade, risk management, logistics and international law.

**GOVT 625: Effective Negotiations (3)**
(Also offered as MBA 625, PUAD 625)
Prerequisite: none
Internship/CPT Qualified
This course examines the theory and practice of negotiations, including strategies, legal issues, methods, and approaches.

**GOVT 631: Intercultural Communication (3)**
*Prerequisite: None*
This course focuses on the importance of culture in our everyday lives, and the ways in which culture interrelates with and affects communication processes. We live in an era of rapid globalization in which being able to communicate across cultures is imperative to our ability to function in a diverse workplace, city, and world. This course will take us on a journey. Using our stories and our online discussions, this course is designed to increase our sensitivity to other cultures. Just as importantly, this journey increases our awareness of our own cultural backgrounds, and the contexts (social, cultural and historical) in which we live and communicate.

**GOVT 632: Comparative Politics (3)**
*Prerequisite: GOVT 510*  
*Internship/CPT Qualified*
This course introduces students to some of the main theories, concepts, approaches, and methods in comparative politics. It is a seminar based on classroom discussion and student participation. One major objective of this course is to familiarize students with the most important literature in comparative politics and help to prepare them for the comprehensive exam. We will read and discuss both “classic” and contemporary material drawn from a variety of social science disciplines such as political science, economics, history, anthropology and sociology. Throughout the course, we will explore important theoretical and methodological issues in the comparative study of political behavior and institutions.

**GOVT 633: Politics of Development Aid (3)**
*Prerequisite: None*  
*Internship/CPT Qualified*
This course provides the platform for critical thinking about what makes some countries richer and more developed than others. This question has puzzled social scientists for many generations. In this course, we will engage in a critical evaluation of the existing schools of thought and how these address the politics of development. We will pay particular attention to the situation in non-industrial societies and actively follow the contemporary debate on international development aid.

**GOVT 634: Operations Management (3)**  
*(Also offered as MBA 634 & PUAD 634)*
*Prerequisite: GOVT 618 or MBA 515*  
*Internship / CPT Qualified*
This course examines the use of mathematical models in managing the operations of organizations. Techniques examined include queuing, facility planning, distribution network, and transportation models.

**GOVT 635: Intelligence & Foreign Policy (3)**
*Prerequisite: GOVT 510*
This course emphasizes the development of intelligence systems and assesses the ways in which they help or hinder international actors in achieving policy objectives. The course goal is to provide answers to three questions: “What is intelligence?”; “How does it work?” and “What difference does it make?”

**GOVT 650: Policy-Making in a Global Context (3)**
*Prerequisite: None*  
*Internship / CPT Qualified*
This course places the development of policy-making in its international context as it relates to globalization. It considers its impact on enlargement and the evolution of economic policies for implementation. This course also explores how companies must adapt and revise their strategies accordingly. Students will study the economics of European integration and the problems of regulation, redistribution, banking, security, and cooperation.
GOVT 651: International Economics & Politics (3)
Prerequisite: MBA 511 or GOVT 618
Internship / CPT Qualified
This course addresses the interaction of economic and political policy and the lessons to be derived for businesses and international organizations. The course will examine the political factors underlying economic policy in emerging market economies including policies toward banking crises, privatization of state-owned enterprises, macroeconomic problems, reform of the international trade system, and corruption.

GOVT 652: International Industrial Development Strategies (3)
Prerequisite: MBA 511 or GOVT 618
Internship / CPT Qualified
Development is sweeping the globe and the redefinition of boundaries between the public and private sectors has created new and exciting opportunities for business and policy makers. This course will review the international experience with privatization, the current sale of electric utilities, airlines, and telecommunication companies in emerging and developed economies.

GOVT 665: Graduate Internship I (3 credits)
Prerequisite: Dean’s Approval
The objective of the course is to provide hands-on and practical work experience in their business concentration that will give students a competitive advantage when they graduate. Students will have a chance to gain work experience in areas of their interest and gain exposure to the industry practices and key contacts for future employment opportunities. This three (3) credit hour internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

GOVT 666: Graduate Internship II (3 credits)
Prerequisite: Dean’s Approval
The objective of the course is to provide hands-on and practical work experience in their business concentration that will give students a competitive advantage when they graduate. Students will have a chance to gain work experience in areas of their interest and gain exposure to the industry practices and key contacts for future employment opportunities. This three (3) credit hour internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

GOVT 711: Globalization (3)
Prerequisite: GOVT 510
Globalization is the intensification of economic, political, social, and cultural relations across international borders. The course will begin with analyses of the definition of the term "globalization", the causes, nature, and effects of the process of globalization. We will also focus on the controversy surrounding the pros and cons related to the phenomenon within the context of the evolution of the pro and anti-globalization movements.

GOVT 713: Fundamentals of US Economic Policy (3)
Prerequisite: GOVT 618
Internship/CPT Qualified
This course examines the conduct of U.S. foreign policy through economic means and the use of economic instruments. A state has many tools at its disposal to promote its own security and influence the behavior of other states. These tools range from a multitude of military options to those in the diplomatic and economic spheres. Economic instruments have been utilized by states throughout history as a means of influencing the actions of others. These instruments take the form of both "carrots" and "sticks" and consist of the granting and withholding of trade benefits, employing unilateral and multilateral sanctions and embargoes, as well as other less visible measures such as influencing behavior through aid, monetary policy and the use of the trade remedy laws.
GOVT 745: Topics in International Relations (3)
**Prerequisite:** None
The purpose of this course is to acquaint students to the major issues affecting the global population and policy-making. Students will become aware current trends and problems within the field of international relations.

GOVT 790: Advanced Research Project (3)
**Prerequisite:** A minimum of 15 credits from GOVT 505, GOVT 510, GOVT 520, GOVT 632, GOVT 618, & GOVT 711
**Internship/CPT Qualified**
This course is designed for students to develop a project that will encompass the key elements of International Relations which have been studied throughout the MIR program, culminating in the submission of a final project paper and an oral presentation.

HIST 101: World History (3)
**Prerequisite:** None
World History is the only course offering students an overview of the entire history of humankind. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world.

HUMN 101 Introduction to the Arts and Humanities (3)
**Prerequisite:** None
This course is designed to provide a conceptual understanding and overview of the major disciplines of the humanities including music, theatre, cinema, visual arts, philosophy, and literature. This course will help students hone their critical thinking, interpretation, and discussion skills.

LING 105: Language and the Human Experience (3)
**Prerequisite:** None
This introductory course emphasizes the importance of language in its relation to the human experience. Topics in the course include the nature of language, how languages are learned and used to communicate, how culture influences communication, and the role of language in conflict resolution. The course is designed to be useful for a variety of eventual professions and social situations as well as to help students to develop sensitivity to differing cultures and worldviews in an evaluative and reflective manner. Students will begin to evaluate their own actions and language use in a way that aids in understanding the diversity of language and thought found in a globalized society.

