Click ‘Advanced Search’ to see flexible searching options.
Search using “all words”, “exact phrases”, “any of the words”, or “none of the words” to bring out specific results.
Advanced Search

Change the way your results are sorted from most relevant, to date of publication or article length. Or, choose to search entry headings only, rather than full text.
Advanced Search

Select very specific titles or entry types to search within. Click ‘Selected Subjects or Titles...’ (next slide)
Select only those titles or subjects in which you’d like to return results. Click search. (Next slide)
Advanced Search

The result page only displays entries from the titles selected from your advanced search.