MATH 160: Pre-Calculus (3)
**Prerequisite:** None
This course is intended to prepare students for the study of calculus. It includes a review of algebra; arithmetic operations, fractions, factoring, the quadratic formula, radicals, and exponents. This course also serves as an introduction to linear, polynomial, trigonometric, rational, and logarithmic functions. Graphs of functions are also covered throughout the course.

MATH 165: Calculus I (3)
**Prerequisite:** None
This course covers functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions.

MBA 500: Managerial Communication (3)
**Prerequisite:** None
This course focuses on the theory and practice of effective communications by managers. Managerial communication continuously ranks as the single most important skill for managers and executives to have. Emphasis is placed on both written and oral communications to make a student better, more effective leader and strategy implementer.
MBA 511: Managerial Accounting and Finance (3)
Prerequisites: ACCT 201 Principles of Financial Accounting, BUSS303 Principles of Finance
This course focuses on companies' sources and uses of financial resources and also accounting management. Students will focus on capital/debt structure decision and capital budgeting techniques, with particular emphasis on the impact of long-end short-term uses and sources of funds on the firm's value.

MBA 512: Project & Cost Management (3)
Prerequisite: STAT 200 Introduction to Statistics
This course focuses on the planning, organizing, and managing of resources to bring about the successful completion of specific project goals and objectives, especially within specific start and completion dates. In addition, students will learn how to adhere to classic project constraints of scope, quality, time and budget while learning the tools and techniques necessary to minimize the risk of failure in achieving the organization's goal and objectives.

MBA 513: Organizational Behavior & HR Management (3)
Prerequisite: None (For SED students, the advisor's approval and successful completion of 18 credits in the program required)
This course focuses on how people behave in organizations and groups. Topics include leadership, motivation, organizational culture, and roles within groups.

MBA 514: Marketing Management (3)
Prerequisite: None (For SED students, the advisor's approval and successful completion of 18 credits in the program required)
This course examines the methods and strategies used by corporations and firms in developing marketing efforts, strategy and policies. It focuses on the practical application of marketing techniques and the management of company's marketing resources and activities to create an effective, cost-efficient marketing strategy to succeed and become profitable, in particular, within rapidly emerging forces of globalization. Also, a course provides learning experience and cultivates operational skills and knowledge on designing and facilitating marketing campaigns within a business environment.

MBA 515: Business Statistics (3)
Prerequisite: STAT 200 Introduction to Statistics
This course focuses on the use of statistics in business research. In addition to mastering common statistical tools, students will study the design and execution of typical business research projects using such methods as surveys, analysis of archival data, and direct observation.

MBA 516: Strategic Management and Organizational Leadership (3)
Prerequisite: None (For SED students, the advisor's approval and successful completion of 18 credits in the program required)
The course focuses on the analyses, decisions, and actions that an organization undertakes in order to gain and maintain competitive advantage. The extensive use of case studies focuses students on diagnosis of problems and opportunities as well as the development of alternative courses of action and implementing organizational leadership.

MBA 523: HR Law (3)
Prerequisite: None
Internship / CPT Qualified
This course lays the foundation for in-depth review of federal, state, and international human resource laws and regulations. Students will gain knowledge of employment laws, HR regulations, and international agreements that affect human resource decisions. The course will introduce students to legal issues addressing employee rights such as privacy, EU Data Privacy Directive, Safe Harbor Principles, HIPAA, etc. The students will use case studies to better understand the complexities and challenges of applying HR law to global situations. A focus on HR international activities will include applying HR laws in the international context, legal aspects of managing people across nations and cultures, and legal issues and
policies that impact international HR managers. The course will provide a basic foundation of global HR legal regulations and standards.

**MBA 536: Labor Relations (3)**  
Prerequisite: None  
Internship / CPT Qualified  
This course will introduce students to the history of the labor movement and the collective bargaining process. Case studies will be used to understand the relationship between labor and management. Students will gain practical knowledge of balancing employee needs with organizational goals. Students will learn how to effectively evaluate employee relations programs to ensure productive and positive organizational environments. Students will participate in collective bargaining activities and understand the contract negotiation process.

**MBA 538: Compensation and Benefits (3)**  
Prerequisite: None  
Internship / CPT Qualified  
This course focuses on the design and implementation of compensation and benefit strategies to retain talented and qualified staff in an organization. The course covers the importance of financial and non-financial benefits when developing a compensation package for employees. The course will review legally required benefits as well as voluntary benefits offered by the employer. Students will learn how to evaluate compensation plans and systems to ensure they are compliant with government regulations, equitable to all staff in the organization, competitive to attract qualified employees and align with organizational goals and values. Students will gain knowledge of federal compensation tax laws, job pricing, various pay programs, and international compensation plans.

**MBA 551: Conflict Resolution (3)**  
Prerequisite: None  
Internship / CPT Qualified  
This course gives students practical experience in resolving workplace disagreements and discourse. Students will learn how to use different models and theories on resolving conflict in the organization. Students will develop skills in negotiations, dispute resolution, communications, reconciliations and mediations.

**MBA 552: Hospitality and Tourism Management (3)**  
Prerequisite: None  
Internship / CPT Qualified  
This course develops students’ competencies in managing people, processes, activities, and events involved in the hospitality and tourism industry. Students will learn the skills needed to be successful in managing hospitality and tourism for restaurants, hotels, casinos, travel agencies, and other core fields in the industry. The course will introduce students to topics and challenges of managing operational logistics including budgeting, sales, and communications of hospitality, hotel and tourism for the public and private sectors. This course will introduce students to the skills, challenges and complexities of managing international, national and regional tourism.

**MBA 553: Event Planning and Management (3)**  
Prerequisite: MBA 512 Project and Cost Management  
Internship / CPT Qualified  
This course will prepare students for effective event and meeting planning coordination and implementation. The topics and case studies are based on the management’s view of organizing and planning events. Students will be introduced to skills required for coordinating meetings, conventions, small to large special events, exhibits, and conferences. Students will be introduced to all aspects of event planning including overseeing catering logistics, coordinating meeting and exhibit space, monitoring client expectations, organizing audio/visual logistics, staffing events and using consultants and contractors. Models and techniques for effective project management and budgeting will be included.

**MBA 554: Marketing for Hospitality and Tourism (3)**
Prerequisite: MBA 514 Marketing Management
Internship/CPT Qualified
This course will apply marketing concepts and theories to the hospitality and tourism industry. Students will learn how to develop, implement and apply marketing strategies to market targets such as corporate, government, nonprofits, educational as well as individuals. Students will learn how to lead or participate in marketing teams to generate new or repeat business. Students will learn how to make decisions and communicate value based on the marketing mix (product, price, place, and promotion). Other areas of marketing appropriate to the hospitality and tourism industry will be addressed including branding, customer loyalty, packaging, seasonal pricing, distribution channels, sales promotion, PR and advertising.

MBA 555: Legal Aspects of Hospitality and Tourism (3)
Prerequisite: None
Internship/CPT Qualified
This course will give students knowledge of the different type of laws and legal regulations that govern the hospitality and tourism industries including: contract law, criminal law, travel regulations, employment/HR law, food law, and insurance regulations. Student will also learn about liability issues, guests’ rights, negligence, and food and alcohol laws as they relate to the hospitality and tourism industries. Student will also learn about ethics, preventative legal management and legal aspects of property management.

MBA 556: Accounting, Budgeting and Cost Controls: Hospitality and Tourism (3)
Prerequisite: MBA 511 Managerial Accounting and Finance
Internship/CPT Qualified
This course will apply accounting principles and processes to the hospitality and tourism industry. Students will learn how to use financial statements, budgets, and forecasting to make appropriate management decision relating to the hospitality and tourism industries. Students will be familiar with the Uniform Systems of Accounts for the Lodging Industry and Profit and Loss Statements. Student will be able to transfer this knowledge into a practical setting with the use of case studies, company profiles, and real life examples.

MBA 557: Management of Information Technology in Hospitality and Tourism (3)
Prerequisite: None
Internship/CPT Qualified
Students will learn how to use information technology to manage operations and gain competitive advantages in the hospitality and tourism industries. Students will learn about the importance of information security, e-commerce, databases, and social Media in the hospitality and tourism industries. Students will learn how information technology impacts transportation, accommodation, vendor distribution, marketing, and customer service.

MBA 558: Human Resource Management in the Hospitality and Tourism Industries (3)
Prerequisite: MBA 513 Organizational Behavior and HR Management
Internship/CPT Qualified
This course focuses on HR management from the Hospitality and Tourism industry’s perspective. The student will learn about general HR issues such as employment law, recruiting, compensation, social responsibility, and employee safety concerns. The course will also delve into very specific issues that are common to the industries such as: tip eligibility, working with unions in the industry, managing global employees in the hospitality and tourism industries, and compliance with US and international employment laws.

MBA 560: Graduate Internship I (3)
Prerequisite: None
This course provides practical learning experience and application for qualified graduate students in a business concentration area such as: finance, accounting, management, HR, marketing, international business, global logistics, hospitality & tourism, etc. The objective of the course is to provide hands-on and practical work experience in their business concentration that will give students a competitive advantage when they graduate. Students will have a chance to gain work experience in areas of their interest and gain exposure to the business environment, industry practices and key contacts for future employment opportunities. This three (3) credit hour internship is for students who are expected to work a minimum of
135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

**MBA 600: Business Residency (3)**
*Prerequisite: None*
This course is designed around local business residency and focuses on practical application of obtained business knowledge through site visits, advising and consultancy to organizations, agencies and business enterprises.

**MBA 605: Auditing (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*  
*Internship / CPT Qualified*
This course provides students with the knowledge of basic to complex auditing issues of businesses. It focuses on basic auditing concepts and principles including professional standards, planning an audit and auditing internal controls, evidence gathering, fraud, and sampling tools for audits, as well as review of audit procedures and audit reports.

**MBA 608: Financial Reporting and Decision Making (3)**
*Prerequisite: None*  
*Internship / CPT Qualified*
This course presents accounting reporting and decision making tools used in various businesses. Students will understand basic to complex financial reporting and decision making concepts and practices. Topics include the analysis of financial statements, ratio analysis, benchmarking, valuation concepts, risk, budgeting, investments, and taxes.

**MBA 610: Taxation of Business Entities (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*  
*Internship / CPT Qualified*
This course provides students with the knowledge of basic to complex tax issues of businesses. The course includes a basic introduction to taxation, tax issues with investments, and other business transactions. The course will also cover taxation of various types of corporations and individuals including gift taxes and income.

**MBA 611: Business Ethics and Law (3)**
*Prerequisite: None*
This course examines the legal and ethical basis of decision-making in business organizations. Topics include torts, contracts, liability, and the Uniform Commercial Code.

**MBA 612: International Management (3)**
*Prerequisite: MBA 513 Organizational Behavior and HR Management*  
*Internship / CPT Qualified*
This course focuses on the challenges inherent in managing a workforce comprised of employees from more than one country. Particular emphasis is placed on cultural and legal differences as well as the development of programs and processes which select, motivate, train, and evaluate across national borders.

**MBA 613: Enterprise Resource Planning (3)**
*Prerequisite: MBA 512 Project and Cost Management*  
*Internship / CPT Qualified*
Logistics involves the integration of information, transportation, inventory, warehousing, material handling, and purchasing. All of these areas provide a variety of stimulating jobs for students interested in operations management, marketing, and information systems. Because of the strategic importance of logistical performance, any student interested in senior management will benefit from this course.

**MBA 614: International Finance (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*
Internship / CPT Qualified
This course aims to concentrate on the following two topics: (1) basics of international financial markets including derivatives; and (2) managerial perspectives on international finance. The course includes an analysis of different types of financial instruments, such as currencies, stocks, futures, options, international risk and diversification, and swaps. The course covers the theoretical concepts of international financial markets and the study of valuations, acquisitions, and strategies using various techniques to analyze foreign investments.

MBA 615: International Strategy (3)
Prerequisite: MBA 516 Strategic Management and Organizational Leadership

Internship / CPT Qualified
This course examines entry strategies to foreign markets for international and multinational firms as well as strategies for managing operations across borders.

MBA 616: International Marketing (3)
Prerequisite: MBA 513 Organizational Behavior and HR Management

Internship / CPT Qualified
This course examines the methods and strategies used by firms in international and multinational marketing efforts. Particular attention is paid to how companies decide whether to go global or remain local and how they engage in multi-level marketing opportunities.

MBA 617: Import & Export Management (3)
Prerequisite: None

Internship / CPT Qualified
For many organizations, the first step toward multinational operations begins with importing and exporting goods. This course focuses on the strategies and processes of import/export management.

MBA 618: International Economics and Trade (3)
Prerequisite: MBA 511 Managerial Accounting and Finance

Internship / CPT Qualified
This course is designed to provide students with the analytical tools and techniques required to manage financial assets across international borders. Employing modern decision and probability theory and statistical techniques, the students will investigate the concepts governing the economics of international trade, risk management, logistics, and international law.

MBA 620: Long-Term Financial Decisions (3)
Prerequisite: MBA 511 Managerial Accounting and Finance

Internship / CPT Qualified
This course places an emphasis on the optimal acquisition and allocation of long-term sources of capital. Topics include working capital, capital budgeting evaluation models, cash flow analysis, diversification, portfolio approaches to capital budgeting, capital structure, cost of capital, lease-purchase decisions, abandonment, and mergers.

MBA 621: Trading and Risk Management (3)
Prerequisite: MBA 511 Managerial Accounting and Finance

Internship / CPT Qualified
This course will cover the different financial markets and trading theories that different market participants use to profit from moves in the market. Unlike an investments course, this class will focus more on the economic and psychological factors that move secondary markets instead of advanced calculations based on efficient market theory.

MBA 622: Marketing Research (3)
Prerequisite: MBA 515 Business Statistics

Internship / CPT Qualified
This course examines the theory and practice of marketing research. Use of various statistical tools and study designs is an integral part of the course as is the design and execution of a research project.
MBA 623: Sales Management (3)
Prerequisite: MBA 513 Organizational Behavior and HR Management
Internship / CPT Qualified
The course focuses on the management of a professional sales force. Particular emphasis is placed on managing the sales force through recruiting, training, motivating, evaluating, and compensating sales force members.

MBA 624: Advertising & Promotion (3)
Prerequisite: None (For SED students, the advisors approval and successful completion of 18 credits in the program required)
Internship / CPT Qualified
Advertising and promotion form the means by which organizations communicate the distinctive characteristics of their offerings to potential buyers. This course examines the theory and practice of promotions and advertising. The primary focus is on how advertising and promotions contribute to the overall marketing plan.

MBA 625: Effective Negotiations (3)
Prerequisite: None
Internship / CPT Qualified
This course examines the theory and practice of negotiations, including strategies, legal issues, methods, and approaches.

MBA 626: Consumer Behavior (3)
Prerequisite: MBA 513 Organizational Behavior and HR Management
Internship / CPT Qualified
Effective marketing lies in understanding the needs and motivations of buyers. This course focuses on what is known about how human behavior influences the purchase decision as well as how to apply this knowledge to specific firms and industries.

MBA 627: Advanced Business Project (3)
Prerequisite: All Core Courses and first-semester Concentration Courses
Internship / CPT Qualified – Per Approval by the Dean
This capstone course gives MBA students the opportunity to pull together and build upon what has been learned in separate business fields and to utilize this knowledge in the analysis of complex business problems. It is designed to aid the student in synthesizing and applying knowledge gained in earlier courses and will apply these skills through actual business cases, preferably with local Northern Virginia-based companies.

MBA 628: Global Sourcing and Logistics (3)
Prerequisite: None
Internship / CPT Qualified
This course is designed to examine the complex issues that corporate executives must address in the decision-making process when considering whether or not to outsource internationally. It also examines the equally complex issues that arise once the decision is made to outsource, including how to reduce risk, thereby minimizing exposure while maximizing the opportunities for favorable outcomes and more competitive landed costs.

MBA 630: Entrepreneurship (3)
Prerequisite: MBA 516: Strategic Management & Organizational Leadership
Internship/CPT Qualifies
In this course students will understand the role of an entrepreneur in running his or her own business, acting as a business consultant, and serving as a governmental entrepreneur or a consultant. Students will explore strategies of successful entrepreneurs and understand the role of entrepreneurship in economic developments. Students will walk through the initial thought process and groundwork for starting, financing,
and managing a new business. Students will be exposed to other topics such as social entrepreneurship, microfinance, and global entrepreneurship.

**MBA 631: Current Topics in Business (3)**
*Prerequisite: None*
This course will cover specific topics as described at the time of offering. Current topics offerings are used to present material not normally covered in existing courses.

**MBA 633: Business Planning and Development (3)**
*Prerequisite: MBA 516 Strategic Management and Organizational Leadership*
*Internship / CPT Qualified*
This course focuses on the development of new ventures and on strategic planning for new and existing organizations.

**MBA 634: Operations Management (3)**
*Prerequisite: MBA 515 Business Statistics*
*Internship / CPT Qualified*
This course examines the use of mathematical models in managing the operations of organizations. Techniques examined include queuing, facility planning, distribution network, and transportation models.

**MBA 636: Managerial Accounting (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*
*Internship / CPT Qualified*
This course is an introduction to the concepts and practices of the managerial and cost accounting. Specifically, students will be introduced to the concepts used to develop financial information for the purposes of planning, resource allocation, and financial control.

**MBA 637: Business Innovation (3)**
*Prerequisite: MBA 516: Strategic Management & Organizational Leadership*
*Internship/CPT Qualifies*
This course is focused on novel technological developments and ways to produce innovative products. Innovations are crucial to the business venture growth and gaining competitive advantages. The course also analyzes the risks of designing new products, issues arising in competition, and the requirements of the marketplace to novel trends. In a practical classroom environment the students will forecast market demands, study market segmentation, rate new product ideas, map customer perceptions, and review product positioning and design, as well as advertising and product testing, in order to recognize the methods employed in bringing a new product to market and eventually gaining sustainable profits from it.

**MBA 638: Entrepreneurial Finance & Venture Capital (3)**
*Prerequisite: MBA 516: Strategic Management & Organizational Leadership*
This course explores investment strategy, financial valuation, and strategic financial decisions from the start-ups phase, through the mature business phase, and eventually exiting the business by either becoming a public company or merging with or selling to other corporations. The course also analyzes different approaches to obtaining initial funding and demonstrates ways to follow the financial plan. The venture capitalists system is also discussed and examined to validate the ways for entrepreneurs to grow and create strong and substantial private ventures.

**MBA 640: The Health Services System (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course provides an overview of the evolution, structure and current issues in the health care system. It examines the unique features of health care as a product and the changing relationships between patients, physicians, hospitals, insurers, employers, communities, and government.

**MBA 641: Economics of Health Care and Policy (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*
*Internship / CPT Qualified*
This course applies basic economic concepts to analyze the health care market and evaluate health policies. The course begins with an analysis of the demand for health, the derived demand for medical care, and the demand for health insurance. The second part of the course examines the supply of medical care by physicians and hospitals, medical technology, and the role of managed care organizations.

**MBA 642: Financial Management of Health Institutions (3)**
*Prerequisite: MBA 511 Managerial Accounting and Finance*
*Internship / CPT Qualified*
This course focuses on the application of financial analysis to financial and operating decisions in the health care industry. Valuation methods covered include: net present value of free cash flows, decision tree analysis, real options, and multiples.

**MBA 643: Legal Aspects of Health Care (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course offers a current and historical overview of the regulation of health care delivery in the US. It examines principles and practical applications of laws that affect the operational decisions of health care providers, health plans, and third party payers and managers that impact development of markets for health care products and services.

**MBA 644: Basic Principles of Contract Management (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course will explore the process of documenting project purchasing decisions, specifying the approach, defining selection criteria to identify potential sellers, and putting together a procurement management plan. Emphasis will be placed on pre-award, contract award and post-award processes.

**MBA 645: Contract Formation and Performance (3)**
*Prerequisite: None*
*Internship / CPT Qualified*
This course focuses on the formation and administration of a contract with emphasis on common law, the Federal Acquisition Regulation (FAR), and the Uniform Commercial Code (UCC). Emphases will also be placed on contract types, contracting authority, contract terms and conditions, contract changes, defaults, communication between parties, contract termination.

**MBA 646: Contract Administration and Monitoring (3)**
*Prerequisite: MBA 644*
*Internship / CPT Qualified*
This course describes the process of obtaining seller responses, selecting a seller, and awarding the procurement, usually in the form of a contract. Throughout this process, the team will make sure the procurement document created, monitored and change control procedures are implemented.

**MBA 647: Contract Administration Process and Negotiation (3)**
*Prerequisite: MBA 644*
*Internship / CPT Qualified*
This course focuses on contract award process through the identification of customer’s need, solicitation planning, proposal development, source selection processes, negotiation strategies and contract award. Students will be exposed to best practices in negotiation including strategies and tactics.

**MBA 648: Contracting in the Global Marketplace (3)**
*Prerequisite: MBA 644*
*Internship / CPT Qualified*
In this course, students will learn current issues on how to procure and develop international contracts. The course will examine and review relevant issues in global trade and the complex legal and cultural
environments of international trade will be explored. Students will be exposed to various international bodies and conventions that apply to international contracting.

**MBA 653: Nations, Politics, & Markets: A Cost Benefit Analysis (3)**  
*Prerequisite: MBA 511 Managerial Accounting and Finance  
Internship / CPT Qualified*  
This course is designed to introduce students to the role of risk assessment, risk perception, and risk management in non-traditional markets by studying the tools for policy evaluations in the public sector. Cost benefit analysis is the principal tool for measuring government “products” that are rarely sold. The valuation of costs and benefits by alternative means to market prices is necessary to provide guidance in avoiding wasteful projects and undertaking those that are worthwhile.

**MBA 654: Accounting Information Systems (3)**  
*Prerequisite: None  
Internship / CPT Qualified*  
This course focuses on the analysis and design of systems that facilitate the accounting process. The students will learn how to evaluate, develop, implement and apply accounting models, processes, and internal controls used in the accounting processes. The course introduces the use of simple to complex data flow diagrams for evaluation and decision making.

**MBA 656: Consulting Skills (3)**  
*Prerequisite: MBA 513  
Internship / CPT Qualified*  
This course is focused on the growing need for management consultants by providing students with the necessary and practical skills to be a consultant. Management consulting is the practice of helping organizations to improve their performance, operating primarily through the analysis of existing organizational problems and the development of plans for improvement. As a result of their exposure to, and relationships with numerous organizations, consulting firms are typically aware of industry “best practices”, although the specific nature of situations under consideration may limit the transferability of such practices from one organization to another.

**MBA 657: Mergers and Acquisitions (3)**  
*Prerequisite: MBA 513  
Internship / CPT Qualified*  
This course helps students to understand the complexities surrounding mergers and acquisitions process from a consultant’s point of view. Students will learn about the strategic rationales as to why two companies either merge as equals or why one company fully acquires another. Additional focus will be placed on the following topics: the searching, screening, and evaluation process for targeting potential acquisition targets; why mergers and acquisitions often fail; synergy potential and realization; company culture differences analysis; the negotiation process; human capital (people) issues; and leadership in mergers and acquisitions transactions.

**MBA 658: Strategic Human Capital Management (3)**  
*Prerequisite: MBA 513  
Internship / CPT Qualified*  
The purpose of this course is to enhance students’ understanding of human capital in organizations in order to assist in students’ development as an effective organizational leader. It is the student’s “people skills” that will ultimately have the most impact on their ability to have sustainable success in the workplace. This course focuses on the essential practices of human capital and how those practices impact organizational performance. This course will involve readings, lectures, and case studies.

**MBA 659: Leadership and Change Management (3)**  
*Prerequisite: MBA 516  
Internship / CPT Qualified*  
This course aims to help students acquire new skills and competencies for understanding, managing, and leading change in organizations. In the real world, the most carefully developed plans for change can and,
often do, disintegrate during implementation, disrupting the flow of revenues and other negative economic results, but also the lives of people working in them. This is due to uncertainty: management often cannot recognize change, predict how change can be deployed, as well as the effects it produces on employees. Students will learn to understand how to approach and lead a change management process in an organization in order to control its dynamics and effects, as well as leading people to change.

MBA 660: Graduate Project Internship II (3)
Prerequisite: None
This course provides work exposure to qualified graduate students in their area of interest for their advanced research project. The objective of the course is to give students access to information and individuals that would help in the concept and/or development of their area of interest for their graduate research project. This three (3) credit hour project internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

MBA 661: Public Relations (3)
Prerequisite: None
Internship / CPT Qualified
This course surveys the practice of public relations in business, nonprofit organizations, and governmental institutions. It also examines the major forms of media used in public relations: news releases, broadcast publicity, public service announcements, and institutional advertising.

MBA 662: Business and Society (3)
Prerequisite: None
Internship / CPT Qualified
This course explores the role of primary and secondary stakeholders, both within and outside organizations. Ethics and social responsibility will be investigated and where organizational activities fall within different continuums will be reviewed. The broad forces in business, society, and globalization will be examined and how stakeholders can influence the destiny of both business and society will be discussed.

MBA 663: Business Strategies and Proposals (3)
Prerequisite: MBA 516
Internship / CPT Qualified
This course provides a framework for formulating business strategies to be competitive in the federal acquisition market. It also examines the approaches for business development and effective proposal preparation. This course reviews the request for proposal (RFP) process in federal acquisition, analysis of RFPs, preparation of proposals, and reviews and follow-up actions.

MBA 664: Negotiation and Conflict Resolution (3)
Prerequisite: MBA 513
Internship / CPT Qualified
This course examines conflict negotiation in organizations. It provides a background in negotiation, mediation, ombudsmen, and investigator systems, peer review boards, arbitration, and dispute resolution. It also presents specialized concepts in managerial negotiations such as cross culturally, making effective group decisions, negotiating mergers and acquisitions, managing business integration teams.

MBA 665: Managing Organizational Change (3)
Prerequisite: MBA 513
Internship / CPT Qualified
This course evaluates the organizational change process related to the principles and practices of various types of organizations. Change processes and techniques used to facilitate change will be examined and applied to systems such as information technology, communication, policy and procedures, corporate culture, and leadership.

MBA 666: Leadership Strategies (3)
Prerequisite: MBA 516  
Internship / CPT Qualified  
This course will examine and analyze leadership theories and practices in today’s organizational environment to include challenges of management in organizations. Emphasis will be placed on present leadership strategies to enhance both individual and corporate productivity that foster a cohesive work environment through improved employee relations.

PHIL 101: Philosophy (3)  
Prerequisite: None  
This course introduces the study of philosophy through the history of philosophical thought and texts. It also introduces a broad spectrum of philosophical problems and perspectives with an emphasis on the systematic questioning of basic assumptions about knowledge, meaning, reality, and values.

PHYS 101: College Physics (3)  
Prerequisite: None  
This course covers the principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics.

PMP 605: Project Management Systems (3)  
Prerequisite: None  
Internship/CPT Qualified  
This course is emphasizes planning and introduces project management fundamentals and principles from the standpoint of the manager who must organize, plan, implement, and control non-routine activities to achieve schedule, budget and performance objectives. Topics include project life cycles, project organization, project charters, work breakdown structures, responsibility matrices, as well as basic planning, budgeting and scheduling systems. Planning and control methods such as PERT/CPM, Gantt charts, earned value systems, project management software applications, and project audits are introduced.

PMP 610: Quality Project Management Practices (3)  
Prerequisite: None  
This course focuses on the quality function, its implementation, and cost as well as management in both the manufacturing and service industries. The course provides students with a set of quality concepts and tools and the knowledge required for their application in quality planning, quality improvement, and quality control.

PMP 615: Risk Project Management (3)  
Prerequisite: None  
This course exposes students to a variety of ways to identify, analyze, and mitigate the full range of project risks. The course also explores the six risk-management processes as outlined in the PMBOK® Guide: risk management planning, risk identification, qualitative risk analysis, quantitative risk analysis, risk-response planning, and risk monitoring and control. Using a practitioner approach, students learn risk-management techniques by applying them to problems raised in case studies.

PMP 620: Contract and Procurement Management (3)  
Prerequisite: None  
Internship/CPT Qualified  
This course examines processes through which goods and services are acquired in the project management environment. Topics include contract and procurement strategies; legal issues; contract pricing alternatives; technical, management and commercial requirements; RFP development; source selection; invitations to bid; bid evaluation; risk assessment; and contract negotiation and administration. By the end of the course, students will have a broad overview and understanding of the procurement cycle and how it relates to contracts, projects and management.

PMP 623: Leading Projects Across Cultural, Corporate, and Global Boundaries (3)  
Prerequisite: None
Emerging and evolving economies, world circumstances, and global competition require that project managers be able to lead and manage project in this challenging arena. Project Managers must operate within environments that contain diverse cultures and projects including multiple corporations crossing international boundaries. Sensitive issues surrounding multinational and multicultural environments will be addressed and discussed as factors that shape project outcomes.

**PMP 625: Advanced Project Management Practices (3)**
*Prerequisite: PMP 605 Project Management Systems*
*Internship/CPT Qualified*
This course examines current topics in the project management field and provides a comprehensive review of the Project Management Body of Knowledge (PMBOK® Guide). Topics may include global project management, leadership, virtual teams, and project information systems. In addition, the general overview of principles and practices of the Project Management Professional (PMP) certification exam, administered by the Project Management Institute (PMI) will be introduced.

**PMP 650: PMP Exam Preparation (3)**
*Prerequisite: PMP 605 Project Management Systems, PMP 610 Quality Project Management Practices and PMP 615 Risk Project Management*
The focus of this course is to familiarize students with both the CAMP (Certified Associate in Project Management) and PMP (Project Management Professional) exams, as administered by the Project Management Institute (PMI). The overall exam administration processes will be reviewed and each of the knowledge areas (Integration Management, Scope Management, Time Management, Cost Management, Quality Management, Risk Management, Human Resource Management, Communication Management and Procurement & Contract Management) as aligned with the process groups (Initiating, Planning, Executing, Controlling & Monitoring and Closing phases) will also be reviewed to help students understand both the application and implication concepts tested in the exams. Additionally, students will participate in practice exam sessions for CAMP & PMP aimed at providing for self – assessment of exam readiness.

**PMP 698: Master Thesis I (3)**
*Prerequisite: Completion of at least five Core courses and Dean or academic advisor’s approval.*
The thesis work can comprise basic research or a practical project. Students are encouraged to start their thesis work as early as possible. Usually after completing two semesters of course work, the student will be asked to work with a faculty advisor to choose a suitable master’s thesis topic and prepare a thesis proposal. Thereafter, the student completes the project and writes a thesis. The master’s thesis will project will be conducted over a period of two semesters.

**PMP 699: Master Thesis II (3)**
*Prerequisite: PMP 698 Master Thesis II*
The thesis work can comprise basic research or a practical project. Students are encouraged to start their thesis work as early as possible. Usually after completing two semesters of course work, the student will be asked to work with a faculty advisor to choose a suitable master’s thesis topic and prepare a thesis proposal. Thereafter, the student completes the project and writes a thesis. The master’s thesis will project will be conducted over a period of two semesters.

**PSYC 101: Psychology (3)**
*Prerequisite: None*
This course examines human and animal behavior, relating experimental studies to practical problems. It includes topics such as learning, memory, motivation, stress, emotion, intelligence, development, personality, therapy, psychopathology, and social psychology.

**PUAD 505: Research Methods (3)**
*Prerequisite: None*
This course provides knowledge of research methodologies used in management information systems, information systems, information technology, computer science, and other disciplines. The course includes experimental design, surveys, case studies, and fieldwork. It introduces students to applied research
methodologies. The use of analytical tools, literature searches, and the application of VIU documentation style will result in a formal written proposal that may serve as the basis for each student's special project.

**PUAD 511: Managerial Accounting & Finance (3)**
(Also offered as MBA 511)
*Prerequisite: ACCT 201: Principles of Financial Accounting*
This course focuses on companies’ sources and uses of financial resources. Students will focus on capital/debt structure decision and capital budgeting techniques, with particular emphasis on the impact of long-end short-term uses and sources of funds on the firm’s value.

**PUAD 512: Project & Cost Management (3)**
(Also offered as MBA 512)
*Prerequisite: STAT 200: Introduction to Statistics*
This course focuses on the planning, organizing, and managing of resources to bring about the successful completion of specific project goals and objectives, especially within specific start and completion dates. In addition, students will learn how to adhere to classic project constraints of scope, quality, time and budget while learning the tools and techniques necessary to minimize the risk of failure in achieving the organization’s goal and objectives.

**PUAD 513: Organizational Behavior & HR Management (3)**
(Also offered as MBA 513)
*Prerequisite: None*
This course focuses on how people behave in organizations and groups. Topics include leadership, motivation, organizational culture, and roles within groups.

**PUAD 514: Public Policy Analysis & Implementation (3)**
*Prerequisite: None*
This class introduces students to the basic theories, principles and processes of public policymaking. It examines the public and private environments that influence the formation of public policy, the tools and techniques utilized in public policymaking and the principal actors in the process.
The primary course objective is to provide students interested in political science, public administration and public service with an understanding of the significant issues, actors and behaviors in the development of public policy at the federal level.

**PUAD 515: Administration in Public & Non-Profit Organizations (3)**
*Prerequisite: None*
This is a survey course that will introduce students to the history, ideas and practices of public administration. This includes studies of organization, policy, law, management, public service and reform issues. Public administration study includes all three branches of government in addition to its main focus on the operation of the bureaucracy including the functions and responsibilities between all branches of government. Its study includes all levels and types of governmental bodies and increasingly non-governmental organizations.

**PUAD 520: International Security (3)**
(Also offered as GOVT 520)
*Prerequisite: None*
This course will familiarize students with some of the major theoretical issues in the study of international security, and some of the central challenges shaping current debates about security and the use of force. War and conflict have been central to international politics. The study of security investigates causes of war, strategies for avoiding conflict, and the impact of new technologies, actors, and ideas on calculations about the use of force as well as a background on the methods of peacekeeping. This course will give students a solid grounding in current theoretical issues and security challenges in the international arena, and to encourage them to think about how an understanding of these issues can help them address existing security problems.

**PUAD 536: Labor Relations (3)**
COURSE DESCRIPTIONS

(Also offered as MBA 536)
Prerequisite: None
Internship/CPT Qualified
This course will introduce students to the history of the labor movement and the collective bargaining process. Case studies will be used to understand the relationship between labor and management. Students will gain practical knowledge of balancing employee needs with organizational goals. Students will learn how to effectively evaluate employee relations programs to ensure productive and positive organizational environment. Students will participate in collective bargaining activities and understand the contract negotiation process.

PUAD 538: Compensation & Benefits (3)
(Also offered as MBA 538)
Prerequisite: None
Internship/CPT Qualified
This course focuses on the design and implementation of compensation and benefit strategies to retain talented and qualified staff in the organization. The course covers the importance of financial and non-financial benefits when developing a compensation package for employees. The course will review legally required benefits as well as voluntary benefits offered by the employer. Students will learn how to evaluate compensation plans and systems to ensure they are compliant with government regulations, equitable to all staff in the organization, competitive to attract qualified employees and align with organizational goals and values. Students will gain knowledge of federal compensation tax laws, job pricing, various pay programs, and international compensation plans.

PUAD 551: Conflict Resolution (3)
(Also offered as MBA 551)
Prerequisite: None
Internship/CPT Qualified
This course gives students practical experience in resolving workplace disagreements and discourse. Students will learn how to use different models and theories on resolving conflict in the organization. Students will develop skills in negotiations, dispute resolution, communications, reconciliations and mediations.

PUAD 552: Information Systems (3)
(Also offered as CMP 552)
Prerequisite: None
This course explores the management of information systems and related information technologies (IS/IT) as a part of a broader socio-technical system and their impacts on people and processes that extend well beyond organizational boundaries. Also, subjective and debatable issues associated with IS/IT will be discussed. Accordingly, critical thinking is an important part of this course and is essential for an analysis and understanding of important issues associated with the management aspects of information systems.

PUAD 556: Database Management Systems I (3)
(Also offered as CMP 556)
Prerequisite: None
This course provides an introduction to hierarchical and relational models, normalization, query facilities, transactions, indexing, security issues, relational algebra, Structured Query Language database design stages, distributed databases, data warehousing, data and database administration, and internet database environments. Students will learn various database management systems software products and multi-user database environments and how they are controlled.

PUAD 557: Political Theory (3)
Prerequisite: None
This course is an examination of central political concepts and practices with reading from the history of political philosophy and contemporary thinkers. The course treats concepts and practices such as freedom, citizenship, equality, the state, revolution, the Socratic question of how best to lead one’s life, conservatism,
and anarchism, using readings by thinkers such as Aristotle, Machiavelli, Locke, Mill, Ghandi, Arendt, Foucault, and current authors.

PUAD 558: Network and Information Security (3)
(Also offered as CMP 558)
Prerequisite: None
This course provides a broad review of the field of security of information systems. Topics include operating system models and mechanisms for mandatory and discretionary controls, data models, concepts and mechanisms for database security, basic cryptography and applications, security in computer networks and distributed systems, and control and prevention of viruses and rogue programs.

PUAD 608: Financial Reporting & Decision Making (3)
(Also offered as MBA 608)
Prerequisite: None
Internship/CPT Qualified
This course presents accounting reporting and decision making tools used in various businesses. Students will understand basic to complex financial reporting and decision making concepts and practices. Topics include the analysis of financial statements, ratio analysis, benchmarking, valuation concepts, risk, budgeting, investments, and taxes.

PUAD 610: Managing Information System Development (3)
(Also offered as CMP 610)
Prerequisite: PUAD 552 Information Systems
This course overviews the processes, methods, and techniques to plan, analyze, and design complex Information Systems, within selected existing frameworks. It involves planning, gathering requirements, modeling business needs, creating blueprints for building the system, and managing and organizing resources in these challenging, difficult, complex and expensive activities.

PUAD 611: Business Ethics & Law (3)
(Also Offered as MBA 611)
Prerequisite: None
This course examines the legal and ethical basis of decision-making in business organizations. Topics include torts, contracts, liability, and the Uniform Commercial Code.

PUAD 612: International Management (3)
(Also offered as MBA 612)
Prerequisite: PUAD 513
Internship/CPT Qualified
This course focuses on the challenges inherent in managing a workforce comprised of employees from more than one country. Particular emphasis is placed on cultural and legal differences as well as the development of programs and processes which select, motivate, train, and evaluate across national borders.

PUAD 613: Enterprise Resource Planning (3)
(Also offered as MBA 613)
Prerequisite: MBA 512 or PUAD 513
Internship/CPT Qualified
Logistics involves the integration of information, transportation, inventory, warehousing, material handling, and purchasing. All of these areas provide a variety of stimulating jobs for students interested in operations management, marketing, and information systems. Because of the strategic importance of logistical performance, any student interested in senior management will benefit from this course.

PUAD 614: Emergency Planning & Preparedness (3)
Prerequisite: None
Internship/CPT Qualified
This course introduces students to the process and practice of emergency / disaster planning. The goal is to create broad experience that includes the many elements of planning as the primary path to preparedness. Students will learn the relationship of emergency planning to the field of disaster management. Students are exposed to principles of social psychology, communication theory and approaches to public education. Students also learn the bases of incident management systems and emergency operations centers.

**PUAD 615: Topics in Public Administration (3)**  
*Prerequisite: None*  
The purpose of this course is to acquaint students to the major issues affecting today's administration of cities and to focus on current trends and problems for urban administrators.

**PUAD 620: IT Governance (3)**  
*(Also offered as CMP 620)*  
*Prerequisite: PUAD 552 Information Systems*  
This course presents an integrated approach to information technology (IT) governance. It discusses major roadmaps components and IT Governance strategies and frameworks. Topics include strategic alignment of IT with the business, use of assets and resources, delivering on plans and commitments, establishing and/or improving accountability of constituents, managing risk and contingencies, audits, compliance, performance measures and organizational maturity.

**PUAD 625: Effective Negotiations (3)**  
*(Also offered as MBA 625)*  
*Prerequisite: None*  
*Internship/CPT Qualified*  
This course examines the theory and practice of negotiations, including strategies, legal issues, methods, and approaches.

**PUAD 628: Global Sourcing & Logistics (3)**  
*(Also offered as MBA 628)*  
*Prerequisite: None*  
*Internship/CPT Qualified*  
This course is designed to examine the complex issues that corporate executives must address in the decision-making process when considering whether or not to outsource internationally. It also examines the equally complex issues that arise once the decision is made to outsource, including how to reduce risk, thereby minimizing exposure while maximizing the opportunities for favorable outcomes and more competitive landed costs.

**PUAD 630: Public & Private Partnerships (3)**  
*Prerequisite: None*  
The provision of public services takes place through a variety of forms, direct government provision being only one of them. Increasingly, nonprofit and for-profit organizations, businesses, and government contractors deliver public services in partnership with government. This course will examine the role of partnerships with non-governmental organizations in carrying out important functions of public agencies. Students will get a chance to understand the advantages of such partnerships in terms of effectiveness and efficiency thanks to increased competition and administrative flexibility. The course will also highlight potential pitfalls and unintended consequences.

**PUAD 634: Operations Management (3)**  
*(Also offered as MBA 634)*  
*Prerequisite: MBA 515 or PUAD 505*  
*Internship/CPT Qualified*  
This course examines the use of mathematical models in managing the operations of organizations. Techniques examined include queuing, facility planning, distribution network, and transportation models.
PUAD 640: The Health Services System (3)
(Also offered as MBA 640)
Prerequisite: None
Internship/CPT Qualified
This course provides an overview of the evolution, structure and current issues in the health care system. It examines the unique features of health care as a product and the changing relationships between patients, physicians, hospitals, insurers, employers, communities, and government.

PUAD 641: Economics of Healthcare Policy (3)
(Also offered as MBA 641)
Prerequisite: PUAD 505
Internship/CPT Qualified
This course applies basic economic concepts to analyze the health care market and evaluate health policies. The course begins with an analysis of the demand for health, the derived demand for medical care, and the demand for health insurance. The second part of the course examines the supply of medical care by physicians and hospitals, medical technology, and the role of managed care organizations.

PUAD 642: Financial Management of Healthcare Institutions
(Also offered as MBA 642)
Prerequisite: PUAD 505
Internship/CPT Qualified
This course focuses on the application of financial analysis to financial and operating decisions in the health care industry. Valuation methods covered include: net present value of free cash flows, decision tree analysis, real options, and multiples.

PUAD 643: Legal Aspects of Healthcare (3)
(Also offered as MBA 643)
Prerequisite: None
Internship/CPT Qualified
This course offers a current and historical overview of the regulation of health care delivery in the US. It examines principles and practical applications of laws that affect the operational decisions of health care providers, health plans, and third party payers and managers that impact development of markets for health care products and services.

PUAD 665: Graduate Internship I (3 credits)
Prerequisite: Dean’s Approval
The objective of the course is to provide hands-on and practical work experience in their business concentration that will give students a competitive advantage when they graduate. Students will have a chance to gain work experience in areas of their interest and gain exposure to the industry practices and key contacts for future employment opportunities. This three (3) credit hour internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

PUAD 666: Graduate Internship II (3 credits)
Prerequisite: Dean’s Approval
The objective of the course is to provide hands-on and practical work experience in their business concentration that will give students a competitive advantage when they graduate. Students will have a chance to gain work experience in areas of their interest and gain exposure to the industry practices and key contacts for future employment opportunities. This three (3) credit hour internship is for students who are expected to work a minimum of 135 hours during the semester. Students are required to attend two meetings/seminars with their faculty advisor to determine learning objectives and assess how well learning objectives are being accomplished.

PUAD 790: Advanced Research Project (3)
Prerequisite: A minimum of 15 credits from PUAD 505, PUAD 513, PUAD 514, PUAD 515, PUAD 608, PUAD 611

Internship/CPT Qualified

This course is designed for students to develop a project that will encompass the key elements of public administration which have been studied throughout the MPA program, culminating in the submission of a final project paper and an oral presentation in front of a panel of experts in the field that includes defense of their project.

RLGN 110: Comparative Religion (3)
Prerequisite: None

This purpose of this course is to introduce students to the diversity in religions of the world and to provide an overview of select religious traditions from around the globe. Students will learn to compare and contrast the various religions to be covered including some of the following: Christianity, Judaism, Islam, Hinduism, Buddhism, Confucianism, Taoism, and new religious traditions. Students will be able to make cross-cultural connections through an understanding of historical facts, religious institutions, and an understanding of the basic tenets and texts surrounding the religious traditions covered in the course. The course will help students develop an understanding of the influence of religion on culture, social and political systems, and personal action.

SOCI 101: Sociology (3)
Prerequisite: None

This course examines patterns in political institutions, public policy, and conflict within and between communities and interest groups.

SPAN 100: Elementary Spanish I (3)
Prerequisite: Placement or no previous exposure to the language.

This course is an introduction to Spanish grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language.

SPAN 105: Elementary Spanish II (3)
Prerequisite: SPAN 100 or placements

This course is an introduction to Spanish grammar, structure, and use. This course uses a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Spanish I while reinforcing production skills and vocabulary building.

SPAN 200: Intermediate Spanish I (3)
Prerequisite: SPAN 105 or placement

This course is an intermediate Spanish course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Elementary Spanish II while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.
SPAN 205: Intermediate Spanish II (3)
Prerequisite: SPAN 200 or placement
This course is an intermediate Spanish course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in Intermediate Spanish I while reinforcing meaningful and purposeful production skills and vocabulary building to emphasize communicative competence. The target language is the primary language of instruction.

SPAN 250: Conversational Spanish I (3)
Prerequisite: SPAN 105 or placement
This course is an intermediate Spanish course and builds upon skills learned in the elementary level. This course provides students with the basic skills and vocabulary required to communicate in a foreign language. This course expands on basic grammatical structures learned in elementary and intermediate Spanish with a focus on oral communication in the target language. The target language is the primary language of instruction.

SPAN 300: Advanced Spanish I (3)
Prerequisite: SPAN 205 or placement
This course is an advanced Spanish course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

SPAN 305: Advanced Spanish II (3)
Prerequisite: SPAN 300 or placement
This course is an advanced Spanish course using a communicative approach to language learning integrating speaking, listening, reading, and writing skills. All four skills are embedded in an integrated framework that emphasizes meaningful and purposeful use of language as well as communicative competence. Besides the four language skills, practice will also be provided for higher order thinking skills, such as problem solving, and critical thinking. This course provides students with the skills and vocabulary required to communicate in a foreign language at an advanced level. Students will apply their knowledge of grammar, structure, and use to communicate fluidly and clearly in the target language in meaningful and purposeful activities designed to simulate real-world scenarios. Students will expand their communicative competence skills to be able to apply course content to a final project exemplifying their abilities. The target language is the language of instruction.

STAT 200: Introduction to Statistics (3)
Prerequisite: None
This course provides an introduction to data analysis, least-squares regression, data collection, sampling distributions and strategies, probability, confidence intervals, and hypothesis testing.
